

**QuestionPaper.in**

*Your key towards success.....*

1. compressor performance curve
2. laser machining a) hard matl b) soft matl )
3. dynamic viscosity
4. shock absorber purpose
5. sp. Heat rati
6. cetane number why
7. cantilever ,simple supported beam (SFD,BMD)
8. intercooler why
9. multistage pr. Problems
10. rain water spherical why
11. supercharging
12. rankine cycle howmany process
13. vapour comp ref high head pr same even if comp is switched off why
14. adiabatic saturation a)dbt same b)wbt same
15. 3 phase induction motor direction to be reversed how
16. ratio of (not clear) temp in a gas comp adiabatic to isothermal a)>1 b).1 c)=1
17. know about isothermal, polytropic, adiabatic
18. structure in engg. Mech
19. equilibrium conditions
20. circle eqn 1d,2d,3d(dimensions)
21.  $ax^2+bx+c=0$  produt of roots
22.  $2x+y=4$  slope
23. slip gages in used only for less time and then kept separately
24. fuel economy factor
25. pr. Gage(manometers)

Download question papers from <http://QuestionPaper.in> Question Paper is a fastest growing educational portal in India, providing educational content for CBSE, state boards and various entrance/competitive exams. QuestionPaper.in provides platform to students, teachers and parents to interact with other users and share their knowledge and experience. We have largest collection of past and model question papers. Most of these question papers are contributed from our users.
