

## Accenture Latest Placement Paper Pattern SJBIT, Bangalore : September 2010

**Company Name :** ACCENTURE

**Type :** Fresher, Job Interview

Hello people, I recently attended ACCENTURE interview n wud lik to share my experience... It was a pool camp in SJBIT, BANGALORE. Im from CS branch..There were more than (appx) 5000+ students(dono exact no).Finally appx 600+ cleared....After some document verification 1st round was started..

### There were 4 rounds:

- 1.Aptitude: English grammar,quantitative, substitution of symbols,essay
- 2.GD
- 3.Technical
- 4.HR

In detail....

**1.Aptitude:** There were some 4 fill in the blanks(very easy),2-3 synonyms,then 2 reading the passage.

1 long(topic:hologram), 1 short( topic was pattern recognition)..then there were some 4 more grammatical questions. Im not an expert in english but still believe me this will be very easy only thing is u shd revise parts of speech.. i used school std grammer buk..then comes aptitude(i seriously hate it) but still it was easy.. use r.s Agarwal its gud.. q's were from ages, alligation n mixtures,probability,venn diagrams, family relations(2-3 q's were ther),calender,clocks n some more topics. Then comes the most easiest part odd man out...ex: question wud be....

- a) 1284566678
- b)1234566678
- c)1284566878
- d)1284566678

n ask u whtr they r similar or not or if 2 r similar.. something like dis...ul get 5 q's of this type.

then a puzzle giving many relationship then ask u 2 do some calculation(time consuming) then symbol substitution in wch u wud get smethn like...if + is %, - is # then  $a\#(b\%d(f\#g))$  where a,b,d,f,g are so n so...

**NOTE :** PLS DON'T TAKE IT LIGHTLY...IT VL BE DEFINITLY EASY IF U DO SOME PRACTICE...

Finally an essay to be written in 5 min.. my topic was Indian politics. Try to put some saying here and ther, n write some gud points i.e u need not write unnecessarily 1 full page..evn if u write half a page tat shd b effective.....then u can easily clear ...n easy topic vl b tld at d end..

Our test began at 9.25 it was for 1 hr..at d end thy gav essay topic wch was for 5 min.Later v were askd to wait 4 some time.. thy announced the result around 12:30. Appx 90 cleared out of 300 in my test room.

I was one among thm... I was happy bt tensed abt GD.

Nxt thy divided us in group of 12-15.

### Group discussion:
