cts._____
16. What are the qualities a software professional need to excel in his field?

In case of Aptitude test you should prepare for this area. Aptitude consists two parts verbal & reasoning part. There 30 question from reasoning and 25 questions from verbal and there are 60 minutes to solve this(30 minutes each).

- Statement conclusion
- Odd man out
- Figure puzzle
- Puzzles
- Syllogism
- Data sufficiency
- Data interpretation

R.S Aggarwal verbal reasoning books is enough for it.after 1hrs from aptitude our tpo declare the name of students who cleared aptitude test.340 students out of 450 students cleared in aptitude test. I was one of them.

Next the interview first the interviewer greeting me with a warm handshake. then he asked this questions.

- Why CSE?
- what are the subjects you read last semester?
- what is the favorite subjects?
- What is referential integrity?
- what is foreign key? draw a table and show foreign key.

Visit www.downloadmela.com for more papers

- What is deletion anomaly?
- what is lock? how many lock you ever heard?
- where you use read lock and shared lock?
- what is deadlock?
- what is deadlock presentation?
- tell me some procedure to detect deadlock.
- what is distributed deadlock?
- what are functions of local distributed and global distributed manager?
- how you solve deadlock in distributed system?
- then he asked do you know C? i answered yes then he asked how well like dbms or more than that? i answered like C. then he asked four more questions
- from C.
- What is union?
- What are the differences between structure and union?
- What is pointer?
- Tell me some practical application of pointer.
- what is link list?

I answered all of questions more or less correctly and full confidently. after asked so many questions he satisfied (i think). then he asked do you have any questions? please asked any questions related to their company. please don't asked anything regarding your interview please. then he told me nice to meet you.If you are CSE/IT students then you should technically sound(c,c++,ds,dbms,java at least).you also prepare for this type of questions like

why CTS?

why should I recruit you?

Tell me about yourself. etc

one thing you should remember that you don't tell that you are preparing for CAT,MAT,GRE or any other exams.In interview room you keep yourself be cool, confident, fluent in English, smile on your face.Don't act like a over smart.CTS declared the name of student who got the job on 19th Jan '11. 244 students got the jobs and i was one of them.

I wish all the best.
