Normalization procedure for merit based admissions

Normalization procedure shall be adopted for UG and PG courses in which there is no Entrance Test.

UG Courses

Normalization of marks will be done on the basis of marks obtained by a candidate in Senior Secondary (+2) examination conducted by C.B.S.E., I.S.C., and P.S.E.B. in the state of Punjab and U.T. of Chandigarh. In science stream normalization of marks will be done on the basis of marks obtained in Physics, Chemistry, Mathematics (PCM) or Physics, Chemistry, Biology(PCB). The higher marks obtained in Mathematics or Biology will be considered for normalization. There will be no normalization of marks for students from other States or Boards.

P.G. Courses

Normalization of marks will be done on the basis of marks obtained by the candidate in the qualifying examination for students graduating from the Universities of Punjab. There will be no normalization of marks for students graduating from other Universities or Institutes.

Normalization for admission to U.G. courses will be carried out as follows :

$$\text{Normalized marks} = \frac{\text{Marks obtained by the candidate} \times 100}{\text{Marks obtained by the topper of the Board in the stream in which the candidate qualified}}$$

Normalization for admission to P.G. Courses will be carried out as follows :

$$\text{Normalized marks} = \frac{\text{Marks obtained by the candidate} \times 100}{\text{Marks obtained by the topper of the University in the stream in which the candidate qualified}}$$

The streams refer to combination of subjects such as Science, Arts, Commerce etc. For I.S.C. and C.B.S.E., the topper at National Level will be treated as the topper.

If a candidate has passed qualifying examination in a year before 2012, the marks obtained by the topper of 2011 will be taken for normalization.

Normalization will be done only for those courses which were offered by concerned Universities of the Punjab State in the session 2011-12.

Two certificates one from the DC / GA to DC of the District or SDO (Civil) / SDM with the town / village being within 10 miles limit from the international border, and another from the Headmaster / Principal of the Institution with details of exact date of joining and leaving the school / college must be produced along with the application form as per **Annexure-V**.
- (E) Only the certificates showing the specific “grade” pertaining to the following three categories from Director Sports, Punjab, Chandigarh are acceptable. The candidates will be admitted on the basis of merit of Grade A followed by Grade B and then by Grade C.
Grade-A Sportsmen / Sportswomen of International standing i.e. those who have represented India in recognized international Tournaments, meets, Events, Competitions etc.
Grade-B Sportsmen / Sportswomen of National standing i.e. having represented their States, combined universities, services, State School etc. in recognized National Tournament Contents, Competitions etc.
Grade-C First three position holders of Punjab State Championships, inter-districts State Championships and State School Games, organized by Punjab Sports Departments/Punjab Olympic Association.
- (F) The Certificate should be from the Station Commander or the Commanding Office of the unit in the case of serving Defence Personnel and from the concerned District Sainik Welfare Officer in case of retired personnel. In case of ex-serviceman below the rank of the Officers, discharge certificate should also be produced. The Officers should produce the retirement order or service particulars.

The priority for different categories under the defence quota shall be determined as per Ministry of Defence letter No. 3547/AS(R)/94 dated 03.06.1994 endorsed by UGC vide letter No. F.1-53/98(CPP-II) dated 5.1.2005

- (G) “Physically handicapped” shall mean one who is blind or deaf or has lost an arm or a leg or the use of any of these limbs or educable mentally retarded or is orthopedically handicapped permanently as per definition given below, provided that a certificate about any of these handicapped shall be produced from the Civil Surgeon / Chief Medical Officer of the District. The “Blind” are those who suffer from either of the following conditions:
 (i) Total absence of sight;
 (ii) Visual acuity not exceeding 6/60 or 20/200 (snellen) in the better eye with correcting lenses;

(iii) Limitation of the field of vision subtending an angle of 20 degree or worse.

The "Deaf" are those in whom the sense of hearing is non-functional for ordinary purposes of life. They do not hear, understand sounds at all, even with amplified speech. The cases included in this category will be those having hearing loss of more than 90 decibels in the better ear (Profound impairment) or total loss of hearing in both ears.

The Orthopedically handicapped are those who have a physical defect or deformity which causes an interference with the normal functioning of bones, muscles and joints. Alternatively, a child may be considered orthopedically handicapped if his disability prevents him from participating in an acceptable manner in childhood activities of a physical recreational or educational nature.

Mental retardation refers to sub-average general intellectual functioning which originates during the development period and is associated with impairment in adaptive behaviour.

- (H) Children of families of persons killed as a result of terrorist violence / by security forces acting in aid of civil power and for the children of innocent civilian who have sustained 100% disability in terrorist violence or during operation by security forces acting in aid of civil power / children of Sikh migrants / children of army deserters killed / 100% physically disabled children / grand children of freedom fighters including Martyrs of Jallianwala Bagh & Kuka Lehar/Successors of the participants of Kama Gata Maru Lehar defined to include only sons / daughter, grandsons / grand daughters (both maternal and paternal) / Wards of Punjab Policemen decorated with Gallantry Medals . Certificates from Deputy Commissioner / GA to DC / ADC shall be accepted as per **ANNEXURE-VI**.

The total reservation for all categories (excluding the sponsored candidates) shall not exceed 50% of the total strength in a course / class. If required e.g. in a course where the number of seats is less than 30 the reserve categories D to H may be clubbed together or into two or more groups of categories to arrive at a whole number for making the admission. However no one category will have more than one seat at the cost of any other reserve category if two or more seats are available by clubbing.

The reserve categories A-E and G will be open for Punjab domicile candidates only.

The candidate claiming seats under any one reserved category will be admitted on merit inter-se in that category / categories subject to fulfilling the eligibility requirements.

All candidates must declare their claims for reserved categories at the time of filling their forms for the entrance test/counselling otherwise; their subsequent claims may not be accepted. Admission will first be made against reserved categories and if any reserved seat remains unfilled, it will be treated as open for admission from general category candidates. The claim for a seat in any reserve category will not prejudice the right of a candidate for being considered in open merit.

