Term-End Examination

June, 2007

**ES-203 : TEACHING OF ENVIRONMENTAL
STUDIES**

Time : 3 hours

Maximum Weightage : 70%

Note :

- (i) All the **four** questions are compulsory.
 - (ii) All questions carry equal weightage.
-
-

1. Answer the following question in about 600 words.

What is environmental education ? Why should it be included in the primary school curriculum ? Mention the shortcomings in its existing curriculum at the primary stage.

OR

Differentiate between living and non-living things. Suggest two activities for explaining the characteristics of living things.

2. Answer the following question in about 600 words.

What is meant by malnutrition ? What diseases are caused by malnutrition ? How shall you teach this concept and its ill-effects on children's health to primary school children ?

OR

Air is composed of many gases. Suggest some activities to help primary school students to arrive at this conclusion.

3. Answer any **four** of the following questions in about 150 words each :

- (i) Integration is the best approach for the development of EVS curriculum at the primary stage. Why ?
- (ii) 'Internal assessment is better than external assessment in EVS at the primary stage.' Give your comments on this statement.
- (iii) Illustrate the concept of continuous evaluation with the help of examples from the subject of EVS.
- (iv) What measures shall you take to protect tender plants during winter ?
- (v) What activities will you organise to help the students to conclude that some materials are soluble in water and others are not ?
- (vi) How shall you help students to develop habits of safe handling of food and water ?

4. Answer the following question in about 600 words.

As a teacher of EVS, what tools shall you use to evaluate student's achievements in the unit on 'Cultural Heritage of India' ? Illustrate with examples, how you will use these tools for the purpose.

प्राथमिक अध्यापन में प्रमाण-पत्र
(सी.पी.टी.)

डी.पी.ई. का मॉड्यूल 1

सत्रांत परीक्षा

जून, 2007

ई.एस.-203 : पर्यावरण अध्ययन का शिक्षण

समय : 3 घण्टे

अधिकतम भारिता : 70%

नोट :
