ELIGIBILITY it is 65% in 10th, 12th n BE(one current backlog allowed) with a 5% relaxation in any one…

PROCEDURE

STEP 1: PPT

The PPT is for abt 90 min..Go through the company website on the day before…collect all the relevant details and make a note…it will be much easier for u to follow the PPT..Make a note of the HR's name..Be prepared to answer questions like "Why Infosys?" or "What do u knw abt Infosys?" in the HR round…

STEP 2 FILLING OF THE APPLICATION FORM

You will have to fill an application form…make sure u fill it accurately…Take 2 recent passport size photographs (imp)

The form will include the following details …
1)Personal details Like name, address, phone no etc
2) Family details Like name n occupation of parents..
3) Educational background Like marks, university, month n yr of passing.. U will have to include all languages, pracs, and optionals in the total And avg is calculated as Total marks obtained in all sems/total max marks
4) Other details like Vision: It is 6/6 for normal vision Major Illness + date: write NA if not applicable References of people working at Infosys : if any You get 15 min to fill the application form

STEP 3: TEST OF ARITHMETIC REASONING AND ANALYTICAL THINKING

30 QUESTIONS

45 MINUTES

U can refer VERBAL AND NON-VERBAL REASONING book by R.S. AGARWAL..It is more than enough..also no need to do everthing in that book..just do these topics

1.PUZZLES,2.DATA SUFFICENCY,3.PICTURES SERIES COMPLETION/OR SELECTING ODD PICTURE OUT OF 5 4.SYLLOGISMS(V.EASY..IT SAVED ME)..

We had 5 sections each with 5 divisions

1) Had 1 Puzzle based on direction sense…was easy but lenghty,so i attempted at the end.it had 5 sub divisions Something like… P,Q,R and S are standing at the 4 corners of a square…n/w ,n/e,s/w n s/e respectively… N something like…If P and R move one and a half distance in the clockwise direction…Q and S one n a half in the anticlockwise direction then in which direction is P with respect to S…something like tat All the sub questions were based on the similar pattern

2) Figure Completion…v simple...people may think how it can be so easy,and they tend find something complicated in that.but the fact is it is v simple 5 figures in a series were given n we had to find the ODD figure..five same kind of questions.. like out of five geometrical shapes 4 were divided into 4 equal parts,but one of them was having 5 parts.. thats it also like a rectangle shifting by angle 45 in a circle in every figure..but there was a tiny circle besides that rectangle(ppl may think it is a printing mistake,and dont give it importance),but tht tiny circle was missing in one of the diagram..so tht was odd figure..similar kind of silly questions were there.

3) Data Sufficiency….easy A question was given followed by 2 statements We had to mark
1) If the first statement alone was enough to answer the question
2) If the second statement alone was enough to answer the question
3) If the both the statements were required to answer the question
4) If the question cld not be answered using both the statements
5) If either statement alone was sufficient to answer the question

A little practice (specially in problems related to maths equations,ages,relations,comparison) from RS Aggarwal Verbal n Non Verbal will help u alot.5 such questions were given

4) ANOTHER PUZZLE KIND OF QUESTION. It was damn easy…it was like MR. natwarlal,a thief..steals only on the first day of every month of first quarter of year(that means on 1st jan,1st feb,1st march)..this time he wanted a computer..so he steals different parts from different persons. but he has only 3 tools to use.like a screwdriver,wirecutter,knife.AND uses them only once.he steals monitor,keyboard and printer..in jan he steals monitor from A,but do not uses the wirecutter..next month he uses KNIFE to steal printer..and march was unlucky for C..

AND QUESTIONS WERE LIKE
1.WHICH TOOL HE USES FOR STEALING MONITOR.(ans: screwdriver)
2.which component was stolen from c(ans:keybboard)
3.which month was unlucky for B(ans:feb,as A,C were robbed in jan and march)
(REST TWO i dont remember)

6)Syllogism In this section abt 4 statements were given in each questions(like all,some,not)

It was more like..
1. A) ALL BIRDS ARE CATS
B) SOME CATS ARE CRAZY
C) SOME DOGS ARE BIRDS
D) BIRDS ARE CRAZY

Which of these FORM pair so that the conclusion can be derived from them
1)ab 2) bc 3)cd 4)ad

JUST REFER THESE TYPES OF QUESTIONS IN RS AGARWAL,(VERBAL NON VERBAL ONE)in logical part first chapter,syllogisms

STEP 4:VERBAL
40 QUESTIONS
30 MIN

You get 2 comprehensions both were quite simple…but do the comprehensions at the end..read the questions FIRST briefly …then read the comprehension with proper concentration, understanding each statement…u can easily answer the questions 5 in each..AS THEY are lenghty attempt them at the end..it will consume a lot of time..

10 Sentence Completions 4 statements almost the same but with some

difference..mark the one which is grammatically correct..look for spelling mistakes..grammar errors etc… 5 questions based on choose the best option to replace the underlined part..

Simple paragraphs were given n questions were asked like which of these statements can be inferred from the para, which is false according to the para etc…5 small paragraphs and we have to choose what conclusion we can derive from them,4 options will be given and we have to choose the most suitable..

A PERSON WITH AVG. KNOWLEDGE OF ENGLISH GRAMMER CAN DO IT EASILY..JUST REFER YOUR ANY HIGH SCHOOL GRAMMER BOOK.

STEP 5: HR INTERVIEW
In the HR round u are basically asked abt ur self, ur r?sum?. There are no tech questions asked n even if asked it will be very basic stuff… They also ask puzzles…u need not solve them..they only look at ur approach..

The questions I was asked..
1) Tell me abt ur self
2)being a electronics student WHY u want job in software indutsry
3)WHY I HAVE NOT DONE ANY PROJECT???????????????
4)and they asked abt my hobbies,my achievements,extra curricular activities(so mention everything properly in ur resume,they will ask questions based on what all youu hav written in ur resume)

They hardly eliminated people in the HR..it is enough if u speak confidently..yes B confident,and dont try to bluff them..and dont try to memorise any answer..they will find out..even u have memorized,atleast pretend to think when u answer.

Getting thru Infy is not tough at all…If ur good with ur Apti n have a good command over English its enough..

All the Best…

The apti consists of 2 parts:
1: Logical reasoning.. It was very simple. There wer 30 qns and 40 min.
I. I have a 9 digit ATM number which consists of the numbers 1-9 not particulary in that order say PQRSTUVWX. The num is divisble by 9. If u delete de 9th digit de 8-digit num s divisible by 8. if u delete 8th num, the remaining num is divisble by 7 and so on..

1.What is de sum of the digits in de original number?
2.What is the digit sum in de original number?
3.Which number should come in de place of R?
4.What are de 1st 5 digits of the number?
5.What are de last 5 digits of the number?

It seems 2 be difficult but its easy. Jus check de 4th qn.. In de options if de last number of de option is 5 dat is de answer.. nd in the 5th qn de 1st number should be 5.. There is only one option with that number.. The 1st and 2nd sub questions are general in this question..

II.6-10
It was pictures sequences.. A bit confusing.. Be careful with the answers...

III. 11-15
It was data interpretation general topics basically from R.S. Agarwal

VI. 26-30
In each question 6 sentences were given. We have 2 find out which sentences have a relation BCF DEF like dat.. Its easy if u see de options and do it...

2. Verbal..
This was also easy but time consuming.. U have 2 be real fast in reading passages.. better do passages in de last.. 40 questions 35 min They ll give 2 passages.. Big ones and 5 questions following dat..

Der are fill in the blanks and correction of false statements and many more.. Verbal will be very easy if u r fluent in english but be very fats in reading..

INFOSYS PAPER ON 3rd APRIL 2008
Paper Type   : Candidate Experiences
 Test Date   : 3 April 2008
 Test Location : University College of Engineering, RTU, Kota

Hello everyone. Infosys visited University College of Engineering, RTU, Kota on 3rd April 2008. This time once again they had the same selection procedure, with written exam being the main filter. With just over 200 candidates appearing for the exam only 59 made through it and then 54 were able to convert it into final selections.

Exam was in two parts:
1.General Aptitude,
2.English

General Aptitude:
1. 2 not so easy Logical Reasoning questions (which contained 10 questions).
2. 5 very easy series completion.
3. 5 syllogisms
4. No Blood relation questions!!

English:
1. 2 RCs
2. 7-8 choosing the correct sentence
3. Filling the right word
4. Theme Detection

All in all, a candidate must have a good command over the language and just going through the Articles, Prepositions etc. on the last day won't work.

After written exam, only HR of about 15-20 min on an average were taken which include very general HR questions, specially related to the CV and the candidate's personal life only. Those 5 who were not selected were also

interviewed more than once, this might be because they were trying to give them another chance.

Anyways, 54 were selected in the end.

To summarise, Infosys selection needed just good aptitude and better language command, so make sure that you acquire both well before Infosys.

INFOSYS PAPER ON 27th MARCH AT BHUBANESWAR

There were two written tests one is Reasoning ability test (RAT) and the other one is Verbal ability test (VAT). RAT was of 40 minutes for 30 questions and VAT was of 35 minutes for 40 questions.

RAT:
 It consist a north-south-east-west distance problem. 5 questions were asked based on this problem (very easy).5 Nonverbal reasoning questions i.e. finding out odd one out from 5 simple figures.

A simple puzzle:
One thief thefts a keyboard, a monitor and a printer from three separate stores on 3 different months January, February and march to make his own computer. He uses 3 different devices each once at a time. The devices were screwdriver,

wire cutter and appliers. Wire cutter was sensitive to monitor. And some simple hints were given and you can find it out easily using a table.

5 questions were asked based on this puzzle.

Other questions were from time and distance, probability, ratio and proportion, 3 to 4 other questions I've not there and I simply bluffed as there were no negative markings.

VAT:

Two simple paragraphs were there. You need not have to read the paragraph thoroughly because you can get the answer of the question directly. Each paragraph had five questions each.

Other questions are:

1) Fill in the blanks type

2) Correct the sentences type

3) Two statements would be given, you have to decide whether the third statement follows or not from the two given statements.

More than 400 had appeared, out of them 131 were selected in the written. Out of them 122 were finally selected.

The H.R interview of mine is as follow:

Me: good afternoon sir

He: very good afternoon (he forwarded his hand to shake hand with me). He asked me to have my seat

Me: thank you sir.

He: keep your file there and sign it here for your authentication (I signed in the application form given to us previously).

He: other than academics what else you do?

Me: sir I love to solve sudokus and riding cycle.

He: what else?

Me: I listen music and create a humorous environment.

He: what else?

Me: I some times help my younger brother in studies.

He: what is he doing now?

Me: he is continuing his BCA at NICE bbsr.

He: who is your ideal person?

Me: my brother.

He: why

Me: explained and he got impressed.

He: have you shown any leadership quality

Me: yes sir, I was elected as leader for two consecutive years in my school.

He: Asked me to explain how you had shown your leadership

Me: done.

He: tell me some good achievements of your life

Me: done

He: tell me your weakness and some failures in life.

Me: said

He: how you are going to overcome these.

Me: (These sorts of questions I had already prepared; so done)

He: ok (he laughed) and wished me all the best. And asked me to leave the place.

Me: thank you sir. (And left).

I was a bit nervous during the interview and my lips were getting dried as I was interviewed in the same way by WIPRO but God knows why I was not selected. Always try to say the truth the INFY people bring H.R professional from the meta-i group. They all are above age 40. They are quite experienced professionals. so don't bluff; some of my friends have been caught bluffing .

Hi, friends this is HARSHAL CHAUDHARY a student of Walchand College of Engg and now also an Infosyian. I got selected for Infosys through the placement done by it, at Walchand. Here I am mentioning about my experience during the whole placement process.

1. Logical and critical reasoning test 30 questions 40 min
2. Verbal reasoning and English test 40 questions 35 min

Logical and critical reasoning test
1-5Q ------- The question was based on three ladies having some money and a game played (These r the puzzle test ques of R.S aggrawal v &non-V Type 5).
2-10Q ----- The questions were figure related in which we had to find the correct figure in sequence.
11-15Q ---
16-20Q --- The question was related to DI in which a table showing number of students in different branches during 6 years were given and we had to answer questions having lot of caculations. So I suggest you to do it at last.
21-25Q --- The question was again puzzle type in which 5 peoples
A,B,C,D,E ,F,Gand H r sitting aROUND A TABLE.

26-30Q --- The question was syllogism type. In this 6 statements were given with four combination choices like AFC, ACF etc and we had to find the correct logically related combination.

(I recommend you to just go through R.S. Aggarwal Verbal & Non Verbal Reasoning. But prepare well for it. As its one of the deciding factors in clearing Aptitude test.)

Verbal reasoning and English test
1 ---- There were two paragraphs. It will take time so attempt them at last.
2 ---- There were questions on sentence correction in which we had to find correct replacement for underlined part in passage.
3 ---- There were questions on finding the correct sentence among 4 given sentences.
4 ---- There were questions on filling up the blanks with suitable grammatical words.
5 ---- There were questions related to theme dectecion from a small passage.

The main part or the eliminatoin part of INFOSYS is the Apttitude test &&&&& the rest is just a WALK ON CAKE.

INFOSYS PAPER ON 6th MARCH AT KOLKATA
Paper Type   : Whole Testpaper
 Test Date   : 6 March 2008
 Test Location : Govt. College Of Engineering & Ceramic Technology

Hi Friends, I am Shubhadip Datta from Govt. College Of Engineering & Ceramic Technology, Kolkata. There was a poll campus interview of Infosys in our college campus on 6th March,2008. Almost 375 students from 5 different colleges were attain this campus interview. And friends good news that I am the one of lucky one to get chance to take training from Mysore .

Statistic:
No of College=5
Total Students=375
Students who cleared Aptitude Test=25 (Be careful huge reduction in this section)
Students Select in interview=14 (I am one of them)

Selection Procedure:
Infosys is such a company where there is no barrier in stream. That means
students from any stream can sit in Infosys. There are no direct Technical round
in Infosys.

The whole Selection Process contains two section Aptitude test.
>Analytical & Logical reasoning:(30 question : 40 minutes)
>English section: (40 question : 35 minutes)

Friends they will not tell about any sectional cut off be careful about section
cutoff. I heard that there is 60% cutoff in first Section, & 50% from second
section.

After Aptitude test HR interview.
Study Materials:
>Verbal & Non verbal-R.S . Agarwal.
>Some Time's CAT study materials.
>And of course last but not least Freshers World (Be Regular & update with this
site, You will get really very help)

Analytical & Logical reasoning
Friends I have not remembered the order of questions but I am telling the
questions in such a order that I follow and I am sure that you also get advantage
if you solve question in such order.
>Syllogism: (5 question) – Friends not only in Infosys but also in others first
attempt this question. It is very easy to solve.
Question Pattern: Statement: All A is B. Some B is C.

Conclusion: I,II
You have no need to memories all the rule of R.S. Agrawal and even you have
no need to draw vein Diagram to solve it, If you follow Time's CAT materials.
There is very simple rule in Time's materials by which you can solve a syllogism
with in 15 sec.

>Figure Series: (5 questions)- This is really very simple. For practice see Agrawal.
But don't waste too much time for it.
>Dice & Cube Problem:(5 questions)- In my apti the prob was like below:
A cube is given and is painted six side with six diff colors.
Red is adjacent of yellow and green.
Pink is opposite of yellow.
Brown is in the bottom face

Now Q:1)Which color is in the top face?
Q:2) Which color in the opposite face of Red?
But there may also come others pattern:

There is a cube and it is cut in 27/64/125 equals pieces of cube. Now two face is colored with black, two green, two red.
Q: No of cube which is painted three faces…No of Uncolored cube…..
Just see 3-5 Example from Agrwal It will come in ur hand.

>Puzzel: (5 questions) – Keep ur head cool for these question. I know puzzle makes everyone puzzeled. Read the question carefully draw the diagram, matrix and put the data one by one according to given information. I am sure that every one can solve it.
>Data Interpretation: (5 question) – A chart, graph, table will be given….and you have to solve some problem on statistics. It will too much time conserving section so do it at last…..and also follow the Option elimination process.

English Section:
Friends I am really very week in this section. But as I have cleared so you can clear it easily.
>Two passages and 5 question from each passages: Do it at the last. And before reading the passage see the question one time.
>Sentence Correction: Be care about tense mistake, spelling mistake, using of pronoun…..
>Fill in the Blanks: Gain a details idea on preposition, phrase, idioms.
>Theme Detection.

HR Interview
Now the final section. The only one solution to crack the interview is keeping yourself cool. Friends believe me the Infosys HR panel are the coolest person in the world(At least for my panel). And always think that they are taking your Interview to sect you , Not to reject you. Be friendly, polite with them……

I was in the two persons' panel. And I was interviewed two times. After Completing the first interview one interviewer told me "Shubhadip, we are very sorry, Please wait for 5 min outside, we may call you again. "

First Interview
Me: Good afternoon sir, May I come in?
HR: Yes , and be seated.
Me: Thank you sir.
HR: So Shubhadip r u tired for waiting long time?
Me: Not at all sir. I am going to be a IT professionals and no word like Tired in their dictionary.
HR: What is the meaning of your name?
Me: I told very clearly(They impressed) .
HR: Show your group work capability.
Me: I told about my project …and leadership on that project.
HR: Which quality of leader do you find in your self.

Me: I told and explain them about 10 leadership quality with example.(This is common question in infosys)
HR: What is the crucial decision in your life that change your self?
Me: I told about my school life computer Education…and my interest on computer……
…..
…..
…..

So many questions on teamwork and leadership.

Second interview
HR: Sorry Shubhadip for taking your second interview.
Me: Sir, Its my pleasure to get chance to sit in front you again.(Always show the politeness & good Behavior)
HR: What is your week points?
Me: ……
HR: What is your reaction when one rectify ur week points?
Me: …..
HR: How do you react when a misunderstanding is happened in a group work?
Me: ……
HR: give some example on you real life..
Me: …….
So many question on my daily life….
HR: what is your best subject?
Me: Physics.
HR: Tell me about Black Hole.
Me: give a cleared ideas.(they impressed)
Hr: Tell something on current Computer related physics.
Me: I told them the use of quantum theory on 6th generation computer. Actually I heard it from a seminar.
HR: (they are really too much hearing these and encouraged me to join all the seminars)
…
….
HR: So Shubhadip nice interview with you.
Me: Its my pleasure.(I shake hand with them)

Result:
I was too much tensed. But ultimately selected…..Thank God….Thank Freshers World ……Don't worry you people also get selected in Infosys…..waiting for you in Mysore .

INFOSYS PAPER ON 12th MARCH 2008
Paper Type   : General - other
 Test Date   : 12 March 2008

Test Location : JIITU Noida, UP

Hi friends, I am Piyush Gaur from JIIT Noida. INFOSYS came to our campus on 12th and 13th of March. Three colleges participated namely JIIT Noida, JUIT Waknaghat(Solan) and JIET Guna.

No. of students appeared:
JIIT - 470
JUIT - 280
JIET - 183

No. of students selected after written test:
JIIT - 320
JUIT - 160
JIET - 70

No. of students finally selected:
JIIT - 293 (I was luckily among them :-))
JUIT - 140
JIET - 41

Guys I think most of you must be knowing what Infosys and who all eligible (infact everybranch is eligible, one just have to clear that % criteria). Eligibility Criteria - 60% X 60% XII and 60% in all previous semesters. (For B.Tech only,MCA and M.Tech students do consult your TPO)

Now before the written test there was a presentation in that we were told that try getting atleast 20 correct in both Analytical & Logical Reasoning section as well as Verbal section. There is no funda like upper cut off and no negative marking so attempt all the questions.

At that time only the person told us that they are expecting around 500 selections so that was something which really gave us confidence.

LOGICAL REASONING PART Questions: 30   Time: 40 mins
Ques 1-5. It was a puzzle test on 7 people (A,B,C,D....G) playing cards. 100 cards were there distributed equally among them then there were some transactions like A got 5 cards from E etc etc.... something like this. Ques 6-10. All question were based on finding odd one out from the given figures. All were easy.
Ques 11-15: Then came the Syllogisms 6 statements were given namely A,B,C,D,E & F. Then from the options we were to find which of them follow. Eg. options are 1. ABD 2. BEF 3. BDE 4. ACF 5. None of these. So work in a reverse manner i.e from Answer to question.
Ques 16-20: A Data Interpretation question usually while solving the RS Agarwal you wont find them difficult but this one was not that easy. 2 graphs were given

(both of them were line graphs) one was Liabilities as expenditure on safety mining. Another was percentage increase in liabilities per year. Language of the question was not that easy it demanded 2-3 readings. One ques I found to be bouncer type.

Ques 21-25: Another puzzle was there this one was pretty simple than the previous one. Can be found in RS Agarwal Verbal and Non-Verbal. 6 aspirants were there preparing for bank examination RBI, ICSB and Andhra Bank. 3 males and 3 females with the given information make a table then apply logic to complete it.

Ques 26-30: Then came the Data Sufficienct part again it was easy I think only one of them was bouncer type rest all were fine and easy.

AFTER A BREAK OF 5 MINUTES next paper is distributed of:
VERBAL PART   Questions: 40   Time: 30 mins
There were 2 passages for reading comprehension both were easy. There there were sentence correction type questions those were also fine. Then came the fill in the blanks. Then there were questions in which we were asked to find grammatical mistakes that was also quite easy.

Overall verbal section was easy than the logical aptitude section. This is what I felt and my other friends. Results were declared after 3 hours. Then Interviews started since due to large no. of selections most of the interviews were taken on the following day i.e. 13th or march.

This one was mine Interview:
Piyush: Good Afternoon sir
Interviewer: Good afternoon, have a seat.
P: Thank you sir
I: So u r from biotech, y did u opted for it most of the girls opt for this field:
P: No sir its not like that its just the matter of interest and I found biotech a diff. and upcoming field.
I: What type of career u r expecting from biotech.
P: Sir if I had to pursue my career in biotech only then i'll opt for Bioinformatics. (Then he had a breif look at my resume)
I: Ok tell me what all you learned from ur last project?
P: Blah Blah Blah Blah...
I: Have u done any group project?
P: Yes Sir
I: What difficulties u faced in that?
P: Blah Blah Blah Blah...
I: What is the source of your information for latest technology?
P: Newspapers, Magzines, Internet etc..
I: Which newspaper do u read?
P: The Times of India
I: On which page do u find the news regarding latest technology?
P: Sir on Times Trends
I: Which is the last news u read related to upcoming technology?

P: News I read just 2-3 days ago.
I: Ok fine Piyush. Do u want to ask any questions?

Now this is the conclusion part it is very important always ask aleast a question. I asked two and he became very frank while answering them. Guys this the complete story of Infosys from my side. After clearing the written one thing is sure that u r 90% selected 10% depends on interview just dont spoil it. Answer questions nicely and avoid answering in only Yes or NO.

All the best!!
Piyush Gaur

INFOSYS PAPER ON 12th MARCH 2008
Paper Type   : Candidate Experiences
 Test Date   : 12 March 2008
 Test Location : Mody Institute of Tech & Science, Lakshmangarh

Hello People!! first of all ....all the very best for ur Infy Exam.... Infy is my dream company ...n its the fourth company i have cracked after Satyam, TCS, and Accenture...feels like heaven!!!!!!!! anyways people who still dnt have a job...don't worry infy won't leave u disappointed..'coz it took a lot of people from my college about 200 people appeared for the test
about 132 got shortlisted for the interview...
and 115 got selected.....
huge number isn't it????

Written Exam
Carry ur marksheets they need ur xact marks of coll, X n XII n they verify those so be careful ur CV also has the consistent data

Analytical Section
30 ques 40 min

Here u got to be 100% involved in the paper...don't assume the analytical part to be too simple 'cz so many ppl qualified...max. of my freinds were preparin for MBA n that's the reason of so many selections......

so regarding analytical

1.10 questions puzzle type- prepare analytical problem from Puzzle test R.S Aggarwal....but they are actually too simple n infy asks a bit higher than those...similar to those of Barrons 12th edition
2. 5 ques- syllogism...remember all rules from again R.S Aggarwal Verbal Non-Verbal

3. 5 ques-Conclusion,   In Conclusion Questions dnt assume anything on ur own...just imagine u know nothing about the topic and all u know is what is written in the question and then read the options
4. 5 ques figure -odd one out -Well, I attepted figure questions the firt 'coz they were too easy n no need practising the 500 questions in RS.
5. 5 ques DI- pie chart type...practice 4m RS Quanti

so that was analytical....u may go without ne preps also but with a fresh mind and then solve questions with all ur effort...but manage time well

Verbal Section
40 ques 35 min

Now this depends 4m person 2 person...since i always loved English...this was very easy 4 me...

Now certain tips here
1. While chosing sentence correction questions read all the options simultaneously.. i mean read first 4 words of all options n then proceed with the options u feel may be right....prepositions, tenses is a must practice for ppl who confuse in these. There were 8 ques
2. Reading comprehensions do at last n read the questions first n u wud b able to directly pick answers 4m passage
3. Fill in the balnks....answer elimination process wrks best

i don't remember more...but eliminating wrong answers and then guessin between the probable correct answers helps!!!

one thing remember more...
with plural sub. verb will not end with s
as- The girls dance
not The girls dances... and with sin. sub a pl verb will come
as- The girl dances n max of ques contains such errors... others are of prepostions like to,at etc.

Interview Experience
No technical
key factors they see
1. Values inculcated in u.. so be well dressed and disciplined
2. Learnability
3. Flexibility
4. Confidence
5. Communication Skills

My Interview was taken by a Sikh person whi was quite aged n was damn Strict Well not boring u wid the entire conversation wot he asked me was

1. Countries and currencies(The imp ones)
2. Sates of India n Capitals..esp new ones
3. Pesident of India nad presidential candidates of USA

where i was trapped was wen i answered the president of India as -Pratibha Patil
n yes u thought its absolutely correct no guys its a wrong statement I shud hav
answered Mrs./Shrimati Pratibha Patil

so he replied "She is at the highest post of the country...shudn't u giv sum
respect 2 her"n i thought i am blown...infy is known 4 values n i thought i am
busted so i aplogised but he asked me 2 leave

N the entire time till results i was damn tensed.....it was my dream company but
finally i was selected...... n one more thing Infy will give a second chance 2 those
about whom they are doubtful....

so all the best hope u dnt need that second chance prepare well n come join infy
soon
n say- i am proud to be an INFOSCION...

any queries ...well wnt giv u my mail id...

but contact ur seniors

ALL THE BEST!!!!!

INFOSYS PAPER ON 11th MARCH 2008
Paper Type   : Candidate Experiences
 Test Date   : 11 March 2008
 Test Location : CCET Chandigarh

Hello people, Infy came for the closed campus in our college on 11th March. 2
other colleges were also invited for the same.

Well, the first step was the Presentation which lasted for about an hour. Here,
they tell you about Infy, show some videoes, your package, where you will be
placed and all. Better to clarify your all doubts here only as they can trap you in
the interview using the same weapon.

Then we all were taken to the Test-rooms and given out Test papers.
Format was same,
30 Ques for non-verbal in 40 min.
40 Ques for english in 35 min.

The Non-verbal was a good paper, I was able to solve the first 20 ques in about first 20 minutes. The rest were a bit difficult but you can say that you get through if you work hard enough.
Then comes English : I don't why people hype this paper so much, the paper is quite easy. The only thing is the passages. They are very long and require one hell lot of a time. I got about 30 ques in 20 minutes so I was left with ample time for the passages.

However, If you got 30 ques, then consider yourself to be clear for the interview. The cutoff is around 23-24 for this section and about 15 for the non-verbal section.

Okay here are the stats upto this point:

Total students: Around 350.
Selected for Interview: 86 from 130 (Our college) and 76 from the other ones.

Then the interviews started.
Just remember one thing : If you got the test, you get the job.

Interviews are just a formality.
Okay here is mine:
Me: Good evening etc etc.
Int: Welcome, please close the door and have a seat.
Me: Thank you sir.
Int: Tell me about urself.
Me: Blah Blah Blah.......
Int: Okay, you are made the project manager for a single day job. U needhow many people ?
Me: About 6-7
Int: Okay, I give you 4. How will you manage ? (Gives paper) Tell the whole schedule.
Me: Blah Blah Blah.......
Int: 2 Puzzles, very simple. Was able to solve both of them.
Thats what happened in my interview. The HR was very very cool person. A lot of talk about my girlfriend and all. Also about my car and changing tyres etc. You get the idea what its all about.

After the interview was over,we waited for about 2 hours, then the Results came.

The stats:
Appeared for interview: 86 from ours and 76 from other.
Selected: 83 from our college and 56 from the other. Whoa ?!!!
We shouted and screamed like little kids and went out to the parking and danced ..... at 1 AM in the morning !

Then they came and told us that from now on you will be called as Infoscions and learn to spell the name correctly....

And that my friends, is the story of Infy.

Best of luck to all and Just be confident.

P.S. I didn't prepare anything for the test. Not even a single page. Aptitude is how's your mind built and English is what you read n newspapers everyday. Be calm and get the job. Remember this only.

Bye
Ishwinder Singh Cheema,

INFOSYS PAPER ON 22nd FEBRUARY AT KOLKATA
Paper Type   : General - other
 Test Date   : 22 February 2008
 Test Location : TICT Rajarhat AndTechno India Saltlake

Hi,friends this is rajdeep banerjee from netaji subhash engineering college,kolkata. here am going to describe my experience in INFOSYS CAMPUS RECRUITMENT DRIVE that was held on 22nd of feb 2008...n i was one of the lucky ones to get selected...

any way first of all friends i wud like to say that don't be tensed about infosys ..bcoz i personaly think that there on-campus recruitment procedure is easier than that of other companies...

Our aptitude test was held in Rajarhat technoindia college...we arrived there at 8 a.m from 9-15 the p.p.t(pre-placement talk)started..the person from infosys conducting the ppt was very jolly n smart ..he told us abt infy..its projects n all ...he also asked everyone to say the logo color of infy ..n told us that wh'wud give the right answer wud definitely get worth Rs.500...

anyway none of us answered correctly...friends the color is "PANTON 285C"..then we were asked to go to respective rooms to sit for aptitude test...friends its consists of two parts one is verbal reasoning n logical ,the other is english..anyway friends be prepared 4 the apti..u can follow verbal n non-verbal reasoning by r.s.agarwal..n u can follow the recent mba entrance papers too...it was easy..the puzzles n quantative reasoning given was not at all difficult..if u ave the ability to solve the puzzles ,,then u can do the trick...now in english my advice is to solve cat papers or other mba papers..there were two passages n u have to answer from those..also others were correcting sentence structure..etc..but no synonym or antonym was given i think it's not required 4 infy to practise those stuffs..if u r good in english ..then the the paper was dump easy 4 u..as far as i can remember i correctly answer each one..totally 70 marks apti it was..n 40 marks was 4 english...so practise it ...anyway time might be the factor of someone..there was no negaive markng...then the result was declared n i was there...we all then went to Techno India ,Saltlake...honestly speaking i was a bit nervous at that time..though i desparately wanted Infy..4 some reason ....

note that in Infy there's no technical interview...only H.R. interview is there....

when my turn came..i was absolutely tensed.. really my palms were sweating n my heart beat was growing fast...then i entered. .n here is the conversation....

Me: Good Evening mam,
Madam :thank u rajdeep ..pls be seated..
Me: thank u..(n sat with a smile on my lips..)
Madam: here i see u have passed from mahesh sri ramakrishna ashram..is it a branch of belur math..?
Me: actually it's not directly connected to it..bt it's connected to other missions..n exlained plainly..
Madam: tell me abt yourself.... my god that was my question i was very much prepared..told about my qualities..,my participation in cultural progarmmes..how i

worked as a team..n how i inspired others..my hobbies at last...frnd don't say ur c.v ..say abt urself ...think about urself ..ur achievements...n say everything good abt urself...

