## **END-TERM EXAMINATION**

FIRST SEMESTER [BCA] DECEMBER-2007

Subject: Programming with C Paper Code: BCA-105 Balch: (2005-2007) Paper Id-20105 Maximum Marks: 75 Time: 3 Hours Note: Attempt all questions. Internal choice is indicated. Q.1 Describe the purpose of the qualities const and volatile. (3)(a) What do you mean by casting a value? (3) (b) (3) Write six mathematical functions. (0) How strings are printed? Explain briefly with examples. (4)(et) In what ways does a switch statement differ from an if statement? (4) (e) Differentiate between structure and union with suitable examples. (4) Write syntax of two functions each from the following standard libraries: (4) (g) process.h (i) stdlib.h (ii) UNIT-I Explain various looping constructs of C with suitable code segments and their relative Q.2 merits and demerits. (12.5)OR (12.5)Describe the following operators with C code Conditional operator (i) (ii) Bitwise operators (iii) Comma operator UNIT-II Differentiate call by value and call by reference mechanism. Write a swap Q.3 (a) function to inter change the value of two integers. (6.5)What do you mean by Pointers to function? Write C code to (b) calculate  $\sum_{i=1}^n x^2 \; (i.e.1^2 + 2^2 + - - - n^2)$  . (6) What are the various storage classes? Illustrate the use of REG class. (6.5) Write down a C program using pointers to compute the sum of all elements stored in an array. UNIT-III (12.5)Explain the following with C code segments: Q.4 Structures within structures and self referential structure (i) Arrays within structures (ii) Structures as function parameters (ii) Write a complete C program which takes from the keyboard the student records (consisting of roll no., name, class, percentage of marks) and store these records in a file in decreasing order of then percentage of marks. UNIT-IV Write a complete C program which displays the use of two functions each from the Q.5 following standard libraries: -(12.5)string.h (i) (ii) math.h ctype.h = malloc , m (iii) process.h (iv) OR

What is a File pointer? Write a program to copy the contents of one file into another.
