Emnet	01	04	-	-	05

Total Number of Students for Final Placements = 217
Offer Letters obtained = 217

Feedback By Recruiting Companies

- Infosys

1. The performance of our students during the complete procedure. (Please assess the students on their knowledge, personalities and communication skills.)

The students from MPSTME surprised us as we were not actually expecting such a good performance. The students are very polished, have put great efforts in acquiring skills during their project work and classrooms. They are very good with their communication skills and have good potential to scale up for the opportunities / challenges of the corporate that they shall enter.

2. Overall calibre of our students in comparison with those of other colleges.

The students are good and the plus point has been the hunger to prove themselves and I hope that this continues in the further batches. The approach and attitude of students was very good and that enhances the college talent measure.

3. Your satisfaction with the arrangements made by MPSTME, NMIMS, with regard to facility and hospitality.

MPSTME extended very good arrangements to us for conducting the recruitment process. It makes our job easier when educational institutions extend right support towards the time consuming process. Thank you for all the help.

- Capital IQ:

Quoted - "The process was well coordinated."

- Tavant Technologies:

Quoted- "It was really nice to meet nice students after a long time. All the students I met were smart and our selection procedure was not made difficult. This is a significant achievement considering it's the first batch."

- Feedback by Accenture:

Quote- "NMIMS students are industry ready and well groomed"

- **HCL Comnet:**

Quote-“Excellent hospitality, very good students during our interaction. Like to pick folks from here and have a long term association.”

“Good technical understanding among students, A good experience”

- **Tech Mahindra:**

Quote- “Technically very strong – impressive, good at soft skills.”

“Very good at soft skills, technically good, very good hospitality.”