ONE EXTRA SEAT MAY BE CREATED TO ADMIT A FOREIGN STUDENT SPONSORED BY THE MINISTRY OF HUMAN RESOURCES IN ANY COURSE PROVIDED NECESSARY PHYSICAL FACILITIES ARE AVAILABLE AND THE CANDIDATE FULFILS THE FOLLOWING CONDITIONS:

1. All foreign students seeking admission to this university should get either sponsorship or No Objection Certificate from Govt. of India. However, candidate sponsored by Govt. of India will be preferred.
2. All such candidates have to meet a minimum requirement of eligibility for admission to the respective course. They are also required to sit in the Entrance Test and qualify the same.
3. Foreign students residing in India and having qualified in the eligibility examination should appear in the Combined Entrance Test for the said course.
4. No admission will be made after the last date of admission approved by the Vice-Chancellor.
5. All foreign students will be admitted only after getting Eligibility Certificate issued for the course from the General Branch of the University.
6. Foreign students must have Student Visas issued by the Govt. of India.

In course where number of seats for admission is restricted due to limitation of facilities and filled quota of reservation category becomes more than 50% of total seats, an ad-hoc marginal increase in open category quota, may be allowed to fulfill the requirement of atleast 50% seats in open category. This increase will not at all count towards any fresh calculation of reservation policy quota.

FOR RESERVED CATEGORIES, LATEST CERTIFICATES NEED TO BE PRODUCED

The university also provides facility of (Tuition) free education to children of persons killed in November, 1984 riots and terrorist violence in Punjab State.

Clause -3 What constitutes Ragging : -

Ragging constitutes one or any of the follows acts:-

Any conduct by any student or students whether by words spoken or written or by an act which has the effect of teasing, treating or handling with rudeness a fresher or any other student.

Indulging in rowdy or indisciplined activities by any student or students which causes or is likely to cause annoyance, hardship, physical or psychological harm or to raise fear or apprehension thereof in any fresher or any other student;

Asking any student to do any act which such student will not in the ordinary course do and which has the effect of causing or generating a sense of shame, or torment or embarrassment so as to adversely affect the physique or psyche of such fresher or any other student.

Any act by a senior student that prevents, disrupts or disturbs the regular academic activity of any other student or a fresher;

Exploiting the services of a fresher or any other student for completing the academic tasks assigned to an individual or a group of students.

Any act of financial extortion or forceful expenditure burden put on a fresher or any other student by students;

Any act of physical abuse including all variants of it: sexual abuse, homosexual assaults, stripping, forcing obscene and lewd acts, gestures, causing bodily harm or any other danger to health or person;

Any act or abuse by spoken words, emails, post, public insults which would also include deriving perverted pleasure, vicarious or sadistic thrill from actively or passively participating in the discomfiture to fresher or any other student;

Any act that affects the mental health and self-confidence of a fresher or any other student.

with or without an intent to derive a sadistic pleasure or showing off power, authority or superiority by a student over any fresher or any other student.

Clause -7 Action to be taken by the Head of the institution : -

On receipt of the recommendation of the Anti Ragging Squad or on receipt of any information concerning any reported incident of ragging, the Head of Institution shall immediately determine if a case under the penal laws is made and if so, either on his own or through a member of the Anti-Ragging Committee authorized by him in this behalf, proceed to file a First Information Report (FIR), within twenty four hours of receipt of such information or recommendation, with the police and local authorities, under the appropriate penal provisions relating to one or more of the following, namely;

- i Abetment to ragging;
- ii Criminal conspiracy to rag;
- iii Unlawful assembly and rioting while ragging;
- iv Public nuisance created during ragging;
- v Violation of decency and morals through ragging;
- vi Injury to body, causing hurt or grievous hurt;
- vii Wrongful restraint;
- viii Wrongful confinement;
- ix Use of criminal force;
- x Assault as well as sexual offences or unnatural offences;
- xi Extortion;
- xii Criminal trespass;
- xiii Offences against property;
- xiv Criminal intimidation;
- xv. Attempts to commit any or all of the above mentioned offences against the victim(s);

- xvi. Threat to commit any or all of the above mentioned offences against the victim(s);
- xvii. Physical or psychological humiliation;
- xviii. All other offences following from the definition of "Ragging"

Provided that the Head of institution shall forthwith report the occurrence of the incident of ragging to the District Level Anti-Ragging Committee and the Nodal officer of the affiliating University, if the institution is an affiliated institution.

Provided further that the institution shall also continue with its own enquiry initiated under clause 9 of these Regulations and other measures without waiting for action on the part of the police/local authorities and such remedial action shall be initiated and completed immediately and in no case later than a period of seven days of the reported occurrence of the incident of ragging.

Clause -9 Administrative action in the event of ragging: -

9.1 The institution shall punish a student found guilty of ragging after following the procedure and in the manner prescribed hereinunder:-

- a) The Anti-Ragging Committee of the institution shall take an appropriate decision, in regard to punishment or otherwise, depending on the facts of each incident of ragging and nature and gravity of the incident of ragging established in the recommendations of the Anti-Ragging Squad.
- b) The Anti-Ragging Committee may, depending on the nature and gravity of the guilt established by the Anti-Ragging Squad, award, to those found guilty, one or more of the following punishments, namely;
 - i Suspension from attending classes and academic privileges.
 - ii Withholding/withdrawing scholarship/fellowship and other benefits.
 - iii Debarring from appearing in any test/examination or other evaluation process.

 - vi Suspension/expulsion from the hostel.
 - vii Cancellation of admission
 - viii Rustication from the institution for period ranging from one to four semesters.
 - ix Expulsion from the institution and consequent debarring from admission to any other institution for a specified period.

Provided that whether the persons committing or abetting the act of ragging are not identified, the institution shall resort to collective punishment.

- c) An appeal against the order of punishment by the Anti-Ragging Committee shall lie,
 - i In case of an order of an institution, affiliated to or constituent part, of a University, to the Vice Chancellor of the University.
 - ii In case of an order of University, to its Chancellor
 - iii In case of an institution of national importance created by an Act of Parliament, to the Chairman or Chancellor of the institution, as the case may be.