Madam: do u like to work as a team member or a team leader..??

me: it's always been a pleasure to be a part of the team...n if i can be leader then it'll be cherry over cake...n explained how i worked in local book fair...etc...friends just try to convince them that u r in a position to be a part of the company..u have the dedicated soul ...etc ...

Madam: have u ever got angry...

Me: don't try to fool, them n be honest..also give an example how u ot angry at a particular situation n for that reason u did a better job..so that negativity of u 'll reflet ur positive personality..that's the trick...

Madam: do u read story books..ur fav author...

Me: rabindranath tagore...

that was all at last she sighned me a paper n thanked me..i replied my thanks...don't shake ur hand..unless the interviewer shakes..anyway fortunately i was not asked puzzles...bt friends my advice is to get ready 4 the puzzles..those cud be asked any time...

then after 2 hrs of waiting our name was declared..n i was one of the lucky ones ...frm our stream(cse)10 were selected... that's all over..absolutely i was very happy.... that's it..my friends getting infy is not the toughest job...u have to believe urself...try to focus on what u r saying..n be positive ..don't show over-smartness ....best of luck to all of the future INFOSCIONS.....

HOPE THIS WILL HELP U TO REACH UR GOAL...TAHNK U.....

INFOSYS PAPER ON 22nd FEBRUARY 2008
Paper Type   : Whole Testpaper
 Test Date   : 22 February 2008
 Test Location : Bengal Institute Of Technology

Hello frndz Its me TANUMOY frm BENGAL INSTITUTE OF TECHNOLOGY wishing u all d best for ur upcoming INFOSYS placement......well before i went for it i thot it was very hard and i hvno chance.....but now dat i have cleared it then i feel dat its not dat too hard.....just u need determination and confidence and MOST IMPORTANTLY ENGLISH.......

There were 2 parts of aptitude test:
1)LOGICAL
2)VERBAL

LOGICAL (30questions 40mins....60% cutoff)

(a) A cube sum of painting its sides and thene dividing into 1000 small cubes...and then 5 questions on it....
(b) Figure matrix....u have to choose d odd one out or d next figure in line.....5 questions
(c) 5 Data Sufficiency problem...easy ones
(d) 5 Questions on Data Interpretation....a table was given on rice and wheat production....easy but lengthy....will suggest to do this at last.
(e) 5 Questions on Puzzle test...it was d simplest of d lot.....there were 5 houses A,B,C,D,E,F 3 on each side of the road with colours red,blue,green,white,etc......smallest house in green in colour....B which is red is opposite to C...(remaining i forgot)....
(f) 5 Questions on Syllogism.....easy

just go thru RS Aggarwal.....and its enuff for d LOGICAL part......i ll suggest u to go for d maximum marks here because its d easiest part than verbal.....while selecting they may go for d aptitude marks too....

VERBAL(40questions 35mins....50% cutoff)
(a) 2 Simple comprehensions....4 Questions each...answers all given in d passage directly just needed to find them.....Do these at last....
(b) 8 Questions on Choosing d appropriate sentence frm four options....these are a bit tricky....they all seem to b correct.....practise sentence construction.....
(c) 8 Questions on sentence correction in which u have to find correct replacement for underlined part in d sentence
(d) 8 Questions on Fill in d blanks with suitable grammatical words.....again all d 4 options ll seem correct.....
(e) 8 Questions on Theme Detection......for each question a situation/passage is given with four options.....u have to choose d appropriate one......

So friends this is d verbal part.....it may look easy but its a lot more tricky than being hard.....and this is where most of d students gets elliminated...strange isnt it???? But "Truth is sometimes stranger than fiction"....so i suggest go back to ur old cupboard and take out ur WREN n MARTIN again n ofcourse go thru it....ALL D BEST

OUT OF 180(approx) 22 GOT SELECTED 4 HR.........so u can very well imagine d competition my frnds.....

HR:
1) What is ur name? Tanumoy or Tanmay?
2) Whats d difference between d two?
3) Ask me bout my school.....
4) Diff between ICSE and CISCE...
5) If u have a brother or a sister who needs to be admitted to a school so which board (ICSE or CBSE) u ll prefer nd y?

6) What do u mean by innovation? what innovative thing u have done in ur lyf?

7) Have u seen Lagaan? there was a bowler who used to come and rotate his arm and bowl....do u think such bowling action is legal nowadays?

8) If u r Australian team captain and Symonds is not performing well because of his long hairs so u went and asked him to trim his hair but he said i wont dats my fashion....so wat wud u have done then?

9) Ur weakness...do u have any? do u think its a weakness...y???

8) if u r chosen for Infy or TCS and u r asked to work on weekends so what ll u feel?

again friends HR is not dat tough.....ppl who ll take ur HR are elderly gentlemen bout 55-70.....so u shud have a smile all d tym....and show proper respect....giv ur answers confidently....and ofcourse ur answers shud be diplomatic but at d same tym dont go for over d edge stories......always keep ur backup answers ready.....and never try to fool them.....as i said they r elderly ppl and got huge experience.....answer slowly so dat u speak GOOD english.....

OUT OF 22.....13 GOT SELECTED FINALLY.....and I was one of them.....I M SO PROUD TO BE AN INFOSCION NOW.....BEST OF LUCK my frndz.....i hope i was able to help u out to some extent......C u all in INFY......

INFOSYS PAPER ON 22nd FEBRUARY 2008
Paper Type   : Whole Testpaper
 Test Date   : 22 February 2008
 Test Location : Meghnad Saha Institute of Tech.

Hi, I am Saion Chakrabarti from Meghnad Saha Institute of Technology(TECHNO GROUP) and participated in the Campus recruitment drive by Infosys at Techno India .

The campus recruitment drive consisted of three parts:
i>a ppt presentation
ii>Written test
iii>HR interview

The Infosys written test consisted of two parts:

1>Arithmetic and Logical reasoning
2>English

1>ARITHMETIC AND LOGICAL REASONING
1.A cube of 10 cm side was painted with a black border of width 1 cm on all its sides…the rest of the part on the surface of the cube was painted blue…now the cube was cut into 1000 parts…
a>how many cubes were uncoloured{options were given}

nd likewise questions followed{sorry am not able to remember thm}

2.Figure out the odd figure: simple ones {refer:RS AGGARWAL ,non-verbal reasoning,chapter:SERIES,yeah the pictorial ones}

3.a table consisting of the production of rice nd wheat from 1986 to 1996 was given nd questions followed like:
a>ratio of rice production in the year 1989 between the North zone and the west zone.
b>find the max. percentage increase in wheat production compared to previous year. Nd likewise questions followed.

4.The question was a PUZZLE….it was something of the genre:-"There r 6 houses on both sides of a road.3 in each row.House A is of green colour nd is beside house F which is just opposite to B…….." now questions followed like: which house is the yellow house,which house is located in the middle nd so on..{Practising the the first two chapters on PUZZLES frm RS AGGARWAL is more than needed}

5.The questions were on syllogism.we had to find out which were logically correct.{My suggestion is not to mug up those laws or even go for those venn diagrams..just go by ur gut feeling nd use common sense}

2>ENGLISH
1.There were two big paragraphs,nd questions were asked from them..try them at last bcause they r easy but time consuming.

2.rest were on basic grammar like sentence correction,choosing the right option tht makes the sentence grammatically correct nd so on…{wht I feel is that U don't need to practice this section,it's just a test of the English tht u hve learnt frm ur nursery classes}

HR INTERVIEW
Well 52 students frm our college cleared the aptitude test..nd the HR was held soon after.
  Heres an excerpt of my Interview:
ME: May I come in Sir.
INTERVIEWER: yeah Saion come in nd sit down.
Now tell me something about urself, ur background etc.

ME: said.
INTERVIEWER: so U were into a lot of xtra curricular activities.wht were u into?
ME :sports ..specially long jump nd 100 m nd did a lot of stage-acting at inter-school level.
INTERVIEWER: so how many minutes u used to take to run 100m.
ME: around 11sec.

INTERVIEWER: wow,thts good u could easily go for the Asian record,by the way whts the Asian record?

ME: well,the world record is about 9.74 sec,but sorry sir I don't remember the Asian record.

INTERVIEWER: wht abt the acting?

ME: sir it was nothing much serious,it was more pomp than acting,we had a dramatic club in school nd we enacted topics tht were given to us nd we also did a play called "Saving Private Gyan" whch was a spoof on "Saving Private Ryan"

INTERVIEWER: U also said tht u love reading books,wht was the last book tht u read?

ME: all quiet on the western front.

INTERVIEWER: aaaah,All Quiet on The Western Front by Erich Maria Remarque…so is it on World War 1 or World War 2?

Me: World War 1 sir!!

Interviewer: so how does the book start.

Me: said

INTERVIEWER: does it start that way??or does it start "he had fallen forward and lay on the Earth as though sleeping…"

ME: it's the last line sir.{with a smile}

INTERVIEWER: Ok,u have read it.Now I have a small problem for U..say if u take a gas balloon to moon wht will happen to it?

ME: since theres no atmosphere or air in moon the balloon is not going to rise,but since theres gravity,less than tht compared to Earth, the balloon will start falling at a brisk pace compared to earth.

Interviewer: If theres no air or pressure on moon then why will the ballon not keep on xpanding?

ME :then the membrane of the balloon will burst

INTERVIEWER: let it burst.. why will it not burst? {nd an argument followed}

INTERVIEWER: ok leave the balloon..U come frm a civil engineering background,why do u want to come to the IT sector?

ME: gave a short speech whch I had prepared with things like "who doesn't want to join Infosys"….."I want to b a part of the IT revolution tht has placed India back on the world map as a economy" nd so on..

INTERVIEWER :is the IT industry still growing as it used to b?

ME: No,everything is not good in the IT sector bcause of the rising rupee but every industry has its ups nd downs nd I believe tht the IT industry will b able to triumph over the difficulties.

INTERVIEWER: so tell me wht subjects did u have?

ME: said

INTERVIEWER: so whats a rebar?

ME: the iron rods used in RCC r called rebars.

INTERVIEWER: whts the full form

ME: reinforcement bars

INTERVIEWER: why do asbestos sheets have a wavy structure?.

ME: said

INTERVIEWER: say u were to find out how many razors r used in India ,what will u do?

ME: Iwill send some ppl to the razor factories nd get the data of how many razors they r selling

INTERVIEWER: say if they don't provide the data.

ME: hmm..then I will hve to conduct a survey by taking a small sample space nd how many razors r being used nd the population of tht area..now I multiply it by the total population nd get an estimated data by taking into consideration various socio-economic factors J{he he}

INTERVIEWER :any other way u cud do it?

ME: I don't think it could be done in any other way in a vast country like India .

INTERVIEWER: ok correct this form nd sign it.{I wrote same as above in my permanent address section}…now as I was correcting he asked me to name some African countries simultaneously while correcting the form….I started with Nigeria,Kenya….nd ended with Zaire nd Zimbabwe.

INTERVIEWER: wht was the previous name of Zimbabwe ?

Me: Rhodesia

Interviewer: of Zaire ?

ME: Tanganika J

Interviewer.. TANGANAIKA…r u sure…??

ME: No,sir tht was a guess.{for the ignorants like me:the answer is Congo }

Now he gave me a puzzle of some container containing 3 litres of water nd another 5 litres of water..which I was unable to solve but showed a lot of zeal to solve J

Now he started asking me questions on my school..like wht was the motto of ur school{whch I didn't remember} nd so on.

And then he asked me wht newspaper do I read..nd cite some news of the last few days…nd then we had a discussion on the mob brutality in Asansol.

Last question was:

INTERVIEWER: how was the English paper ?

ME: Easy sir!!

Interviewer: So wht do u mean by "cold shouldering a person"

ME: Ignoring a person.

Interviewer: OK,Best of Luck Saion.

ME: Thank U sir.

Now there was long wait of 4hrs till our results were declared…about 34 from our college got selected{including me of course}..nd we were asked to get a passport,nd not get a backlog nd not get involved in some criminal offence before joining Infosys.

OK thts it…. best of luck to everybody..nd thnks for going through this long article.{whch also improved my typing speed}.

INFOSYS PAPER ON 19th FEBRUARY NOIDA
Paper Type   : Whole Testpaper
 Test Date   : 19 February 2008
 Test Location : IEC Greater Noida

Hi friends….. This is Nakshatra here from Skyline Institute of Engineering and technology, Greater Noida…. I attended infosys on campus placement test on 19 th feb, 2008 held at IEC Greater Noida….. I would like to share my experience with u & hope it would prove very valuable for u in the upcoming period

Around 900 students attended the test and out of them 82 were finally selected, nd due to Gods grace I was one among them.

The Selection consists of 2 Phases :-
a) Written Test
b) HR Interview

In which, written test consists of two phases:-
1) APTITUDE:
30 questns in 40 minutes..

5 questns about arithmetical reasoning
5 questns on series completion (figure)
5 questns on puzzle test
5 questns on data interpretation (graphs)
5 questns on data sufficiency…….. and rst I dnt remember as I am writing it after around 10 days of the test..

but anwz aptitude section wz easy….jst R.S. Aggrwal is very much sufficient for written test

I can say R.S.Aggarwal is sufficient for all companies written test......as becoz of it i hav also passed the written test of L&T infotech but unable to

selected after Technical+HR Interview.

2) Verbal Reasoning (English) :-
40 questns in 35 mints..
2 big paragraphs followed by 5 questns each, although paragraphs were bit lengthy bt they were damn easy…
8 questns on identifying correct sentences…..
8 questns on sentence correction…
fill in d blanks- 8 qustns..

6 questns on small paragraphs…

While answering questns u hav to keep the time in mind.... bcoz time management plays major role in these type of papers

After Completion Of paper, Result is declared after 2hrs.... and my name is in the list

INTERVIEW:
The HR was vry nice person…First he asked me abt tell me about myself . then he asked me about my strengths with example from my life… den he questnd abt how will u see urself after 5 yrs.,also he asked some questns relatd to my achievements & hobbies mentioned in d cv….

then he gv me a puzzle related to triangles…..i stated d logic for solvng d puzzle and solved it easily….. den he gv me another puzzle related to movements of coins.. I tried it…..and give the answer that is appropriate for me.....

Its my sincere advice to u friends, that if u hvnt practiced d puzzles, den dnt wrry…..dey dnt expect d answers of d puzzles from u bt nly d logic and in d intrw if u dnt knw d solution of d puzzle den pl don't sit dumb … nd jst try to build some logic in front of them…. , they just see ur approach of tackling diff situations…. Jst be cool & confident……

Due to some doubt....i hav gone through another HR interview....where lady HR asked me about collg. activities, about how i update my general knowledge....and about my special qualities.

At last she asked me if i want to ask anything to her....i tell yeah ....i asked what are the areas that u think i hav to improved so that i will become more efficient

she tell u have to improve ur communiction skills...and also she said that u hav ur strengths...and maintain it.

Now after 2 hrs , by god'd grace my name is in the list of those who get offer from Infy.

And at last I wud like to thank Freshersworld.com for providing such a wonderful platform to the students 4 sharing their experiences…

See u frnds at infy ….

INFOSYS PAPER ON 13th FEBRUARY 2008
Paper Type   : Candidate Experiences
 Test Date   : 13 February 2008
 Test Location : BREC, Bellary.

Hi, I'm Bharath N, studying in VEC, Bellary, Karnataka. Infosys was my 1st company,i cleared 1st round . Ive posted the pattern of Infosys paper that v had. But not the exact qns.. I've mentioned only the Type of qns.. ok.. Ive posted my experience.. Hope it wud guide u guys..

THERE ARE TWO ROUNDS FOR SELECTION :-
1) APTITUDE TEST
 2) H R INTERVIEW

APTITUDE TEST CONSISTS OF TWO PAPERS:-
(i)ARITHMETIC ANG LOGICAL REASONING.
(ii)ENGLISH COMPREHENSION TEST (English grammar + passages).

 ARITHMETIC ANG LOGICAL REASONING PAPER:
Questions : 30 Time : 40 minutes ALL QUESTIONS CARRY "ONE" MARK

[i]Three persons A,B,C have Rs.165,Rs.180,Rs.150. The person having the highest amount gives 1/5th of his amount to two other persons equally. The game ends when each one has contributed.

1> What was the amount left with C at the end of game?
2> What was the amount left with B at the end of game?
3> What was the amount left with A at the end of game?
4> What was the amount left with A after his contribution(i.e after 2nd step)?
5> In how many steps the game ends?

[ii] (VISUAL REASONING) 5 figures were given and we are asked to pick the ODD MAN out 5 Questions on this.

[iii](LOGICAL REASONING) READ THE QUESTIONS BELOW AND PICK THE RIGHT

OPTION 1 – if conclusion can be made by using either of the two statements.
OPTION 2 – if conclusion can be made by using only one statement.
OPTION 3 – if conclusion can be made by only by using both the statements.
OPTION 4 – if conclusion can NOT be made by using both the statements

5 Questions on this.
Example : Total number of students in a class is 120.find the number of girls in the class?
a)The number of boys in a class is 90.
b) The number of girls is about 25%.
Answer is OPTION 1 because using anyone statement you can solve the given question.

iv](Data Interpretation): For us A BAR Graph Was Given… But here r some other possibilities.. ie Tabular problems too..

[v] Jumbled Up Problems..[5 qns]

[vi](Syllogism) 5 Questions on these.
Example: 1.SOME BIRDS ARE STONES.SOME TIGERS ARE BIRDS.ALL STONES ARE GRAPES. Similarly 4 qns wer given and asked that Which of the following is More Logically correct..They have not given Conclusions.. only Statements.

I felt that the reasoning paper was easy but the English paper was bit on the tougher side. Anwer sheet consists of one page like the OMR sheet , you just need to circle the correct option number and write that number in the space provided…..with blue/black ball point pen.

(ii)ENGLISH COMPREHENSION TEST (English grammar + passages).
Questions : 40 Time : 30 minutes

1-5> Reading comprehension (easy but solve at last only, if you solve it first, you will end-up guessing for many questions, very very lengthy)
6-10> Reading comprehension (it was too easy, try to read it fast while solving)
11-18> fill in the blanks with suitable sentences!! (easy ones according to grammar)
19-26>choose the one among 4 suitable phrases(sentences similar to the underlined part)for the underlined part of the given sentences. (sentence improvement……Be careful sometimes no improvement is required choose the same phrase)
27-34> choose correct sentence from four given sentences (easy ones but be careful, there is only a slight difference and you have to select which is more grammatically correct)
35-40> you have to choose which Course of Action suits best for the above given paragraph. (Mainly this specifies your managerial abilities.) Time management is very important, many of my friends were not able to solve all questions and even read it. Be careful for English part because most of the candidates get rejected here only...

Time management is must!!! Solve passages at last... I did 30 questions in 15mins & hence got 15 mins to solve the reading comprehensions which I did at last!! so plan the paper accordingly!! After the test results were announced in 2 hours, I was very glad to note that i was selected.. As There was sectional cut-off wich is around 60% for reasoning & 50 % for english, very less students got selected……(about 36 out of nearly 400 students) I have not written much about HR interview because I felt that it was quite easy if you good communication skill .The first 10 seconds is very important as they see how your body language is So Be Confident . After written test results, with no time delay

HR interviews started. A panel of 4 HR`s came who were taking interview in 4 different rooms. All they check for,in HR, is your communication skills and confidence.. They want persons with excellent communication skills.. No technical questions will be asked.. And one more thing once you have cleared the written test, almost 90% of your selection is confirmed. But Rejections at HR was very much more(in our case out of 36 only 15 got rejected). So focus well on written part & Communication skills because its the biggest barrier & once you cross it, you are almost through!!! So friends cracking infosys paper is not a difficult task.. All you need is little smart-work, good communication skills & confidence as well as conviction in yourself ……….

My best wishes to all!!!My badluck is I cleared 1st round, but got rejected in HR ..

INFOSYS PAPER ON 7th FEBRUARY 2008
Paper Type   : Candidate Experiences
Test Date   : 7 February 2008
Test Location : Lovely Professional University, Jallandhar

Hello everyone... no wasting time on beating about the bush... coming to point, the aptitude paper of Infosys IT sector was NOT tough, the English section WAS.. almost everyone whom i talked after the exam was telling me that apti paper , they cud do. but no one was sure bout english paper the pattern was the one followed more recently in december 2007 and jan feb 2008

they gave 30 ques of apti in 40 mins and 40 ques of eng in 30 mins

apti paper :
ques no 1 - 5
ques was regarding some sign language, then a sentence was to be translated in that language, very easy ques, no prep for this required

ques no 6 - 10
sylloligsm based but not the one given in R.S . aggarwal reasoning book.. but practice those questions of logic from this book n u ll be able to solve those ques

ques no 11 -15
puzzle based on who teaches which subject and on which day ... relatively tough compared to one given in RS (i assume everybody is preparing from this book, coz i did and i can say its enough for this test)

ques no 16-20
ques on pie chart i recommend , do this one first.. coz its very easy mayb lenghty but in the end u get the accurate result, which is required to build confidence at start of paper..

PS - there is hardly any long calculation involved, just keep on writing percentages like 40% of 30% of 3/12... now this is just a small example, but i hope u got the idea... 300 ;-)

for pie chart ques, do atmost 5 ques from RS but solve each step of those 5 ques and u will master them

ques no 21 -25

ques of data sufficency do RS , that will be sufficent...

ques no 26-30
choose the next figure, practice atleast 20 to 40 from RS reasoning, understand the logic by reading the answers to those questions

The order of questions may vary coz i got the time to write all this after a long gap and i dont remember the sequence....coming to english paper.... ques no 1-5 and ques 6 -10

comprehension reading....
some guys out here feel it should be done at the end but i will say do it first of all because the questions that will follow will kill ur time , because u will just keep on thinking bout those questions and in infy english paper TENSE FILLING questions have almost same options so u will waste a lot of time thinking bout them, and if u will do these at end, u will have less time to think, dont worry .. less time or more time u will arrive to same answer because perception about tenses remain same no matter how much time we spend reading them

In comprehension ques, search para graph wise, like the answer to first question will be in 1st paragraph or atmost in 2nd para... so dont read the whole comprehension, search for KEYWORDS and that also paragraph and question wise..

ques 11 -15
give the best sentence to above para which either supports the para or means the same as the para

ques 16-20
fill words like "will go/ would go", i mean the most appropiate one

ques 21 -25
correct the sentence like a sentence will be given and four options will be given the options will have the above sentence in different forms, u will have to select the one which is technically the most accurate rest ques i dont remember now

LET me give some tips
do pie chart first of all
then do figure ques
then language
and choose the rest order by looking at question paper.

do both the comprehensions at first tick the option in english paper which u think sounds correct, believe ur intutiveness attempt all questions as there is no negative marking

PRAY TO GOD BEFORE STARTING PAPER (ATHIESTS CAN ALSO TRY)

believe in urself even if u have failed in first 10 companies, its very difficult to do i know but just believe that today is ur day , no matter what has happened in the past.

after u finish ur paper, the result will be announced in 3 to 4 hours , so relax and cool down ur heels in this time, talk to ur gf, bf in bw or move around with ur friends.... i m not telling this for making this paper funny, it will help u relax a lot, forget the paper and dont discuss the questions... be busy eating or whatever changes ur focus...

but be prepared with ur resume and ur formal dress coz the interview will start shortly after the announcement of the result

i wsnt prepared with my formals , and one of my friend was without a resume and he gave the interview without the resume and he got selected, sincere advice still, take a copy of resume with u

the result came about at 6 pm that day and i was more than delighted to hear my name. In all 250 odd students were selected out of 1300 ppl for interview, from our college 24 managed to go through ...

they will announce the result in decreasing order of marks obtained and IF UR SCORE IS GOOD, the interview is mere formality

well the my interview was at 8 pm , let me tell u my rank in that list was 7th or 8th, so i wasnt the best scorer..

my interviewer was the coolest , among all panel interviewers

INTERVIEW EXPERIENCE
I entered the room, asked for a seat and He gave me a attendence sheet to sign he asked me to sign my resume and give it to him then while he started reading my resume, he casually asked me, " tell me something bout urself"

now prepare it well... i said my name is... i m frm .... my branch is .... and then i told him some of my strong points like i m cool and composed under pressure situations when everyone around starts to panic and few other strong points

then he asked me every question based on my resume so i wont mention again n again he asked me what have i done in my 2 months training and interrupted me with a technical basic question then he asked me y i have choosen handball while ppl normally play ckt...then he asked me y i hav so weird hobbies of reading psychology, analysing ppls behaviour , interpreting dreams and being a gadget freak

we had a very long discussion on this topic , for around 8 mins the main point here to tell is that have a resume that says something of u... also u should know every single detail of ur hobbies because they normally concentrate on hobbies show good comm skills, be calm and think before u answer, dont rush for an answer

after our discussion, (he knew a lot more than me about psychology and dreams so we had a long chat on it) then he asked me to solve a puzzle, make 100 with 6 9's ie 999999

even if u know the answer, it is advisable to wait few seconds before u answer... i solved it this way 999/9.99

he was impressed by the simplicity of answer

then he said , ok it was nice talking to u, i would definately like to talk to u again , then i stood up and shook hands with him ... then he asked me while holding my hand, who is the CM of bihar, i answered then he asked, and of rajasthan , i honestly did not know so i said sorry sir, he said its a lady , i again thought for a sec and said sorry again, he said she will love to be analysed by u, i cud not answer because i didnot know she was vasundra raje, i never heard of her , to be honest. then he said, ok thank u, and with thank u , i left the room

and i cud guess that i was selected.

when the result came out at aroun 12.40am , those moments were the most memorable ones

18 out of 24 of our college got placed

hope this writing will help more of u to get selected and when u do, dont forget to come up and meet me in mysore.. because i love making friends and helping ppl

this writing is my way of paying back what freshersworld.com owe to me because i read a lot of papers of infy b4 my paper and they helped me a lot, hope this one helps a lot of ppl

INFOSYS PAPER ON 6th FEBRUARY MORADABAD
Paper Type   : General - Interview
 Test Date   : 6 February 2008
 Test Location : MIT,Moradabad

hi friends , this is mohit rana from M.I.T. ,MORADABAD.. Infy came to our college for campus recruitment on 6th feb Apart from our college 3 other colleges sat for the drive & 119 out 650 of dem(including me !!) were selected frm my

college there are 31 selections...I exactly don`t remember the number frm other colleges.. The ppt started at 9am & person frm infy told us each & every thing. The Mysore campus where we will be having our training was simply awesum.. Be attentive in the ppt.. notedown some quick favts about infy…….

Then the written test started, prior to starting we were made to fill form of infosys.

 The test as usual consisted of 2 sections: (there is no negative marking)

1. Logical Reasoning

logical reasoning consisted of 30ques. in 40mins. the questions were::

1-5, a puzzle based prob. (rs agarwal type, but more ticky rather than difficult)

6-10, figure probs (too easy, practice some frm rs)

11-16, data sufficiency prob. (rs agarwal sufficient, very easy)

17-20, data interpretation based on bar graph (simple but involves lengthy n precise calculation, better to attempt at last)

21-24, another puzzle (rs type, but try to be attentive for d clues given. It can b a bit tricky n lengthy)

25-30, syllogism ques (too easy, follow d venn diagram method)

Time management is very important, many of friends were not able to solve ol d ques. then d ques paper was taken, generally all of u will be able to crack this paper particularly

Within time given……..u just need to be a bit quick.

2. English

n english ques paper was given..PLEASE Refer to some CAT material coz its level is really very high n it's a real time game coz u need to do 40 ques in 30-35 mins the question pattern was ::

1-5 , reading comprehension (particularly in my paper it was very tough n lengthy so be prepared)

6-10, reading comprehension (the level in my paper was as for first one but generally second one is given short n easy….n ques given on rc r not direct rather than theme detection type)

11-20, fill in the blanks (pls refer BARRON's GRE)

21-30, choose correct sentence from 4 given sentences (not easy 1`s so b carefull as there is only a slight difference n u hv to select which is more grammatically correct pls refer WREN n MARTIN)

31-40, u have to choose wich title suits best for d above given paragraph.

Be careful for english part coz most of the candidates get rejected here only.. Time management is must!!! Solve RC`s at last..Though I did 2 rc's in initial13mins (as I hav alwez been strong in comprehension) & hence got 22mins to solve the rest 30 ques from grammar wich i did at last!!

so plan the paper according to your strength!!

after d test results were announced in 2 hours, i was very glad to note tat i was selected.. As dere was sectional cut-off which is around 60% for reasoning & 50 % for english, very less students from my college get selected.. After written results, with no time delay HR interviews started. A panel of 6 HR`s came who were taking interview in 6 different interview rooms. Mostly of dem were aged between 40-55. But dey were too gentle to d candidates..

but interview of our college students took place next morning in college campus……

Mine was a person of around 50. he was nice n asked me some common ques. he gave me 3 puzzles,

I am giving ques as wre asked for ur interest……
HR INTERVIEW

ME: may I come in sir?

HR: yes come in…….hav d seat.

ME: thank you sir.
HR: are you having any backlogs?
ME: no sir
(then he gave me 2-3 forms to write name n sign on)
HR: so tell me about yourself?
ME: told

(in between he asked about my native place n generally there is no technical but he may sk basics of core subjects or summer training or project as frm mine……)

HR: what is embedded system?

ME: told

HR: what are its applications?

ME: told

HR: what are its advantages?

ME: told

HR: so your hobby is reading …..which type of books do you read?

ME: told

HR: which book do you find to be best?

ME: 'WINGS OF FIRE' by Mr. Abdul Kalam

HR: why?

ME: told

(he gave me puzzles to find volume of a stepler,surface area of spects case n a ques about dice's edges just try to apply some approch to it.)

After then

HR: who is president of India?

ME: told

HR: her husband?

ME: sorry sir

HR: who is defence minister?

ME: (I told it wrong)

HR: who is president of Bangladesh?

ME: told

HR: which type of govt is there in Nepal?

ME: told

HR: what is going on in America?

ME: told each n every thng about presidential election process

HR: what has been there recently in last two days?

ME: sorry sir I don't know as I couldn't read newspaper properly for last 3 days preparing for infy.

HR: ok fine…..you may leave now

ME: thank you sir….hav a nice day..

(n I came out)

My interview lasted for around 15mins. All dey chk for is ur communication skills n confidence.. They want persons with excellent communication skills.. N one more thing once u hav cleared d written, almost 75% of ur selection is confirmed. Rejections at HR is less.. So focus well on written part coz its the biggest barrier & once u cross it, u r almost through!!!

After the interviews got over, in about 30mins, final results were announced, i was veryyyyyyy glad dat i was selected..Celebrations were ol around as this was d 2nd company in which i sat & cracked it !!!

So friends cracking infy is not a difficult task.. All u need is some smart-work, good communication skills & confidence as well as conviction in urself. I would like to thank fresherworld.com from the depth of my heart for the support they provided by providing blogs & papers like this, which actually helps the candidates to crack the companies.. I would also like to thank my parents,my faculty & my friends who provided me support n care!!!

With this, i bid best wishes to you all!!!

SEE U ALL AT MYSORE(INFY)!!!!!

INFOSYS PAPER ON 6th FEBRUARY 2008
Paper Type   : Whole Testpaper
 Test Date   : 6 February 2008
 Test Location : Roorkee

hi friends...this is Sriram Mohan Nedunuri I attended pool campus of Infosys on 5th Feb. 2008 at COER, Roorkee and got selected finally. There were students from 6 colleges n were about 1200. First there was presentation on Infosys and about 1o'clock we gave written exam. Around 380 students were selected for HR and finally around 250 got selected.

Here is the pattern dear frnds
1.logical reasoning (30 ques) 40 min
2.English section (40 ques) 35 min
For logical reasoning go through rs aggarwal, the imp chapters well, that's enough but do them thoroughly.

