Project Report Format

- - Acknowledgement
- - Summer Training Certificate
- - Index

Organization Overview

Profile of the Problem

Existing System

- Introduction
- Existing Software
- DFD for present system
- What's new in the system to be developed

Problem Analysis

- Product definition
- Feasibility Analysis
- Project Plan

Software Requirement Analysis

- Introduction
- General Description
- Specific Requirements

Design

- System Design
- Design Notations
- Detailed Design
- Flowcharts
- Pseudo code

Testing

- Functional testing
- Structural testing
- Levels of testing
- Testing the project

Implementation

- Implementation of the project
- Post-Implementation and Software Maintenance

Project Legacy

- Current Status of the project
- Remaining Areas of concern
- Technical and Managerial lessons learnt

_____
_____
_____
_____
_____
_____
_____

User Manual: A complete document (Help Guide) of the software developed.

- Source Code
- Bibliography

_____
_____
_____
_____
_____
_____
_____

Others

- Time and Space complexity
- Data Base Connectivity
- OS functions
- GUI
- Help
- Code
- Sample Quiz