Special Features

Established in 1996, the Department enjoys the distinction of catering to the needs of the textile processing (dyes, dyeing, finishing) and related industries by offering 4 year B. Tech. (Textile Chemistry) course, designed in collaboration with leading textile industries. Thus, the outgoing students find placements in leading textile industries throughout India and attract salaries commensurate with any other discipline of engineering. Some students opt for M.Tech (Textiles) degrees at IIT, Delhi, ICT, Mumbai, NIT Jalandhar and/or abroad.

The Department is also recently awarded Special Assistance Programme (SAP) by University Grants Commission with a grant of Rupees 75 lac. Individual grants from agencies such as Department of Science and Technology (DST), Council of Scientific and Industrial Research (CSIR), Ministry of environment and Forests, UGC etc. are utilized to guide students for their Ph.D. degrees in the disciplines of Chemical Sciences and Technology including Textile Chemistry, high-tech application of dyes and Environment. At least 12 Ph.D. degrees have been produced so far and at present eight research scholars are working for their Ph.D. degrees. The faculty carries research in their own areas of specialization.

The Department has also entered into Memorandum of Understanding (MoU) with Advanced Academy for the Development of Textile Technologists (AADTT) a joint venture of DyStar and Alok Industries, wherein students are selected for scholarships and advanced training in the labs of DyStar and Alok industries alongwith other students selected from other institutes across India.

The Department has gained distinction because of the active research collaboration with various national as well as international universities/institutes such as University Institute of Chemical Technology (UICET), Bombay etc, University of Cape Town, Rega Institute, Belgium, Chinese Academy of Sciences, Beijing etc.

The Department also houses a testing facility named as Textile Industrial Service Centre (TISC), which serves the local as well as regional textile industry by providing testing services on payment basis and is an added bonus especially to local and nearby industry.

Eligibility

- Bachelor of Science/Applied Science in any subject, B.Tech. in Food Technology/Bio-technology/Sugar Technology/Sugar and Alcohol Technology with at least 50% marks in aggregate.
- Any other examination recognized equivalent thereto.

Mode of Admission

The admission will be based on merit of the candidate in the Entrance Test to be conducted by the University in the subject of **Food Technology and Chemistry**. Students can appear in **any one** of these subjects.

Syllabus for the subject of Food Technology

- Food nutrients requirements and deficiency diseases, food groups and concepts of balanced diet.

2. Food adulteration, food laws and food safety.
3. General principles of food processing and preservation by additives, high and low temperature, drying, irradiation, sugar, salt, etc.
4. Preparation of jams, jellies, marmalades, juices, squashes, ketchup, pickles and chutneys.
5. Liquid milk processing, filled and fermented milks. Preparation of milk products- cheese, condensed and evaporated milk, whole and skim milk powder and ice cream.
6. Structure of cereals and their proximate composition, flour and its use in bakery products- bread, biscuits, cakes, doughnut and buns. Additives for bakery industry. Milling of different cereals, parboiling of rice. Pulses: composition, antinutritional factors and utilization.
7. Structure, composition, nutritive value and functional properties of eggs. Slaughter and dressing of poultry and other pet animals. Meat tenderization. Principles of meat preservation.
8. Dimensions and Units. Material and energy balance. Unit operations in food processing.
9. Cell bioconstituents, structure, function and biochemistry and human nutrition. Nutritional significance of carbohydrates, lipids, proteins and nucleic acids.
10. Biochemistry of enzymes, vitamins, mineral elements and their role in nutrition. Composition and functions of blood and lymph, digestion and absorption of carbohydrates, lipids and proteins.
11. Biochemistry of food constituents such as water, lipids, proteins, carbohydrates, minerals, vitamins, enzymes, tannins, coloring and flavoring components.
12. Effects of processing on food constituents.
13. Food spoilage-sources and preservation by physical and chemical means. Microbiology of foods-cereals based products, meat, poultry, eggs, fruits, vegetables, milk, milk products, salts, sugars, etc.
14. Role of microorganisms in fermented foods-bread, malt beverages, wine, vinegar, butter and cheese, etc.
15. Food poisoning and their causative organisms, food borne infections.
16. Principles of food packaging, packaging materials, packaging methods and machinery. Packaging requirements for different food products.

Syllabus for the subject of Chemistry

1. Chemical Bonding and Structure Ionic Bond: Recapitulation of general characteristics; radius ratio rules, the structures of NaCl, CsCl, ZnS and CaF₂, lattice energy, Born-Haber cycle, covalent character in ionic compounds, polarising power and polarizability, Fajan's rules percentage ionic character from dipole moment and electronegativity difference. Covalent Bond: Valence Bond approach, concept of resonating structures and resonance energy, hybridization of atomic orbitals and VSEPR theory and its use in predicting structures.
2. Molecular orbital approach: Linear combination of atomic orbital, molecular orbital electronic configuration of diatomic molecules (Be₂, B₂, N₂, O₂, O₂²⁺, O₂²⁻, CO, NO, CN, NO⁺, CN, HF, HCl)
3. Definitions, Complex, ligand, chelate, coordination number, Werner Theory, stereochemistry of different coordination numbers isomerism in coordination compounds rules of Inorganic nomenclature.
4. Aldehydes and Ketones; Mechanism of nucleophilic addition reactions, oxidation, reduction and reductive amination Ketones, tautomerism Aldol condensation, Wittig reaction, Perkin reaction, Knoevenagel reaction, Cannizzaro's reactions, Reformatsky reaction with mechanism.
5. Fats and Oils: Analysis Acid value, Iodine value saponification. Soaps and detergents.