The logical section consisted of the following ques....
1.2 puzzle tests of 10 marks.....   .(just go thru RS AGARWAL its more than enough.....).
2.5 series figure ques of 5 marks .its like odd figure out – very easy(go thru RS AGARWAL...NON VERBAL SECTION more than enough).
3.5 ques on data sufficiency .questions in this section were so easy try to do data sufficiency first u can complete in 3-4 mins . some are given below.
1.PQR is an isosceles triangle. What's the length of PQ?
a.   The length of QR is 7.
b.   The angle of PQR is 90 degree.
Ans: both are sufficient for conclusion.
2. What's the ratio of length of the line segment PQ to the length of arc PQ, when PQ forms the arc of a circle?

a.   Area of circle is168.
b.   The segment PQ forms the diameter of circle.
Ans: both are sufficient for conclusion.
3. Are two triangles congruent?
a.   Both triangles are right angled.
b.   Both are of same perimeter.
Ans: both are not sufficient for conclusion
4. In what time the cylinder completes one rotation?
a.   Radius of cylinder is given.
b.   Speed (angular) is given.
Ans: both are sufficient for conclusion
4.5 ques on logical reasoning or syllogism... (Go thru rs agarwal also go thru the LR part of the cat material)
5. Data interpretation of 5 ques (Just go thru the rs agarwal aptitude book......it is best as i preffered the same)

From 1997-2002,data was given on students studied in different streams like arts ,commerce ,engineering, medical, agriculture and science. Questions were like....
1.Number of students studying medicine is what %ge of no of students studying engineering?
2.% of Students studying commerce in yr 1999 is what % of students studying in all the yrs?(ans E(no one was correct)) .... Like that.... questions in this section were easy but time consuming better try to approximate and save time..

English section....... it is as follows
1. 2 paragraphs based question very easy (try to do it in last minutes as it is very easy u have to just go thru it once it is of total 10 marks). There were two paragraphs one was big one and second was relatively shorter. I did the shorter one and it was on green house effect- easy one u can even answer the questions even without reading paragraph.
2. 5 ques were given – in that each ques carries four options n u have to find the correct sentence – 5 marks
3. Theme detection 5 ques
4. Fit the correct word in the blanks. This is of 5 marks,,,,
5. 5 ques were given – in that each ques carries four options n u have to find the correct sentence – 5 marks

for verbal I will say that go for wren n martin (or Raymond Murphy) n cover articles , tenses, prepositions, subject n verb relations...trust me friends these books will help u a lot in clearing this round.

For over all logical n English prepare sincerely and friends C2D (cooperate to dominate) policy will be really helpful, even though u have done sincere efforts better do along with ur frnds. Written results were announced in the evening around 7 and I was one of the short listed candidates among 34 form our college.

We were asked to leave n appear the next day for interview. Next day interview started around 12 o'clock.

There were eight panels and my interview went like this...................

Me: may I come in sir?
Int: come in take ur seat.
Me: thank u sir, very good morning sir.
Int: good morning , so u r sriram mohan nedunuri?
Me: yes sir.
Int: ok sriram where r u from?
Me: sir I am from Andhra Pradesh.
Int: Then how did u come here?
Me: Through AIEEE central counseling sir.
Int: Ok, tell me about ur schooling?
Me: sir I did my schooling from....bla bla bla.........
Int: tell me about ur family background?
Me: sir both my parents are teachers....bla bla bla....................
Int: how much u expect from ur logical n English sections?
Me: sir around 15 from logical n around 28 from English (they will check ur confidence here).
Int: what's the difference between invention n discovery?
Me: bla...bla...bla.....
Int: tell me some thing innovative that u have done in ur life regarding anything?
Me: sir I am interested in cooking and I have made many innovative dishes with rice with different ingredients...i can cook fried rice tasty n sir I am sure u cant find it outside.

Then he asked me four puzzles two verbal n two non-verbals ...those are....
1.Using 8 8's and using only '+',arrange them to add up to thousand? I have tried and my approach was right...he waited for a min n asked me verbal puzzles. Ans...888+88+8+8+8=1000
2. An electric train is going from east to west what's the direction of it's smoke?(electric train doesn't have smoke).
3. Mary's father has four children luci, ana, Britney n who is the forth one?(Mary it self). I have answered both the verbal but not answered any non-verbal puzzle...they will just see ur approach n check how confidently u answer.................................

Int: ok, if u were a leader how u manage ur subordinates if they don't perform well?
Me: sir, first I will treat them as friends n give them permissible freedom n encourage their innovative ideas . if they feel any trouble in doing any job then I will try to deal them personally n even if they lag behind then I will circulate the work among them. In this way I will manage .i think he was impressed by my answer.

Int: what do u mean by permissible freedom?
Me: sir if we give over freedom, they may go beyond limits...that are why....
Int: what was ur role in the event that u have organized in ur college tech fest?
Me: sir I managed the event...bla bla bla....................
Int: do u have any questions regarding any thing?
Me: sir is there any thing for me to learn before getting in to Infosys?
Int: in case u get selected in Infosys they will provide u the necessary training. no need to learn any thing xtra concentrate on ur studies that's enough.
Int: u can go now...
Me: thank u sir n nice meeting u......................................

after the interview we were asked to sit in a room n after one hr the senior HR announced the results n I was one of the final students who have been SELECTED. Really my placement experience had many unexpected turns but I can't discuss them now.....but all I can say is "PRAY PRAY N PRAY TO GOD THAT'S ALL ....SUCCESS WILL BE URS...........ALL THE BEST"

Meet u at Infosys

hi frnds this is PRASHANT GUPTA in 3rd yr, student of electrical n electronics {EE}branch.... first all i m hearty thankful of my parents, seniors , batchmtes,n my frnds n of course fresherworld, n also u SUMIT , AMIT n ASHISH ....

CRITERIA :- 60% throughout, no backlog at da time of joing (i,e. no ny back criteria)

There is two round is selection processor ..
1. written exam i,e aptitude
2. HR interview

in written exam there is two part
first is APPTITUDE n second is ENGLISH
in aptitude they asking 30 question attempt in 40 minute
the pattern is such that...

Aptitude Question no. 1 to 30
quest no.1 to 6   ==   a typical puzzle(never try 2 attempt first)
ques no. 6 to 12 ==   picture problem or figure (very easy)
ques no. 12 to 18 == data sufficiency
ques no. 18 to 24 == puzzle (related on bank a/c , easy)

ques no. 24 to 30 == syllogism (easy but need some work)
 aptitude is somewhat easy , just go threw R. S AGARWAL ..
The question same as mention in r. s. agarwal. 10 n 15 days is enough for whole preparation.
so practise da book when u have da time , otherwise read n solve all da paper of freshersworld , its really help u out.

 after this they give u next paper which is ENGLISH ,
believe me its really tough,,,, compare to first one
 in this section there is 40 question attempt in 30 minute
so there is no time to think abt it
in this section the pattern is...

English Question no. 1 to 40
 1. Two long paragraph(its really time taken so attempt in last)

 3. Correct da sentences (easy)
 4. Miner grammatical error (easy)
 5. Small passage

paper really touch n limited time duration , so u hve to work fast, for this section u have cleared ur basic fundamental , lke tenses, prepositions ......etc if u lke also u refer WREN N MARTIN.. But paper hve a , ability to check ur basics up to grammatical skill so take it
seriously...

There is pool campus so around 800 student is appeared after written exam
only 150 cleared da written after that the interview is started
there is 6 panels.... all r above age of 45 yr.., they just check ur confidence level
evn da fact abt infy is if u clear da apti ,u would be 85% selected finally.....

So be confident , cheerful , GOD always with u My call is around 10.10pm , the interviewer is quite strict he will take a more time compare to other panels first all they tell me to give da resume ..... After that the interview is started

the interview question is ....
1. Tell me abt urself
2. Do u like read books(novel)?
3. Do u lke internet surfing..
4. they asking two puzzle , I m gvng da answer one of them
5. Extra curricular activates
6. Hobbies (questions on my hobby)

7. wht advise givg u seniors regardg da interview

the interview is went up to 30 min , after that they announce the result in next morning at 10.00am I m one of them ,select in infy, after that there HR come to meet all selected student he is very nice n cool . Friends this is my forth attempt before that m rejected frm three companies due to my silly mistakes.
so never loose da hope n don,t loose ur temper n patience , earlier u get da success... n believe me LUCk is really matter
always trust da almighty GOD n if its ur day nobody can stop u , one thng always kept in ur mind which is.......
"alwys thxs GOD wht u have
always trust GOd wht u need"

INFOSYS PAPER ON 4th FEBRUARY

Hello friends.I am ARITRA SANYAL currently doing my 3rd year of engineering from COLLEGE OF ENGINEERING AND MANAGEMENT,KOLAGHAT. Infosys has been my dream company but as heard from all and going thru the test papers of infy i was really nervous wether i will be able to make it or not.Our interview was an off campus interview.We reached at the place before a day and stayed in a hotel and the very next day went for the interview.The infosys aptitude consisted of 2 parts:Quantitative part and the other was verbal ability.

Quantitative part :It was quite easy .It consisted of 2 puzzles(of whch one was very easybut the other one was a complicated),data interpretation(very easy),next figure in the series(there were 5 or 6 questions on this and all were simple),syllogism,problem on clock and a few analytical reasoning ones.I think solving R.S.Aggarwal would do.

Verbal ability: This was tough.2 long passages followed by questions.Identification of correct sentences,idioms,verbs,prepositions were there.Deduction of conclusion etc were also there.

Well i was able to clear my written test and went for the interview.It was really cool andsted for hardly 15 mins.

Me:may i come in sir?

Sir:yes please come in.

Me:good evening sir

sir: good evening.please have your seat.

me:thank u sir.

sir:so aritra.....what does aritra mean?

me:sir it means someone who defeats his enemy.

sir:o....so u r d winner.

me:(laugh)yes sir.

sir:tell me a case wen u were defeated.

me:told

sir:ok.what was your rank in school?

me:2nd in 10 board and 3rd in 12 board.

sir:ok......what have u done to improve your rank?

me:told...hardwork......dint give up..strong determination..etc.

sir:ok..aritra tell me suppose u were in a railway compartment and one of your friend falls sick..how would u handle?

me:explained it .

sir:ok....so u stay at kolkata right?

me:yes sir.

sir:ok.....suppose you were dhoni..would u have dropped ganguly?

me: no sir..never....and explained why.

sir:ok.suppose you were dilip vengsarkar and dhoni approaches to u to drop ganguly....how would u handle it?

me: explained with my passion in cricket....(i kept smiling althroughout when this discussion was going on)

a few more questions like what are your local area prob;lems..if u were the MLA how would u have solved it.........have you ever leaded anytime? how?? etc etc...all these were asked...at last he asked me if i was ready to do night shift and work abroad..both were positive responses from my side..i went out with a firm handshake.....

Few hrs later our results were announced and i was selected ...i was so happy........members from infosys called us infoscions.i was overwhelming.

Friends it is not tough to crack infy but the thing is that u have to be very strong in english,should have a very strong communication skill and a confident and smart approach.......if u have all these then infosys is ready to hire u.....so friends wish u loads of luck and see u at infy....................

INFOSYS PAPER ON FEBRUARY 3RD 2008

Vivek Shrivastava, Fifth Semester, Ujjain Engg College, Ujjain.
The selection procedure for Infosys consist of just two parts: Written exam and HR round. The eligibility criteria was 60%+ in 10th and 12th, and 65%+ in B.E. The exam was conducted in M.I.T. Ujjain. 90+ students appeared from my college U.E.C. Ujjain.

Written Exam (sectional cutoff was there):
1. Aptitude(30 questions, 40 minutes):
No special preparation required for this part, I had previously solved R.S Aggarwal's Quantitative Analysis and i easily solved 20+ questions, to be sure solve R.S. Aggarwal's verbal&non verbal (i haven't seen that book).
Q1.) 5 questions on a question dealing with five numbers, you have to put the condition and find the five values.
Q2.) 5 quest were based on figures in which we have to find the odd one
Q3.) 5 ques. were based on data sufficiency.
Q4.) 5 ques. were on line graph. (Data Interpretation)
Q5.) 5 ques. were based on syllogism.
and five other questions.

Over all aptitude section was logical and easy. I think the cutoff was around 20 out of 30.

2. English(40 questions, 35 minutes):

There were two very lengthy passages which were quite easy, one was on current issues (could be editorial of TOI etc.) 5+5 questions were asked on passages. Most other parts were on grammar. I didn't studied anything for it. You can refer to any standard book on grammar. While solving make it appoint that you check all the options properly because their is just minute difference between them. This section is the decisive factor coz the first section is easily cleared by almost everyone. I think the cutoff was nearly 24+ out of 40.

1) Two RC

2) Replace an underlined sentence with another one which is of the same meaning

from the given 4 alternatives.

3) Fill in the blank with correct alternative.

4) Questions to choose the option which supports/opposes the given passages.

5) Select the correct statement from the set of 4 statements.

After about 2 hours the result of written exam was declared and only 18 of us cleared it. Next the interview began. The one who took my interview was an aged person. Just be confident, positive and prepare well every thing related to your resume and hobby. Two puzzles were asked from me:

1. A bulb is hanging by a rope from the ceiling and it is just touching your head, you need to calculate the height of the room, clock can be used.

sol. Use the formula for time period of pendulum and u will get the length of rope and after adding your height the height of the room can be calculated.

2. A equation in roman numbers was given one movement was allowed so as to balance the equation (I wasn't able to solve it)

After 1 hr+ the result was declared and 12 of us were finally selected. Clear the written exam and you are through 95% . Just keep smiling and be confident and u will definitely be selected.

All the Best........

INFOSYS PAPER ON 30th JANUARY AT FARIDABAD
Paper Type   : General - Interview
 Test Date   : 30 January 2008
 Test Location : MRCE, Faridabad

Hi friends I m Anuj Gupta studying B.Tech(EC) 3yr in GALGOTIA, gr. noida.There was written exam on 30th jan 2008 in MRCE, faridabad of Infosys. 4 colleges participated- Galgotia, MRCE, GNIT, FIT.

They had PPT with us . that was gud n u must present in tht. u will definitely get some idea abt infosys. I still remember one thing of ppt "Infosys need those who want 2 marry with infosys not those who want to have affair"

WRITTEN EXAM:
here frankly speaking i didnt prepare anything for infosys. only luck made me 2 through this.
there were two sections:-
I.Critical reasoning
II.Verbal ability

for critical reasoning u need 2 be focussed, concentated and apply ur full mind and nothing else u need 2 have(ofcourse gud luck is must!!).

for verbal ability the questions involve tenses, word meanings, prepositions and some basic english gammer rules.

there were 2 reading compehensions 5 ques each and these d most scoring among verbal. first read d ques n then find d answer frm d passage.Take care of one thing FORGET everything which u know abt the passage aleady. just answer the questions from what is given in the pasage.

Time management is ofcourse important to answer all the questions in time.

IMPORTANT:

NO NEGATIVE MARKING

u will be given rough sheet. Solve ur answers on rough sheet as neat as u can. this rough sheet is evaluated at the time of interview

Before the written exam u will be given a form. U r required 2 write ur % and some other personal details and also paste a photo.

If u take ur photo in formals(tie,coat), that will be best.

Fill ur % CAREFULLY.

Well that's all about written exam. After sometime d results were announced and our college students those cleared written were asked 2 report next day with 2 copies of RESUME, Originals and photocopies of our certificates.

INTERVIEW:

In the interview of Infosys, usually no technical questions are asked unless u mention something big in ur resume e.g. my friend mentioned about robotics so she was asked questions abt robot etc.

Prepare puzzles from internet and from shakuntala devi as puzzles are the main issue in interview and also some questions of G.K. e.g. president of india, her husband, capital of u.p., J&K etc.

Basically they r not interested ur answer of puzzles, they r checking ur approach So solve them nicely on the paper as u can or explain them verbally how r u solving ur problem.

usually very old people r HRs of Infosys. They want us 2 be very POLITE and confident.

So be POLITE and DON'T SHOW UR ATTITUDE. DON'T ARGUE with them.

Prepare some common things e.g. which newspaper u read, name of its editor, which sections of paper u read, hw u gather information, wht u surf on internet, do u hv any girlfriend etc

My HR was a very old person. My experience is as follows:

HR: come in
Me: gud afternoon sir
HR: have ur seat
Me: thnku sir
Hr: give ur resume

I stood and gave it
Hr: tell me abt urself
Me: bla bla
Hr: u hv filled ur % in ur form. R u confident on them?
Me: yes sir
Hr: then sign here
Me:I signed
Hr: is it ur first interview in Infosys?
Me: yes sir
Hr: then sign here
Me: I signed
Hr: so anuj, whats ur family background?
Me: bla bla
Hr: so u r the only son of ur family
Me: yes sir
Hr: then ur mother will have problem if we will send u at far off places?
Me: no sir she will nt have any problem
Hr: no she will have
It takes me sometime 2 convince him but finally he was looking convinced
Then he pointed 2 my resume and underlined my achievements and asked:
Hr: u don't have any achievement in college?
Me: actually sir I participated in many events but unable 2 achieve any
Hr: what kind of events?
Me: explained
Hr: u also didn't participate in any outdoor activity?
Me: yes sir I didn't participate in any outdoor activity because I m suffering frm
Myopia and doctor told me nt 2 do any physical exercise
Hr: oh I see, so whats ur power of spect?
I said the same as written in my form
Hr: this is not much
Me: but sir its increasing readily
Hr: oh I see
Hr: how do u increase ur knowledge?
Me: newspaper, internet surfing and interacting with people
Hr: hw many times in a week u go to internet
Me: once in a week
Hr: what do u surf?
Me: said
Hr: which newspaper u read?
Me: TOI
Hr: do u read it daily?
Me: no sir, on weekends
Hr: do u read this Sunday
Me: no sir
Hr: which sections of TOI u read
Me: front page and DT

Hr: oh a lot of pics are there!!
Me: yes sir, I usually read bollywood masala(thank God he doesn't ask anything abt bollywood!!!!)
Hr: so who is ur favourite actor and actress?
Me: sir my favourite actor is Amir Khan and actress is Priyanka Chopra
Hr: which latest movie have u seen of her?
Me: sorry sir, I don't remember
Hr: as a man what do u like in priyanka chopra!!!!
Me: I like her Smile
Hr: what?
Me: sir I like her smile
Hr: oh I see her smile
Hr: tell me ur three strengths
Me: optimist, never give up attitude, don't get angry easily
Hr: hw do u knw tht u don't get angry easily?
Me: this is wht my colleages, parents and relatives says
Hr: when do u get annoyed?
Me: when I see people r taking advantage of someone's trust
Hr: whats ur career objective?
Me: I answered something which shows my commitment to the organization
Hr: do u want to ask any question?
Me: yes sir, I want to know abt training session and hw my job profile will be decided
Hr: he explained me and then asked me 2 leave
Me: thanku sir
Well that's all I was not asked any puzzle or something related 2 studies.

I m also writing some points where my friends make mistakes:

When he asks r u confident on ur % say yes. If u have any doubt clear it after ur interview by taking help of ur TPO etc. Don't show that u lack of confident
Paste ur photo in formals as I hv already told
Don't argue with interviewer. Don't show attitude.
Be POLITE and HONEST. Of course hv gud body lang and eye contact etc etc.
Then after waiting for sometime results were announced and my name was there.
Among Galgotia, 90 were selected.

Good luck friend

INFOSYS PAPER ON 20th JANUARY 2008
Paper Type   : Candidate Experiences
 Test Date   : 20 January 2008
 Test Location : DELHI OFF CAMPUS...Candidate Exp

Hi Guys!!!!
I appeared in the Off Campus conducted by Infosys on 20 - 21st JAN 2008 in DELHI. This was my second attaemp at Infy.... earlier when i appeared for infy, i failed to clear the wriiten test and this time I was one of those MOST UNLUCKIEST GUYSS who got rejected after Interview.   Ya its true guys, infy hardly rejects yo after interview and this too came as a shock to me. I checked my mailbox just today (23rd FEB 2008) and it was heart breaking. normally Interview is very smooth and they dont ask any Tech questions aswell. All you need to have confident, and if you people are thinking that i have something wrong with my confidence level or comm skills, then i must tell you that you r wrong!!!!
I am still wondering what went wrong and why me.. but anyways. no one can do anything about it no....Now Coming back to the Process. The

Witten test was divided in 2 sections: Aptitude and Verbal.

Regarding Aptitude Paper the time allocated was 40 mins. Actually guys i am a bit confused now that was it 30 r 40, but i would say i completed all the questions in the allocated time.
You already would have searched a lot many questions from freshersworld and that defently gonna help you, but i would advise you 2 thngs.Dont waste much of a time on any question as few questions are very very easy (like picture questons).The tough question gonna be the one where you will have to make a table and few options would be provided to you. Like there is a gropus of 7 people. Ram sits close to shyam, Sita dont like shayam allall those stuff. So always keep this in mind that this is the question which will take some taking to

complete it.the pics question are piece of cake and all the 5 questions can be done in 2 minutes (may be in less time then that).

There is a tricky question as well and you need to practise it also. the question is like.... All Benches are chairs, but some chairs are Carpets..... these type of questions.

If you would have prepared for CAT or any MBA exam then you defently would have come across such questions. So just go thorugh these question and the Tabular question.Always remeber that never get panic while solving the paer and dont spend much time on any question except for the tabular 1. your gutt feeling will defently make you aware that which question you can crack and which one you cant. there will be 30 questions so try to complete 22-23 on your own and that too with full confidence and later on if you are not confident of for remaining 5-7 questions then just tick on any answer as THERE IS NO NEGETIVE MARKING.But again what i can tell you is that youatleast need to do overall 20-23 questions correct for clearing this section. So those 23 questions should be done with full confidence and yes i know that you might do 1 or 2 might go wrong which you might be thinking that you have attempted correctly but then there is always a chance that the 5-6 questions on whcih you will be taking chances, 1 or 2 might come out to be correct from them.Over all i would say they have 23 average questions which can be very easily cracked with a bit of preparation (just attempt those question, just have a feel and idea).

NOW ABOUT VERBAL SECTION:
See f you have prepared for MBA exams and have a super reading speed then only go for pasages or else I WOULD ADVISE ALL OF YOU THAT NOT TO ATTEMP PASSAGES 1st. the passages are big and each passage will fetch you just 5 marks, so the better option will be to finish the rest of the papaer (rest 30 question). Many of them are simple grammer questions. and if you get the chance to go through any passage then also I WOULD ALERT YOU THAT 1st do READ 1 or 2 questions in advance and while reading the passage try to findout that answer.again if left out with a passage (whcih means 5 marks) then dont just leave the papaer, atleast mark something. Even i could complete this VERBAL passage, i was in mid of reading the second passage when the examiner alerted me that its last minute, so i just marked the last 3 questions (just like that)......there will be 40 questions nd 22 -23 would again be a good score.always remeber dont go for passages 1st and if you gets the change to complete the whole papaer on time then you can be sure that you will clear it.

ONCE WRITTEN IS CLEAR YOU ARE 90% into the INFY (NOT EVERYONE is UNLCUKY LIKE ME) ABOUT INTERVIEW

Its one of the coolest interview that you could ever had. the HR their just look in for your confidence and communication skills and the team sprit...although i am not the right person to talk about interview coz i got rejected in interview only (but

still what i saw theri and what normally people say is that itsall about confidence)Ya one thing i must add here is that never try to show attitude to HR...... I guess that this is where i might have gone wrong. I wast actully showing any attitude but was sounding to confident that i guess HR might have taken it in a negetive way.... (although i cany say anything).... I just know that infy is a very good company and their selection process is very fare and good. they give proper chance to every candiate to prove his/her worth....

Always wear a smile on your face while giving a interview...And do go through other persons experiences on freshersworld also about how to crack interview.....BEST of LUCK GUYSSS!!!!!INFY and TCS are 2 companies which have the easiest selction procedure..Go on Crack the infy exam and get selcted... I would apply again.. probably for the last time then and hope to see u all then in INFY.....Best of luck and do Pray for my 3rd attempt guyssss!!!!!

LIVE as you HAVE to DIE TOMMOROW.... AND ..... LEARN AS YOU HAVE TO LIVE FOREVER !!!!!!

(1) Written round
(2) H.R.

The Written test consists of 2 sections.
1) Logical Reasoning (30 qs in 40 min)
2) Verbal Ability(40 quest in 35 min)

Logical section consists of 6 subsections of 5 questions each.
Q1-5) (Puzzel test) the avg of 11 prime no's less than 45 is also a prime no….
Then
i. Find the avg?
ii. Which is the min prime no?
iii.Which is the second min no?
iv.Which is the max no?
v. How many no r der greater than 20?

Q6-10 there were problems on figure where 2 figs implies each other & the 3rd fig is given & u need to find the fig which implies it (Do mirror img and water img chapters from R.S. Aggarwal verbal & non verbal)

Q11-15) 5 prob based on data sufficiency. This consists of a question followed by two statements containing facts providing clues to solve that quest. We r suppose to find out which statement is/are sufficient to solve ans the quest.
E.g. what is the avg score of class?
I. There are 26 students in the class.
II. Every student scores in AP with 2 as lowest score
<!--[if !supportLineBreakNewLine]-->
<!--[endif]-->Q16-20) Data interpretation problems. (Little time consuming but easy one. Ref R.S.Aggarwal Quant)

Q21-25) A critical Reasoning Problem like Ann, Boobie, Cathy and Dave are at their monthly business meeting. Their occupations are author, biologist, chemist and doctor, but not necessarily in that order. Dave just told the biologist that Cathy was on her way with doughnuts. Ann is sitting across from the doctor and next to the chemist. The doctor was thinking that Boobie was a goofy name for parent's to choose,but didn't say anything. What is each person's occupation?
Ans: Since Dave spoke to the biologist and Ann sat next to the chemist and across the doctor, Cathy must be the author and Ann the biologist. The doctor didn't speak, but David did, so Bobbie is the doctor and Dave the chemist.

(Now u must have identified all facts) just ans qs asked

Q26-30) Prob based on syllogism. (Ref R.S. Aggarwal verbal n non-verabal Logic chapter) e.g. A. all refils r nibs
B. all nibs r pens
C. no pens r pencils
D. no pencils r nobs
E. all reffils r pens
1.ABC   2.BCD   3.BCE   4.ABE   5.ACD

  3) Fill in the blank with correct alternative. (REFER ANY GRAMMAR BOOK HAVING TENSES)
  4) Deriving conclusion from small passages.

Three suggestions from my side for an interview

INFOSYS PAPER ON 13th JANUARY AT HYDERABAD
Paper Type   : Whole Testpaper
 Test Date   : 13 January 2008
 Test Location : St.francis college,Hyderabad

Hi friends, I am SRAVANI.Hope all are doing well.. I attended Infosys off campus written test on 13/01/08 Sunday at hyderabad ..and got through the test and attended interview on 14/01/08 at INFOSYS campus.. Test results 'll be announced in 3 to 4 weeks as they said. Nearly 600 attended for wriiten and 65 are short listed..

So, Here s the pattern of the written test I attended. No puzzles are asked in the written test. The pattern is changed now.. The test consists of two sections, Logical Reasoning and Verbal Ability.

One week Serious preparation is enough to get through written test..Time management is very important..for dat only "PRACTISE" is the best thing.

cutoff for Reasoning section is "15" and verbal is "20"

1.Logical section:

1.a puzzle was given (ROMAN Numbers puzzle)

I=1,v=5,D=50,C=100,x=1000…and da procedure to solve dem was also given briefly find da value of

1.dxcvixcv (not exactly) and some options were given

2.which of da following represent 1995 and some options were given Like dese 5 questions were given..which are very simple.. But be careful during da calculations.. Try to check dem once again fastly ,.

2. 5 questions on figures..

4 figures were given and we must find da next one..
Very easy figures..if u haqd practiced atleast some questions in RS Agarwal.

3. 5 Data sufficiency questions

1.wen will da 2trains coming in opposite direction will cross each other if da speed of one train is 30

a) average speeds of both tarins is 50

b)sum of lengths of trains is 1000 (not exactly) and some more questions on Data sufficiency ..i didn't remember dem ..

4. 5 questions on Data Interpretation on bar graphs

Not very difficult calculations..

Prepare RS Agarwals's Aptitude book for dis section

5. 5questions based on puzzle..
Prepare puzzle test in RS agarwal Reasoning book.. Once u form a table..u can easily answer 5 questions..dont think dat dese takes a lot of time. P,Q,R,S,T,U,V were friends..dey study in three different colleges X,Y,Z…among dem 4 are male nd 3 are female..two of dem study commerce,one arts ,one science.. And some more clues..

6.simple questions on syllolgism..

 Prepare dem by logical venn diagram method..den u don't need to remember all da 9 rules..for me its very simple questions..no need even logical venn diagram..

1.A enters a room.B leaves da room

A)A is in da room

B)A is not in da room

C)B is in da room

D)B is not in da room

options are

a) AB   b)AD   c)BC   D)BD

and da answer is "AD" .dis are very simple..u must just have logical thinking

2.All dat glitters is Gold

A)A is gold

B)B is not Gold

C)A glitters

D)B does not glitter

Options are

a)AB   b)AD   c)BC   d)CA

answer is "CA" and some more simple questions like dis..didn't remember..

2.VERBAL SECTION:

for verbal I prepared "wren nd martin" … most of da sections in verbal are based on articles,prepositions,Tenses…

1.5 questions on Paragraph .its easy but very long..dont read it..just answer dem at last..by seeing da question try to find dat word in paragaraph and den u can find da answer very easily..

2. 5 questions on another Paragraph

3.Correction of underlined sentence very minor differences will be given and we have to choose among dem

4.completeion of sentences..

5.Theme detection..dat is deriving conclusions from passages..

I felt dis as easy part among da others in verbal section..

INTERVIEW:

My panel consists of 2 old men aged around 55-60..all the INFY HR"s will be mostly aged..asked general Questions like Da 1st Question he asked is Wat's da meaning of ur name?

1.Tell me abt urself and many questions based on which I answered to dis question

2.asked abt Hobbies.i answered playing shuttle nd chess..da next second dey asked how many squares will be der in chess board??

I told 64.

He asked are u cofident???

I answered "yes sir."

He is just checking my confident levels

3.Y in infosys??

4.in which companies did u tried till now??

5.some puzzles..

Dey r not waiting till we complete da puzzle..just observing our approach.

Da puzzles dey asked me are

1.gave 4 points and said me to arrange dem so dat all of dem must be equidistant from each other..

I arranged da points in da form of a square..

Den he sais u r very near to answer..den I said is it a asqure..

Den he said no and asked next puzzle..

2.dis puzzle is from shakuntala devi puzzles book..

INFOSYS PAPER ON 5th JANUARY 2008
Test Date   : 5 January 2008
 Test Location : COER, Roorkee

Hi, friends this is Amit Kumar Singh a student of (ECE) F.E.T, G.K.V., Haridwar and now also an Infosyian. I got selected for Infosys through the Pool placement done by it, at COER, Roorkee on 5th and 6th of January. Here I am mentioning about my experience during the whole placement process.

On the first day, first of all they gave the presentation which was really very great and very well presented. After that the aptitude test was held which started something around 12:40pm and was of 1hr 15min duration consisting of two undermentioned parts.

1. Logical and critical reasoning test 30 questions 40 min
2. Verbal reasoning and English test 40 questions 35 min

Logical and critical reasoning test
1-5Q ------- The question was based on direction in which a person was moving in different directions and we had to answer few quetions related to that.
2-10Q ----- The questions were figure related in which we had to find the correct figure in sequence.
11-15Q ---
16-20Q --- The question was related to DI in which a table showing number of students in different branches during 6 years were given and we had to answer questions having lot of caculations. So I suggest you to do it at last.

21-25Q --- The question was puzzle type in which 5 peoples A,B,C,D,E lived in 5 consicutive flats and each having vechiles which they parked in garage below their flats. Few conditions were given like no one parks his vehicle just below it and so. We had to answer questions related to it like who parks below E and so on.

26-30Q --- The question was syllogism type. In this 6 statements were given with four combination choices like AFC, ACF etc and we had to find the correct logically related combination.

(I recommend you to just go through R.S. Aggarwal Verbal & Non Verbal Reasoning. But prepare well for it. As its one of the deciding factors in clearing Aptitude test.)

