	Non-refundable registration fee	25,000
	Interest-free refundable deposit	50,000
	Total	75,000
	Payment on or before July 27, 2015	
	Annual Fee	
	Fees	3,00,000
	Software fees	10,000
	Health and Accident Insurance	2,000
	Additional Deposits	
Consumables	5,000	
Total	3,17,000	
Payment on or before July 27, 2015		

All fees must be paid on the online Srishti Student Fee Payment Portal using the student access code provided on admission to Srishti.

If the payments are not made before the due dates the seat will be offered to the next waitlisted candidate.

Please note that:

The Software Fee, paid annually, covers the cost of individual licensed copies of software, which will be purchased by the college and put on the student's personal laptop. Please note that while each student will get a copy of the licensed software needed, the licence will be in the name of the institution.

The Health and Accident Insurance fee is an annual fee, which ensures that all students are insured for any accident and medical emergencies that might inadvertently occur in or during the college study period. A complete medical history with a full health check up done at a recognised hospital must be submitted to the college office as a necessary pre-requisite to registration. The details of the health checkup will be provided along with the admission letter and the date of the checkup must be within the stipulated period between admission and registration.

The Consumables Deposit enables students to avail of photo-copying, printing, using the wi-fi enabled internet on campus and also covers the purchase of simple, everyday materials needed to use the wood or metal workshops. This deposit will have to be topped up each year, based on the actual expenditure incurred.

Additional Expenses

- Students are also required to purchase a laptop (with given specifications for their course of study) and digital camera.
- The cost of student housing and food is not included in this document.
- All students will have to pay a one-time accreditation fee and an annual fee that will cover the cost of other university services levied by the University of Mysore. This is not included in the published fee schedule and will need to be paid on registration with the university.

Consequences of Late or Non-Payment

Students will not be provided their grade transcripts for the semester; may be denied an internal or external jury and/or be barred from registering for their diploma project; may not be considered for an exchange program overseas; may not register for courses in the next semester.

Refund

Refunds will be processed within one month of the receipt of a written request as per the financial refund policies of Srishti.