6. Phase Equilibria Definition of phase, component and degree of freedom, Criteria of phase equilibria, Gibbs, Phase Rule and its thermodynamics derivation. Derivation of Clausis-Clapayron equation and its importance in phase equilibria, phase diagrams of water system, Ki-water system and lead-silver system.
7. Polymers : Varieties of macromolecules, molecular weight of macromolecules and its distribution, the number average and weight average molecular weights, methods of determining molecular weight osmotic pressure, sedimentation, viscosity and light scattering methods.
8. Electrochemical Cells: Recapitulation of difference between electrolytic and galvanic cells, meaning of electrode potential and electro-motive force(EMF), Reversible and irreversible cells measurement of EMF of cell, thermodynamics of a reversible cell calculation of thermodynamic properties $\Delta G, \Delta H, \Delta S$ from EMF data, Nernst equation, type of electrodes including reference electrodes, Standard electrode potentials, Determination of standard EMF of a cell, Activities, activity coefficients and equilibrium constants from EMF method, Concentration cells (both electrode and electrolyte) with transference and without transference, liquid junction potential. pH determination using hydrogen electrode, glass electrode and quinone-hydroquinone electrode , potentiometric titration acid-base redox and precipitation.
9. Adsorption: Difference between adsorption and absorption, factors influencing the adsorption of gases on solids, physisorption and chemisorption, Langmuir theory of adsorption, Langmuir adsorption isotherm, B.E.T theory of multi layer adsorption, Type of adsorption isotherms.
10. Chemical Kinetics: Rate of reaction, rate constant rate expression, factors influencing rate of a reaction order and molecularity rate equation for 1st order reaction, derivation of second order rate equations both for equal unequal concentrations of reactants, half life time of reaction first and second order reactions), methods for determining the order of a reactions, consecutive reactions, parallel reactions, chain reactions and opposing reactions, influence of temperature on reaction rate, Activation energy and its calculation from Arrhenius equation, collision theory and Activated Complex theory of biomolecular reactions, Comparison of the two theories.
11. Transition Metal Chemistry : Definition, position in the periodic table, division into d- and f block transition elements, electronic configuration of atoms & ions, general characteristics such as size, density, melting & boiling points, oxidation states, ionisation energies, reactivity, complexations, Comparison of the properties of the first transition metal series with 2nd & 3rd transition series.
Origin of paramagnetism, diamagnetism magnetic susceptibility and magnetic moment from magnetic susceptibility, ferromagnetism and antiferromagnetism (qualitative idea), magnetic behaviour of first row transition metal compounds, qualitative idea of orbital contribution in explaining unusual magnetic moments in first row transition metal compounds.
12. Spectral properties of Transition Metal Compounds: Term, symbols coupling scheme(L-S), determination of energy states for d² configuration only, Crystal Field Theory, Splitting of d-orbitals in octahedral, tetrahedral, square planar & tetragonally distorted geometry, CFSE, spectrochemical series, magnetic properties from crystal field theory, selection rules of electronic spectra, nature of electronic transition in complexes with d¹-d² configurations in octahedral and tetrahedral fields (simple energy level Orgel diagrams only), special features of electronic spectra of Cr(III)- octahedral Mn(II) octahedral, Co(II) -tetrahedral and Ni(II)-octahedral.

13. The f-type of elements: Lanthanides: Electronic structure and position in the periodic table, oxidation states spectral and magnetic properties, lanthanide contraction and similarity in properties, occurrence, separation of lanthanides by ion exchange method. Actinides: Electronic structure and comparison with lanthanides, oxidation states, extraction of thorium and uranium from their ores.
14. Organometallic Compounds and π -acid complexes. Definition, types of organometallic compounds, classification of ligands, EAN and nomenclature bonding, metal carbon bonding, metal carbon multiple bonding.
15. Reactive Intermediates Carbocation, Free radicals carbenes and Nitrenes (Structure stability and reaction)
16. Rearrangement: Banzidine, Beckmann, Schmidt Wagner-Meerwin, cope and Claisen rearrangement.
17. Heterocyclics: Structure formula of five and six membered heterocyclic with one hetero atom (furan, Pyrole, thiophene and pyridine), electrophilic substitution reaction. Mention of formula of pyrrolidine, piperidine, quinoline and isoquinoline.
18. Natural Products: Introduction to oils and fats steroids, terpenoids and alkaloids, nomenclature, isoprene rules, synthesis and structure elucidation of camphor, citral, nicotine with special mention of estrone.

Special Features

The department has been established to generate skilled manpower to meet the requirements of food processing, sugar & alcohol industry. The department has specialized laboratories in the areas of (i) Cereals, legumes and oilseeds processing; (2) Fruits and vegetables processing; (3) Meat, fish and poultry processing; (4) Milk, and milk products processing; (5) Food analysis and quality control; (6) Food engineering; (7) Product development; (8) Sugar processing; (9) Sugar testing; (10) Alcohol technology; and (11) Sophisticated instrumentation laboratory. In addition to theoretical knowledge, the students are also given in-plant industrial training.

The laboratories are equipped with sophisticated instruments like Instron universal testing machine, UV-Spectrophotometer, Farinograph, Viscoamylograph, Alveograph, Spray dryer, Freeze dryer, Electrophoresis, Differential scanning calorimeter, Dynamic rheometer, Rapid visco analyser, Moisture analyser, Brookefield viscometer, Texture analyser, HPLC, Hunter colour lab, sucrolyser system, Karl fischer titrator, NIR-spectrophotometer and sucro scan. The department has pilot scale processing facilities for fruits and vegetables, bakery & pasta products.

Eligibility

- B.Pharmacy degree examination of Guru Nanak Dev University or any other recognized University/Institution with 60% marks (55% in case of SC/ST).
- 80% seats are reserved for candidates who have qualified GPAT and passed B. Pharmacy examination of Guru Nanak Dev University. However, if eligible candidate(s) are not available under above category, the vacant seats shall be open to the candidates who have qualified GPAT and B.Pharm examination from other universities.

Mode of Admission

The admission will be made, in the order of preference for specialization, on the basis of score in the GPAT and in case of non-availability of GPAT qualified candidates the admission will be based on merit in the Entrance Test to be conducted by the Department.

GPAT qualified candidates must indicate their GPAT score in admission form under the column "Any other Qualification".

Syllabus

Important Note: The Entrance Test will be based on multiple choice questions and carry 100 marks and no negative marking.

