

Bank of Baroda Latest Job Interview Pattern At Bangalore (2009)

Hi Friends,

My interview was scheduled at 1:30. There seemed to be around 50-60 people in the Bangalore centre for the interview. As this was first interview for the government job, I was bit hesitant then. When I was called for the interview, it was 3:30 PM. There were 3 members in the interview board. My interview excerpts of Bank of Baroda is as follows.

Me: Hi Sirs, I am Vijay

Int1: So Ajay, tell me about yourself.

As I told you, my name is Ajay and I'm from Mangalore. I did my graduation in Business Management from Mangalore University. And as far as my hobbies concerned, I don't have any special activity which I do during my leisure. But I prefer watching TV, reading news paper and sometimes even read novels on free time.

Int2: You said you read news papers, which all news papers you read?

I usually read Times of India, But some times even I read the Hindu.

Int3: So tell me what were the headlines in yesterday's and today's news paper?

In yesterday's news paper, the headline was that the death of LTTE Chief and confusions over his death, i.e. whether he is really killed or still alive? And in today's news papers, we can see Congress set to form the Government.

Int1: What are your opinion on Muthaliks action recently? (Since I belonged to Mlore, they specifically asked me this)

(I answered)

Int2: Tell us something about your hometown?

(I answered)

Int3: Who are the Prime Ministers of Nepal, Srilanka and Pakistan and what exactly is happening now in these countries?

(I answered)

Int1: Why do you want to join our Bank when you are getting a good package from your company?

(I answered)

Int3: See Ajay, we cannot pay the salary what your drawing now, it will be very less than what you are getting now. And you can be posted anywhere in India and you should be ready to relocate anywhere.

Sir, I am not really worried about my salary. I am a future oriented person. You are correct that I am drawing a very good salary now. But what if I do not get even a penny in the future. Now a days, due to the recession, most of the companies are closing down. People are going to the streets. In this situation, it is better to have something, than nothing. And most importantly it was dream to join banks. Coz it is one of the fields where you get name and fame.

And as far as my posting is concerned, i love to travel and search new places, learn their culture and their way of living. talk to new people, interact with them and all that. It is really a nice experience.

Int4: Ok vijay, thank you and best of luck.
Thank you sir.

This is how my interview was. I am yet waiting for my result. I am not sure if my answers were up to their expectations. I am even not sure if the answers were right or not? But at least you can get an idea of what kind of questions will be asked. Im happy to help you.