Verbal reasoning and English test
1 ---- There were two paragraphs. It will take time so attempt them at last.
2 ---- There were questions on sentence correction in which we had to find correct replacement for underlined part in passage.
3 ---- There were questions on finding the correct sentence among 4 given sentences.
4 ---- There were questions on filling up the blanks with suitable grammatical words.
5 ---- There were questions related to theme dectecion from a small passage.

(The questions are generally easy and related to basic grammar, just once go through prepositions, tenses, verbs, adjective and subject-verb relationship from any grammar book, Wren & Martin preffered. Also go through few theme detection and passage comprehension type questions given in Barron's GRE or any other MBA preparation material. But its all easy not much preparation is required.)

The results of Aptitude was declared at around 5:30pm in which 340 students were selected from around 1200 students of different colleges. From our college 34 were selected among 120 students. I was one among the selected students for HR. We were told to come on following day for our HR interview at 8:00am.)

HR Interview
We were initially made to sit in a room from where we were directly taken before HR for interview around 11:30am. Inspite of preparing a lot I was feeling a lack of preparation before entering for interview but in the end everything went well for me. Here I am describing my enconter with HR.

HR - Amit Kumar Singh.
I - May I come in sir.
HR - Yes come in.
(He stood up and shaked hand with me)
I - Good afternoon sir.

HR - Good afternoon, Okay! Amit give me a copy of your resume.
(I gave a copy of resume.He took my signature at few places and then gone through my resume.)
HR - Okay! Amit you have mentioned about a project on BUS ARBITER WITH MEMORY(which is my project) in your resume.
I - Yes sir.
HR - Explain about the project along with your contribution in the project and the result of it.
I - Introduction.....................Actually sir, in today's world there is growing demand of fast processing for which multiprocessors are used. And for power saving a single memory is used utilising single memory...few technical details..................................it is having 2 components bus arbiter and SRAM..my contributionin in project development.......................................Our instructor gave the initial idea about Bus Arbiter. We then collected information about it from internet and refrence books...........................
HR - Why are you mentioning WE ? Who are WE here ?
I - Actually Sir I did the project in group of two.
HR - Okay! then what was your contribution in project development and who was leader among you two?
I - I gathered initial idea of project from all possible sources. Then I designed the components with the help my instructor. I also encorporated a change by interfacing SRAM with Bus Arbiter..We both did project in group and both of us contributed equally for it.
HR - But there has to be a director, a leader of group, who was he in your group?
I - I did most of works but my partner supported actively and very well to me.
HR - So, you did most of the work .
I - Yes sir
HR - Okay! how did you kept yourself updated during the project?
I - I used internet and refrence books suggested by our instructor.(just tell name of any book)
HR - Whether the books were textbooks?
I - Actually sir, I have attended VLSI traning programme through VHDL programming. So, there were no textbooks or so.
HR - Suppose you are struck in any problem and you are not getting out of it. Then what will be your approach to solve the problem, tell me the steps you will try to solve the problem?
I - I will first of all analyse the problem the problem on my personal level. Actually sir I am in a habbit of analysing and thinking about all my day to day activities before going to bed.

If then also I did not find the solution to my problem I will consult to some other person who will be having more knowledge regarding the problem and try to solve the problem.

If then also I did not find the solution, then i will leave the problem (HR interrupted)

HR - What you will leave the problem in between?
I - No, sir actually I will not leave the problem completely but not let it affect my other works. I will keep doing my other works and try solving the problem side by side. And I am vey much sure that one day I will find the solution to the problem.
HR - Okay! do you have any question to ask?
I - I have heard that you provides the best training in India, Is there any prerequisite knowledge you expect your emplooyes to have before training?
HR - (Explained) Any more questions to ask?
I - No sir.
HR - Thank you! Now you can leave.
I - Thank you! sir.
(He again stood to shake hand with me. Then I left the room.)

After interview we were made to sit in a room for around 1hr 30min where the tension was creeping inside everyone's mind. Finally we got our results announced by chief HR at around 1:30pm and my name was announced too along with 17 other students of my college.

My friends, I want to suggest you all that the major factors deciding your selection are your confidence and your communication skills. And clearing aptitude makes 60% of your selection which is increased considearbly by having good communication skills.

So, friends just try to clear your aptitude test by any means (especially friends cooperation), but remember hard work is must and try to improve your communication skills. I am very much sure that you will make it upto Infosys and even if you don't make it upto Infosys, remember one thing that its only India's number one not the world's number one.

Bye!!!!!!!!

INFOSYS PAPER ON 31st MAY

Hai friends this is Ramakanth frm Nalanda Institute of Engineering &
Technology,Sattenapalli. Recently Infosys visited Vignan College for Off-Campus
selections. Totally 739 members attended selections ,128 cleared the written test
& totally 55 got placed in the Company. Luckily iam also one of the 55 members
who got placed. So i want to share my experiences with u,first of all I thank
Freshersworld for providing information about Infosys.

The total procedure for Infosys selection is of two stages,They r
1)Written test
2)Tech cum HR

Written test consists of 2 papers,they are
i)Reasoning
ii)Verbal

Reasoning paper consists of 30 quos should be solved in 40 mins
first 5 quos are based on Cubes.The problem is: If a cube of dimensions on
3*4*5 coloured with three different colors namely Red,Green,Black are painted
on opposite corners of the cube.this cube is cut down into 78 smaller cubes.Of
these 78 , 73 are smaller in dimension & remaining 5 are bigger than remaining
but of equal dimension.

From these given information 5 quos were asked.They are of this type
i)How many cubes are there painted with red colr?
ii)How many cubes are there of painted on three sides?
iii)How many cubes are there of painted on two sides?
iv)How many cubes are there of painted on only one side?
v)How many cubes are of unpainted? I cant remeber the dimension right ,but the
quos r like these.

Next 5 quos are on Non-verbal reasoning i.e.,odd man out series.This is very
easy section to answer in very less time.Out of 5 quos 4 are straight out frm
R.S.Agarwal Reasoning text book.So read that book thoroughly especially 3rd
chapter namely Classifications in Non-Verbal part to answer these quos.

Next 5 quos are on Data sufficiency,these r also easy ones.repeated frm
previous papers
Next 5 quos are on Data Interpretation,these r tougher than earlier ones.He gave
the graphical representation of the incomes of 8 management institutes of three
years.All 5 quos r on Percentages,so be well prepare percentages & try to learn
speed maths(fast solving) to answer this section.I failed to solve these quos
so i randomly picked the answers bcoz there is no -ve marking.

Next 5 quos are on Puzzle test,He gave information about Six friends about their
heights,weights,gender.First of all u have to analyse the info. & arrange them in
increasing&decreasing order.if u done it u can answer the quos very easily.

Next 5 quos are on Syllogism.Out of these 5 quos 1 quo is straight out frm
R.S.Agarwal book.Others also of same type,if u use Venn diagrams its time
consuming so use venn diagrams in effective manner.

This is all about Reasoning paper.

Verbal paper consists of 40 quos to be answered in 30 min.This is little bit
tougher than reasoning paper if u poor in English otherwise its also easy paper, It
consists of two big passages.the quos on these passages are very easy.If u read
the passage faster then u can answer the quos very easily.Reading newspaper
daily helps to solve this section.

Next 5 quos are on fill in the blanks with word that can fit grammatically &
logically.Thse r also easy & little bit confusing,logical thinking is necessary to
answer this section.

Next 5 quos are on replacing the underlined phrase with suitable option.this is
also very confusing.
Next 5 quos are finding the conclusions for five small passages.This is also
confusing
Next 5 quos r finding the grammatically correct sentence frm the options given

below.This is also confusing but easy if u r good in grammer. Especially they are asking on Perfect tense.so learn it carefully.

Sorry frnds i cant remember the whole paper,i suggest u to read news paper daily & read the Run&martin book for grammer. This is all about my written test. The results were announced at 3:30 pm afternoon,my HR waqs conducted at 9:30 pm night.I waited patiently for 6 hours with some tension. Luckily there are no technical quos only hr.

I entered the cabin & wished my HR,she is a lady ,she also wished me & asked to take the seat. Next she asked my resume & i handled it to her.She asked about my family details. Next she asked "What kind person u are?". Next she asked the justification of all my personal skills mentioned in my Cv.I explained her with suitable examples. Next she asked some crucial quos like "If u cant adjust within the team u r working what do u do at that time?" I answered very carefully & very convincingly. Next she asked about my extra activities other than curricullum.Next she asked about my hobbies. Finally with a clean smile in her face she asked me to leave, I also left the cabin with small smile.

My suggestion to face the HR is Be confident & be truthful. Hope my experience will help u & all the best my dear frnds byeee to all.

INFOSYS PAPER ON 28th OCTOBER AT TRICHY

Hi to everyone.My name is Felix ,from trichy. I attended infosys offcampus interview on october 28th in ANNA UNIVERSITY CAMPUS,Trichy.1224 students attendedt he test.
The first round had 2 sections:
Logical Reasoning section:
Here u need to answer 30 questions in 40 mins.
The CUT-OFF was 15 out of 30.

First have a point in mind.There is NO NEGATIVE MARKING.So attend all the questions.

Dont strike any option in answer sheet and overwrite again.Because it wont be treated as an answer.It will be omitted.

This section was very easy.But needs practice.Refer Non-verbal and verbal reasoning by R.S.Agarwal book.Similar models with clear explanation is given in that book.

Okay now let me recollect some questions which i got in the test.
Que 1to 5:we can complete the 1st 5 questions in 3mins. very very simple. it was like finding the direction.
eg.1.A boy walks 40 km north and then walks 50km towards east.then turns right and walks 30km and then turns right and walks 50km.Now what is the distance between this point and the starting place?
Ans:10km
2.A boy walks some distance towards north and then turns right,walks some distance.After walking some time he turns left and walks some distance and then walks some dist and then he walks at an angle of 45degree towards right and then turns to his left and walks.Towards Which direction was he walking finally?
Ans:North-west
3.A man walks 10km towards west.Then which of the combinations will take him to the original starting position?
Options:a)left,left,right b)left,right,right c)right,left,right d)right,right,right
Ans:d)right,right,right

Other 2 questions i dont remember.But was very simple like this only.
Ques 6 to 10:Here 5 pictures are given and are logically related.3rd picture was missing.It was pretty tough than i expected.I went without preparation for these type of

questions.Better u practice some questions like this.Then u will get idea.All these practise is just for saving time only because u will attend all questions if 1hour time is given.But here u need to attend 30questions in 40 mins.Sopractice sincerely atleast 1week before the test.

11 to 15:Data sufficiency
Refer data sufficiency chapter in R.S.Agarwal(Verbal and non-verbal).Thats more than enough.
The pattern was like
a)if a alone is sufficient to answer the question
b)if b alone is sufficient
c)if either a or b alone is sufficient to answer it
d)neither a nor b is sufficient to answer the question
e)we need both a as well as b to answer the question

Okay,be careful in choosing the option.Read the options twice or thrice and think logically while having an eye over the time.

11.Is $(x)^4 - 2(x)^3 - 34 > (y)^2$?
given a)x is real
B)y is less than 0

i dont remember the Other 4 questions.But easy only.You can easily answer 3 to 4 questions correct.

16 to 20: Data Interpretation
Bar chart or Pie chart will be given.
The problem given to me was a bar chart representing the sales of paint company in 5 years.
And 5 questions were asked like what is the increase in percentage in 1996 to 1995.
Like these only.Simple.
Better try some problems in data interpretation chapter.

21 to 25:Puzzle test
Refer Puzzle test in R.S.Agarwal and work out all problems within a day.U will surely answer all the 5 questions correctly.

The question i had was: There are 8 teachers a,b,c,d,e,f,g,h each teach different subjects.3 teachers are female and remaining are gents.4 of the teachers hold a Ph.d degree.G is a lady without a ph.d.F is a lady with a ph.d.A teaches chemistry.C is a lady teaching biology.D or E dont teach either physics or commerce.the one who teaches law is not a ph.d holder.The one who teaches literature is nOT A LADY.

21)Who teach physics?
22)who is not a lady?
23)which of the statements is false?

a)A-physics,b)B-lady,c)-ph.d ,d)E-maths
24)who teach zoology?
a)c ,b)H , c)C or H, d)cannot be determined
25)which of the statement is true?

All u need is to construct a chart with the details given.thats it u can answer 3 or 4 easily.1 or 2 questions u need to think and answer.Simple.

26 to 30: Syllogisms
Study all 9 rules in R.S.Agarwal and try to solve all the problems and read the explanation for each problem given in the book.Thats it , if u r thorough with the rules,its very easy to finish 5 questions in 5 mins.
Which of the following combinations are logically correct and related to each other?

Hint: First goto the 4 options given.Analyse the combination whether it is logically related?Thats it.simple
26)a)All crows are black
b)All birds are crows
c)All birds are black
d)All birds are feathers
e)All black are claws
f)All black are parrot
a)abc b)ade c)fcb d)cda
Ans:a)abc

Remember conclusion of two statements is different from logically related statements.So be careful in choosing your answer.
27)a)Shyam plays chess
b)There is no need to be intelligent to win a chess game
c)Shyam lost in chess
d)Shyam is not intelligent
e)Shyam is educated
f)Shyam is intelligent

Remaining problems were also simple like these only.So if you plan ur time and attend all questions u can easily score 20 to 25.The cut-ff for selection would be 15 to 18.So if u give correct answers for 18 or more, u r definitely in which is easily possible with some practise.

Next is the English section
Verbal Section:
Here 40 questions to be solved in 35 minutes.Cut-off will be 20 to 22.So try to attend all 40 questions.It doesnt need any practise if ur english is above average i.e. if u r good in the grammatical area.

2 Reading comprehensions:(5+5=10 qs)

Both passage has 5 qs and both were easy only.Dont read each and every line.Just scan the lines in 2 minutes.Goto the questions and come back to the passage immediately and read the concerned lines quickly.U can finish both the passages in 12 to 13 minutes which is quite good.But dont spend more than 15 minutes here.Otherwise u wont have time to complete fully.

Checking Grammar:(8qs)
8 questions with 4 options each were asked.Need to find out which option is correct grammatically and makes sense.Thats it.Dont spend more than 8 mins here.
eg.a)Today farming is very much precarious enterprise among all.
b)Farming today is the most precarious enterprise of all.
c)Farming today is the most precarious enterprise in all.
d)farming enterprise today is one of the most precarious enterprise.

All 8 questions were like these only.If u r quick in grasping,u will finish these 8 qs in 5 mins.
Fill ups:(8qs) 8 questions.

A big sentence was given.And some where in between there will be a blank.U need to choose the option which suits the blank exactly.There were 8 qs here and i found it little hard.So i took around 10 mins.I dont remember any question exactly.They may be a part of a passage related to history,science or anything.Just testing our english.

Small passage:(5 qs)
A small passage like a story was given in 5 lines and 5 questions were asked.Just read the passage fast and goto the questions.4options were given and u need to analyse which option will suit the question.Thats it.U can finish these 5 qs in 3-4 mins itself.

Which is true? (9 questions)
They gave some 3 lines of content in every question and it had 4 options asusual.U need to find out which of the 4 options will be true according to the content given. This was also easy only.

Now after reading my experience,u would have got some idea.I also went to the test after reading these kind of experiences given by some unknown person.Thanks to all of them. thats it.All u need is to have some practise in the related areas and have confidence.Its easy to clear the 1st round.
Then we waited 2 hrs for the result.
144 students were shortlisted for the next round.53rd name was mine.

HR interview:
Once u r shortlisted for the next round means,sit alone and just relax.Calm down and cool yourself.If u think u need some preparations,dont take any book and read.just answer urself within mind some of the usually asked qs like
1.tell about urself,
2.why your % went down in B.E compared to 10th and 12th std?

3.why r u interested to enter IT field?
4.Just make your resume simple.pls dont make it heavy by mentioning unwanted extra details.Questions will be asked only based on the data which u have given in ur resume.
5.Prepare information about ur project.
6.Hobbies
7.If u had any arrears during ur degree,there is a definite question about the arrear subject.Just he will ask what is the subject related to?what does it mean?Nothing else.Just be mentally prepared.

Another thing is fill up the infosys form carefully without any mistake before the 1st round.Because in the HR interview the questions will be partially based on those details also.

Thats it other than these things 1 puzzle may or may not be asked based on the interviewer u have.Just answer boldly whatever u say.Dont say 'i dont know' for any of the qs which he asks.Just try ur level best to answer them.Be positive.It doesnt need that only if u solve the puzzle,ul be selected.Even if u don know the puzzle,they ll just see ur approach towards the problem,thats it.

They said that final result of selected students will be mailed in a month.So im waiting for these 30days..

Prepare well. Wish u all success and all the very best.

Regards,
Felix

INFOSYS PAPER ON 27th JULY AT KOCHI

Hi…am Salman Ali..doin my 7th sem in B.Tech,I.T at Cochin University of Science and Technology, Kochi ,Kerala. InfoSys had com to our college last Friday,27.07.07….am so happy that with the Almighty`s grace I was able to turn that day into another Good Friday..

As u must hav read de other experiences…Infy exam is very simple. All u require is som gud concentratn,time management and ofcourse good preparation.. For preparation I mainly read the experiences many others hav posted at FRESHERSWORLD.COM which helped me tremendously…So let me say…"Jai FreshersWorld!!!!"……

Then as per their advices I went for Verbal n Nonverbal by R.S Agarwal….Also for a few sections I used I.M.S CAT notes which also helped me

heavily…O.k,lets start…

Written test contains 2 parts…
1.logical
2.English

The logical part consists of 6 type of Questions each having 5 q`s…The types are
1.Data interpretation
2.Data Sufficiency
3.Syllogisms
4.Pictorial Q`s
The other two might b anything from Puzzles,Blood relation Q`s, Cubes n Dices.

As for Data interpretatn,it takes gud amt of time,so it wud be best done at last. Topics like Data Sufficiency n Syllogisms I covered from I.M.S notes…Syllogisms do not come as they r seen in agarwal…they give a pack of 6 sentences from which u hav to select the appropriate 2 statements n a conclusion. answer contains 4 options lik abd,cef,eba..etc etc…its very very simple. all u hav to do is go from the answers using trial and error method…. data suff. Q`s com from any part of aptitude. so u hav to b fast in applying your brains to c if the statements r suff or not. its not necessary 2 find the answer…tak care of time…

Pictorial Q`s may b to find the odd one or to find the missing figure. Both are very well given in agarwal(verbal n nonverbal).
For us the first ques was tat card game called Flash..its simple but takes time.i had already done one of them from my I.M.S material(Logical Reasoning).Luckily for me,the same q came.he he he..the answers were (1)74 (2) 26 (3) 18 (4)16 (5){9,9,10}…………..

The final type was related to relations…as in…5 friends stayin in different societies and each of them having a different bank account…and the q`s wer lik who has a acc wher,who lives in society X…..etc etc..it simple….

All u hav to do is tak care of ur time…40 mins for 30 q`s…b in touch wth ur watch…

Now for the English part which is 35 mins for 40 q`s…pls dnt go for the passages..keep them for the end…the other q`s are correcting sentence,fill in ,concluding a para etc etc..if u r week in English try out the verbal(agarwal)..I.M.S notes also help..otherwis it shouldn't b a problem..its simple..but time consuming..so again..tak good good care of ur time….Try answering all..dont think thers negative marking…so mak it a blast…

Then the H.R…I was de first one to attend…it was simple…jus casual talk…actually my H.R was so cool tat I forgot it was an intervw..very relaxed..jus

had a natural conversantn….

And all praise to the Almighty I was one among the 25 selected…47 from 329 had passed the written….really njoyd cz I had not even told my parents abt the exam tat day..so it was a total surprise dhamaka…..yeaaaaahhh!!!!!
nothin technical was askd…prepare for the exam well…not by reading the whole of agarwaal,but by going thru the required topics…

Wishing each one of u reading this All the Very Best. God Bless u!!!!!!
Love,
Salman………….

INFOSYS PAPER ON 24th NOVEMBER AT CHENNAI

Hi friends...I attended the Infosys off-campus held in chennai. Let me tell u the pattern...

1.Written Test
First of all,you have to fill an application. They'll instruct you.Try to do it fast,correctly and check whether you have filled all the details. For infosys, you have to calculate the % right from your first semester. and then,

It consists of 2 parts,
1.Logical Reasoning and
2.English

In Logical Reasoning,
1-5.Dice problem. 6 Dice are thrown and conditions are
i) One die shows always 6.
ii) Three dice shows the same number.
iii) All other dice shows a number not >4. and there is another one condition given. questions are asked according to these conditions... Its very simple to solve.

6-10.Analogy
11-15.A statement is given,and 2 solutions are there(a,b).To solve the statement,
i) A alone is needed.
ii) B alone is needed
iii) Both A and B are needed.
iv) Either A or B are needed.
v) Neither A nor B are needed.

16-20.Data interpretation.

21-25.A,B,C,D,E are there and they belongs to
U.P,Maharastra,Bihar,Westbengal,Hariyana but not in the same order.
Each of them likes a dance such as kathak,kuchi,gurgo,tintin,versh but not in the
same order. and conditions are given. We have to find the correct match. (Puzzle
test).

25-30.Problems like, All mens are cats.Some cats are toys.(Venn diagram
problems).
(Very simple.Keep yourself relaxed to solve it).

In English,
2 Reading Comprehension.
Fine the correct sentence.
Find the correct ordering of the sentences from the jumbled one.

According to me, just come from the options given to solve each questions.
(For English, basic grammar knowledge is enough.But try to do it as fast as
possible)

2. Interview.
No Techinical questions are asked. Just be cool, go and speek genuinely.
No preparation is needed.
1.What type of person you are?
2.what are your achivements?
3.Where you had your schooling?
4.How many companies you have attended so far?
5.Why you didn't get placed yet?
6.What's your hobbies?
7.What is internet?
8.what is intranet?
9.If you are posted in a rural area,and you have only half a day work... Then how
will you spend the rest half a day?

Then they said,the results will be announced after 2 or 3 weeks. Pray GOD for
me to get selected in INFOSYS.
and All the best to all of u,who are going to attend INFOSYS Recruitment
process.

Regards,
M.Uma Ayswariya.

INFOSYS PAPER ON 23rd APRIL 2007

Hi,this is Sunpreet Singh Anand..First of all i would confess that freshersworld
has helped me quite a lot in making it through Infosys. So as per my duty i will try
to help you all as much as possible.

THE WRITTEN TEST PAPER--------
APTITUTE-(30 mins)

1) THE FIRST TYPE QUESTION(1-5) was a puzzle..it was something like there
were 4 guests n the two host sitting on the dining table.the two hosts sit
opposite..no two males sit together(it wa something like tht i dont exactly
remember)..It was quite tricky and i would suggest u to attempt those at the last...

2)THE SECOND TYPE OF QUESTION(6-10) was based on figure...most of
them were adjusted clockwise or anticlockwise..give a try..i hope it works for u
too..

3)THE THIRD TYPE OF QUESTION(11-15) was the general puzzle question
from RS Agarwal a bit time consumingbut u can do it...

4)THE FOURTH TYPE OF QUESTION(16-20)was data intepretion..this was a
simple question like the other br graph questions given in RS AGARWAL..But
was time consuming..So hurry through...Dont waste time looking around..And
always keep calm n cool..

5)THE FIFTH TYPE OF QUESTION(21-25) were the data sufficiency
questions(all of them were numerical)..For solving these questions u need to hv a
knowledge of the data required to solve a question...For example if u have to find
the volume of a cylinder u should know its height and radius..

6)THE SIXTH TYPE OF QUESTION(26-30) was based on syllogism..well
practice them from RS AGARWAL and i will suggest u to try them with the help of
venn diagram and u will do it in a flash..

ENGLISH-(40min) It had 40 questions-
1)TIPS:....just practise from any of your school days books and thats more than

sufficient.and do pay enphasis on GRAMMAR.
TYPE 1) 2 Passages: the lengthiest of the questions...as every prior infoscian i too would suggest to attemp them at the last
TYPE 2) 2-3 lines given with a part underlined(containing silly grammatical mistake) .Take it as a late birthday gift..It cant get easier than that.
TYPE 3) a word was given and the closest meaning was to be selected.TIPS: :read carefully and analyse which is most suited.Its actually general words but or a bit tougher..But u can do it if u analyse carefully.
type 4) 7-8 lines complex paragraph and 4 options to each were given,we were supposed to relate each sentence with the paragraph and
choose the one which can be directly concluded from the passage.These were quite easy.I suggest you try these with a calm mind..

THE RESULTS FOR THE WRITTEN WERE SCHEDULED AT 3.30 BUT WERE DECLARED AFTER AN HOUR DELAY,59 WERE SHORTLISTED(however everyone was expecting the figure to be a lot more than this) IMMEDIATELY AFTER THE RESULTS THE STREAM OF INTERVIEW STARTED.

MY INTERVIEW----
A general Infosys interview lasts for around(15-20 min)..But my interview lasted for about half an hour.

TIPS:Be through your resume completely..You should know every bit and pieces of it and be prepared to be questioned on anything from your resume..

Also be aware of some general topics like the chief ministers of some states,the presidents of countries,editor of the newspaper you read,and the current events happening around.

Be very well prepared with your interview ad its presentation..The first impression does make a big difference..Try to be as confident and show yourself as cool as possible..Keep a smile on your face always.. Communication skill is very important and is the most important requisite for your selection.So get down to work on your communication skill..Try to add a bit of humor during the interview if possibe(but make sure its sensible and not a double meaning anyways).

They will give you possible DONT PANIC if u cant get through it ,but keep trying until he asks you to stop...

BEST OF LUCK.HOPE TO SEE ALOT OF PEOPLE IN INFOSYS.

INFOSYS PAPER ON 22nd NOVEMBER 2007

Hi Friends i wanna Share my experience of My Infosys Xam held at Lovely proffesional University Jalandhar

The Procedure to get a call Consist of 2parts
1. written Test
2. Interview

1. WRITTEN TEST
It was the main Screening it has 2 part

A.Quant/ Data---> it mainly conisist of Puzzles 5-10 Questions , syllglism 5 question ,Data sufficency, Gernal Question of Data interpetraion based on graphs etc.. I suggest start with Syllogolism then go for Data sufficency then with DI at last Touch Puzzles puzzle r not so tough , for all these reccomend R.S Aggarwal. just do a lot of practice for this from same book so u can gain a good speed asits too lengthy and to Finish in 40or 50min do this on your full pace There is No -ve marking so if you aare not able to Finish at Time at least mark random options for Rest I soppose min 25 marks r required for the cut off.

B. verbal----- The main questions were consist of Gramatical Fillin the blanks simple knowledge in grammmer is Cool it also constitute one RC it was very very easy but Tme consuming so if you dont have a Good reading speed then do it in the End.

C.MINE:---- I cleared the Exam for quant isuppose the cut Off is about 25 marks out of 40 questions , and in case of Verbal itsaround 17out of 30 question

2. Interview:
in this Interview basically consist of HR its not so tough the Pannel consist of 2 sir those were very cool with happy Basically they were checking is the confisence in the candidate, the basic Mantra to Overcome this is SMILE on your face. which helps u a lot , see they r not giving you Job fot Sympathy sake . seceondly have full knowledge related to your resume you Not Ned to have any Knowledge related to any language etc etc...

At Last they Checked my Documents take one Photostate copy of all the DMC and now after 6 weeks aprox they had called me BY the GOD's Grace i got selected now packing to move for the Dream Company the Largst IT company.

INFOSYS PAPER ON 22nd MAY AT VISAKHAPATNAM

hi all frehsers, n engineers....recently infosys visited our campus (ANITS, Visakhapatnam) on 22nd may 2007.233 candidates appeared only from our coll. and at the end 99 made through.

The written exam pattern is completely changed it consists of two sections :
---Reasoning
---Verbal ability

In Reasoning all over 30questions were asked for 35minutes
1st five questions are of "Number Ranking and sequencing"

few questions which i remember:
1. IF Ram's rank from the beginning is 10th in a classroom of students and ranks 12th from the last. how many students are there in the classroom.
ANS. 9 students before ram +ram+ 11 students from end==== 9+1+11=21
similarly some models of above..

2. IF therre are 31 students in a classroom and if ram stands 13th from beginning ,wat is his rank from the end.?

3. IF Ram ranks 12th from beginning and Shyam ranks 11th from end . and if Ram and Shyam exchange their places. then Shyam's rank from end is 15th from end . wat is the rank of Ram from the beginning now?

4.& 5. similar model.
6----10 questions were based on missing figures ,
11----15 were based on DATA SUFFICENCY (easy ones only)
16--20 were based on data interpretation
A pie chart which gives the distribution of the "times group magazine"it consists of two cirlces ,the incircle gives the disturbution of one newspaper "times of india" and the outcirlce gives the distribution of " indiatimes.com" on same parameters.......
5 questions were asked on this piechart
doesnt need much of calculations...

21--25 seating arrangemnt of 11 students A,B,C,D,E.F,G,H,I,J,K. (4 CONDITIONS WERE GIVEN LIKE)
D ,who sits to immeidite left of E,is 2nd to the left of C.

26----30 "SYLLOGISMS" we have to draw the conclusion of two statements which are logically connected,,,it is based on distribution lists of subject and predicate in both statements,..verify " logical reasonin g by r s agarwal,or time material of reasoning"
example: some cats are dogs.
all dogs are pigs.
the conlcusion for this is " some pigs are cats"

the second paper is " VERBAL; ABILITY"----OBJECTIVE--40MIN

1---5 READING COMPREHENSION
5--10 READING COMPREHENSION(ONE EASY ONE TOUGH)
11---20 Find the correct statement from the options(grammer part jjust go through all ur basics tenses , prepostions)
21 ---25 a statement is given where the underlined phrase or line has to be corrected we have to find the right choice from the options;< again tenses>
26---30 fill in the blanks with the right option there again
tenses ,prepostions,,conjunctions,,
30---40 logical reasoning where a certain situation is given we have to find the conclusion of it or the assumption of the author...
in verbal ability time management is important ...

