

L&T infotech placement paper on 13 jan IEC Greater noida

the third section was easy too. it had two R.Comprehensions n 10 questions based on it,rest were questions on analogy etc.

the result came out in 3 hrs n i made it in written.

the next round was extempore in my case can be gd in urs depends on the pannel's mood generally its extempore now a days. u had to speak on any topic of ur liking for about 1 n a half or 2 min approx. it was an easy one so many students made it in this round.

the next was the elimination round viz technical interview they were asking programing bt easy one like factorial, fibbonacci, reverse a string, pattern of * n general questions frm c .

those who cleared the tech. had to go for their HR interview. it was too cool. u jst had to be confident n thats it.

the result camr out after one week n i was among 15 lucky students who got placed in it.

all the best to u too.
