SPOTTING ERRORS

Directions (For the 6 items which follow) :

- (i) In this section, a number of sentences are given. The sentences are underlined in three separate parts and each one is labeled (a), (b) and (c). Read each sentence to find out whether there is an error in any underlined part. No sentence has more than one error. When you find an error in any one of the underlined parts (a), (b) or (c), indicate your response on the separate Answer Sheet at the approximate space. You may feel that there is no error in a sentence. In that case letter (d) will signify a 'No error' response.
- (ii) You are to indicate only one response for each item in your Answer Sheet. (If you indicate more than one response, your answer will be considered wrong) Errors may be in grammar, word usage or idioms. There may be a word missing or there may be a word which should be removed.

- (iii) You are not required to correct the error. You are required only to indicate your response on the Answer Sheet. Example 'P' and 'Q' have been solved you for.

COMPREHENSION

Directions (For the 13 items which follow):

In this section, you have three short passages. After each passage, you will find several questions based on the passage. First, read and passage and then answer the questions based on it. You are required to select your answers based on the contents of the passage and opinion of the author only.

Example 'T' and 'J' are solved for you

PASSAGE (EXAMPLE)

In our approach to life, be it pragmatic or otherwise, a basic fact that confronts us squarely and unmistakable is the desire for peace, security and happiness. Different forms of life at different levels of existence make up the teeming denizens of this earth of ours. And, no matter whether they belong to the higher groups such as human beings or to the lower groups and as animals, all beings primarily seek peace, comfort and security. Life is as dear to a mute creature as it is to a man. Even the lowliest insect strives for protection against dangers that threaten its life. Just as each one of us wants to live and not to die, so do all other creature.

- I. The author's remains point is that
 - (a) different forms of life are found on earth
 - (b) different levels of existence are possible in nature
 - (c) peace and security are the chief goals of all living beings
 - (d) even the weakest creature struggles to preserve its life
- J. Which one of the following assumptions or steps is essential in developing the author's position?
 - (a) All forms of life have a single over-riding goal
 - (b) The will to survive of a creature is identified with a desire of peace
 - (c) All beings are divided into higher and lower groups
 - (d) A parallel is drawn between happiness and life, and pain and death.

Explanation:

- I. The idea which represents the author's main point is "peace and security are the chief goals of all living being", which is response (c). So (c) is the correct answer.
- J. The best assumption underlying the passage in "The will to survive of a creature is identified with a desire for peace", which is response (b). So (b) is the correct answer.

PASSAGE I

J.K Galbraith has described the current inflation as a "revolt of the rich against the poor". Richard Parker supports this view with the claim that it is the richest people that benefit by inflation: while the rest, especially the poorest, suffer in proportion to their relative property. On the other hand, a 1979 study published by the Brookings Institute indicates that the lower classes are generally benefited by inflation, while the upper classes lose. The confusion over who suffers from inflation is extended to other questions such as the major causes of inflation. In addition to the proponents of the demand theory, there are many who doubt whether inflation is

essentially an economic problem at all. Konard Kellen holds that inflation is not an economic problem but a psychological one. Paul Samuelson cites a social factor, the evaluation of a more humane society, as a root cause of inflation.

48. What does the author believe?
- Only the rich suffer from inflation
 - Only the poor suffer from inflation
 - Both the rich and the poor suffer from inflation
 - It is debatable as to who suffers from inflation

Ans. (d)

49. From the passage, which one of the following may be inferred?
- The effect of inflation can be studied with scientific precision
 - The effect of inflation cannot be studied with scientific precision
 - Economists are biased towards the rich or the poor
 - The effect of inflation varies from place to place, and people to people

Ans. (b)

50. On the basis of the information given in the passage, what are the causes of inflation?
- Essentially economic
 - Essentially psychological
 - Essentially social
 - Highly controversial

Ans. (d)

51. How does the author write?
- Objectively
 - Critically
 - Sympathetically
 - Persuasively

Ans. (a)

PASSAGE II

Work itself is a very important factor in motivating a person. A person tends to perform a task more enthusiastically if that work affords more satisfaction than the other work. A person's satisfaction out of work is more if it is more need satisfying. A man seeks something from work and if he gets more satisfaction from a particular work he will be prone to do that work better or harder. There are incentives for work; these can be financial or non-financial. People like missionaries and some scientists do not work basically for material gains as such. A person wants to do a work which is personally meaningful.

52. Which one of the following is correct?
- Work is the most important factor by which a person is motivated.
 - Work is the least important factor that motivates a person
 - Among the several factors that motivate a person, work is an important one.
 - Nothing can motivate a person who does not have some permanent work.

Ans. (c)

53. Which one of the following is correct?

A person's work satisfaction depends on

- the money and other benefits he receives from work
- the need satisfying nature of the work he does
- the physical environment in which he works
- the personal relationship he establishes with his colleagues and superiors

Ans. (b)

54. Which one of the following is correct?
If, a person get more satisfaction from a particular work, he will
- stick on the that work for every
 - certainly achieve mastery over that work soon
 - slowly develop a taste for that work
 - do that work in a better and harder manure

Ans. (d)

55. Which one of the following is correct?
Both the scientists and the missionaries work
- because of the incentives given to them
 - without hopping for any material gain
 - without receiving any material gain
 - because they want to be appreciated

Ans. (b)

56. Which one of the following is correct?
Every person wants to have a work which
- helps him to get involved meaningfully
 - helps him to earn substantially
 - is pleasant and easy
 - can be finished quickly

Ans. (a)

PASSAGE III

In our country there is very little popular writing on science. Those who write are writing for other scientists. The newspapers these days devote a little more space than before for scientific topics but they appear to be rather ill-digested knowledge not written in simple readable language. So if we are to bridge this gap and disseminate scientific knowledge and promote scientific temper, it has become necessary for some of the scientists to turn to popularization. Today we have almost compulsion for doing this if we are to convey to the people the meaning and relevance of the pursuit of science. It is time some scientists enters the field of scientific journalism.

57. What does the passage suggest?
- The author is fully satisfied with the role of newspapers in promoting popular writing on science.
 - The author is totally dissatisfied with the role of newspapers in promoting popular writing on science.
 - The author appreciates the readiness of newspapers to allow more space than before to writings on science.

- d. The author condemns the attitude displayed by newspapers in the matter of promoting popular writing on science.

58. Which one of the following is correct?
Popular writing on science in our country appears to be
- not properly digested and easily comprehensible
 - extremely restricted in outlook
 - very lucid, intelligible and self explanatory
 - based on obsolete knowledge of the topics chosen

Ans. (a)

59. Which one of the following is correct?
The propose of promoting popular scientific writing in newspapers is
- to attract more people to the study of science
 - to spread scientific knowledge and encourage scientific temper among the common people
 - to give the people information about modern scientific inventions
 - to help the newspapers to increase their circulation among the students of science

Ans. (b)

60. The author wants some of the scientists "to turn to popularization". What does that imply?
- The scientists should go round and country and explain to the people the various achievements of science
 - The scientists should make use of the television and radio to spread the message of science among the common people
 - The scientists should write in newspapers about the various aspects of science in easily understandable language.
 - The scientists should seek the help of social organizations to spread scientific knowledge among the common people.