INFOSYS PAPER ON 21st JULY

HI FRIENDS,

I AM SWATHI FROM GNITS , GOT PLACED INTO INFY , N I HOPE THIS PAGE HELPS U ALL

TEST PATTERN:

1. APTITUDE and VERBAL

2. HR

NOTE :(we were given an application form of infy we were asked to write it before the exam had started)

APTITUDE:

All questions were of REASONING type -----30 questions(R.S Aggarwal reasoning book is more than enough)

here time management is very important

One question was time consuming for me and

that was from the puzzle test so be prepared wid all 7 models of PUZZLE TEST

we had DATA INTETERPRETATION and as i couldnt solve the 1st question properly i had to solve this

so dont waste time for the questions u cannot solve instead do the one which is easier n refer(r s aggarwal quantitative aptitude for this)

mostly bar charts,tables and pi charts are given(we were given a table)

5 questions were from FIGURES

we were given 3 figures followed by a '?'

in this the 1st two figures are have some relationship b/w them n based on that we hav to pick an answer figure which matches the 3rd figure

Submit your resume to cvs@123eng.com

this was an easy one

5 questions were from SYLLOGISM

this was a bit different from wht i thought

they give 5 statements naming them a,b,c,d,e

then the answers choices were like 3 were paired eg:1)abe 2)dbe 3)aeb 4)dae

n we hav to find the pair which corretly matchs it if u do r.s aggarwal n r perfect wid all rules of syllogism i dont thing this would b tough

5 questions were of DATA SUFFICIENCY type

i felt this was easy

the questions i remember were from mensuration,length of train,ages of people

thts it in this part, we were not told the cutoff but i think its better to try for atleast 20 out of 30

VERBAL:

40 questions were there

i scored 24 marks

there were 2 RCs one was of 2 pages i attempted in the last 5 min but i did it well i believe

then we had

correction of sentences

fill in the blank with correct word

around 5to 6 passages for which we had go choose the correct summary

u hav to read these very fast

time management is very very imp. here

do not waste even one min looking here and there coz tht one min costs a looooooot

finally i was called my name for HR n i was on the top of the world

i actually got thru wipro also but the joy of getting into a dream company is just great

one should definately experience it

HR:

One important thing is tht dont think tht its just HR

u should always remember tht there is one more hurdle to pass

in my 1st interview i hav learnt a lot "wht to do n wht not to do in the HR round" so if u hav not yet been placed then first analyze why tht has happened n try to improve on that coz there r huge oppertunities in this world

some way or the other u can get thru once u improve on ur flaws

so be confident and dont be jelous abt the ones who hav already got its a very bad thing

My HR round was coool

HR: come in swathi

me: yes sir

HR: cmon take ur seat

me: thank u sir (he had asked my resume and asked me to sign on it n also at few places on the application form)

HR: so ur father works as so n so

me: yes sir

HR: so where does he work

me: said

HR: do u hav ny bros or siss

me: said

HR: whr did he do his scholling

me: said (so be prepared wid ur family members' details also)

HR: so ur hobbies r travelling n music

me: yes sir

HR: whre hav u travelled

me: said a lot of places in India n i mentioned tht i like cold places

HR: k then which was the coldest place u saw

me: shillong in winter, then comes munnar

HR: so would there b snow fall fall

me: (me sadly)no sir yet to see such a place once

HR: do u like travelling coz of ur fathers transferable job

me: no sir even otherwise i never miss a chance to travel

HR: he gave me 3 topics and asked me to speak on 1

me: spoke abt supermarket (he was impressed)

HR: is there an incident in ur life whr u hav improved or had to changed ur work culture

me: said

HR: then she asked me abt my paper presentation(it was on face detection which comes

under AI)

HR: how would u explain to a 7th class kid abt AI

me: i definately had an answer for tht so i answered n i think he was happy wid my answer

HR: k swathi there r 6 matchsticks here arrange them so that "each one touches one another"

me : i could make 5 to touch each other but not the 6th one

HR: then he asked me to make 4 equlateral triangles with those sticks

me: (the answer is to make a pyramid out of it)i almost did it then he sait to leave it aside

HR: k so wht sports do u play

me: i enjoy playing badminton and these days i hav started playing TT too n i njoy tht too

HR: do u hav ny questions

me: asked 2 questions n he had answered them very patiently

HR: k then u can leave now and cal the next person and ALL the Best

me: thank u sir

and that was it i thought i did well & finally i got through so hope this has helped u all & ALL THE BEST to Alll U Freshers

& Never forget to have fun coz its already too late....

* 5 ques on Data Sufficiency.
* 5 ques on Data Interpretation.(Learn abt. Bar charts,Pie charts,line graphs,etc...)
* 5 ques based on an anlytical problem.(Here v have to corelate the given facts with the help of a table n in our paper it was a bit difficult)
* 5 ques based on 9 rules of Syllogism.(plz learn the 9 rules of syllogism from R.S.Agarwal perfectly so tht u can answer thm very easily)

The way i have answered was...first i answered data related ques i.e,abt the cube colours n thn syllogism ques,next odd fig out n thn data sufficiency next data interpretation n at last analytical problem....In this way I was able to answer most of the questions....

2.English: In this section the time alloted is 35mins for 40 ques. It consists of,
* 10 ques on Comprehension passages(v will have two long passages given n 5 ques each based on each passage.plz don't start with this...)
*10 ques based on Correction of sentences(don't start with this also)
* 7 ques based on correcting the underlined phrase.
* 7 ques based on filling with an appropriate word.(Better to start with this)
* 6 ques based on paragraph n inferences(easy)

On the whole,the paper is not tht much hard to tackle but our reading speed n understanding power plays an important role...Let me tel how I have answewered it in time...first i started with filling the appropriate word,next correcting underlined phrases n thn paragraph inferences n thn correction of sentences....n thn i was left with 10 mins...now i read the questions n the options given for comprehension n thn i searched for the answers in the given passage....so in this way I was able to answer most of the ques given...in this way i was able to answer my paper within time...whenever u feel a ques is a bit difficult plz leave it n go for the next one...don't waste even a single second...

Our test was completed by 1:20 n our results were announced at 5:30p.m n thn v had our

HR interview immediately....a total of 51 members out of 150,were selected from our colg after the written test. Now let me share my HR interview experience....

HR Interview:
There was time after announcing the written test results...so I was a bit tensed but not much (bcoz i was already selected for another company) n whn i entered the room, I wished the interviewer with a pleasant smile n he too n asked me to take the seat...first he started with technical quetions based on Microprocessors n thn on Operating Systems...i was able to answer most of thm....all the questions were based on purely basics of the subject...next he asked me to choose a general topic n speak on it...I hav choosen Child Labour as my topic n I was able to perform well bcoz i always participate in debate n elocution competitions....thn he gave me a paper whr a situation was given n i shud find the place whr actually the problem arised n thn how could i help to solve it whn i was in tht position....i gave him two solutions but he want something else more...i was unable to give another solution but he made me to tel tht solution by giving me the hints....and at l last he asked me whether u hav any queries...i asked him abt wht exacctly is Global Delivery Model(GDM) tht is followed by Infosys...n thn how is the performance appraisal done in the company n the last ques is whether i hav any chance of doing my MBA in future...he answered to all the ques n i said thnk u n thn he said thnk u n u can leave......I was not fully satisfied with wht i answered but I was satisfied with my body language bcoz i was smiling pleasantly throughtout my interview.....this is an important thingh to remember...even if u r tensed be cool n perform well....At last the final results were announced at 9:30 p.m. n when my name was read I felt really happy...21 members of my colg were selected.....First of all thnx a lot to all the members who contributed their papers which helped me a lot for Infosys selection....and hope my paper will help many more students....

All The Best for the future Infosycions....Hope everyone will be selected.....
Bye my dear frnds........

Paper Type : Whole Testpaper
Test Date : 18 November 2007
Test Location : Mt.carmel college, Bangalore
Posted By : Bharath

Hi, this is Bharath, Initially vote of thanks to the people who have helped me in cracking the infy by giving their experiences.

The process consists of two rounds, now a days infy is conducting three rounds which consists of one technical & hr. During my interviews some of the people have undergone 2 rounds of interview, so be prepared, u may interviewed once or twice, depending upon their requirement.

In this first thing is the written test, and during off campus short listing of candidates will be very less, and the short listing will be mainly based on the English test which is of 40 marks, & I think one should get minimum 30 marks for getting short listed, and u al well know that interview is lite.

In case of Reasoning test, there will be one hard puzzle & one easy puzzle, easy puzzle can be solved easily if one solves all the puzzles in the non verbal reasoning, easy puzzle 4 me is there are 5 teachers, each teacher teaches a subject, no teacher teaches more than two subjects and another clue stating the teacher's subject & day of teaching and questions are which teacher teaches the subject, on which day does this teacher teaches and so on.

Coming to hard puzzle there are three frnz x,y,z. x has an amount of rs.160, y has an amount of rs.120, z has an amount of rs.80. and the man who have highest amount of money has to give the half of the difference between the two members, and this process stops if the difference between any two of the members is less than rs5, and questions are like wat is the final amt at x, how many iterations will it take to stop the game and so on. In case of hard puzzles, the infy people are just copying the examples 4m the IMS material for CAT, I have said this as me and my frnz got the puzzles 4m it, and theres no even change in the numerical, so try 2 go through it once

And data interpretation do it in the last, and the calculations wil be very hard so do only rough calculations not exactly

(and u people can note the questions on rough sheet as they wil take only question papers but not the answer papers, so if u have time left out u can solve them)

And next 5 question based on series (but we cant say that every time they give only series they may also give odd man out as one of my friends got them) and

the questions are very easy

And next 5 questions on syllogisms, and I can recollect just 2 questions,

find the area of triangle
height of the median is given
two sides are given
Find the length of the cord
If the diameter of the circle is given
And the angle made by the sector is 60deg

Coming to English, u must have strong grip on tenses as u can gain 15 marks if ur strong in tenses as u can get 5 marks 4m fill in the blanks with appropriate tenses, and 10 marks 4m correction of sentences,

And coming to pattern of the English, consists of two comprehension passages, 5 fill in blanks, 10 correction of sentences (in case of correction of sentences corrections are based on tenses, direct& indirect speech, active& passive voice) and find the logically correct sentence

And they gave the list of short listed candidates in the evening and they have selected just 92 candidates out of 900, and they scheduled interview on the next day at Infy's corporate office

I got scheduled at 11:30 am, but I went to the interview panel at around 3'0 clock, and the interview experience is as follows, my panel consists of only one hr where as in some other panels there are two people

Me: (entering into the room) I wished him good afternoon

Hr: please close the door, and be seated Mr. Bharath

Me: thanq sir

(In the whole interview, he hasn't asked me the deadly questions tell me about

urselves, y infy should hire u, y ur choosing infy)

Hr: k, wat r ur hobbies

Me: playing computer games & tennis

Hr: tennis means table tennis

Me: no sir, clay court tennis

Hr: oh, grass court tennis

Me: no sir, clay court tennis (this is just to check ur confidence level)

Hr: where have u learnt this game in schooling, puc or engineering

Me: during my puc sir

Hr: he went through my resume and asked about the achievements

Me: I replied him well

Hr: he asked about the organizer 4 pp in my college (as I have written I'm the organizer, volunteer in naco in my extra circular activities) he said, k I'll agree that ur organizer of the pp in ur college, can u tell me which section ur college people have allotted 2 u

Me: I said that they have allotted me undertake the participants lodging & boarding

Hr: where is lodging provided?

Me: in my college hostel

Hr: how many colleges have participated in the pp?

Me: totally 12 sir

Hr: can u tell me at least 4 of the names

Me: I told

Hr: then he asked haven't u given any pp

Me: (actually I haven't given any pp) yes sir I have given but I haven't stood in first or second places, so I haven't mentioned in my resume sir

Hr: k, on what topic u have given?

Me: in my electrical subject sir

Hr: k, topic

Me: on nuclear power generation sir

Hr: that every one knows

Me: sir v explained in depth (so don't loose ur confidence level even ur bluffing them)

Hr: any achievements in sports

Me: no sir

Hr: I think in schooling they wil conduct running race etc

Me: s sir I have participated in them, but I haven't stood in 1 or 2 positions

Hr: he then had a glance of the resume and I placed c in my computer skills, so u know C

Me: sir, I'm not a king in it sir, but I know it

Hr: then he asked me a few questions based on c, like wat is a variable, wat is a ptr, wat is a union, wat is *, wat is &

Me: I answered al those

Hr: & then he asked me mark lists and he had glance of them and returned them

Hr: Doesn't u have the extra circular activities certificates

Me: sir, I have them sir, but I haven't brought them

Hr: k

Hr: Have u studied any thing other than academics

Me: sir I have learnt VB sir around 2 years back

Hr: oh vb, I knw, so u have learnt visual basic 6.0

Me: s sir

Hr: where have u learnt this?

Me: I said its not a named institute

Hr: k no probs, tell me the name

Me: I told,

Hr: y have u chosen that?

Me: My friend joined in it initially sir, and he told that he is teaching nice and one can grasp easily and so I have joined it sir

Hr: so can u tel me the chapters in it

Me: said some topics and said sorry sir I cant recollect properly as I have learnt it 2 years ago

Hr: k fine, and gave me a puzzle which is damn easy, 2,3,4,5,6 are the numbers u have 2 choose 3 no's out of them and fill a 3x3 matrix in such a way that the sum must be 11 along the horizontal and vertical and repetition is allowed

Me: In tense, I have forgotten the condition and tried 2 solve and after a brief period he reminded me of the conditions again, and finally I have done it

Hr: k fine, do u have any siblings

Me: s sir, one elder sister and got married

Hr: k do u have any questions?

Me: During the job whom I have to consult periodically and how wil be he and another one is recently I have seen that TCS in collaboration with HP built a supercomputer and y not v

Hr: he answered 2 my questions, and asked 2 leave

Me: said thanq and left the place

That is my whole interview experience, so guys be confident, they look ur confidence level initially and then ur communication skills.

And the guy outside the panel, wil chek ur certificates and says when wil be the results announced, he told 2 me that results wil be announced in 6 weeks

All the best, and hope 2 c u all the people at infy

INFOSYS PAPER ON 18th JUNE

Hi friends.I am sri deepthi.I got selected in INFOSYS held on June 18 at GEC.Out of 750 students attended, 43 got selected and I am happy that I am one of them.

Pattern of selection process:
1.Written test
Section 1: Reasoning.(30 Questions,40min)
Section 2:Verbal.(40 Questions,35min)
2.HR interview

1.Written test
Reasoning part of Infosys pattern is very easy.The topics included in this are
1.Syllogism (5 Ques)
2.Data interpretation(bar,pie charts) (5 Ques)
3.Next figure in series or sometimes find odd thing(5 Ques)
4.Puzzle test(5 Ques)
5.problem on ages(5 Ques)
remaining Ques are from any of the above. All the topics are there in RS.Agarwal.For Data interpretation also refer CAT and GRE materials. In problem on ages 6 to 7 people age relations will be given and we need to find who is elder, older, order of persons in terms of ages.

Coming to verbal part ,it is little bit tough.The topics includes
1.Comprehension passages(2 passages,10Ques)
2.Choose correct sentence without any grammatical errors out of four(8 to 9Ques)
3.Critical reasoning Ques(7 to 8 Ques)
4.Fill the blanks according to context given(10 Ques)

For Verbal section refer CAT,GRE ,GMAT materials.One point is answer the passages at last because the passages are too long.Time management is required to attend this section successfully.First the verbal paper will be corrected and only if U reach the cutoff U'R reasoning paper will be evaluated.So pay more concentration on verbal part.

2.HR interview
After getting through the written test,interview is the next step in recruitment process. My interview was cool.The HR manager created a environment that made me feel like I am talking to my family member only.I entered the room with pleasant smile with no signs of tensions on my face.Interviewer didn't even ask me to introduce myself.

some of the Ques are
1.value of squareroot(2i)
2.It's raining at 12'Oclock morning and so there is no sunshine.Will there be sunshine after 38hrs.
(ans:It will be night.so,there will be no sunlight)
3.Using 1 to 9 numbers fill a 3by3 rectangular box such that sum should be 15 if added horz,vertical,diagonally.
4.how will U decorate a pencil that is given to a child
5.2min Jam on the topic given by HR manager.
6.As I am from E.C.E stream some Ques regarding my subject and so on.

Later on I faced stress interview.HR manager used tosay"Deepthi U are having very good academic percentage and I think U didn't taste the flavour of failure.So,I will try to fail U".Even during the time of stress interview I maintained pleasant smile.Results were announced at 9:30 and I got selected.I thought I won the day.

So be confident with pleasant smile on U'R face.ALL THE BEST.
Hope to meet U in INFOSYS.
Ch.Sri Deepthi.

INFOSYS PAPER ON 14th MAY

hi everyone, my name is anubhav sinha , a student of chemical engg. at NIT surat . on 14th of may 2007 i got selected in infosys... and i would love to share the experience with all of you.

that day we all saw the ppt by the company and the most interesting part of it was the video of their mysore campus... it was excellent .also they showed us a record of tremendous growth prospects in infosys and so many of us ,sat for infosys although it was offering 2.7 lpa only initially..

so let me now come to the question paper part. their were 2 papers - paper 1 was of logic , reasoning and paper 2 of english .i am giving a detailed description of both these papers. paper1 : it was of 30 marks and of duration 30 minutes ..no. of questions were 30.

question 1 was of a cube painted with 3 different colours on opposite faces and of side 15cm , each side cut into 5 equal parts there were questions like
how many cubes will have 3 faces painted?
how many cubes will not be painted ?
total five questions were there regarding cubes.

next 5 questions were of non verbal reasoning where you are given different figures ina particular order and you are asked to find the missing figure . they were easy ... need not worry !
then 5 questions from data intepretion . a simple table was given and very easy 5 questions were asked .... then 5 questions were from data sufficiency .a good knowledge of geometry was required for 2 of these questions ..rest 3 were only logical .. easy ones
then 5 ques. were from blood relations . for this ques, i will advice u to make tree diagram bcoz there will be 7-8 names ..... tree diag . will make it easy .
and last 5 questions were syllogisms .. use venn diagram approach for this... these will be easy too .dont worry .
so , overall logical paper will be easy and you should try to score 25 or above in it although mine was 20 !!!(remember NO NEGATIVE MARKING)

next comes the tough part ..English paper .. 40 questions - 35 minutes -1 mark each it will have a long comprehension ,followed by a short comprehension . (5 marks each)(NEVER START FROM THESE 2) 3rd question will be "correct the phrases" (START FROM HERE)(10 marks) followed by 10 " fill in the blanks " type . this part will be easier (ALTHOUGH NOT EASY) .
next there will be 5 questions of the type where you are given 4 statements A,B,C and D and you have to form a meaningful paragraph .(BE CAUTIOUS HERE) this part can bring differences . last 5 will also be interesting . a sentence will be given and out of 4 ways given ,in which this sentence can be written ,you will have to chose the correct one .
(OPTIONS WILL BE VERY CLOSE AND SENTENCES WILL BE LONG SO U WILL HAVE TO READ VERY FAST .) NO NEGATIVE MARKING HERE ALSO SO ATTEMPT ALL THE QUES. my score in this section 27/40.

so a good thing occured with me that mine was the first name to be called out in the list of shorlisted students for interview.... !!!! out of 150 (approx.) they took 75 for interview.

as i entered the interview room , i wished my interviewer and with his permission took my seat.. he asked for my resume and without asking for my intro. told me with a smile " so,mr. anubhav , you have done very good in your paper " . my paper was kept there only and i saw my marks ..!!!!!! so he started with my family and asked about my parents , and my siblings . i had 87 % in class 10 and 70% in class 12 .. he asked me the reason . i told the truth that i didn't used to study economics , computer and english literature ... that is why i have ess marks .. he was satisfied ... them he asked why i have 6 pointer in 1st year and 8.5 pointer consistently from 2nd year onwards ... i told him that sir, i prepapred for and qualified in IITJEE 2005 , but i refused b.arch offered to me in IIT kharagpur bcoz i didn't like it .. i wanted to do b.tech ..... he was happy to know this ..

next he asked me 3 puzzles ..

puzzle 1: if i have 3 daughters and each daughter has a brother , how many kids do i have?? (ans: 4)

puzzle 2: there is a pole 12 feet long and its shadow is 3 feet long.. if the height of the pole increases to 20 feet , will the shadow increase or decrease ???? (i confidently said decrease only to realize later that it will increase)

puzzle 3: suppose i work in a process industry and i come to know that after 3 days i am going to have a [power cut of 4 , 8, 6,6,6, hours resp. on each onsecutive day , how will i handle this ???

this was the end of my interview and he said "' that was nice meeting you " after a few hours results were anounced and 74 were finally selected
so take a word of advice , try to do well in your paper . if you do good in your paper and are selected you are already 90% in ..!!!

ALL THE BEST !!! SEE YOU IN INFOSYS !!!!!

INFOSYS PAPER ON 13th JUNE AT PUNJABI UNIVERSITY

Hi Friends, This is Maheep here from UCoE, Punjabi University, Patiala. Infosys visited our campus on 13th june, 2007 and recruited 87 students out of 219 (shortlisted 126 in written test) who were eligible. Luckily, with Gods grace, i was one of them.

It was a 2-day program:-
13th - Presentation and written test
14th - HR interviews

Presentation:-
Listen carefully, whatever the presenter has to offer. From company details to its structure, company stats. to its latest achievements.......listen v. carefully. Not only it will tell you about the company but also it will enlighten you on all the traits that it is lookin 4 in an INFOSCION. It will give you the knowledge that you ought to know about the company.

Written Test:-
It consisted of two parts:-
1.) Logical Aptitude (Verbal and Non-Verbal)
There were a total of 30 questions which we had to do in 40 min. First 5 questions were on CUBES. A cube was given and its faces were painted with different colours and we had to answer all 5 of 'em based on the given information.VERY SIMPLE....take this as a GIFT!!

Next 5 questions were on Figure Matrix..i.e. relating to figures.We had to find from the options which figure would follow the figure series given in the

question....required spontaneity of mind.Some were easy while others were a bit difficult.

Next 5 were on Data Sufficiency.Again very easy...Take these as a gift!! There was no direct queston on blood realations as such but it came indirectly in data sufficiency.

Then, next 5 questions were on DI(Data Interpratation). It was very difficult.No 'R.S. Aggarwal' would suffice to crack DI.Must practise from CAT material.

Next 5 were based on a PUZZLE(George J. Summers type).It was easy but time-consuming.R S Aggarwal would suffice.
Last 5 questions were the easiest of the lot. It was on Deductive Logic (Syllogism). Free marks coming your way!!

NOTE: no QUANT.

All in all the paper wasnt that tough but it required a hell lot of concentration.No doubt, anyone would have solved it if given unlimited time.But then again its the time contraint that makes a difference.Concentration and Spontaneity of mind are the key words to focus upon. Jus go through the above topics from 'Verbal and Non-Verbal Reasoning' by R.S. Aggarwal.
I think 2 days of hard work is more than enough to do these many topics. (I myself spent jus 2 days on it!!!)

2.) English
I, personally, found it easy.But since i have to go with the majority, yeah people had problems answering these questions. I think if u read newspapers and converse in Eng. regularly i dont think it should turn out to be a hurdle. It had 40 questions which we had to do in 30 min. More or less, CAT pattern.2 RCs(total of 10 questions) and rest were all contextual based questions like 'to find the most appropriote from the option.........'

Still if you had to prepare something revise Tenses and Prepositions from 'Wren and Martins'

MY personal expereince - u dont need more than 2 days to prepare for its test.(CONSTANT and SINCERE effort each day should do the trick!!)

HR Inerviews:-
There were 6 panels, each had its own way of taking the interview.If one was stressing on Puzzles, the other bothered with GK and Curent Affairs.One was also goin towards technical side(just on basics..need not worry!!) while the other was stuck with ur resume and hobbies.

Which panel in store for you was on luck!!! i got the panel that stressed upon

puzzles and resume.
few questions he asked:-
Introduce yourself?
Family background? Your father's qualification?
questionnaire on your achievements?
Then he gave me a situation that if i were to organize a declamation contest, how will i?
Asked a bit about hobbies.
Then he gave me 2 puzzles(1 was a situation and the the other was an alphanumeric problem like we have in CAT)
Note: no puzzles were from Shakuntala Devi (if you are smart they are OVERsmart!!!!)
then he asked me if i had any questions from my side.

To be honest, SELF-BELIEF CONFIDENCE COMMUNICATION SKILS are the key words to crack an INFY interview.

They dont stress on your technical knowledge (they know they will make you technically sound durin trainin) Whatever happens you jus dont have to lose your cool.Jus stay calm an answer confidently.

Remember 2 things:
DONT FEIGN INTELLIGENCE.
HONESTY IS THE ONLY(and not BEST) POLICY

Anyways, that jus does it as far as my experience goes.

ALL THE BEST TO ALL MY FRIENDS WHO ARE PLANNING TO CRACK INFOSYS!!!!!

INFOSYS PAPER ON 12th JULY

Infosys pattern
there were 2 sections
1.English (40 question 35 min)
2.verbal (30 question 40 min)

we were told to be reported at 8:30 in the morning nd at about 9:30 infy representator sudhir mishra gave us a ppt about infosys. The presentation was really good nd everyone was impressed by the ppt. he told us that the pay was Rs.3 lacs per annum frm 2008 batch. He showed us movie of mysore infy campus. we were then sended to exam halls. they gave us a form fill upon: we have to fill all the details in it including references inside infy and ur total marks in 10th,12th and degree,etc

then they first gave us english question paper it contained
1-5. big passage
6-10 small passage
11-20 pick correct sentence among four choices
20-30 correction of sentences withe the help of choices given below
30 -40 fill in the blanks with appropriate senteces given below(remember there were not words they gave sentences)

I started withe correction of sentences as passages take time nd den wid fill in the blanks den pick correct sentence den small and den big passage
The passage was really easy becoz i didnt read the passage first becoz there were too big, i first read the passage questions noted the key words and den spotted answers using the keywords. it saved me a lot of time becoz u dont need read the passage fully.it may be easy for people writing GRE or CAT

2. verbal
1. puzzle
2.analogy in non verbal
3 data sufficiency
4 data interpretation
5 again puzzle
6 syllogism,venn diagram method

the first puzzle was something like this there are some 6 notes of rythms E,F,G,H,I,J,K and they were arranged from lower to higher(this means that higher notes come last reamember this many of us went wrong here itself)and some conditions are give like this
J lower then k
H is highest note
E was higher den F
I some where between E and F
and dey gave some condt abt G also i dont remember it preperly if u take this data if u will get position of only H and u will be knowing only dat E and F will not come together and I lies somewhere between dem it means that there may be another noteses between E and F. the questions were

1. which of the following may be definitely not true?? a. G is in 2 place b
b. I takes 2 nd place
3 I takes 3rd place nd someother thing
2 Assume j takes 3rd place den what of this may be false?
3.If J takes third place den.............................

next analogy
this time I got anology in non verbal, it also may be find the missing figure in sequence, odd one out of the figures,wht comes next etc
data sufficeiency
here we cant expect wht we may get

data interpretaion

INFOSYS PAPER ON 11th NOVEMBER 2007

The Exam consists of two sections

1. Aptitude and Logical reasoning

2. English

In the first section there were 30 questions and the time limit was 40 minutes.

Four Friends A, B, C and D are living in a hostel. One day A's uncle came and gave him a box of laddoos, According to their rule whatever they get will be equally divided among them. So A divided the laddoos into four equal parts and he ate his part. Then B came to the room and he divided the laddoos into four equal parts and A and B ate their part. Then C came to the room he divided the laddoos into four equal parts and he ate his part. Then at the last D came to the room he also divided the laddoos into four equal parts and he ate his part. The number of laddoos D ate was 3.

1. How many laddoos did A eat?

2. How many laddoos did B eat?

3. How many laddoos did C eat?

4. How many laddoos were there in the box altogether?

5. I don't remember the 5th one.

Questions from 6 to 10 were based on figures.

There are two sets of figures marked from 1 to 4. In the first set one figure is missing and we have to find the correct sequence from the other 4 alternatives.

Questions from 15 to 20 we are given some general information with two statements. And we have to find whether we can calculate the result from the first statement or second statement or a combination of both

11. A shop sells 28 pairs of Soxes and gives 20% discount on each pair. What is the cost of a pair of sox?

1) The cost of a pair of sox is 89.

12. The cost of a book including postage charge and tax is Rs.100.What is the original price of the book.

1) The postage charge is 1.75 rupees.

2) The tax is 9%.

INFOSYS PAPER ON 11th NOVEMBER 2007

Hi Guys and Girls, Hope all are doing well.. I attended Infosys off campus written test on 11/11/07 Sunday and got through the test and attended interview on 12/11/07. Test results 'll be announced in 3 to 4 weeks as they said.

So, Here s the pattern of the written test I attended. No puzzles are asked in the written test. The pattern is changed now.. The test consists of two sections, Logical Reasoning and Verbal Ability.

The Logical Reasoning test consists of 30 qns and the time is 45 mins whereas the Verbal Ability test consists of 40 qns and the time given is 30 mins. Logical reasoning qn paper is given first. The first set had 5 qns asked from a logical reasoning paragraph. I dont remember what it is bcos i dint hav time to attempt it.

The second set had 5 sequence qns in which one picture 'll be missing in the middle of a 5 picture sequence.. i think u can prepare from verbal and non verbal reasoning - RS Agarwal for this set

The third set was of data sufficiency qns containing 5 qns. in which a qn 'll be asked in the first line and two statements r given and v have to choose the option by whether the qn s answered by the two statements or not.

Fourth set was Data Interpretation which had 5 qns. I attempted only one qn in this set also cos qns were asked on how much percentages is that to this, which s very time consuming. Fifth set also had 5 qns which is a Logical Reasoning set and the qn was like if p and q play cric and football, p and s play cric and volleyball and so on.. and the qns asked on who plays the maxi no of games.. this set is fairly easy if u form a table and solve.. and the last set contains All A's r B's, All B's r C's kind of qns.. these are the easiest in the LR section. (prepare 4m any cat material) Thats it for the LR section. Follow RS Agarwal for Reasoning Overall.. Jus practice the type of qns i mentioned here.. and u can easily crack them..

The Verbal Ability section had around 6 sets.
The first and second set both are Reading comprehension containing 5 qns each. Dont attempt them first as they take hell a lot of time. also first go from the questions.. it'll relatively easy and reduce the time taken.. In the third set, we need to find the missing statement. this 'll be relatively confusing n if u are careful it can be answered with a good accuracy. In the fourth set, a statement in the given paragraph 'll be asked to replace by another statement from the options which fits well.. The last set consists of a statement from which inferences or logical followers are asked. I cracked around 18 qns out of 30 from LR and around 30 out of 40 from VA section.

INTERVIEW
I was asked to attend the interview on 12/11/07 at Infosys Sholinganallur campus. My interview went for about 15 to 20 mins in which I was not asked any technical qns. Most

of the qns were from my resume. so careful guys, be thorough with ur resume.. Qns asked in my interview were..

1. Did u choose EIE at will or dat is wat u got..
2. What do u mean by Challenging environment in ur objective..(asked from my resume)
3. U hav mentioned dat u represented college for Chess, How do u relate Chess with real life.
4. Tell abt ur project
5. What is ur role in the project (This s an important qn so be prepared for this qn)
6. U said dat u can work in a pressure situation, give me an example where u were pressured.
7. Have u ever led a team..
8. what have u done as a YRC member.
9. How will your branch of study (i.e EIE) will help u in this software field..
10. A puzzle the number 45 is divided into 4 parts.. the first part is added with 2 2nd part sub by 2, 3rd part X 2 and 4th part divided by 2.. will result in a same number.. Ans. the four parts are 8, 12, 5 and 20. 'll result in a same number 10.. After this she said dat if selected i 'll be given training for 3 to 4 months and asked if i had any qns abt dat training..

Dats all abt my written test and interview.. I think these 'll help u to prepare better for the Infosys off campus.. Pray for me to get selected.. All the best to everyone attending the test in the near future..

With lots and lots of love..

INFOSYS PAPER ON 5th DECEMBER AT HYDERABAD

Hi frs, I gave my infy test on 5th, it was thru CPM(placement assistance), 1080 approx,
70 written, After Hr we r said that, we wil be mailed within 4 or 5 weeks,

The pattern was as usual,
1-5, puzzle, The Q was like 5 couples went to picnic, room nos given, we hav to find
who is husband of whom, which room no they stayed, like that, , bit tough,
6-10 Figures, Odd man out, easy(not from Agarwal, but easy)
11-15, data sufficiency, Easy,
16-20 Data Interpretation, Easy, Time taking.
21-25 Puzzle,(like 3 females, males, three floors, three job roles, no female same job, no
same job in floor, etc. if we transfer ones roles to other, how to change male roles) , Easy
one, (like Agarwal puzzle test, jumbling type Q's))
26-30 Syllogisms, Prepare Agarwal,(for us in one line all three r given, like that 4 lines,
ex A is B, some B are C, All B are C
Z is B, all Z are T, All Z are B))in that which is/are correct), This is Not exact que,
model.

