Part-A : Section-I General English Comprehension

Directions—Read the following passage carefully and pick out the best answer out of the our choices given in the questions that follow.

A duty is an obligation. It is something we owe to others as social beings when we live together. We must let others live with us. My right of living implies my duty to my fellow beings to allow them the same conditions of life. In fact, rights and duties are correlated. What is a right in regard to one may be a duty in regard to others. Rights and duties are two sides of the same coin. We should always observe from the standpoint of others. Moral duty is more effective than legal rights. A moral duty is that which is binding upon the people on moral grounds. It is my moral duty to help the poor because of being a member of the society.

I must try to create conditions that contribute to the welfare of humanity. Similarly, I owe a duty to my parents—to be obedient and respectful to them. This duty originates from the sense of responsibility which is directly related to our conscience. So this is concerned with a moral duty which any person owes without a legal bondage.

A sense of duty is paramount for the proper development of civilization. Hypocrisy is quite reverse to the sense of duty. It involves wickedness, while duty involves sincerity and faithfulness.