Natural Products: Pharmacognosy & Phytochemistry – Chemistry, tests, isolation, characterization and estimation of phytopharmaceuticals belonging to the group of Alkaloids, Glycosides, Terpenoids, Steroids, Bioflavanoids, Purines, Guggul lipids. Pharmacognosy of crude drugs that contain the above constituents. Standardization of raw materials and herbal products. WHO guidelines. Quantitative microscopy including modern techniques used for evaluation. Biotechnological principles and techniques for plant development, Tissue culture. Pharmacology: General pharmacological principles including Toxicology. Drug interactions. Pharmacology of drugs acting on Central nervous system, Cardiovascular system, Autonomic nervous system, Gastro intestinal system and Respiratory system. Pharmacology of Autocoids, Hormones, Hormone antagonists, chemotherapeutic agents including anticancer drugs. Bioassays, Immuno Pharmacology. Drugs acting on the blood & blood forming organs. Drugs acting on the renal system.

Medicinal Chemistry: Structure, nomenclature, classification, synthesis, SAR and metabolism of the following category of drugs, which are official in Indian Pharmacopoeia and British Pharmacopoeia. Introduction to drug design. Stereochemistry of drug molecules. Hypnotics and Sedatives, Analgesics,

NSAIDS, Neuroleptics, Antidepressants, Anxiolytics, Anticonvulsants, Antihistaminics, Local Anaesthetics, Cardio Vascular drugs – Antianginal agents Vasodilators, Adrenergic & Cholinergic

drugs, Cardiostonic agents, Diuretics, Antihypertensive drugs, Hypoglycemic agents, Antilipidemic agents, Coagulants, Anticoagulants, Antiplatelet agents. Chemotherapeutic agents – Antibiotics, Antibacterials, Sulphadiazine. Antiprotozoal drugs, Antiviral, Antitubercular, Antimalarial, Anticancer, Antiamoebic drugs. Diagnostic agents. Preparation and storage and uses of official Radiopharmaceuticals, Vitamins and Hormones. Eicosanoids and their application. Pharmaceutics : Development, manufacturing standards Q.C. limits, labeling, as per the pharmacopoeal requirements. Storage of different dosage forms. New drug delivery systems. Biopharmaceutics and Pharmacokinetics and their importance in formulation. Formulation and preparation of cosmetics .Pharmaceutical calculations. Pharmaceutical Jurisprudence: Drugs and cosmetics Act and rules with respect to manufacture, sales and storage. Pharmacy Act. Pharmaceutical ethics. Pharmaceutical Analysis: Principles, instrumentation and applications of the following: Absorption spectroscopy (UV, visible & IR). Fluorimetry, Flame photometry, Potentiometry. Conductometry and Plarography. Pharmacopoeial assays. Principles of NMR, ESR, Mass spectroscopy. X-ray diffraction analysis and different chromatographic methods. Biochemistry. Biochemical role of hormones, Vitamins, Enzymes, Nucleic acids, Bioenergetics. General principles of immunology. Metabolism of carbohydrate, lipids, proteins. Methods to determine, kidney & liver function and lipid profiles. Microbiology : Principles and methods of microbiological assays mentioned in the Pharmacopoeia. Methods of preparation of official sera and vaccines. Serological and diagnostics tests. Applications of microorganisms in Bio Conversions and in the Pharmaceutical industry. Clinical Pharmacy : Therapeutic Drug Monitoring, dosage regimen in pregnancy and lactation, pediatrics and geriatrics, renal and hepatic impairment. Drug – Drug interactions and drug – food interactions, adverse Drug reactions. teratogenicity, prescription writing, clinical trails(Overview), patient counseling.

Special Features

The Department of Electronics Technology was founded in July, 1983. It supports the most coveted courses in the region. It is graced with a distinguished faculty. It has well equipped labs and facilities like Fiber Optic Communications, Microwave measurements, Digital Signal Processing, Microprocessor, Communication Systems and Electronic Devices and Circuits labs. The Department provides a well designed course curriculum and has an accordant interaction with industry experts. The Department also supports Ph.D. programme and extensive research activities in area like Digital Signal Processing, Microwave materials, Fiber Optics Communications (Components & Sensors) and nano devices. The Department has on-campus recruitment programmes for placements in prestigious companies and it is an honour for the Department that the placement rate has grown upto 100%. The students of the Department have formed ESF (Electronics Students Forum) to promote extra curricular activities to enrich their personalities. ESF has also organized events like Group Discussion and Vocab-a-Mania to exaggerate the hidden talents of the students. The department organizes National level technical festival. Performance of the students is very good in inter-departmental cultural festival Jashan as well as in inter-departmental sports meet.

Special Features

The Department of Guru Nanak Studies was set up in 1971 to meet the obligation of the Article IV of the Guru Nanak Dev University Act, 1969 which is as follows:

To make provision for study and research on the Life and Teachings of Guru Nanak Dev and their cultural and religious impact in the context of Indian and World Civilizations.

The Department of Guru Nanak Studies is an inter-disciplinary department with its main focus on Sikh Studies and Comparative Study of Religion. The department offers two Post Graduate Courses in Religious Studies and Philosophy and two M.Phil Courses in the same subjects. Besides teaching, research guidance is provided to regular as well as part-time students pursuing for their Ph.D. The department was sanctioned U.G.C Grant (SAP- DRS-1) of Rs. 24 Lacs along with separate provision for two Project Fellows for five years commencing from session 2007-2008. The Centre for Guru Nanak Studies was established in the department under the X Plan of U.G.C. Scheme on the 'Epoch Making Social Thinkers of India'. *Journal of Sikh Studies*, a referred journal of international repute has been a regular feature of the department since 1974. National and International Seminars and Conferences are organized by the department for dissemination of research activities on the Sikh Studies and allied fields in the wider perspective.

Special Feature

The Department of Hindi is one of the oldest and leading Departments in our University established in 1969. Besides M.A. , Post Graduate Diploma in Translation , M.Phil., it provides research facilities leading to Ph.D. It specializes in Aesthetics, Stylistics, Drama & Theatre, Sociology of Literature, Axiology, Gurubani, Linguistics, Ancient, Medieval and Modern Literature & Hindi Literature of Punjab. The courses are regularly modernized in line with the latest literary trends.

The Department of Hindi offers Post Graduate Diploma In Translation (PGDT) (Hindi-English & English- Hindi). This is a Job Oriented Course which offers excellent chances of employment .It includes the theory and practice of good translation and covers all disciplines of knowledge.