We were given verbal after 5 min,
Paper was ok, general grammar,
Same Pattern,
(1-5, 6-10) 2 lengthy passages(i did in d last),
Fill in Blanks,
Error correction in the sentences,
Passage conclusion, detection,

(I think sectional cut off is there, i saw one paper with 19 Reasoning, 18 verbal was thru
wriiten)
My suggestion is, in Reasoning Work on topics like Figures, Data suffncy, Syllogisms
perfectly, they r easy to solve, less time taking)
In verbal see RC at the last,,,, see questions asked on conlusions carefully, i was askd for
contradict statement to conclusion)

Then they announced results after taking 2hrs time,
In 1080 approx, 70 for HR, same day HR,
We waited in a hall,
I was called after an hour for HR,

Two Old People(Men),
Looked pretty cool,,

Me: Excuse me sir,
They wished me, i wished them, waited for them to take my seat,
HR, tell me abt urself something other than your CV,
Me; Blah, blahhhhh
Gave me one topic(why people change comp, is it for money or skills,) Askd for My comment on that,,
Same puzzles like Match sticks, make 4 equi trgls,
then car nuts, manage with other nuts,
then he askd my cricket, hobbies, etc, askd ques, where, what happnd, etc,, cricket team position, any cup won like that
r u willing to relocate,
Night shifts,, etc,,
I told yes for all,,
Thank you, firm shakehands...
Came out.
Then they said within 4 or 5 weeks results will be mailed,,,,,

My frs wer askd someQ's like If God asks for a wish,

Thanks to one and all who mailed papers on freshersworld portal,,,

All The Best,,

INFOSYS PAPER ON 4th JUNE

This is Anirudh from bvrit .fortunately placed in infosys ! I would like to share my experiences in the infosys interview which was conducted at DVR college on 4th June 2007.

Well the written test as always in infosys pattern has two sections …

Aptitude and verbal Ability

The TEST

Aptitude Test

2 puzzles…..each 5 marks ……so 10 marks here

5 questions on data interpretation …we got a pie chart

5 questions on data sufficiency

10 questions on syllogisms.

the secret is time management and planning

First answer the 10 syllogisms perfectly,then come to data sufficiency and then try to solve the easy ones involving addition substraction and multiplication in data interpretation..then if u find some tougher ones in data interpretation move on to the puzzles.

Solve the puzzles if they are easy.Usually at least one puzzle is easy and the other may be tough. Solve the tougher one after you attempted all other questions in the paper.

Syllogisms are easier and scoring don't miss out them !Shud get 10 on 10.

But its not veryyyyyyy easy anyways ! bcoz u need to solve 4 of them per question..here I give an example

Read the given statements in a,b,c,d and choose the right option.. like in which set of statements the third statement can be derived from the preceeding two statements….refer wikipedia.com now for exact meaning of syllogism.. u wll be clear..and solve the question below to start with..

Submit your resume to cvs@123eng.com

a. All greens are whites ,some whites are blacks, some greens are blacks

b. Some horses are buffaloes,some buffaloes are mules, some horses are mules

c. Some monitors are keyboards,some keyboards are mice, no mice are monitors

d. No walls are roofs, no roofs are fans,some walls are fans .

1) a,b,c 2) only b,d 3) only a 4) b,c,d

The answer is 3)…..

Attempt first

syllogism

then data sufficiency

then data interpretation ..if u find some difficult ones go for the puzzles

if one puzzle is very time consuming leave it ..make sure u do well for the rest 25 marks..

Verbal Test

2 Reading Comprehension passages..each 5 questions so 10 marks- huge passages almost 1.5 pages

5 questions on Meanings of words in a given sentence

10 questions on correction of sentences

5 questions on conclusion of a paragraph

In RC read the questions first and then go for the passages ..preferably read the first sentences from each para so that u have an idea wats there in wch para…and then search for the exact word specified in the question...these are easy to score don't miss out RC shud get 10 on 10.

As far as meanings are concerned we can hardly do anything if we have less time.. may

be you should start at least 2 weeks before… aassuming that u havent taken any gre coaching (like me..i too didnt)

Correction of sentences: concentrate on prepositions used for some verbs..and when to use plural and singular…..u should be good at grammar…sometimes we feel that all the given options are correct except for one preposition …so check out these ….these are the toughest 1s in the verbal part

Conclusion of a given paragraph…

This is perhaps the most easiest part in the whole infy test..read the given 3 liners quickly but with concentration, understand them and answer the conclusion part..u may not find the exact words of the passage in the options..you only find the idea of the passage in them..

Attempt First :

Meanings of words in a sentence …..next

Passages…don't read them fully..read the questions, then search in the passage.. then next

Conclusion of paragraphs

Last …correction of sentence..this takes time so do the above 3 sections quickly .

Be quick but solve every bit with gr8 concentration

So all through the test your tag line should be QUICKLY BUT SURELY !!!

THOSE WHO HAVE ENOUGH TIME

VERBAL AND NON VERBAL REASONING BY RS AGARWALL

Should be enuf…assuming ur good at maths i.e quant

HEY GUYS ONE IMPORTANT INFO ---- BEFORE YOU ENTER THE INTERVIEW ROOM THE INTERVIEWER IS GIVEN YOUR MARKS' SHEET….SO DO WELL…JUST QUALIFYING MARKS MAY NOT BE ENOUGH ..THE MORE MARKS THE MORE SAFE YOU ARE

THE INTERVIEW :

(Be your natural ! Don't be a hypocrite .don't act too cautious or too easy…be yourself.. that's it !. After all you are not a movie star don't act..b urself)

My interviewer was Mr.X

Always approach with a smile…no one is going to reject you just bcoz ur happy !

I entered the room with a J and

Me :Good evening sir

Mr X : Good evening , hmm take your seat.

Me: Thank you sir.

Mr X: So , both of your parents are working in railways ? why don't you also try in railways ?

(The infosys application form had info abt my parents occupation..u need to write them in the form before the test)

Me : Sir, I've been professinally trained to be an engineer and I would not do justice to my acquired knowledge and skills if I join railways just as my parents did.Surely even they will not be happy if I choose to join railways.

(As expected he asks the next question)

Mr X: Then how do u think that ur electrical enginering skills r justified when u join IT industry.

Me : Sir,I think engg in any field involves only creativity and innovation..the only difference is that we apply them differently and in diff applications..and moreover computer application and simulation is now in almost every field ..even in power systems

IT is applied in SCADA to control power distribution..besides I have been exposed to c & ds,microprocessors computer architechture in during this enginerring..so I think……

Mr X : Hmm ok… tell about yourself…

I told abbt all my achievements and just briefly told abt my percentages with which I paassed out.10 inter and that I had tried for iit during inter but could not clear mains so wrote eamcet…so on.

He then gave me a sheet of paper and asked to select any one topic from a ten in it.. also he mentioned that if I felt those topics were tough I could turn the other side of the paper for easier topics…guys this I think is an atitude test..so I never turned the sheet other side .

may be the other side was blank !! I selected the first topic and he told me to think for 30 seconds and start speaking abt it for 1 minute…..The topic i selected was…..

"ppl leave companies not just for money but for skills and growth"

I think I did well for abt some 50 secs… the last few secs I ran out of ideas and slowed down and dragged it to the 1 min deadline..its easy guys ur ideas matter ..not the number of them ..

He asked a simple question about magnetism and also a puzlle from shakuntala devi (it seems.i never solved her). He will ask you to discuss how u solved the puzzle..

LAST BUT MAY BE THE MOST IMPORTANT :

MR X: ANY QUESTIONS ??

You can ask about

your growth in the company

career options there

what does a project manager really do other such questions that give him an impression that ur looking forward to work in infy and so ur asking abt how to prepare b4 u join and what exactly does 'working' mean in infy

DONT ask abt the increment in ur pays and the place of posting

I asked : whats the diff between a project manager and a programme manager ?

I had heard the word program manager for the 1st time in the ppt earlier in the day…

Also I asked about what actually what does a membership in Infosys Leadership Institute demand.

Infy leadership institute is established at mysore for very efficient infy employees..this was shown in the ppt earlier in the day.During the ppt make sure you dream something about what to do after joining infy..so that you remember at this moment to ask him abt it..career options are always mentioned in the ppts of all companies

All the best ….be original and make the original 'you' fit to get a job.

INFOSYS PAPER ON 2nd DECEMBER 2007

Section 1:logical reasoning(30 q 40 mins)

Q: There r 11 players.Each player scores prime no of goals.their avg of goals in some tournament was given.No player scores goals more than 45.No player has no of goals scored equal to any other player or equal to the avg.

5 q on it like..

1)max no of goalz scored by any player??

2)min no of goalz scored by any player??.......

This was, i thnk the toughtest in this section

Q:Next 5 were frm odd figure out type

very easy solve these 1st. 5 marks r for sure.

Q11-15:data sufficiency..reasy 1s

Q16-20 data interpretation

Q:21- 25family tree was given.in puzzle form n their professions.n 5 qs like

how many females r there in d family?

this was like d puzzle test frm R s Aggrawl..bt a diff 1

Q:26 to 30 frm Syllogism

these r very easy

to b very quick read the statmnts 1s and make a rough idea

n then go by options.ull definitely find an option matching ur guess

Section 2:verbal reasoning(40 qs 30 mins)

there r 1st two RCs .very easy 1s.dont leave it they seem to b lengthy bt easy to comprehend.So do attempt both at any cost.

then i guess there r 10 questions on correct the sentences.b perfect wid articles ,prepositions,tenses n dats all u need to crack it.i did RCs n all these chapters frm CAT notes frm IMS.

the sentences r lengthy..almost 4 to 5 lines each.so if u attend 1 u hav to read that sentense+4 options.So almost 20 lines for 1 q.U hav to b extraordinarily quick.Dont go for each n evry option.Read the options randomly.most of the mistakes r related to tenses nd sentence

construction.

Few qs on deriving conclusions frm passages.(I don't rembr a sequence of these qs so jst giving d types of qs)

Then there r some q to find the correct option to fill in d blank.dont rembr how many of them were there.

thats all i rembr abt d test.

HE:How do i know?(Here hav a convincing explaination)

HE: ur negative points

Me: if i am d team leader..i somtimes push ppl too hard..i mean i can b lil harsh on them if they r not performing well

HE:harsh??then do u beat them??(Both of us laughed)

ME:not exactly.i dint mean that.I meant i want evry 1 in my group to contribute to a purpose.only then it will b a team .

HE:how will u overcome ur this shortcoming?

Me:well,ill assign more work to dat person whos not standing up to the mark.

He:if hes still not not doing well.

ME:then i hav to adopt out d box strategy nd it may not b advisable to b personal to any1 at ur workplace bt if it works for me i thnk i shud talk to him in person n try to understand d prob wid him.

He:wat will u do exactly??

ME:ill arrange d meeting.Put this prob in front of them .It may b d case that samoe r not good at wat work they hav been assigned.so ill try to rotate the work.n see if dat gives d result.(He was pretty much impressed.This i guess was a situation reaction test for me.)

ME:2060

HE:+30

Me:2090

He:+10

Me:n i made a blunder...i said 3000..d very net moment i realized ...itz 2100(It seems easy here bt wen u r in d interview room u alwayz think of givin r best..n this happens then.b ready for such traps they hav many of them ready.i asked same q to 2 pll wen i was out .result was same)

HE:ok tell me 5+5+5=??

Me: 15

HE:no i say itz 550.how??(rembr they wont ask u d puzzles in very plain manner.so try to decode the puzzle right way.it is quite obvious dat by anylogic 5+5+5 cant be 550.after saying evrything.he said)

u can use 1 straight line anywhere on d left side of d = sign.u ant make = sign as not equal to)

Me:(i was staring at it)n i got it in jst 5 to 6 seconds

Just make any one of d + sign as 4.so ans is 545+5=550

He:good.now tell me ans to this.Divide 100 into 2 parts such that one is multiple of 47 and another is multiple of 17.(This was d language he used.bt if u go by this ull end up wid nothing.i tried it as both d parts r of 1000. bt then he gave me that in equation form as ---*47+----*19=1000 .again i tried bt i cudnt.he stopped me)dont give up

He:tell me abt ur extra activities in coll or at home.

Me:n i had alott to speak on.bt unfortunately he was interrupting all d time.i cudnt focus him on many of my achievmnts coz of dat

He:solve dat puzzle.b4 going to bed today itself.i hav noted down ur no.i may ring back anytime n ask u whether u hav solved it or not.

Me:yes sir ill definitely solve it.(nodding my head positivly i confirmed..iz 47 n 19 right sir..he said sir)

INFOSYS PAPER ON 1st SEPTEMBER 2007

Hi friends..
I am Yuvraj Agnihotri from Punjab engineering college,Chandigarh. I am selected for Infosys,so i jst want to share my experience and knowledge wid u ppl ,wch will help u a lot if u r interested in joining this cmpany.
Frankly speaking, its not such a rocket science, it is only the hard work for a day or two... and u r selected.

Process:

1) Written paper

2) Interview

----

1) Now,written paper is divided into two parts.. mainly Aptitude and Verbal ability.

Aptitude ------ 30 Questions------ 40 minutes

Verbal ability(VA) ------ 40 Questions------ 35 minutes

---> Our "Aptitude" paper was above average level,i mean,it was a bit time consuming. Actually it was a good aptitude paper.

I selected easiest of questions first and answerd thm.. thn accordingly, i solved some more,in order of their increasing difficulty level. bt frankly speaking,i was able to solve about 16-18 questions in the regulation time. Rest i made guesses(always do it,if negative marking is not thr). U will clear the cut off without mch difficulty,if u hv genuine understanding. Other option is read R.D.Sharma(i hd nt read it

Then our "Apti" paper was taken,and "VA" Q. paper ws given to us.
---> Now,this paper consist of 2 reading comprehensions & rest Sentence making & Simple grammer.

i attempted reading comp. in the end as they r generally time consuming and less scoring. So,first do the easy part,then the difficult one. This paper was comparitively easier than previous one. No need to do extra to clear this one.

**NOTE--- Each paper hs its individual cut-off.

After 1.5 hrs,our results wer out. Out of 110 students,about 73 wer shortlisted for inerviews.

2) We hd 6 panels in total. One person in each panel. Interviews r basically of HR type. Whr u will b asked to describe urself,abt the newspaper u read,something related to ur interest,may be some puzzles(not tough) etc.

My interview ws basically the "stressed" one type. Whr i ws put under sme sort of pressure(rude behaviour etc,it depends on ur luck and panel). My hobby ws music and singing,so i ws asked abt music and even to sing a song(wch i sung well..) .

overall,it ws a typical HR interview.

If u hv confidance,u will clear it easily. Be cool during interview (sp during solving a puzzle). My interview ws a stressed 15 min HR interview. (All other panals were relatively cool and calm.)

Submit your resume to cvs@123eng.com

The interviews wer ended at abt 11 pm and our results wer out at 11.30 pm. We wer called in audi,and names of selected candidates were announced. Out of 73,abt 62 wer selected. I ws one of them.

So friends, it is not a difficult process,bt requires confidence and faith in urself.

All the best to all sitting. Meet you in Infosys.

Sandy's uncle died leaving 1000 rs behind to be distributed among his five nephews.

The money is to be divided among the nephews according to their ages. A person gets

Rs 20 more than his immediate younger brother.Sandy being the youngest what was his share?

Ans. Rs 160.0

It was quite an easy one.

let sandy's share be x

x+x+20+x+40+x+60+x+80=1000

5x+200=1000

x=800/5

x=160

Rohit was descending from the elavator which was not working. When he had stepped down

7 steps his sir started from the bottom of the elevator and they passed each other and when Rohit had still 4 steps to go down, his sir reached at the top. Taking into consideration that sir's 2 steps took same time as Rohit's one what were the total no of steps?

Ans

22 steps

let no of steps be x

speed=distance/time

Distance covered by Rohit = x-7-4 (7 steps already covered and 4 were still to go)

Distance covered by sir = x

Speed of Rohit =s

Speed of sir = 2s

Time taken is equal in both the cases so

Time(rohit)=time(sir)

(x-7-4) / s = x / 2s

2x – 22 = x

x=22

A vendor who is an ex-mathematician has a number of apples and when he arranges them in rows of 3 he is left with one more, when he arranges them in rows of 5 again he is left with 1 more, Same happens with when he tries to arrange them in rows of 7 and 9 that is 1 apple is left extra.

But when he arranges them in a row of 11 he is left with none. Can u tell me how many apples were there?

Ans

946

the no is a multiple of 3,5,7,9 + a remainder of 1. So

3* 5* 7* 9= 945 + 1 =946

946 /11= 86

so it is divisible by 11 also.

A dice has faces 1 against 6, 3 against 5 and 2 against 4 always. How many such combinations of faces are possible in a dice?

Ans

24

keeping 1 and 6 fixed, we can have two combinations of 6 and 3, and two of 2 and 4 that means four. And interchanging 1 and 6 we can have two more combinations that means with one pair 8 combinations are there : 4*2=8. Similarly with other two also 8 combos. So in all 8*3=24 combos are possible.

Ans:

5 years old

let boys age b x

sister's = x/5

mother's=5x

fatther's=2(5x)

grandmother's=81

81=x/5+x+5x+10x

INFOSYS-Placement Paper-11 June 2006-Chennai

Here are the questions that appeared in the test. I tried to give the exact words from the

test & I think I did well. Also I had given detail answers.

Q.1) Dr. Watson has 5 nephews. After he died he mentioned in his will that each of his brother's sons should get money according to their ages. The difference between each son is Rs. 20 & youngest son got least money. Total money to be shared is 1000. How much youngest son will get?

Ans:
Let the third i.e. middle son will get Rs. x then youngest son will get Rs. x-40.
=> Adding their shares = 1000
=> (x-40) + (x-20) + x + (x+20) + (x+40) = 1000
=> x = 200
=> x - 40 = 160
=> Youngest son will get Rs.160

Q.2) In a party there r total 1275 handshakes assuming each person did handshake with other fellow. How many people attended the party?

Ans:
Let number of people attended the party = x then
Number of handshakes =xC2 = 1275
=> x * (x - 1) = 1275
2 * 1
=> x2 - x - 2550 =0
=> (x - 51)(x + 50) = 0
=> x cannot be negative
=> x = Number of people attended party = 51

Q.3) If one fifth of a hive of bees flew to the rose flower, one third flew to the lotus flower, three times the difference of these two numbers flew to slandbara & one bee continued to fly about, attracted on each side by the fragrant of ketaki & malati, what was the total number of bees?
Ans:
X + X + 3(X - X) +1 = X
3 5 3 5

=> X = 15 = Number of bees.

Q.4) Due to some defect in our elevator, I was climbing down the staircase. I had climbed down just 7 steps when I saw professor Zorkoski on the ground floor. Continuing to walk down, I greeted him & I was surprised to see that when I was yet to get down 4 steps to reach the ground floor, professor had already finished the climbing up 2 steps for every 1 of mine. How many steps did the staircase have?

Ans:
7 X 4
|-------------- |-----------------|---------------|

From figure, equation becomes : 7 + X + 4 = 2X

=> X = 11

=> Total number of steps = 7 + 11 + 4 = 22

Q.5) Complete the following series:
a) 3, 6, 13, 26, 33, 66, ?

Ans:
3 * 2 = 6
6 + 7 = 13
13 * 2 = 26
26 + 7 = 33
33 * 2 = 66
66 + 7 = 73
73 * 2 = 146
Series : 3, 6, 13, 26, 33, 66, 76, 146

b) 364, 361, 19, 16, 4, 1, ?

Ans:
364 - 3 = 361
O(364) = 19
19 - 3 = 16
O(16) = 4
4 - 3 = 1
O(1) = 1
1 - 3 = -2

Series: 364, 361, 19, 16, 4, 1, 1, -2

Q.6) A man was asked to meet a lady lawyer who had a good logical skill. Today is Saturday. A man wanted her appointment. She called her three days after the day before the day after tomorrow. What is the appointment day?

Ans:

Ans:

Let wizard's son age = X then wizard's age = 3X & his father's age = (6X+40)
=> X + 3X + 6X + 40 = 1240
=> X = 120

Wizard's age = 360 years

Q.9) This was 8 marks question regarding the committees of 5 juniors & 4 seniors they have to form 3 committees. Some conditions had given & based upon that we have to answer 4 questions. I solved it last. Sorry for not remembering the question.

Ans: Temperatures on 5 consecutive days are: -2, -1, 1, 2, 3 in degree Celsius.

HR interview was cool. They didn't ask me to explain myself, a most imp question. Being a chemical engineer they keep asking me why you are not interested in chemical industry & what u did in last 1 year. I explained them all truly & they look convinced. So my advice is be true to them, they are among top mind readers. They will easily catch your bluffs. They asked me which concept from computer u like most. I told them about OOPS & explained it. They also asked me how u will adjust within a team. Such HR questions. Then they had given me a simple puzzle.

INFOSYS-Placement Paper- 17 May 2006

These were my test questions.10 puzzles for 1 hour n then English section for 30 minutes. English consists of passage and filling the blanks with correct phrase from options. Every question was repeated. At some centers the same question paper was repeated as such. So all infy aspirants plz make sure to go thru previous question papers even if u don't have time for Shakuntala Devi or George Summers. PREVIOUS QUESTION PAPERS WILL DO IT..

<!
1. A man starts walkin at 3pm from his home. He walks at 4km/hr thru plains and climbs a hill at 3km/hr. he climbs down at 6km/hr and walks back at 4km/hr thru the same path. He reaches back home at 9pm. What is the distance he covered in one way?

Approach: x - distance thru plain, y - distance thru hill
$x/4 + y/3 + y/6 + x/4 = 9-3 = 6$
$x+y = 12km$

<!2. A cyclist travels 2/3 of distance on cycle. Then his cycle gets punctured. He covers remaining distance walking. He calculatd that he walked twice the time he cycled. How fast did he cycle than he walked?

Approach: total dist = x
dist on cycle = (2/3) x   dist on foot = (1/3) x
time on cycle = tc   time on foot = 2tc
speed on cycle/ speed on foot = (2/3) x/tc/ (1/3)x/2tc = 4 times

<!3. Today is Saturday. A man goes to see a lawyer. Lawyer asks him to come 3 days after the day before day after tomorrow. On which day should he come?

Approach: today - Saturday
Day after tomorrow - Monday
Day before day after tomorrow - Sunday.
3 days after Sunday - Wednesday.

4. 4. A and B play a game. Loser of each game has to give a coin to the winner. At the end A gains 3 coins even though B won 3 games. How many games did they play?

Approach: A lost 3 games (given B won 3 games)
To compensate A has to win 3 games.
To gain 3 coins A has to win 3 more games.
So total = 3+3+3 = 9 games.

5. 5.There are two systems A and B. 14 degrees in A is equivalent to 36 in system B. 133 in A is equivalent to 87 in B. What is the temperature at which they both are equal?

Approach: I am not sure of this one. But there is a similar one in Shakuntala Devi - Qno. 31.
0 C ~ 32 Fahrenheit,
100 C ~ 212 F
(212-32)/(100-0)X = X-32 gives X= - 40 C = - 40F. Try in similar way

6. A cube is painted red. It is then cut into 27 equal cubes with 6 lines. Find no. of cubes with

a) 3 sides painted
b) 1 side painted
c) 2 sides painted
d) no sides painted

Draw a cube and cut it breadth wise, lengthwise and height wise using 2 lines on top, 2 in front and 2 on the side faces to form one large cube with 27 small cubes in it.

Each corner cube has 3 sides painted.1*8corners = 8 cubes with 3 sides painted.

On each face there is one cube with only 1 side painted. 1* 6faces = 6 cubes with 1 side painted.

Each edge has 1 cube with 2 sides painted.1* 12edges =12 cubes with 2 sides painted.

1 cube at the center has no side painted. Else 27 - (8+6+12) = 1 cube with no side painted.

7. A woman says 'if you reverse my age you get my husbands age. He is
of course senior to me and the difference between our age is one-eleventh of their sum.'
What is the age of the woman and her husband?

Approach: womans age = $10x + y$. husbands = $10y + x$

$1/11(10x + y + 10y + x) = (10y + x - 10x + y)$
$xy = 45$(woman) $yx = 54$(husband)

8. There are 3 tribes. Sorobean aways speaks truth. Narobean alwaz lies. Midorean
speaks truth and false alternatively but whether he speaks truth or lies first cannot be
detemined. From the statements find who belongs to which tribe.

A: I am a sorobean
B is a narobean
B: I am a sorobean
C is a midorean
C: I am a sorobean
A is a midorean

Assume one person as sorobean at a time and try match his statements with that of others.
If the statements match, the assumption is right else wrong. Eg. Take A as sorobean.
Then his statements must be true. So B is narobean and C midorean. Then one of the
statements of C should support A. But here C contradicts A. So our option is wrong.
Similarly take B and C.

Ans: A-Midorean, B - Narobean, C - Sorobean

9. A person climbs down 7 steps when he sees his professor starting to climb from the
bottom of the stairs. They pass each other and moving down he finds that he has 4 more
steps to go when his prof reached the top. Considering prof takes 2 steps to one step of
the person, calculate no. of steps.

Approach: total steps = x
Steps covered by person after Prof starts climbing from bottom = $x - (7+4)$
Bcoz already 7 steps over and 4 more steps remaining.
Steps covered by prof in the same time = x
Persons speed = s , Profs speed = $2s$
$x-(7+4)/s = x/2s$.

x= 22 steps

diamond alwaz on right
ruby should not be displayed with diamond or garnet
Emerald and sapphire should be alwaz displayed together.

i. What are the possible combinations for left pane?
a) armanet,garnet,opal
b) armanet,ruby,garnet
c) diamond,emerald,sapphire
d) armanet,emerald,garnetii What are the possible combinations for the right pane?
a) Diamond,garnet,opal
b) Diamond,ruby,opal
c) Armanet,emerald,sapphire
d) Diamond,garnet,ruby iii If diamond, opal.. in right pane what is the possible combntn in left pane. 4 or 5 options

- One was about 4 different events - there are abt 6 people - 4 different people won each event. You gotta find out who won which event given the conditions.

- Other question was 4 different people - 4 different profession - u gotta find who is who, given the conditions. (Like druggist, architect, grocer Etc)

- Last one was about the houses & different typed peoples (like English, german, norwagean..) - in the same way u gotta find who is in which house (given some

conditions).

INTERVIEW:

Panel had 2 persons (females) - aged around 35 to 40..it was cool - they started asking about my extra curricular activities -then went on with the work profile..at last they gave me some 2 puzzles (simple ones) to solve.

1. There are two vessels of same size with water in it and one is 20 degree Celsius and other is 20 degree Fahrenheit. When a coin is put in both vessel which will reach bottom first.

Ans: As 20 degree Fahrenheit is definitely a freezing pt, at this time none can be be immersed so at 20 degree Celsius the coin will immerse first.

2. In a knock out game of chess, how many games will be played when there are about 43 players?

Ans: Winner gotta defeat remaining 42 players which means total game played is 42.

1 t.

Ans: As 20 degree Fahrenheit is definitely a freezing pt, at this time none can be be immersed so at 20 degree Celsius the coin will immerse first.

6. mr ajay singh got paramveer chakra award in 1948.his age when he died was one thirtyninth the year in which he was born then find the year in which he was born? ans: 1899

7.it was that famous problem.dane drinks tea n drinks malbero white (cigarate),english stays in the house next to the swedish and has pet cat,norwegian has dog and stays in the middle house and all that information was given about house no,drink cigarate (no straight forward)in about 15-20 sentences.this is one of the very toughest problem i couldnt solve it.

10. i dont remember the 10th one.

i got seven right(surely)and 1 more half and guessed other two.
INTERVIEW: almost 600 ppl gave the exam(thats what i heard)and around 100 got selected for an interview.i expected the call and i got it for the 9th of jan 10'O clock in the morning.
i reached for an interview by 9:20 and they asked me to sit in the waiting room.there were 5 panels with 2 persons on each.on an average interviews were going for 20 -25 mins.i walked in for an interview at 10:30.there were 2 ladies sitting over there one around 33-34 and other of around 45years old.
we exchanged good morning n then she asked me about myself.
me:i am an honest optimistic and hardworking person and i try to persue my goals till the end i just dont like to give up.(she smiled a bit)
they were mainly asking with respect to my resume.
lady:ur hobbies r cricket and football? so have u been part of the college team?
me:yup i have represented the college football team.
then she asked me about my BE project and my role in that.i had prepared this question very well so i explained it properly.
lady:so any previous job experience?
me:no,actually i was getting job in couple of small companies but i wanted to start my career with bigger platform like infosys or such so i rejected those offers.
lady:so dont u think one should start from small opprtunities and move on towards bigger

ones?so why didnt u take those?

me: see i think u should get a good industrial experience after doing engineering for 4 years and generally u dont get exposed to various aspects of industry in the small companies and u learn them only in bigger companies like infy and also u should work for atleast 2-3 years to get that experience so i dont think that there is any point in doing a job for 6-7 monthes n then leave it so i was waiting for the right opprtunity.(both the ladies looked impressed)

lady: so u read also?what books have u read recently?

me:i generally read daily news papers and if i get time then i like to read scientific books.like the one i read recently A LIFE IN THE NUTSHELL and A BRIEF HISTORY OF TIME from stephen hawlkings.

lady:so what r they about?

me:actually they r about our universe and black holes n all,and the other 1 is bit like his autobiography like how did he do his journey after getting afftected by motor nuron desease at very early age,,its quite fascinating.

lady: so whom would u like to become for a 1 day if u r given a chance?
me: ummm well i will like to be someone like mr abdul kalam.

lady:why? and what r the qualities u know about him?
me:he is the no 1 scientist of our country and he is our president now.the fact i admire him a lot is even with so much of success and fame he is very simple human being and down to earth and always try to help poor ppl.

then she asked me to solve 1 st prob from the test n i explained it properly.the other lady gave me 1 more puzzle like write 1 using all ten digits.i approached it with addition and subtractionas 9-8+7-4-3.... n i got it somehow.(ladies looked pleased)actually after the interview i realised the simplest way to do is:$9^0+8^0+7^0+6^0+5^0-4^0-3^0-2^0-1^0=1$.

lady:if u r going on highway and all the 4 tyres get punctured and u lose all nuts also,u dont have spare nuts so what will u do?suppose u r on mumbai pune highway.

me:well i will use spare tyres and i will fix them up with something like nuts ,like..like.. like..
lady:common u said u r optimistic so u should find some way and suppose u have very imp meeting to attend then how will u get ur car done?
me:well mam then i will ask for lift ,out of ten atleast 1 will give me a lift n i will try to get myself at the nearest spot like lonavla n then take a volvo or something n wont bother for my car at that moment as i have to reach for the meeting 1st.

lady:so u have written that u like to explore new things in ur life.so what r they?

me: mam like i go for trecking rgularly

lady:n where did u go for very last time n when?

me:i went in june or july n i had gone for raigad fort.its very nice place n shivaji maharaj had his empier on the raigad.

lady:how did u go there?

me:we took ST from mumbai central for mahad n then took another ST for an hour or u can take a tamtam also.
lady:so if i want to go there n i dont have any knowledge of trecking then how will u plan it?

me:mam if u r coming then i will better hire sumo so no halts r requiredn i will ask u to take 2-3 sarees or whatever u r comfortable wearing with plus some medicines n firsr aid box n some water,u shouldnt carry too much of luggage for treck as it will create problems for u plus u get everything on raigad.(she actually asked me to specify every thing)

lady:ok so if u r group of 10 with old and young ppl n there is a risky pasage on treck for 5 mins then what will u do?where would u locate yourself in the group?

me:i will lead the group.i will go first so that i can give instructions to others which spot is slippery and where should u be carefull.also i will make groups of 2 with young n old person in each group so that young person can help old ppl while crossing the passage.

lady:ok thats it, any questions amita?

me:no mam.thank you.

it was approximately 25 mins interview and i think i did quite well in the interview. atlest ladies were happy on their faces and looked satisfied.

INFOSYS-Placement Paper-8 Jan 2006-Hyderabad

This was the infy paper offcampus conducted on 8th jan at HYDERABAD. there were few repeated qns, n I felt logical was bit tough ,so concentrate on logical qns, other qns u can do.

1.A coffee seller has two types of coffee Brand A costing 5 bits per pound and Brand B costing 3 bits per pound. he mixes two brands to get a 40 pound mixture. he sold this at 6 bits per pound. the seller gets a profit of 33 1/2 percent. how much he has used Brand A in the mixture? (Previous one)

Ans: 30ponds.

Quantity of cheaper/quantity of dearer = (dearer -mean price)/(mean

price-cheaper) refer R.S.Agarwal for this question.

