Introduction

Applications are invited from candidates seeking admission in GP Rating Course July 2016 entry batch.

Job Opportunities

Shipping is a continuously growing industry, and trained persons find jobs in Indian and foreign shipping companies with attractive salaries. However, completion of GP rating Course does not guarantee a job.

Life on board Ships

Ships move along the coast and across the oceans and carry different types of cargoes. Number of persons working on a ship depends upon its type, size and its trade. The number of persons can range between 6-30 and greater number on passenger ships. It is important for each person to be able to work independently as well as in a small team. Physical health, agility, good habits, and discipline are very important qualities required of a seafarer. One needs to be willing to work with hands, in different conditions, be safety conscious, and be able to stay away from home and friends for several months at a time.

Duties of a General Purpose Rating (GP)

GP Rating is trained in both, Deck and Engine Room duties. They can be employed in either Deck or Engine department according to the needs of the company. Work of a Rating on the ship involves seamanship activities, cargo handling, maintenance work, operation and maintenance of machinery.

Type of Ships: The world fleet is registered in over 150 nations, and manned by over a million seafarers from all over the world.

CARGO SHIPS				PASSENGER SHIPS
Dry Cargo Ship		LPG and LNG Carriers		Cruise Liner
General Cargo/ Bulk Cargo	Transports materials such as iron ore, coal, fertilizers, sugar, and various other materials which can be loaded in bulk.	Oil Tankers	Crude oil, refined oils, and petroleum products	Luxury at its best. A five-star holiday on the seas. Passengers travel the world, see exotic places and indulge in all types of sports and activities on board this floating city.
Container Vessel	Transports finished goods packed in containers.	Chemical Carriers	Chemicals in bulk	
Roll On- Roll off Vessel	Transports cars, trucks and vehicles.	Gas Carriers	Liquefied Gases (LNG, LPG, and other gases in liquid state)	

- **Other Ships:** Tug Boats, Offshore supply vessels, Cable laying ships, survey ships, Oil platforms, etc. Small floating vessels used for different purposes are called boats.
