ADVERTISEMENT No. ISRO HQ:ICRB:02:2011 DATED 08-02-2011

Indian Space Research Organisation [ISRO] is a Research and Development organisation engaged in application of Space Science and Technology for the benefit of society at large and for serving the nation by achieving self-reliance and developing capacity to design and build Launch Vehicles and Communication/Remote Sensing Satellites and thereafter launch them. ISRO strives to serve the nation in the areas of television broadcast, telecommunication, meteorological application and in management of our natural resources

The continuing expansion of space applications programmes like Village Resources Centres, telemedicine, tele-education, disaster management support and outreach through Direct-To-Home television, reiterates the increasing role played by the Indian space systems in providing direct benefits to the society. Thus, Indian space programme continues to pursue successful goals on all fronts in meeting the objective of achieving self-reliance in space technology and its applications for national development.

The future ISRO programme envisages development of cutting edge technologies for reusable launch vehicle, development of advanced technologies for Human Spaceflight Programme, advanced high efficiency semi-cryogenic propulsion system, advanced communication satellite, air breathing propulsion, satellite based navigation system, hyper spectral imaging sensors, and inter planetary missions.

Challenging opportunities exist at ISRO to undertake development of innovative technologies and establish the advanced infrastructure needed for space exploration and beyond.

ISRO offers the position of Scientist/Engineer `SC' in the pay band of Rs. 15600-39100 with grade pay of Rs. 5400/- to the young graduates in the following specialized fields:-