More than 230 Researchers of the Department have been awarded the degree of Ph.D. & near about 291 have been awarded the Degree of M.Phil. More than 300 students of the Department are serving as the Professors, Readers & Lecturers in different Universities, Governments and Non-government Colleges in all over India particularly in Punjab, Haryana, Himachal Pradesh, Maharashtra, Kerala and Union territories i.e. Chandigarh, Pondicherry and Andaman Nicobar. Our students are also working as correspondents of many important newspapers of India. Our many students of M.A. Translation are well-placed as Hindi Officers in different Nationalised Banks as Hindi Translators in Indian Air Force and Income-Tax Departments. Many of our students has been working in different sectors i.e. teaching, media, banking, insurance etc.

Ten teachers have won National Awards and honours. The members of faculty have completed six Major Projects and five Minor Projects. The teachers of the Department publish extensively. Publications of the faculty include 114 Books and about 950 research papers and articles. The Department has prepared Hindi Lekhak Kosh of Hindi writers belonging to Punjab. Twelve books are also translated by the Faculty Members. The Department publishes a regular Research Journal Pradhikrit. 22 issues of research journal 'Pradhikrit' are already published and 23rd in press.

The Department has organised 27 National and Regional Seminars/Conferences and six Refresher Courses. Celebration of Hindi Diwas is the regular feature of the Deptt.

Notable feature of the Department includes formation of 'Prem Chand Hindi Sahitya Parishad' for literary development of students. Weekly Departmental Seminars are organized by the Parishad. The Department also provides necessary and latest information through Wall Magazine.

Special Features

The Department of Botanical and Environmental Sciences came into existence in 1990. Since then the department has made rapid strides in both teaching and research. It has emerged as one of the premier departments not only of the University but has made its mark at the National and International levels. The department is recognized under DST-FIST and DRS-UGC programmes. The research activities of the department focus on the thrust areas of Environmental Mutagenesis, Genetic Toxicology, Environmental Analysis, Computer Applications in Botany and Ecology, Seed Technology, Plant Physiology, Plant Molecular Biology and Tissue Culture. The faculty of the department runs seventeen research projects funded by CSIR, UGC, DST, and DBT. Several faculty members have exposure to foreign research laboratories in the form of post doctoral and visiting scientists. The faculty has also developed collaboration with Indian and Foreign scientists. Who visit from time to time to deliver lectures on various aspects of Botany and Environment. The department also organizes refresher courses, national conferences/symposia and workshops. The Department has a Herbarium, Botanical Garden of 25 acres, Green House, Herbal Garden, Vermitechnology Unit, Computer Lab., Teaching and Research Labs, GC-MS, IRGA, Atomic Absorption Spectrophotometer, Fluorescent Microscope, Thermo-cycler, ELISA Reader, Stereomicroscopes, UV-VIS Spectrophotometer, Gel Documentation System, Flame Photometer and other facilities to carryout latest research in the advancing frontiers of Botanical and Environmental Sciences. The students carry out research at Master's, M.Phil. and Ph.D. level in the Department.

Syllabus

Unit I: Cell division: Mitosis and Meiosis.

Unit II: Chromosomes: Physical and chemical structure, Nucleosome.

Unit III: Structural changes in chromosomes: Deletion, duplication, para- and pericentric inversions, translocations and their significance. Meiosis in inversions and translocations. Heterozygote and its significance.

Unit IV: Numerical changes in chromosomes: Non-disjunction, aneuploidy (monosomy, trisomy, nullisomy including primary, secondary and tertiary).

Unit V: Modification of Mendelian ratios: Gene interaction, epistasis, complementary and supplementary genes, multiple alleles (as in blood groups of man), inheritance of blood groups.

Unit VI: Chromosome theory of heredity, chromosomal determination of sex, sex-linked disorders in man.

Unit VII: Linkage, crossing-over and recombination: Sex-linked characters, cytological basis of crossing-over, synaptonemal complex, chromosome mapping.

Unit VIII: Gene, genetic code, structure of DNA and RNA.

Unit IX: DNA replication and transcription.

Unit X: Gene expression, protein synthesis in prokaryotes and eukaryotes.

Unit XI: Genetic code and its properties.

Unit XII: Split and overlapping genes.

Unit XIII: Mutations: Spontaneous, induced, somatic and carcinogenesis.

Unit XIV: Applied genetics: Recombinant DNA, gene cloning and its applications in medicine, DNA fingerprinting.

Unit XV: Population genetics: Hardy-Weinberg's Law.

Unit XVI: Multiple factors: Qualitative and quantitative traits, inheritance of quantitative traits (skin colour) in man.

Note: One hundred questions (objective type) will be set from the prescribed syllabus. Each question will be of **one mark** and followed by a list of three or four options, i.e., A, B, C, or D (see Model Question Paper). The duration of the test will be **one hour**.

Model Question Paper

- The complete DNA sequence of an organism containing the complete genetic information is called:
(A) Genome (B) Genetic code (C) Genotype (D) Gene
- DNA synthesis occurs in:
(A) G1 phase (B) G2 phase (C) M phase (D) S phase
- In meiosis, crossing-over occurs during:
(A) Prophase-I (B) Metaphase-I (C) Anaphase-I (D) Telophase-I
- Base substitution that leads to amino acid substitution is known as:
(A) Missense mutation (B) Nonsense mutation
(C) Frameshift mutation (D) Triple repeat expansion
- Consanguinity is a term related to:
(A) Mating between the populations (B) Mating between the races
(C) Mating between the relatives (D) None of these
- Number of chromosomes in a human gamete are:
(A) 42 (B) 46 (C) 23 (D) 21
- Genetic information is stored in:
(A) DNA molecule (B) Protein molecule
(C) Both DNA and protein molecule (D) Lipid molecule
- A trait that manifests only in homozygous state is known as:
(A) Dominant (B) Co-dominant (C) Recessive (D) Hemizygous
- Blood group alleles in human are referred to as:
(A) Multiple alleles (B) Multiple factors (C) Polygenes (D) Multigenes
- Haemophilia is transmitted through:

(A) X-Chromosome
(C) Chromosome 21

(B) Y-Chromosome
(D) Chromosome 13

The Department of Human Genetics is a DST-FIST sponsored and a UGC-SAP recognized Department. Since its beginning in 1990 it has grown significantly in terms of teaching and research. At national and international level it is a well known Department through its research achievements. Faculty members of the Department have received various research projects from funding agencies such as DBT, DST, ICMR and UGC time to time. The major thrust areas of research and teaching include; Human Molecular Genetics, Biochemical Genetics, Cytogenetics, Medical Genetics, Human Growth and Development, Genetic Epidemiology, Genetic Toxicology and Population Genetics. Update of course syllabi, lectures by eminent scientists, hands-on-training workshops, seminars are the regular features of the department. The students of the department have been absorbed in premier research institutes and have also been able to get jobs in different diagnostic centers, hospitals, teaching institutions in India as well as abroad.

