From Vice-Chancellor's Desk

On behalf of the University I welcome you to the Madan Mohan Malaviya University of Technology, Gorakhpur and hope that it will be inspiring, challenging and enjoyable journey. This technological University has been established in year 2013 by the Government of Uttar Pradesh in the form of a non-affiliating, teaching and research University after reconstituting the erstwhile Madan Mohan Malaviya Engineering College, Gorakhpur which was established in 1962. The University aims at facilitating and promoting studies, research, technology incubation, product innovation and extension work in the field of Science, Technology and Management Education for achieving excellence in higher technical education. Teaching learning processes of the University lay special emphasis on continuous and project based learning of its students through its up to date curriculum and choice based credit system in its undergraduate and post graduate programmes. University is steadily progressing for creating its place in the technical education map of the country.

The University is presently running five B.Tech. programmes in Civil Engineering, Electrical Engineering, Mechanical Engineering, Electronics and Communication Engineering and Computer Science & Engineering along with M.B.A., M.C.A., M.Tech. in 12 disciplines and full time Ph.D. programme in all disciplines as part of Quality Improvement Programme of MHRD, Govt. of India, Technical Education Quality Improvement Programme (TEQIP)-II and Research cum Teaching Fellowship scheme of the University. University envisages to start number of other undergraduate and postgraduate programmes for meeting the forthcoming requirement of trained technical manpower.

The University offers a congenial environment for the holistic growth and all round development of the student through suitably designed teaching learning processes in its sprawling lush green residential campus. The University has good infrastructure in its lush green campus, campus wide network for internet connectivity and other collateral support to ensure that all academic and other required activities are carried out in the efficient manner. Students are trained so that they are professionally equipped to become globally acceptable personalities with good professional & technical skills, problem solving capabilities, communication skills, proper attitudes and aptitudes, and the team spirit. Activities in an academic session are designed so as to not only imbibe students with technical skills but also with the other extracurricular skills, moral & ethical values and sensitivity towards society as integral part of their mindset and to make them complete human being and a successful professional.

I congratulate you for considering this University as one of your choice for making your professional career in the academic session 2015-16. I hope that like previous year, this year too the University will be able to admit the best students with zeal, enthusiasm and commitment to achieve excellence their professional pursuits. I assure you that the University shall not leave any stone unturned in facilitating your transformation into a competent technical professional, a mature well-rounded individual who will lead and actively contribute the society as a great human being.

Jai Hind !

Prof. Onkar Singh
Vice Chancellor

Madan Mohan Malaviya University of Technology Gorakhpur (U.P.) - INDIA

VISION

To facilitate and promote studies, research, technology incubation, product innovation and extension work in Science, Technology and Management Education, and also to achieve excellence in higher technical education.

MISSION

The distinctive mission of the University is:

- to serve society as a center of higher learning, providing long-term societal benefits through transmitting advanced knowledge, discovering new knowledge and functioning as an active working repository of organized knowledge;
- to take leadership role by providing need based programs in engineering and technology, applied sciences, management, humanities, architecture, pharmacy, retail and fashion design, mass-communication, agriculture and other employable courses in emerging areas;
- to promote compassionate care of the highest quality that translates new knowledge into meaningful improvements in technological outcomes through interdisciplinary collaboration, fiscal responsibility, support of diversity, a focus on quality and a culture of professionalism;
- to establish value creating networks and foster relationship with other leading institutes of higher learning and research, alumni and industries in order to provide significant contribution to national and international development;
- to create an intellectually stimulating Infrastructure and conducive environment for technology research, scholarship, creativity, innovation, entrepreneurship and professional activity for service to community and economy.

CORE VALUES

- Academic integrity
- Accountability with transparency, respect and tolerance for views of all stakeholders
- Concern for social responsibilities and attention to all national/international issues needing technological intervention
- Recognition of creativity and intellectual excellence
- Spirit of learning, exploration, innovation and enterprise
- All round understanding and knowledge of human sciences