2.There are 11 people at a party with a glass. Eachone clinks glass with evey other person once.how many times did the glass clink?

Ans:nc2=11c2=55 times.

3. There are x trees in woods. Y is no. of birds. Gate keeper tellson each tree no of birds is equal to total no. of trees in woods.tellthe number of trees. Given total number of birds is between 2000 and2100.Ans:there are x noof trees.n no of birds=x*x, so check out d perfect square b/w2000 n 2100. ans is 45(45*45=2025)4.choclates problem.sister gives half of d chocolates to her mom n half a bar, then she gives half of d remaining to her dog n half bar, then she left with one choclate , how many no of chocolates r there?

Ans:7

Chocolates=x,mom=x/2+1/2,remaining=x-(x+1)/2=(x-1)/2;

dog=(x-1)/4+1/2 she left with one choclate, total=x=x/2+1/2+(x-1)/4+1/2+1 ,so x=7

5.a person got paramveera charka in 1948. he died when his age was one thirty ninth of his year of birth, when he was born?

Ans:I dint solve this but my frd told dat it was 1/39 th of (x)where x is year of birth. Check which yr is divisible by 39, before 1948.its 1911.

Ans:66seconds.at 6 the time gaps b/w ticks=5, at 12 gaps=11

5???.6

11???.?

7.train starts from amritsar to Bombay at 9am. It reaches destination after 3days at 9:30am. Every day a train starts. How many trains does it come across on d way ?

Asked to find out who's profession is what?

8. Carter,milne,savage,Flynn are 4 people architect,banker,druggist and grocer in not thatorder, Income of milne=3776+income of savage.Income of drugg=2*income of grocerIncome of architect=2*income of druggistIncome of banker=2*income of architectCarter is older than every one who earns more than Flynn but Flynndoes not earn double the amount of carter.find who's who?

9.little bit time consuming n confusing one. 4 persons , color of their house, their pet names like one has horse, other one has cat etc,type of cigar they smoke, type of drinks they take , like one takes coffe, other one tea, others beer,..?3qns?

10.this is also logical, for me this was very tough I didt do this.

INFOSYS PAPER ON 8th MAY AT BANGALORE

Hi friends, This is Adith,
Infosys came to our college for on campus recruitment but it was not just for our college but also for 6 other colleges and itz called pool campus Complete recruitment process was finished in 1 day and it was done in a well organized manner. There were around 500 students who wrote the aptitude test out of which around 90 students got through the aptitude test. Finally around 60 out of 90 students who attended the interview got the job.

Now i will brief about my experience,
The aptitude test consists of 2 sections Logical Reasoning and English. First, the logical reasoning paper will be given which contains 30 questions and the time given is 35 mins. Next the english paper will be given which consists of 40 questions and the time given is 35mins.

The two question papers will be given separately and you dont have have to worry much about time management for different sections since you will be attempting the two papers one after the other separately. The reason they conduct this way is becoz they are looking at our skills separately and they give preference to English score. We were asked to keep our application form on top and then the english answer sheet and then logical reasoning answer sheet at the bottom.

As far as the logical reasoning was concerned it was quite a normal paper and r.s aggarwal wil be sufficient to do it well. Honestly i dint prepare from any book but for those of you who like to prepare, the book i mentioned will be more than enough. there is

no negative marking and plzz attempt all the questions. I dint do this section great but i was confident that i would be able to clear the cut offs which i guess was around 15.

Now, english paper is tuff and has all sorts of questions including comprehension, fill in the blanks, to find out the grammatically correct sentence etc. now people you have to be fast and dont do the passages in the beginning but come to it in the end. once again attend all the question as there is no negative marking. This English paper is important, so do it well. Well english needs good vocabulary, reading speed, ability to comprohend a certain given material etc. i did this English paper really well as i love English and i am always comfortable with this section. I guess the english cut off was 20+.

Altogether the aptitude paper is definitely standard especially the English part.

The aptitude test finished at 2 pm. the results were announced at around 4pm. The only other round and the final round was HR. so people, this is your chance and dont spoil it. they simply dont ask even a single technical question but definitely they are looking at good communication skills, confidence and personality.

My interview was at around 5pm and it was like this
ME: may i come in?
HR: plz come in ... take your seat (dont sit until he tells you to)
ME: good afternoon sir
HR: thank you

HR: so adith introduce yourself.....
ME: introduced myself (i did this with great confidence, i told a bit about myself, my family, my background and my schooling and college and in the end of introduction i gave him a quote in which i completely believe in , Henry Ford said "IF YOU THINK YOU CAN DO SOMETHING OR IF YOU THINK YOU CANT DO SOMETHING, EITHER WAY YOU ARE CORRECT")

HR: (quite impressed with my introduction he went on to ask) So adith tell me something about your college life apart from academics
ME: answered this (told him about my passion towards having great personality, about being a leader in a certain group etc etc, one can also mention if he or she has taken part in co-curricular activities etc)

HR: have you done any other corse apart from your academics
ME: answered this (i told him about my dot net course that i did from niit)

HR: ok tell me adith WHY SHOULD INFOSYS HIRE YOU?
ME: answered this yet again with great confidence (told him everything about my personality traits, gave him enough positive points about myself and finally i went on to say that i deserve the job in every way)

HR:ARE YOU READY WORK ANYWHERE IN INDIA?
ME: YES (you dont have an option, if you want to get placed you have to say yes)

HR: (was completely convinced and smiled and said) THANK YOU ADITH . DO YOU
HAVE ANY QUESTIONS FOR US?
ME: i asked him about the system followed in infosys to evaluate an employee's
performance (i asked this question specifically as i indirectly wanted to give him a clue
that i wanted to join them and perform well and hence wanted to know)

HR: answered my question
ME: i said THANK YOU

HR: again smiling , offered a hand shake
ME: happily shaked hand (who wouldnt do this?)
ME: again said thank you (i put the chair back in its place and left the interview room

Atlast my interview was over and i was very happy when i came out. Although i was
confident i will be offered the job, i kept my fingers crossed until the results were
announced. At 9pm the results were announced and when they read my name .... i was
simply blown away and felt on top of the world......... couldnt beleive it for a few minutes
and then the feeling started exploding. IT WAS A GREAT MOMENT

THE ONLY THING I WANT TO TELL YOU ALL "FEEL GOOD...................FEEL
GOOD...................FEEL GOOD" SO ALL THE VERY BEST FRIENDS, WHO
ATTEND INFOSYS PLACEMENT IN FUTURE

WE WILL MEET IN INFOSYS

INFOSYS PAPER ON 3rd MAY

hi friends i am deivanai
infosys came to our college for on campus recruitment ya

it was a one day process. i had a wonderful experience
first slot in our college is given to TCS they have selected 110 students among 330 but i
had not been placed there. but infy have selected only 28 students among 263 i got there
so frds dont get depressed if u loss one opportunity . there r lot of opportunities for us. so
try try try and keep on trying

i will giv u some of my experience here. the selection process contains only two stages
first one is the written exam and the next is the H.R
for the written exam pls refer R.S. Agarwal. but the questions are not the exact replica of
that We should have the presence of mind and we should be brisk enough to face the new
questions so dont worry for infy no preparation is necessary just see the model thats
enough

Non verbal section comprises(30 q 45 min) time is more than enough
-Data sufficiency
-finding the odd figure from the given series
-syllogism
-critical reasoning

Verbal section(40 q only 35 min)
Time is not enough so hurry up be fast dont do the passage first it will lead u to trouble.
so solve the questions from the last
-reading comprehension
-grammatically correct sentence
-deriving the inference from the given information
-replacing the part of the sentence with the correct phrase or some other part
So i have cleared the written exam everything becaz of god's grace. among 263 only 40
were short listed

then the **H.R. interview**
here they will check only the communication skills and no technical they will ask the
technical question if u dont know dont worry frankly say i dont know. they only check
whether u r ready to accept the questions r u r hesitating and they will ask questions
based on ur resume so be thorough with ur resume and they will give one puzzle. if u cant
answer dont worry they will check the way u proceed. so it was very easy . i have cleared
it also ya

so all the best friends who r going to attend infy
We will meet in infy

INFOSYS PAPER ON 17th APRIL AT NOIDA

Hello fellow friends and INFOSYS aspirants
 i am "Ashish Kaushik" from "IEC college Gr. Noida" INFI was here at 17th of April 2007 i have been selected in the company, and wanna extend a helping hand to all of my fellow friends who are on the same/ or wanna be on the same side.. but before i start i would like to express my sincere regards and wana thank to all those friends/colleagues and seniors who always had their advices and moral building attitude to help me in preparing for my Placement..

"ALL THE VERY BEST MY FRIENDS ... KEEP UP THIS SPIRIT.. " NOW COMING TO THE TOPIC INFI and its procedure:::::
plz NOTE that there was NO NEGATIVE MARKING IN ANY OF THE TESTS INFI TOOK...SO ATTEMP FULLY

Step1: First of all there was a form given to us to fill.. it included all the details like Sem marks, 10th , 12th marks, working experience, address details etc etc.. u r given 30 mins to fill it correctly(especially the SEM aggregate Marks) and are Required to have a passport size photo along with it..

Step2: after the Form was filled we were given the Test Answer Sheet And Paper

test::1 APTITUDE AND REASONING..
The Paper Consited Of 30 Questions (all one marks):::and time alloted was 45 min::::::
 the paper consisted of the Following topics::

1. Data Interpretation:: 5 ques.
i advice u to prepare the pie chart(which came in my paper) and tabular chart Questions thorughly as they give good marks on a carefull observation

2. Logical Reasoning::5 Ques
It consisted of the PET syllogic Ques.. like 1. all Charts are Wire 2. all wires are frames and some conclusions were given
#Advice# use VENN Diagrams for solving them.. they ae faster and accurate.

3. Puzzles :: 5Ques
they consisted of Ques like A,B,C,D,E had a sum of money, the total was Rs.100
->>the total of money A+B had was equal to that of C+D..
>A had half the money B had, D has more money than C..
>> D has 5 more than B..
and Ques were like:: Who HAS THE MOST/LEAST AMOUNT OF
MONEY
HOW MUCH MONEY DID 'c' HAVE... and three other (i dont rem exacxtly)
 #ADVICE# do not attempt to solve fully .. in most cases "solving" is not as imp as "observation"
 #ADVICE# TIME MANAGEMENT is the key resource to crack Infi exam

so try to observe Ques(not only this but all) Carefully and examine the fact it helps to save Time.. and improves accuracy.. only when it is needed factually u should do the cacluations

4. IMAGE QUESTIONS ::: NON VERBAL.. 5QUES..
some were easy n some were tricky.. we had to find the Next Figure in the series ..i mean we were given 5 figures following a definite pattern and we had to find the next Succeeding Figure..
 #ADVICE# the Key again lies in Carefull observation
>>>>some of them i would like to share with u >>> --->>> Rotation(clockwise or anti) --->>Degree (the degree to which the figure has moved)-->>whether some lines or figure is being constantly added or subtracted and if yes then in which manner

5 it Was a mix of DATA INTERPRETATION+DATA SUFFICIENCY+PUZZLE ::::::
5qUES
% note%   THAT WE DID NOT GET ANY PROBLEMS REGARDING BLOOD RELATiONS but i wud recommend u to go through it also, as it has come in previous papers... so u shud be well prepared for Infi...

 ##ADVICE## U CAN REFER TO R.S.AGGARWAL VERBAL AND NON VERBAL (ITS SUFFICIENT TO CRACK INFI) IF U WANNA PRACTICE MORE, TRY ABHIJEET GUHA IT IS ALSO A NICE BOOK..

test:: 2 english Test 30QUES & 35MINS.
friends i would like to remind u that English in INFI has a good level so prepare it in a better way.. its not that its tough.. but ur preperation will give u the time margin so that u can score well..
 it was Divided in the following::
1. LONG Comprehension.. and Short Comprehensions (avoid doing them first as they consume a lot of time... attend them later)
2. Sentence Correction..given will be three long sentences and u will have to choose the best of them grammatically and logocally correct..
3. Fill in the blanks..choose the best phrase that would fit in
4. WORD meaning.. there was only one Ques on It ----The word was CALUMNIOUS and we had to find the meanings closest to it..
##ADVICE## u can practice comprehension by reading the editorial coloumn of ur daily newspaper and for the rest try "Wren And MArtin" it's worth it.. Trust me!!

and thats all it was on the written side... REST was my interview..
THE INTERVIEW..
went for about (20-22 min) the procedure was..
I Entered the room after his(the interviewer's) permission and sat on the chair when he insructed(never sit without his permission it creates a bad impression) he gave me an attendance sheet to fill.. after that he asked me to sign on two places on the form which i had filled in the written phase.. Now that all formalities were done.. the interview started:
 the questions i was asked (Not sequentially) were::

1. Tell me something about urself..
2.. how can u say ur creative(it was on mu CV so he asked me), what creative work u have done; quote an example
3. give an example of u being ADAPTABLE...
4. Do u read newspapers, which one and magazines if yes, which,
5. why U read Tachnical magazines , name some of them
6. HAVE u faced any problem in ur life, if yes what was it and how did u get out.
 7. He gave me a puzzle.. i solved it after examining it..
8. what is the one thing u dont like about that place u belong to (I said It was traffic problem)
9. how can u solve that problem if u were made the incharge..(it was a long discussion and took most time)
10. Why Do u like to Join Infosys.
.(i told him the points (ofcourse in my own way) that we were told by the infocian lady during our PPT)
11. Family Background..
12. what do u speacialise in computers..
 13. what is your ambition in life...
14. some 2-3 ques were from my CV and EVents that i wrote..

and there are some of the questions my fellow friends were asked::
1. form General Awareness. like TOI Editor?? Chief Justice Of india.. Latest Deals and News..
2. From the world Cup.??
 3 What do u know about Infosys.. etc etc..
##ADVICE## the jist of the interview is

INFOSYS PAPER ON 10th APRIL

hello friends ,,,, i m sahil from g.n.d.u. i would like to thank the whole fresherworld members and those who submitted there experiences and questions of exams they appeared for,,, i will also like to thank all my friends and off-course my nears and dears .,,,,,,

i gave infy. exam on 10th april in amritsar luckily i made through it...
a total of about 800 students gave the written test out of which only 143 were shortlisted for interview and out of them 92 were declared placed.

Written test:
duration- 45 min
questions -30

the test was tough but can be cleared with not much trouble if one lays emphasis on time management .....and off-course c2d policy can give help

Q 1-5   data interpretation (need presence of mind) i don't remember the full question but it was almost like ----
gopal and mohan bought 2 types of trees lemon and coconut in the ratio 1:5
gopal spent 2 lacs in other thingd like levelling,labour etc,,they totally invested 12 lakhs after they sold coconuts they got 5,00,000.as revenue ,, total field was 5 hectares ,, and the output of fields were in the ratio 2:3 ,,they sold a coconut for Rs.5 ques. were on to find the number of coconuts , the number of lemons total revenue of lemon etc ....ths was quite time consuming question

Q6-10images question five figures were given in each question ,, and we have to find the 6th of it from the options ,,(do it carefully)

Q11-15data sufficiency(very easy)
one quest was   :: is g+3>h+2?
1.g>0and h>0   2.cube of g >cube of h
these question test the basics of a person these can be simple quadratic equation to even plus or minus questions...
Q16-20 a mix of data interpration and puzzle test (easiest ,,, mostly candidates did it orally)mainly it was like puzzle test but a tabular data was given to give it data interpretation type look,,,, i m sure everybody might have done it without much trouble

	1996	1997	1998	1999	2000
a	30	31	20	27	32
b					
c					
d					

    some data was given like that i don't remember exactly
1. brand for which shares increases 3 times in a row is called 'strogn brand '
2. almost same sentence as 1 with consistent brand
3.
4.
5.
6.
some data as same as 1st was given ,, questions was to find the most consistent brand, to find the strongest brand..

Q20-25 puzzle test (tricky one)
ram ,lakhan and kishan are doctor,teacher and enggineer respectively ,, all are married with wives sita, gita and radha not in the same order ,,also working and some conditions

were given such as
1.techer's wife also teaches
2.a secret affair of 2
3.
4.
5.
rest i can't remember sorry
the quest was to find -1who is doctor ,2 who is married to ram 3 who is martried to engg.
4. 5.aomething like that

Q26-30 syllogism (easy)
remember all nine rules given in R.S.Aggarwal verbal and non-verbal

the test can be cleared with ease and comfort but ensure that u keep it exactly in time ,,
first do syllogism 5 questions will be done in atmost 2 minutes thn do data sufficiency
(these 2 sections are straight forward quetion with no link to each other hence max.
chance to get max. correct) then do puzzles as most students are strong in this region
atmost 5-7 minutes after wards do as u like to other questions as all other are more time
consuming

English : duratin-30 min question-40
English was basic but you have to be very careful
Q1-5 a big reading comprehension (need a lot of concentration)
Q6-10 reading comprehension but not so big
rest i don't remember the sequence
some 5 questions were on sentence correction (be careful ,all options are almost
alike)you have to gramatically strong to get on these one's

soem 5 questions were on inference ,,(deduce wht the paragraph say)
i remember one was like ---- jim corbett was a famous tiger hunter ,he went to some
forest in search a girl whom a tiger has taken with it ,, when he got to the tiger, he was
with a colie,,, tiger has just finished eating the girl   ,, despite of seeing jim corbett the
tiger did't moved ,,,
options were lik
1' tiger was used to see jim corbett
2' animals unlike humans are not greedy and kill only when they are hungry
3' tiger was scared of jim corbett's colie (a name was given a don;t remember)
4'

other questins were grammer like fill in the blanks with appropriate words ,, etc i can't
remember more queations sorryyyyyy

Interview
interview was simple and could be easily cleared unless you create a havoc or do some
blunder inside the cabin tips--- they were least interested in percentage , so don;t fear
even if you are in relaxation category   ,, they did't even saw mine file ,, just asked for

copy of my resume , so keep an extra copy of resume with you and also they will make you sign a attendane sheet , so have a pen of you,, (it doesn't look nice when you ask them for pen)

INFOSYS PAPER ON 8th APRIL AT DELHI

hi all..... i appeared for the test on 8th april,2007 at cambridge foundation school,new delhi........my experience was really unusual........i reached the test centre one hour before the scheduled time.....after half an hour three or four students walked in....i was of the view that....there must be around 1000 students(as i had gone through diff candidates expe.) but was astonished to c that we were just 7 students who had to appear for the test.....n a staff of around 14-15 were standing to welcome us....they were gossiping n same were we doing...as both the parties were surprised...as infy had send call letters to 1700 students....may be that was my luck that just 7 reached there......we took the test.....analytical part was very easy....it had 6 questins with 5 internal questions.......

1). data interpretation...:: in this question few missing figures were there in the table.....n hints were given to find them...then 5 questions were there on that data......it was bit tricky...may be i had not much time to solve that ...otherwise...it was easy....

2) there were 5 questions based on figures...like 5 figures were given we had to find the missing figure from the options...it was easy...n i think it depends on how cool minded u r at that point of time....otherwise it doesnt need practice....

3) there were 5 syllogisms...most of them were from RS aggarwal.....

4) again data interpretation....based on sale of food items...it was an easy one .....this again was a simple table....no graphical data was there....

5) there was puzzle...it was also easy......

6)data sufficiency : it was mathematical questions based....but i would like to tell u...that RS aggarwal is more than sufficient.....many people advised me to do times material...or cl...but i think once you solve RS aggarwal fully...its more then sufficient...ya what u wont get in RS agggrwal is DI questions...for that saolve few from any cat material...ya for data sufficiency....solve mathematics based data sufficiency...questions....

next english paper was very lengthy...it had two passages...leave them for last....then error finding,incorrect sentences,choose the correct option kinds question were there.....remember to be calm through out....don't loose patience....remember it doesnot have negative marking so if anything is left out...you can make guesses also.....just keep track of your speed.......my advise will be that when few days r left 4 exam...just set timers 4 forty minutes n try to solve 40 questions...i mean just practice to work fast.....

after the test we were asked to wait 4 half an hour.....all of us were in a very strange state...coz we were very few...n were not clear what would be the criteria of short listing...suddenly...a gentleman walked in our room n called my name....i was not atall prepared for what was going to happen next...n to my surprise he took me to a room....where my interview started.....it was without notice...in a hurry i switched off my mobile...they were sitting in a class room...so atmosphere was also not suggestive....i wished them...they started with...tell us about yourself...told

then my strengths....where did i show my leadership skills in real time scenario....all of the sudden one of them started taking my technical...that was again a shock...as i was a fresher...n that too unexperienced...i had done msc stats....n he was also 4m stas backgroung...so i was caught....anyhow i managed...then there was bombardment of mixed questions...technical as well as hr.....then they gave me a vicarious situation and asked me to add innovations...i did...atlast they said that i ll be intimated within 2 or three weeks.....i thanked them and came our...few other staffmembers were standing there... i asked them about other candidates they said only i was shortlisted...that was again a surprise....then they told us that test will again be conducted there on 15th april for those called 1700 students as they didnt get call letters.....thank god i was saved........now lets see what happens.......i m just praying to GOD that everything ends well.....coz ours situation was really strange....i dont know whether they will consider our test or not....just pray 4 me please...all the best to all of you...trust yourself you ll do it... i was also very phobic about the test....but its not actually that tough...remember its based on CAT style

but not difficult as that....so trust yourself.......u can do it.....and for interview....dont cram anything...just be clear what to say ...let it come direct from ur heart...coz thaey people r experienced ...n will rightly judge if u have cramed anything.......dont lie anywhere...be honest.....no body can beat you then......they just see how confident you are n how honest you are...all the best

INFOSYS PAPER ON 6th APRIL , Agra

Hi friends,

Tips:
1) crack wriiten test with a good score there is no chance for cheating because infosy will not allow u to do that as they have there pannel to conduct the exam ur collage have no role on it.
2) Have ur Acedemic records over 70%(u r eligible to sit if u hv 65% in C.B.S.E or 60% in state board)it really matters at the time of interview.
3) Be Confidant n dont lie them.

On pool campus derive of infosy on 5th April out of 962 students 203 had successfuly cracked the written paper in which 44 r from our college (I.E.T Agra)

The test is conducted under two sections:
(A) The analytical reasoning part(40 min & 30 questions)
(B) English usage (30 min & 40questions)

Infosys is following the cat pattern and is concentrating on the candidates time management, general aptitude And vocablury.

(1)English paper was tough one but conains questions from our daily English usage,a person with average english speaking skills have to work more in this section, no antonyms ,synonyms were asked so no need learn those from barons for infy atleast. it consis to two passage one is easy n other is not so easy as it was too long so preferable do it at last. there are some question to correct the sentance n like this be prepeard for ur gramatical skill if u r lacking it in urs than forget abt infy, so start prepearing for it frm a good grammer book like wren n martin.

(2) Analytical portion was quite easy one only u have to think abt is for time managment i will suggest u to do Data intepretations at last. there r questions frm missing figure n odd man out like this.u just refer too R.S.Agarwaal it will help u to crack it.

On next day (6th April)all shortlisted candidate r asked to report at the college at 10 am sharp for college wise interview. The interview was really cool one there are 13 pannels who r taking the interviews of 13 different students at one time. they simply want to

judge ur speaking n communication ability,so if u r good on that then there is abt 90% chance of getting shortlisted in final list.

on my interview they simply ask question frm my resume espessialy frm my hobbies so be prepeared for it with a good example. for example if ur hobbie is listening music then u must know what type of music n who is the singer of tht music who composed the song like this they can ask any thing,they asked me abt my state.so get ready for it.

at 5 pm sharp they announsed the result out of 203 the final list consist of 122 sucessful candidates(including me).
From our college I.E.T agra we 27 students are finally got selected and i thanx to all my teachers n friends who coperated with us.

With warm regards,

2) Infy has a bond for 1 yr.
3) The training is at Mysore
4) If you are not selected then you cannot write for Infy for a period of 9 months

ELIGIBILITY
I think it is 65% in 10th, 12th n BE with a 5% relaxation in any one…

PROCEDURE

STEP 1:
PPT
The PPT is for abt 90 min..
Go through the company website on the day before…collect all the relevant details and make a note…it will be much easier for u to follow the PPT..
Make a note of the HR's name..
Be prepared to answer questions like "Why Infosys?" or "What do u knw abt Infosys?" in the HR round…

STEP 2
FILLING OF THE APPLICATION FORM
You will have to fill an application form…make sure u fill it accurately…
Take 2 recent passport size photographs (imp)
The form will include the following details …
1)Personal details
Like name, address, phone no etc
2) Family details
Like name n occupation of parents..
3) Educational background
Like marks, university, month n yr of passing..
U will have to include all languages, pracs, and optionals in the total
And avg is calculated as
 Total marks obtained in all sems/total max marks
4) Other details like
Vision: It is 6/6 for normal vision
Major Illness + date: write NA if not applicable
References of people working at Infosys : if any

You get 30 min to fill the application form

STEP 3:
TEST OF ARITHMETIC REASONING AND ANALYTICAL THINKING
30 QUESTIONS
45 MINUTES

We had 5 sections each with 5 divisions
1) Puzzle based on direction sense…easy
Something like…
P,Q,R and S are standing at the 4 corners of a square…n/w ,n/e,s/w n s/e respectively…
N something like…If P and R move one and a half distance in the clockwise
direction…Q and S one n a half in the anticlockwise direction then in
which direction is P with respect to S…something like tat
All the sub questions were based on the similar pattern

2) Figure Completion….tricky…a little tough
5 figures in a series were given n we had to find the missing figure
It was a little tough …try n go through RS Aggarwal Verbal n Non Verbal Reasoning to
get a hang of these kinds of questions..

3) Data Sufficiency….easy
A question was given followed by 2 statements We had to mark
1) If the first statement alone was enough to answer the question
2) If the second statement alone was enough to answer the question
3) If the both the statements were required to answer the question
4) If the question cld not be answered using both the statements

Submit your resume to cvs@123eng.com

5) If either statement alone was sufficient to answer the question

A little practice from RS Aggarwal Verbal n Non Verbal or any CAT material will help u answer these kinds of questions

4) Data Interpretation….questions were direct but need quick calculations
We were given a table tat had the info abt the sales of 3 companies A,B n C for different years..1990 to 1998..
The total sales n price/unit was given..
We had to calculate stuff like
1)   avg price/unit of company C
2)   the percentage increase in the no. of units produced by Company A from 1991 to 1992
3)   the year in which the no. of units produced by Company C decreased a second time
4)   The year in which maximum no of units were produced…something like tat
The price/unit was given in decimals like 3.4 n the sales something like 501 etc.. hence there was a lot of division to do…try to approximate the values n calculate wherever comparison is involved… Practise from RS Aggarwal Quantitative Aptitude ..try timing ur self…

5)   Puzzle based on Blood Relations…easy
A family with members A,B,C,D,E and F….2 married couples…3 females…n the relations among them were given…
N questions like..Which of the following pairs represents a married couple?Etc were aske

Draw a family tree…it'll help u answer the questions
6)Logical deductions
In this section abt 5 statements were given n we had to find out which of them were logically related…
These were not the usual syllogism(all,some etc) type..
It was more like..
a)   T is taller than Q
b)   R and S are of the same height
c)   T is taller than S
d)   R is shorter than T
e)   Some other statement

Which of these are logically related?
1)eab   2) abc 3)cbd   4)ade

Others had statements like The avg salary was increased by 15%...etc
I think it is best to go with the answer options n choose the most appropriate one…

STEP 4:VERBAL 40 QUESTIONS 30 MIN

You get 2 comprehensions both were quite simple…but do the comprehensions at the end..read the questions briefly …then read the comprehension with proper concentration, understanding each statement…u can easily answer the questions 5 in each
10 Sentence Completion
4 statements almost the same but with some difference..mark the one which is grammatically correct..look for spelling mistakes..grammar errors etc…
10 questions based on choose the best option to replace the underlined part..
Simple paragraphs were given n questions were asked like which of these statements can be inferred from the para, which is false according to the para etc…

STEP 5: HR INTERVIEW
In the HR round u are basically asked abt ur self, ur résumé. There are no tech questions asked n even if asked it will be very basic stuff…
They also ask puzzles…u need not solve them..they only look at ur approach..

The questions I was asked..
1) Tell me abt ur self
2) If u were to organize an activity in our company that is fun, stressful and involves physical activity wat wld u organize n how wld u go abt doing
it??
3)Abt any project or computer course tat I had attended
4) Any questions??

They hardly eliminated people in the HR..it is enough if u speak confidently..
Getting thru Infy is not tough at all…If ur good with ur Apti n have a good command over English its enough..

All the Best…

INFOSYS PAPER ON 24th MARCH

Hi Friends, I am Sourav Kundu, 3rd Year Computer Science and Engineering, from Bankura Unnayani Institute of Engineering, Bankura and I am proud to be so. I have got selected in Infy through a pooled campusing and I want all of u to be my Friend there.

At the Very Beginning let me make u very clear about the fact that the Ques pattern of Infy have changed totally, and to some extent puzzles free. Their will be a single set.
First Part Reasoning:- It consisted of 6 sections of 5 ques each and 30 ques to be solved in 40 min.

It consisted of following Sections:-
1. Puzzle on classification from RS agarwal.
2.Ques on finding next image from given sequence.
3. Data sufficiency.
4. Data Interptation.
5.Syllogism
6.Puzzle on Blood relation from RS Agrawal

Puzzles were of Type:..... A,B,C,D,E three persons having dogs Jim,Con,Tom.... having freinds X,Y,Z,F,G and their doctors were h,j,k,l,v........etc.

Five condition were given like:- Jim is not A's dog, Y is D's Friend....etc.
Now Five Questions were their from the above hints.It was very time killing and I did it at the end.

Data interpretation was a Pie chart along with a table.It was fairly very easy.
100% can be scored from Data Sufficiency part: include ages,average,Time dist,Blood Relation.
The rest sections were easy too, preparing R.S. Aggarwal will be more than enough.

Second Part English:-
Next was English Test. In that there were 40 ques to be solved in 35 min.

Submit your resume to cvs@123eng.com

1. 5 long paragraphs including Comprehension.
2. 5 short paragraphs.
3. 7-8 ques on Filling the Blank/Completing sentence.
4. 7-8 ques on Sentense correction.
5. 7-8 ques on deriving conclusions from given paragraph.
6. 5 ques on finding best alternative for underlined sentence.

7. 6-7 ques of Type Like:---- All bangles are ring,all rings are not diamond,...etc
 Then which of the Statements are correct:- All rings are Diamond....etc.

Paragraphs were too big, I didn't have much from the paragraphs, one of the was on Evalution of OS,Windows,Dos,Macintosh,etc. Sentence correction part,etc. were too easy. Catagory &. as stated above can be scored fully.

PPT:- 0ne hour, It was excellent.

HR Interview:-
It was one of the most easiest round and eliminating too....Once you get nervous, you are gone...

I entered the room with a wonderful smile and the person came out of his seat and aplauded me heavily saying "What a wonderful smile Gentleman". I almost got through at the First site.

They may give U small brain teasers,like I was given:-- I ate 100 rasgullas for the past 5 days, each day i ate 6 rasgullas more than the previous day. 2day is the 5th day and i have completed 100 sweets.How many did i eat yesterday.

The are definitely going to ask U to speak on Dr. A.P.J. Abdul Kalam for 2mins. Then I was asked to compare him with Daud Ibrahm.

At the middle he told me that "You haven't impressed me. I give you a last chance, you have 2 mins, now impress me".My communication was very good, I have given all the questions confidently. So I understood he was trying to make me nervous. But I then boomeranged him with a puzzle and he said "Bravo, Bravo...".
From small questions they will go on testing your presence of mind. No trace of technical is there in the whole procedure.

Written is the most vital,once it is clear, U R 90% placed.

I have also been selected by L&T Infotech.

INFOSYS PAPER ON 26th MARCH ,TRICHY

Hai friends,
First of all i thank this website for helping me a lot for getting selected in infosys.I

attended this campus interview in 26th march 2007 in saranathan engg college trichy and i got selected one among the 125 students. Totally 1250 students participated in this interview and 200 students cleared the aptitude test and finally 125 students got selected.

