I,II try to separate out the questions into the 3 categories.

- 15. What r the 2 changes u would want to make in the TCS recruitment procedure?
- 16. What 2 improvements would u like to make in urself?
- 17. Founder of TCS?

A no. of more such questions were asked, these are the major ones. Each interview was of 25-30 minutes

They also take ur STRESS Test. For example, although I have more than 8.5 percentile, he scolded me for bad grades.

He said that it was poor performance and i needed to study properly.

The basic trick is to keep ur cool and a smile on ur face. Pls do not try to fool them, if u dont know something, accept it then and there.
