

## OPENMAT EXAM PATTERN

### **About the Entrance Test**

You will be given a test booklet containing 200 objective type multiple choice questions and a specifically designed OMR response sheet in the Examination hall. You will notice from the sample test paper that it is different from the usual School/College examinations. It is, therefore, necessary for you to know in advance about the type of questions and the way in which you are required to answer them. This handout will help you in this respect.

The type of tests which will be used in this OPENMAT (ENTRANCE TEST) are given below:

	<b>Test</b>	<b>No. of Questions</b>	<b>Marks</b>	
Test I	General Awareness	30	30	
Test II	English Language	50	50	
Test III	Quantitative Aptitude	50	50	
Test IV	Reasoning	70	70	

All the above four tests will be given in a composite test booklet which will be printed in English. You will be given composite time of three hours to answer 200 questions. You may attempt the test in any order you like. Since the questions in the test Booklet are objective type, answers are not required to be written in words or sentences. For each question, there are four answer choices suggested and only one of them is right. You have to select the right answer from amongst the given answers. In case you find that none of the four alternatives is correct, you have to mark 'O'.