The aptitude part consists of data sufficiency, data interpretation, figure series, logical questions. My suggestion is please go through the non verbal reasoning by R.S.Aggarwal. It is enough for you. During the exam please be relax don't be tensed . It is of 30 minutes.

The another part is **the verbal par**t it consists of two paragraphs with questions,phrases,tenses,fill in the blanks with appropriate words and some more i forgot those. It is of 40 minutes.

The second round is the **HR interview** and it is very easy. They expect the good communication skill and be bold. Don't be nervous and they gave some puzzles and asked me to try out. If you don't know the answer don't worry try hard to find out the answer until they asked you to stop. They give me one situation and asked me how u will solve it and you have to tell how u solve it.

The **HR questions i**nclude,
1.Introduce yourself
2.ask some questions regarding the details given in the resume
3.about hobbies
4.about areas of interest
5.some technical questions
6.about paper presentation
7.give some puzzles
8.significance of the birth place
9.give situation and ask us how to solve that

INFOSYS PAPER ON 24th MARCH AT DURGAPUR

Hi frz.. I am Reekodipto (REEK') from College Of Engineering & Management Kolaghat.

My experience… It was a long journey from KOLKATA. We reached the venue by 7:30. The PPT was supposed to start at 9:30 but it was delayed to 10:20 when finally the HR Manager Madame Padma Kini came on stage & started the PPT.

The PPT was of a duration of more than an hour, which made most of us restless. Around 10 colleges participated and around 1200 students turned up for the occasion. But as the cut off was declared, around 500 were eliminated.

So friends please heed to the criterion very well. Even a one mark short or a 0.1 % short was not entertained by any means.
The cut off was as follows…

ICSE / ISC / CBSE --- 65% throughout. (All 6 Subjects).
WB Board   --- 720/1200 (H.S).
Other Boards   --- 65% throughout.
B.Tech   --- 65% or 6.5 (average).

Diploma Holders should have 65% in class 10, 65% in B.Tech and 65% in any one in Class-12 or in their diploma results; whichever is higher can be considered. However there was a 5% relaxation for all in one of the examinations except for Diploma Holders and WB Boards.

So please be careful with the eligibility criterion & note it well when INFOSYS announces the same.

APTITUDE TEST :

One student in the PPT asked Padma about the cut off in the aptitude test but she blindly refused to utter a single word about that, instead she said, " It is strictly Confidential and under no circumstances we will declare the cut off ".

The Paper comprises of two parts – firstly the logical reasoning part, which was of a duration of 40 minutes and secondly the English part was of a duration of 30 minutes. Before starting off, you will be required to fill up a form along with a passport size photograph. You will not get the TWO PAPERS together. Only after the completion of the stipulated time, you will get the next paper.

The Logical reasoning part was a bit difficult. Also you have to manage your time very well. Don't waste too much time for a single question.

There were two puzzles, one was easy and another one was a 20 variables puzzle, which many of my friends couldn't solve. I don't know how I manage to solve it. The puzzles was not of the R.S. Aggarwal standard. It was quite difficult. I solved almost all puzzles from R.S. Aggarwal but neither of them was of that standard. But if you proceed in the correct manner, I don't think it will be difficult to solve. Remember well to use the rough sheet as during evaluations, they make check your rough sheet.

There was one problem from blood relations, which was easy. There were 5 picture series, which were of below standard. I think this everybody has done it correctly. Then there was a problem from PIE CHARTS, but it was too confusing but not difficult. Read the question very well before answering. There were 5 syllogisms, which comprises of 5 different interpretations for each. You have to choose the correct option. For this you can practice from R.S.Aggarwal. But the laws there given never went into my head.

The second paper is the English aptitude. This comprises of two comprehensions, which was too lengthy. The best way to solve this in quick time is to go through the questions first and then try to find the answer from the comprehension. Because if you start reading the whole comprehension, be rest assured that you are not clearing the aptitude test of INFOSYS. You can try it out. The other questions were from sentence completion, fill in the blanks with an appropriate word, preps etc. This section was very easy to score.

I being a student from ISC board, didn't find any difficulties in solving the English section, but some of my friends who have come from Bengali medium, found the paper to be a difficult one.
The results were declared after 3 hours. Out of around 800, only 95 cleared in the aptitude test and 22 cleared from my college. Luckily I was one of them.

PERSONAL INTERVIEW :-
There were 10 panels and hence this round was moving at a brisk pace. Though each was interviewed for at least half an hour .
Now let me share my experience…

Panel number one called me.
The interview..
Interviewer : Please have seat.
I :   Thank you, Sir.
Interviewer : So Reekodipto..What a good name. Can you say the meaning of your name?

Interviewer : Ok reek, Thanks you may leave..
I: Thank You Sir, It was a pleasure to interact with you.

The results were declared at 10:10 pm by Padma Kini and only 45 cleared out of 95, out of which 8 were from our college and I was one of them. Padma exclaimed to us by saying INFOSCIONS…We were very happy.
Some Important Findings:
Ø   Whatever you say, you should have proper justification at the back of your mind because the next question can be that
Ø   You can expect some current affairs questions specially the names of our ministers.
Ø   Though many says that Shakuntala Devi is not required but some of my friends were asked some questions from that book in their interview.
Ø   Good communication skill is a must in INFOSYS, which are not so important in other companies.
Ø   You can expect some situational questions in your interview.
Ø   Do not try to bluff the interviewer as they are very quick in reading your minds.
Ø   Be confident in whatever you are saying.
Ø   Do not try to use many ornamented words as that can lead you to trouble.
Ø   Believe in yourself and then believe in ALMIGHTY.

INFOSYS PAPER ON 3rd APRIL AT NOIDA

Just remember the rule – never be negative

Hello To All The People who are visiting the Freshersworld website and the infy placement papers. Just read the above line in bold carefully and make it in your mind and then no one can stop you entering infy or any of the company.

Guys I am from SIR CHHOTU RAM INSTITUTE OF ENGINEERING AND TECHNOLOGY, Meerut. I am very thankful to my college because it give me the opportunity to attend the off campus of Infosys at NIET, GREATER NOIDA.

We attended the off campus of Infy on 3RD of April. We were, as I think 4 or 5 colleges and two colleges were not able to come because of chaotic environment of Kanpur. Out of 622 students 91 were selected in the written phase, and from the 91 students 45 were finally selected to be trained at Mysore centre. And I am one of them. I was very happy to hear that from 19 students of our college selected in written, 13 were at last selected in Infy.(our selection number was the highest)

Our PPT(Pre -Placement Talk) was given at 09:10 am. And after that we were allotted Room no.'s acc. to colleges. The result of written exam was announced at 4:30 pm(although they told us that they will give the result at 3:00 pm). The interview was on the next day at 08:30 am.

Now coming to the pattern of the written examination :

1   Quantitative   test   :   (30   ques.   45   min.):
The quantitative test consist of :

A-Puzzles (not of Sakuntla devi type R.S agg is sufficient)(2) One was very easy solved in seconds other was bit hard but u can do(10 ques)
B-Ques on Graphs(5) They were also from R.S agg.(these were time consuming)
C-Non-Verbal series solving i.e which picture will be next in series(also from R.S agg.) (5)
D-Syllogism(5)

2 Verbal test(English) : (40 ques. 30 min.)
It consist of two passages. The first one was a bit lengthy and hard but the next one was a piece of cake. Another ques. Were based on Fill in the blanks with app. Idiom, or fragments that are grammatically correct. To sum up the verbal test was the easy one and one who is good at English can do it very well.

On 4th april we were to given the HR at 08:30 am. The HR round was just a piece of cake but u have to be confident with positive attitude. Plus a good smile will add beauty to your HR. The HR round was not more than 15-20 min.

The result was announced at 2:00 pm.
That's all to say see u at Infy

For this refer "English is Easy – BSC publication book chapter 14" it is very useful.
find correct/incorrect from 4 given statement – 10 question. mainly grammar like article , preposition and tense.
Find inference from given short passage 10 question. easy.

English section is really easy if u work on grammar from .

One is that In news Paper style suppose1st page no have 1 and it other part have 72 no. then 2nd page no have other end 71 page then what will page no on other end of 13. simple 1+72 = 73 , sum from both side will be equal so 73-13 = 60 is the answer.

INFOSYS PAPER ON 24th MARCH, Karunya University

Hai everyone... Iam Dahlia... Infosys' new pattern is very very simple.... So its very easy to get into infosys...

The test cosist of two parts
1.Logical Reasoning(30 Qns 40 Min)
2.English(40 Qns 35 Min)

Time management is very very necessary while doing the English part... You will be given two long passages and some questions below that.. You have to read the Passage to answer the questions.. Attempt this part at last... If you attempt this first you wont have time to read the remaining questions... So be carefull in this... Be thorough with Grammars... Especially tenses...

And for Logical reasoning just follow any CAT book or RS Agarwal's non verbal reasoning...

1.Syllogism
2.Data Sufficiency
3.Data Interpretation
4.Missing Figures
5.Blood Relation
6.Cubes and Indices
7.Puzzle. Puzzles in RS Agarwal is enough... No need to study Shakuntala devi..

Then have patience...Bcoz it takes hell lot of time for the results to be out..We finished the written test at 12.30 and they were supposed to announce the result at 3 but they announced only at 6... I was very happy when they called out my name.. 500 student were attended.. 49 cleared the aptitude..So this round is very very important... 47 cleared the HR..

Then i called for HR at 9.30 pm....It was a stress interview.. But i made him cool... I greeted him.. He asked my name and the meaning of my name... Many questions were about my native.... Infosys was the second company coming to my college.. First was Wipro.. And he asked me why you were not selected for wipro.. I told him that i didnt perform upto their mark... And he asked me what do you know about Infosys? I told something which i have heard in PPT..Then he asked me do you ever visit the website of Infosys? I told no.. Then he told me that iam not interested in learning new things... For that i replied, Sir! for the last two weeks i was very busy with my internals and Preparation for Wipro.. Then he started asking some questions about wipro..Just to check whether iam telling truth or not.. He asked me the name of the Chairman and Vice Chairman of Wipro..And some questions regarding Wipro.. I answered him.. I think he was satisfied with my answers..And my friends were given some puzzels to solve... And finally he told that he likes my name very much and told me to wait for the result...Finally they announced the results at 11 pm...My name was one among the 47..It was one of the happiest moment in my life...

No technical, they just test your confidence,presence of mind and general awareness...So update yourself... Dont be tensed... Just have a smiling face.. Thats enough.. Be truthfull... If you dont know just tell i dont know sir.. Dont pretend as you know.. They will easily find out...

Pray well and attend with Confidence....This is more important than anything... All the best... See you in Infosys

PPT...
Was very nice.Motivated us enough to join the company at any cost.The pics of campus of Infosys were shown and various instructions were given esp. about filling up the Application Form.

The selection procedure consisted of two parts:
1) WRITTEN
a: Quant+DI+Syllogisms+Data Sufficiency etc.... 30 questions 40 minutes
b: English (RC+Sentence completion+Choose most correct sentence+small passages) 40 questions 35 minutes

2) HR
About 300 students wrote the Aptitude Test out of which 38 were shortlisted for the next round and 31 were finally selected
Here are some of the questions which i remember...

QUANT:

It is painted on two opposite faces of 7X6 with red color,one 6 X 5 face with violet and the face opposite to it with green color.and the remaining two with 5X7 with Blue and Yellow .Now it is cut into small cubes of 1 cm sides.then answer the following questions on the basis of above facts:

b)How many cubes are there with 3 face painted with Red ,Yellow and Green?
c)How many were painted with one face RED?

e) how many ....

so in all there were five questions based on this wid four options each.Although i don't remember the options but the questions were like this only

6-10: The second set of questions was about finding the odd one out from the given set of five fig.It also had 5 parts.

A A alone is sufficient to come to the conclusion

B. B alone is sufficient

C. Both A and B are Required.

D. Data Insuffficient.

like

x3 = x5

a) x>-3 b) x<0

some fig . with dimensions was given and one side PQ couldn't be deduced frm that .so they asked what would be reqd to calculate the Area.

a) PQ=3 b) PS=6.

For three nos. a,b,c in A.P condition required

a)a+c=2b b)a+b>c and two more such type of questions..

16-20 A table was given like:

product	Machine A	Machine B
A	4 hours	2 hours
B	3 hours	5 hours
C	4 hours	4 hours

The table looked like above..The data may be different .then 5 questions were asked.. like if efficiency of machine A is double to that of B ,then what is the ratio of a nd b drawings

some question on Horsepower rating of these machines,

some question on most efficient way to utilize the machines.

20-25

abt lectures A,B,C,D,E,F and some data related to it like

25-30

SYLLOGISM

a) all a are b

b) some b are c

c) no b are c

INFOSYS PAPER ON 21st MARCH AT BANGALORE

Hi guys,
Here are some tips to crack Infy. As you know the exam pattern of infy has been changed
recently. Before we used to have a lot of puzzles and then basic English. Now the pattern
is somewhat easy. 100 % Presence of mind and 75% intelligence can get you through.
Mine was an online exam. Guys the questions cannot be solved fully in their provided
time. Some questions need lot of thinking and consumes time. Just skip those questions
taking lot of time and finish others.. 'coz you can solve others with ease and after gaining
confidence by solving those questions.. surprisingly the question you left will seem easier.
So just carry on with the easier ones as fast as possible. The Non- English session
has questions from the following....

1. Data sufficiency
2. Data Interpretation.
3. SYLLOGISM - - Very important. and somewhat difficult. Refer the 9 rules from R.S
Aggarwal. Memorise those. However the question is in different manner from that of RS
Aggarwal. Here i give an example however this is not the same question but the same
pattern...

Question:
statement A: Some men are educated.
        B: Educated persons prefer small families
        C: All small families are educated.
        D: some men prefer small families.
        E: bla bla bla bla.... (this is not the exact sentence man... just some other
sentences.. i cant remember..)
Choose from the following which is logically correct..
1. ABC
2. EBC
3. ACD
4.ABD

Here the answer is ABD. Like wise some 5 questions.. If you prepare it throughly you can easily get 5/5 in less time. saving time for others.

4. Puzzle test-- This does not mean the puzzles we see in Shahuntala devi but they'll give a passage and we must get the details from that and solve the questions following it. These examples can be found in RS Aggarwal verbal and Non verbal reasoning. Concentration is the key !.

5. Spot the odd figure out:
This session was somewhat tough guys... Also you should have good pair of eyes to view the images correctly.. If possible get a lens !!! Observe deeply and mark the answers. Refer RS aggarwal for this too...

For all the above portions refer RS Aggarwal verbal and non verbal... Its enough. But work out all the examples... and test yourselves with some hard exercise. RS Agg is more than enough. Also refer.. from the asme book ... series completion, direction sense test, Blood relation, cubes and dice...

Regarding English session. It was a bit tough. Attempt the passage comprehension at the last else you'll be reading it till next batch comes !! Long passages.. Good grammar can get you through in this session.

After the finish of online exam we were asked to wait for 1/2 an hour.... FInally the shortlisted candidates list were exhibited. By God's grace i was fortunate to be in it. Out of 30.. 5 were shortlisted....

Soon we were called for HR round... I went last... i was interviewed by 2 fems... Just asked personal questions... Then asked puzzles...
1. there was a water bottle in front of us.. they asked me give 10 examples how you can use it other than filling liquid...
 me: blah.. blah... blah...

2. If i drink some water from this bottle how can you measure the reamaining amount without any conventional measurement !!!
said -- can be done by counting the number if stripes in that bottle... But they were not impressed asked me someother way... I surrendered!!

3. Gave me a puzzle....
Bring 100 out of seven 3's.... another boy in my batch was asked bring 23 from five 5s. However we both ddnt solve it... Its not a problem they just see how you proceed ....
Later i found the answer to be as 333/3 - 33/3 = 100 and 5*5 - 5/5+5/5 = 23

Be confident and loud in speaking to them. They just check your comm. tats all...
Finally i'm asked to wait for 3 weeks to get the result... However i have no confidence personally gettin in... Pray for me !!!

INFOSYS PAPER ON 17th MARCH AT DELHI

Hey guys,
There were around 1400 students who appeared for the written test. Out of those, around 260 were selected for the interview. Finally around 100-150 were selected.

There were 2 rounds:-
1) Written test which consisted of 2 parts:-

a. Reasoning (30 questions in 40 minutes)
· Puzzle(something like…there were 6 bikes, A,B,C,D,E,F. C was sold atleast before 4 bikes. D was sold immediately after C. B and E were sold atleast before 1 bike. …etc. There were 5 questions on this puzzle).
· 5 questions on Data Interpretation.
· 5 questions on Data Sufficiency.
· 5 questions on finding odd one out from a given series of 5 figures(very easy).
· Puzzle(tricky one…5 questions based on that).
· 5 questions on syllogism(there were 5 premises given in each ques, and options consisted of a combination of 3 premises. We had to choose the one which was a logical combination out of the given choices).

b.Verbal ability (30 questions in 35 minutes) (very easy paper…ur grammar should be good).
· 2 reading comprehensions with 5 questions each(quite easy, but passages were lengthy, so attempt in the end).
· 10 questions on sentence completion.
· 10 questions on replacing the underlined portion of a sentence with one of the options given.

Firstly, they gave us an application form to fill up. We had to affix a passport size photo n fill up personal details n marks as well as aggregate from 10th to pursuing or qualified course(make sure u write exact percentage n marks). Also, details of eyesight n last major illness/surgery in the last 1 year, n work experience(if any). If u know somebody presently working in Infosys, then u'll have to provide his name, relation n location where he's presently working.

2) HR interview
Interview lasted for about 5-7 minutes. There were 15 HR personnels simultaneously interviewing 15 students in different rooms. I was not given any puzzle to solve, but other candidates were asked to solve puzzles(so be prepared for that). Questions that I was asked were:-
· How do ur friends describe u?
· How do ur enemies describe u?
· Tell me something about urself.
· Tell me about some disturbing moments in ur life in last 1 yr.

Submit your resume to cvs@123eng.com

· Tell me about some happy moments.
· Tell me some news headlines from the next 2 weeks.
· If u win Rs.1 crore lottery, how will u spend that money?
· If u r made the dean of a college, what r the 5 things that u'd like to change in the college?
· What r the books that u've read in the last 1 year?(I mentioned reading novels as a hobby in my CV)
· Would u like to ask any question? (make sure u ask a question, that too a genuine one).

In the interview, they just check ur confidence level and ur communication skills, so don't be nervous and answer questions confidently. If u don't know the answer, just say u don't know, don't panic.

INFOSYS PAPER ON 17th MARCH AT NEW DELHI

I am Pulkit Gupta, 6th semester studentof Information Technology branch of GPMCE affiliated to IP university,Delhi. I gave infosys on campus test for freshers on 17th, 18th March.2007, and cleared it. total 1500 students came from different colleges of IP univ and finaaly 170 were selected out of 220 shortlisted for HR interview(very low percentage for infy).the paper was tough especially english section.
Let me thank this site first for giving me a guidance and opportunity to get placed at Infosys. To start with, let me tell u one thing. The selection procedure of Infosys (New Pattern) is not that easy compared to previous pattern(quiz) and you have to work a little harder(especially for english as it is totally CAT pattern and time management is the key to crack infosys) to ensure that u r placed. More over, your luck also plays a major part. Let me describe the selection procedure and my experiences. I think it might help you to focus in a correct direction .

The Selection Procedure had three phases:
PPT presentation on INFOSYS made by the head of the HR recruiting team
Aptitude and Verbal Reasoning
HR Interview

In the morning (around 10 am), after the arrival, u will be exposed to a ppt presentation on Infosys. I am sure that this will motivate enough to get placed at Infosys.

Next, we were allowed to disperse and we were allotted rooms for our test. After we are settled in our rooms, we were given an application form to fill it up(if u have anyone in infosys,write it as reference it may help you in HR). The instructions to fill the application form will be announced prior. Be careful in filling those forms and provide accurate statistical data of your marks as far as possible.

Submit your resume to cvs@123eng.com

Next comes the Aptitude test. It was started at 11.50 am. The time limit for aps is 40 mins within which u have to complete 30 q's. The aptitude session consists of the following sub groups.

 A puzzle and 5 objectives based on the puzzle.

5 Problems on finding the next figure in the series.

5 Problems on data Sufficiency(Little tricky)

Data Interpretation: A bar graph was given and 5 questions followed it.(mine was an easy one) but dont do it first, keep it for the end it takes time.

Once again a puzzle which is little tough as compared to the previous one with 5 questions followed it

Last 5 questions on logical arrangment.

1 puzzle was: Exam is to be held between Monday to sunday. There is 1 holiday in between papers. 9 papers were: english, hindi, math, history, civics geography, biology, physics, chemistry.

Conditions were:

1) exams will start either on sunday or wednesday with biology and no other paper will b there on that day.

2) Geography paper can be followed by 1 other paper but not on Monday.

3) Hindi & English cannot be accompanied by others.

4) Saturday is a half day and sunday is after the holiday.

5) Number of papers before holiday is less than that after the holiday.

5 questions were there like:

1) when the exams start??

a) Sunday   b) Wednesday c) Monday   d) Friday

ans: b) Wednesday

2) when is the holiday?

a) Sunday   b) Friday   c) Saturday   d) Thursday

ans: b) Friday

rest i dont remember but the sequence was like this

sol: Wednesday   Thursday   Friday   Saturday   Sunday   Monday   Tuesday
biology   history   holiday English   Hindi civics geography physics   maths
chemistry

1 question i remember of data sufficiency was: i suggest do data suffiency from rs aggarwal quantitative book because dey wont ask u theoritical questions so go thru ques on data sufficiency at the back of each chapter.

Find the area of quadilateral ABCD.a right angled quadilateral figur was given.

1) AC=5

2) BC=13

ANS was b) both are required to find the area

sorry friends i dont remember all questions as they were too long. After 40 mins they collected the question paper for aps and gave us verbal(english) q paper. Here is where u have to put more effort. The verbal part is very tough as compared to aptitude. If u are strong at basic grammar (particularly tenses and phrases) u will have this cleared.

There will be 40 q's which u have to finish in 30 mins. Time management is very much essential here. The pattern of this question is:
2 Passages (R C) followed by 5 q's each. The first one was easy(mine was on womens, i didnt read it but it expressed the positive aspect of women, i answered on this basis only) and the second one was little tough(i didnt even got the time to look at it, do not leave any question attempt all) .
Selecting the correct option which is grammatically correct from the available four options.
fill in the blanks type questions
Replacing the underline phrases with suitable ones(phrases were too long so were the options, time consuming)
Deriving conclusion from small passages(tricky one).

For english, you can refer any CAT material like CL,ims etc. and prepare well for it, dont take it lightly as it is the main eliminating section in written test, aptitude is easy. in our case, 220 were shortlisted out of 1500 for interview n english section played a major part int it).

Remember friends the preset cut-off of infy's test is 15 out of 30 for aptitude and 20 out of 40 for english and these dont vary with performance. If all students get more than 50% in test, all are selected and if no one gets it, then no one is selected.

The tests are over by 1 pm. the results were be announced by 9.30 pm. There were 1500 students appeared for test and 220 were shortlisted for HR round which held next day.

HR round:
it is of 20 minutes per person on an average. Try to drive the interview to ur field of interest(personal profile) to maximum time so that he gets less time to interview you as they ask u to leave after 20 minutes sharp, they have a clock in front of them.

Prepare some questions in advance like:
1) your introduction. Finish the answer conciously on to ur field of interest as next question will be from ur last line of the answer.
2) strengths and weakness. say the weakness that looks like your strength, dont say m emotional, less patient,hot tempered. you may say that i become irritated when my teammembers do not work efficiently. it looks like a strength.
3) role model. it would be great if u say ur father or mother as this reflects your honesty, dont say person from the company like Mr. Murthy, it looks fake.
4) Hobbies. u should know everything about it like if u say reading then he may ask u about todays headline or latest novels in market or anything related to reading.

5) your objective. dont repeat the line written in ur resume.twist it and then say.
6) 1 question about the company.

now i will tell my experience there were 15 panels from different colleges of Delhi university(infy members dont take freshers interview).
I was allotted to a gent HR who was really experienced and may be english professor. Confidence and smiling face is the key to clear HR round.
he asked me to fill the attendance sheet. I didnt wrote the time of my interview n then he told me to write it as 1:25pm. then asked me wat is PM in 1:25 pm.i didnt knew. so friends dont give him any chance to ask u such questions.

then he asked me about my reference(my brother in infosys). Then he asked me 2 puzzles. he asked me to find the volume of the sprite bottle kept there(300ml). it didnt strike me and then he gave me various hints and then i said 300ml but i kept on trying, smiled in between.
after that he gave me a puzzle:

```
 F O R T Y
  + T E N
  + T E N
=S I X T Y
```
Find the value of each alphabet. i solved it. ans was N=0, e=5.
They just see if u are trying or not. Never say "i dont know" in the first place, just keep trying and he will himself change the question after 2-3 minutes.

Then he asked me tat do I have any question? Aways ask some question never say i dont have any and the question concerning the company. i asked why infosys has most of its centres in south india only? the question should be such that reflects your concern towards the company.

He answered me tat it is too early to concerned abt those issues and he commented that it was a very good qn and he liked my attitude. Then he asked me to check my mails regularly(which is an indirect sign tat I got placed). Then he wished me for my bright future.. I came out with confidence.

The results were announced by 7pm. I was very happy to hear that I got selected. 170/220 were selected. They have a pattern, they were selecting 75% of students from each college on an average.

Submit your resume to cvs@123eng.com

Hello friends

I am Nitin Gaykwad, Sixth Semester, B.E. (Electronics & Instrumentation) student of S.A.T.I. VIDSHA(M.P.).I m selected in INFOSYS campus conducted at R.G.T.U. BHOPAL(Technical university of m.p.).

It feels great to be a part of INFOSYS. I hope I'll b able to help you guys with my experience..

First and foremost important thing is to be confident. If u trust yourself, you have won half the battle. Even if you don't get through, don't get disappointed. The world does not end here, may be you a better opportunity is waiting for you

As you all must be knowing , the recent format for the Infy exam is as follows:-
1.Written test.
2.HR interview

Written test is in two parts:

A)Reasoning(30 ques, 40 mins.)
B)English(40 ques,35 mins.)

Reasoning:

It comprised of 30 ques to be solved in a span of 40 mins. There were 6 questions with approx 5 subparts each. The questions we got are as follows:

First collect the following books when u start preps for reasoning section.

1) R.S. AGRAWAL- Verbal & non verbal reasoning
2) R.S. AGRAWAL- Quantative aptitude(ONLY FOR DATA INTRPRETATION QUES.)
3) Any CAT Coaching material, TIME ,CL, PT...........etc.

starting with the paper, the questions are as follows:

1)PUZZLE :-(5 questions based on puzzle):A simple puzzle was asked, an easy one............do practice by R.s. agrawal.(verbal n non verbal) in the chapter (PUZZLE TEST).PUZZLE IS THAT :-

There are 100 cards distributed into 7 friends n 6 are got same no. of cards n remaining one got 5 less than others. simply they exchange cards among them. And 5 ques. On this puzzle.

2)VISUAL REASONING:-(5 questions): There are 5 ques. of this type is there.they r of odd man out type.the figure which is not like the other 4 figures is selected as answer.remember this is the most easiest part of the paper,if u practice well these type of ques. given in non verbal reasoning part of R.S.AGRAWAL.Then no one stops from doing all 5 ques. right.THUS,this part should be attempted first as they required less time than others

3) DATA SUFFICENCY: -(5 questions):
You have to decide if the information given in the statements is sufficient for answering the problem. Indicate your answer as:
a) alone is sufficient to answer the question.

b) II alone is sufficient to answer the question.

c) either I or II are sufficient to answer the question.

d) both are not sufficient to answer the question.

e) both are needed to answer the question.

FOR e.g.,one question i remember.........

a)what is the two digit number if?

1) sum of the digits is something....?

2)difference of digits is something......?

4) DATA INTERPRETATION(5 QUESTIONS):-

Two LINE GRAPHS were given & 5 quest based on this are given......Its little time consuming and a bit tough also. practice R.S AGRAWAL DI questions of all types which are given.......but i suggest u all to attempt it at last as very lengthy calculations r there. I also attempted it last. Also if u are practicing well i advice u to use guess work...............some ques . does not demand   full calculations..........they can be solved visually also...................I make 2 of them by this method. Especially it works in line graph type questions................

5) LOGICAL PUZZLE (5 QUESTIONS):-

Again a puzzle was there, but it was slightly lengthy...............

It was about 6 persons (3 male & 3 female) preparing for banking exams of 3 diff. banks.

Each 2 of them are good in three diff. parts i.e. English, quanta, & reasoning. We have to determine the right combination. Questions are based on these combinations. Similar problems are given in R.S.AGRAWAL. You practice from there.

6).LOGICAL DEDUCTION(5 QUESTIONS):-

These are problems in which logical deduction capability was checked. Questions are like, 5-6 sentences are given like some As are Bs, Bs are Cs, Ds are Es,..................you are supposed to find the group of logically correct sentences .i. e. ABC, CDF,BCE etc.

This is all about the reasoning part.

They do not disclose the cut off. I solve about 20-22 ques correct .but my friends with 17 score was also selected. So, don t worry about the cut off, just do ur best.

if it was tough then it was tough for all. So, keep ur mind free from tension.

IMPORTANT: there was no negative marking. but that doesn't means that u attempt all the ques. without some approach. Beware that they check ur rough work & so even if u dont know the solution of some problem, then please show some approach in rough work provided with paper. Remember that they do not check the wild guesses without some approach. So if u wants to get checked ur wild guesses, THEN PLEASE DO UR ROUGH WORK NEAT & CLEAN& SHOW SOME APPROACH

That's all about reasoning section. now they put the English paper before u.

ENGLISH PAPER (40 questions - 35 minutes):

It contains 40 ques. to be completed in 35 min.it consist of following type of ques.

Time management is very much essential here. The pattern of this question is:
1)2 Passages(R C) followed by 5 q's each. The first one was easy and the second one was little tough.
2)Selecting the correct option which is grammatically correct from the available four options.
3)fill in the blanks type questions
4)Replacing the underline phrases with suitable ones
5)Deriving conclusion from small passages.

if u have good knowledge of basic fundamentals of english grammer then u can easily get through it.

For grammar, you can refer WREN & MARTIN book.

The tests are over by 1 pm. They told us that the results will be announced by 3.30 pm. There were 700 students from 11 colleges attended the tests.It was third day of three days mega campus drive of INFOSYS.(from 12 to 14march).All colleges of MP are invited. The results for our college was announced at 4 o clock and soon after that we were called to attend the HR Interview. There were 51 students who are shortlisted for the Interview. The Interview started Immediately after the announcement of written tests.

There were 12 panels and the segregated us into various groups. All the 12 panel HR's were so cool and they asked just simple questions from the Resume. Some of our panels had puzzles also.

I was allotted to a gent HR who was very senior official of INFOSYS.He was really cool and jovial. He made me comfortable and offered me water as i was slightly nervous. I accepted it and said thanks. Then he started asking some simple questions from the Resume like

1. Tell me abt urself?

2. about family background.?

3.about hobbies?

4. about the cricket match?(since my hobby is cricket & world cup is going on.)

5.who is ur favourite player & why ? which quality?

6.about my achievements in various areas?(i will explain fully).

7.at last ,he asked a silly ques about the uses of bricks.(i explained it).

then he asked me if i have some questions to him.then my H.R. was over & he said " well done" to me & i wished him before coming out of the room.

then, after the wait of 3 long hours ,mthe result was declared & 41 were finally selected.i was one of them by god`s grace.

So friends, The main thing is to prepare a little and project a lot. Use your innovative and creative ideas and make sure tat it is exhibited. Be yourself and be confident. Hope this will help you. See u at INFOSYS…
