

**DSC – 290 (BOT-UG)**

**Final Year B.Sc. Degree Examination, November 2008  
Directorate of Distance Education Course  
BOTANY**

**Paper – III : Morphology, Taxonomy of Angiosperms, Economic Botany and  
Cytogenetics**

Time : 3 Hours

Max. Marks : 75

- Notes : 1) All questions are compulsory.  
2) Draw diagrams wherever necessary.*

I. Simple questions :

Answer in a word, phrase or sentence :

(10×1=10)

- 1) What is phyllotaxy ?
- 2) What is heridity ?
- 3) Name the fruit of Apiaceae
- 4) Which cell organelle is called suicide bags ?
- 5) Give an example for fusiform root
- 6) What is Epigeal germination ?
- 7) Write the phenotypic ratio of dihybrid cross.
- 8) Write the botanical name of Ashok tree
- 9) Who discovered nucleus ?
- 10) What is vasculum ?

II. Short answer questions :

Answer any FIVE of the following :

(5×3=15)

- 11) Draw a neat labelled diagram of Ultra structure of chloroplast.
- 12) Explain the capitulum inflorescence.
- 13) What is placentation ? Mention any four types.
- 14) Explain the nucleosome model of chromosoma.

P.T.O.

- 15) Write a note on Binomial nomenclature.
- 16) Explain the leaves of Liliaceae.
- 17) Write three functions of the nucleus.

III. Medium answer questions :

Answer any FIVE of the following :

(5×6=30)

- 18) Describe the underground modifications of stem for storage.