Special Features

The courses are comprehensively designed and regularly updated to train the students theoretically and practically for fermentation and microbiology. The Department has active collaboration with International and National institutes as well as reputed fermentation industries and research institutes. The students of the Department are occupying good positions in industry, teaching and research institutes in India and abroad including USA, Europe and Australia. The Department is equipped with basic and advanced facilities, including internet facility/connectivity, for microbiology related teaching and research. The Department has received special assistance for improvement of infrastructure under DST-FIST and UGC-SAP schemes.

Special Features

The Department of Chemistry came into existence in 1971 and over a period of time, it has emerged as one of the premier Departments not only of the University, but has also acquired prestigious status even at national level. The Department has been designated as "Centre for Advanced Studies" by UGC for the period of 2008-2013 and is supported by DST (1998, 2009) under its program for Improvement of Science & Technology (FIST). The semester system with internal evaluation of answer sheets is followed for teaching the courses. Before the results, the answer sheets are shown to all the students. In each Masters program, the perusing of independent research in final year and submission of dissertation is a distinguished feature.

The research activities of the Department focus on synthetic organic chemistry, supramolecular chemistry, structural inorganic chemistry, drug design, materials science, electrochemistry, chemistry of surfactants, chemistry of oils and fats, theoretical chemistry, thermodynamics and analytical chemistry. Every year a number of students clear UGC-CSIR (NET)/GATE test. The faculty of the department is presently running more than twenty research projects funded by CSIR, UGC, DAE, DST, DRDO and DBT etc. State of the art instruments like NMR, X-ray Diffractometer, GC Mass, UV, Fluorescence and Atomic Absorption Spectrometer, STA, HPLC, DSC, Polarograph, Mossbauer spectrometer etc. are available for research and teaching. The

department has contributed >550 papers in SCI (Science Citation Index) journals in last decade. The contribution of the faculty have been recognized both nationally and internationally and have been awarded F.N.A.Sc. (2), CRSI Gold Medal, Silver Medal, Bronze Medal, Oil Technology Award, Bhagya Tara award, Prof. M.S. Wadia award etc.

Several faculty members have exposure to foreign research laboratories in the form of post doctoral and visiting Professors/Scientists and are fellows of academic bodies of national repute and are also recipients of research medals. The faculty has collaborations with Indian and foreign scientists. The leading scientists visit from time to time and deliver lectures on various subjects at basic and advanced levels. The Department of Chemistry actively participates in national and international conferences and symposia. It also holds refresher courses, national conferences/symposia / meetings on regular basis.

The Department receives ONLINE journals from Royal Society of Chemistry, American Chemical Society, Taylor and Francis, Kluwer incorporation etc. Library has collection of 16500 books/references. The Book Bank incepted from 1972, lends books to the students for the entire session at nominal charges and nearly 300 students are benefited. The Chemical Society, run by the students, looks after all the extracurricular activities of the students.

Special Features

Experimental research facilities leading to Ph.D. degree have been established in the areas of Nuclear Geo-Physics based Seismotectonic studies, Radiation Physics, Environmental Radioactivity, Thin Films, oxide and chalcogenide glasses, amorphous materials, solid state ionics (ion conducting polymers, polymer gel electrolytes and proton conducting membranes), bioglasses and bio ceramics, radiation effects in glasses, gas sensors, ferromagnetic semiconductors, spintronics. In theoretical Physics, the Department undertakes research work in the areas of Nuclear Theory, Plasma Physics, Laser Plasma interactions, Transport Phenomenon in Gases, Digital Signal Processing and Communication. The Department has received financial assistance from the DST under the Nano Mission and FIST-programmes, UGC under the SAP (DRS-I) Programme and is also running research projects in different fields sanctioned by various scientific organizations viz. DST, CSIR, IUAC, UGC and BRNS etc. of around Rs.4.36 crore. Research equipment such as precision LCR meter, impedance analyzer, autoranging digital picoammeter, source meter, rotating viscometer, ultrasonic velocity and attenuation set-up, thermal and e-beam coating unit, spin coating unit, gas sensors test facility, powder X-ray diffraction with thin film attachment, UV-visible absorption, fluorescence spectrophotometers and AFM etc. are available. The Department is going to be equipped with state of art instruments like FE-SEM and Micro Laser Raman Spectrometer in near future.

After completion of graduation courses, the students are generally placed in different Educational Institutes, Research establishments (such as BARC, TIFR, DRDO, PRL, IPR etc.), Defence and IT Companies.

Special Features

Department of Sports Medicine and Physiotherapy was established in 1995 and is the only Department of Sports Medicine in any university in India. This is the only Department in India, which offers Ph.D. program in Sports Medicine and Sports Physiotherapy, both research based programs. It has one of the most comprehensive research laboratories in the fields of Neurophysiology, Motion Analysis, Human Performance, Sports Psychology, Exercise Physiotherapy, Kinanthropometry, Exercise Physiology, Isotonic and VO₂ calculation. On the teaching aspect, this Department was the first to introduce Masters in Sports Physiotherapy in South-Central Asia, which is internationally 'M' Level accredited by the Health Professionals Council of U.K. and Global Accrediting Agency. We are also recognized department of International Council of Sports Science and Physical Education (ICSSPE). Bachelor in Physiotherapy, Masters in Exercise Physiology and

Nutrition, Masters in Hospital Administration and Masters in Sports Psychology are the four programs, which are introduced for the first time in North India. The department also introduced M.D. (Sports Medicine) the **first clinical course** of Doctor of Medicine (Sports Medicine) in Asia. The course is recognized by Medical Council of India. For the benefit of sportspersons, the Department runs the Sports Medicine Clinic and Center for Excellence in Sports Physiotherapy. The Department provided medical covers during the last 3 National Games, Busan Asiad training camps and XIX Commonwealth Games. The department has MoU with following Universities abroad for research and faculty exchange: Post Graduate Institute of Medicine, University of Colombo, Bloomsburg University, Pennsylvania, USA, Human Performance Lab, University of Graz, Austria, Karl Franzens Medical University, Graz, Austria and Universiti Sains Malaysia, Malaysia.

Admission to Ph.D. Programme for 2012-2013

The students who have qualified UGC (NET)/ UGC-CSIR (JRF) examination/ SLET/GATE/INSPIRE/Rajiv Gandhi Fellowship awardees/teacher-fellowship holders, or have passed M.Phil. from Guru Nanak Dev University, Amritsar will be exempted from Ph.D. Eligibility Test. The UGC/CSIR/INSPIRE/Rajiv Gandhi Fellowship awardees or candidates who are awarded fellowships directly by these or other funding agencies for the purpose of pursuing Ph.D. can be enrolled any time during the session. NET/GATE qualified project fellows appointed against financed projects of at least two years duration can also be registered for Ph.D. any time during the session.

Eligibility qualification for admission to Ph.D. Programme:

Master's degree of Guru Nanak Dev University, Amritsar, with at least 55% marks (50% marks for SC /ST candidates), in the subject concerned or in an allied subject, or a Master's Degree with at least 55% marks (50% marks for SC /ST candidates) which is recognised by the Guru Nanak Dev University, Amritsar, as an equivalent qualification for admission to its Ph.D. Programme . "

Ph.D. Eligibility Test:

Ph.D. Eligibility Test will be conducted for the courses in which there are not sufficient number of NET and other qualified candidates to fill in seats for the Ph.D. programme, as per the prevailing Ordinances of Guru Nanak Dev University, Amritsar, for its Ph.D. Programmes.

The minimum qualifying marks required to pass in the Ph.D. Eligibility Test have been fixed as 55% marks (50% marks for SC /ST candidates) in the aforesaid Eligibility test for admission to Ph.D. Programme. The Ph.D. Eligibility Test will be only a qualifying examination / step for participating in the counselling for admission, and the other conditions for Ph.D. admission will be as per the prevailing Ordinances of Guru Nanak Dev University, Amritsar, for its Ph.D. Programmes. Mere qualifying in the Ph.D. eligibility test does not ensure admission to Ph.D.

The syllabus for the Ph.D. eligibility test for admission to Ph.D. Programme will be the same as prescribed for NET conducted by respective regulatory bodies. In case of subjects where NET is not conducted, the syllabus for the test will be notified by the concerned Head of the Department.

There will be two question papers :

- The first paper will be compulsory and common to all candidates. It will consist of 25 multiple choice questions of general awareness and mental ability, and will carry 25 marks.
 - The second paper will be subject specific. The candidates will be required to attempt 50 objective type questions, each question carrying 1 mark, and 5 short answer type questions (out of 15), each question carrying 5 marks.

Amardeep Singh Shergill Memorial College, Mukandpur(SBS Nagar) was taken over by Guru Nanak Dev University, Amritsar on July 4th,2007 as a Constituent College with the mission to provide quality education to the rural deprived youth. The University is in process to establish the institution as its Rural Regional Campus. In the first place the professional courses like M.C.A(Three years) and M.B.A(F.Y.I.C) were started from academic session (2008-2009). MBA(two years) was started from session (2010-2011).

The College was established in 1994 in the memory of Amardeep Singh Shergill, an illustrious student of London School of Economics who passed away in prime of his youth. He was the only son of S. Gurcharan Singh Shergill, an NRI from England. Instead of getting subdued in grief, the father decided to serve noble cause of spreading the light of knowledge amongst rural youth.

The College is situated in Mukandpur, a small town in District S.B.S Nagar. It is about 8 Kms from Banga, 20Kms from Phagwara and 20 Kms from Phillaur. The campus sprawls over 20 acres with an architecture that merges with the landscape. It has a magnificent triple storey library, which has more than 25691 books on its open shelves. More than 40 journals & magazines and 13 newspapers are also available. The library has an E-Book section also. The library is also member of N-LIST established by INFLIBNET, AHMEDABAD. Under this membership, we are getting access to 2100 E-Journals and 51000 E-Books. The students can view the educational C.D's in the library. College library is providing facilities of internet and photocopy to students and faculty members. Latest

equipments like O.H.P., multimedia, T.V., Stereo and DVD etc. are employed as teaching aids. The College has Chemistry, Botany, Home Science, Child Care, Dairy Farming. Music, Physics, Dress Designing and Automobile Maintenance labs. There is a separate Computer Science and I.T Center, which has six state of art Computer Labs with 150 computers and internet connectivity of 4mbps(1:1) through radio link. Keeping in view the deteriorating standard of English Language amongst rural youth an English language lab with Re-Net software imported from Finland has also been set up inside the College campus. There is a separate Seminar Hall with a sitting capacity of 170 persons. Hostel facility for 80 girls is also available with broadband Internet Connectivity.

Gymnasium with its latest imported machines is a cynosure of all the eyes. Darshan Gill Sports Complex with a track of four hundred meter has playfields for Football, Hockey, Volleyball and Handball. A fleet of nine buses carries the girl students to College and back. The beautiful open-air theatre helps our students to nurture their academic and cultural capabilities. To widen the horizons of the learners, seminars and extension lectures by eminent speakers are arranged in the College from time to time. Separate units of N.C.C, N.S.S and Youth Club are working to make our students to disciplined and service oriented citizens. Educational trips are arranged during the session to cultivate team spirit, mutual adjustment and tolerance among the youth apart from being a medium for entertainment. Various cultural programmes including talent hunt, University youth festival and Amardeep Mela are also organized.