IMPORTANT INSTRUCTIONS

1. The candidate has the option to submit his/her candidature for Admission Test-2015 examination either by “ON-Line application mode” or by “OMR application form mode”.
2. Candidates are advised to go through all the points in the Check-list before finally mailing the Confirmation Page of On-Line application form or OMR application form.
3. The completed application form through any of the modes should be sent by registered/speed post to The Coordinator, Admissions-2015, Madan Mohan Malaviya University of Technology, Deoria Road, Gorakhpur - 273010 (U.P.) so as to reach by 5 p.m. on or before 11th April, 2015 for B.Tech./MBA/MCA/M.Tech./PhD courses. No application form shall be accepted after due date and time.
4. The Madan Mohan Malaviya University of Technology, Gorakhpur will not be responsible for any lapse or delay in receipt of the confirmation page of ON-Line mode application along with Bank Challan/Payment Receipt or OMR application form in the University, which may be either on the part of the Post Office or for any other reason whatsoever.
5. **Do not fold OMR application form nor attach any enclosure with it. Use the envelope provided for sending it to University. In case of online application please paste the address slip printed along with confirmation page on the envelope used for sending it to the University.**
6. Admission Test for B.Tech./MBA/MCA/M.Tech./PhD is open only to the candidates who have passed the qualifying examination from any institution located in U.P. or whose parents are domicile of U.P subject to the eligibility conditions given in this Information Brochure. If the candidate has passed qualifying examination from outside of U.P., he/she has to produce domicile certificate of his/her parents (**Father OR Mother only**) at the time of verification of documents, failing which the candidature shall stand cancelled. In M.Tech./PhD courses the preference shall be given to the students having domicile status of Uttar Pradesh (U.P.) and **subsequently the candidate having domicile outside U.P. will be considered only if seats are vacant.**

15. COUNSELLING FOR OFFER OF ADMISSION

- 15.1. Counselling shall be carried out in order of merit of eligible candidates of Admission Test- 2015 based on their **Combined Rank**, even if they belong to reserved category at **MMMUT, Gorakhpur**. Advantage of their reserved category rank shall be provided at the time of allotment of seats depending upon their eligibility.
- 15.2. Counselling for offering admission shall be held in two steps namely “Document Verification” for verification of candidature and ‘On Spot Seat Allotment’ for offer of admission. The counseling process shall be completed by the bonafide candidate himself, therefore the proxy is not allowed under any circumstances. The non appearance of the candidate as per his/her merit due to any reasons shall lead to the lapse of opportunity to opt seat as per merit for which the candidate himself/herself shall be solely responsible. **University shall notify separate schedules of counselling for offering admission to B.Tech./MBA/MCA and M.Tech./PhD respectively on its website only.**

- 15.3. The candidate called for counselling has to deposit Rs. 500/- as non-refundable Counselling Fee and Rs. 10,000/- as initial part of tuition fee at the time of document verification. The fees deposited at the time counseling are non refundable in case of allotment of seat, while in case of non allotment of seat the demand draft of Rs.10,000/- shall be refunded on the day of seat allotment itself.
- 15.4. **Document Verification:** Verification of candidate's original documents would be done during the counselling at the University as per schedule to be notified on University website www.mmmut.ac.in. The purpose of verification of documents would be to verify all relevant and essential certificates and documents of qualifying examination, eligibility, category/ reservation certificate and weightage etc. of the candidate as applicable. He/she is required to come with all original certificates and documents along with a self attested photocopy of each for submission. No candidate will be considered for admission if he/she does not show the original documents at the time of verification. The original certificates and documents will be returned to candidates after verification. However, the University reserves the right to cancel the candidature in case of any discrepancy found in the certificates and documents during verification.
- 15.5. **On Spot Seat Allotment:** On spot seat allotment will be made for admission to all courses and categories for the academic session 2015-16. After verification the qualified and eligible candidates shall be called as per their merit of Admission Test-2015 and can opt for the available seat of his/her choice in a particular course as per the directions and procedure of counselling notified on University website.
- 15.6. Counselling letters of eligible candidates will be made available on the University website at least one week before the commencement of the counselling, however the candidates may report for counselling on the basis of notification schedule along with their result, rank and desired documents as prescribed in notification. After commencement of counselling the subsequent rounds of counselling will start even at notice of less than one week.
- 15.7. In case the candidates do not submit the proper category/ reservation certificate in the prescribed proforma at the time of document verification, the advantage of reserved category shall not be provided and they will be treated in General Category. The UPGD/GDBC/GDSC/GDST candidate has to bring the domicile certificate of his/her parents (**Father OR Mother only**). The candidate must note that his/her domicile certificate in place of his/her parent's certificate, is not acceptable and no request shall be entertained for relaxation.
- 15.8. After allotment of seat, the candidate has to deposit the balance fees within 7 days from the date of seat allotment failing which the seat will be deemed to be vacant and considered for allotment to the next candidate in merit through subsequent counselling. It is quite likely that in subsequent rounds of counselling the fee deposition period may be even less than 7 days. Therefore interested candidates should be prepared for deposition of University Fees as applicable.
- 15.9. If a candidate wishes to participate in counselling for more than one course, he/she has to deposit the non-refundable counselling fee of Rs. 500/- per course, provided he/she has deposited the part of tuition fee as Rs. 10,000/-.
- 15.10. For details of counselling schedule, candidates should regularly visit the website after declaration of result and participate in counselling as per instructions. University will not be responsible for any loss to candidate due to lack of information. No separate intimation will be sent to candidates.
- 15.11. All the latest instructions of the University up to the date(s) of counselling shall be applicable.

16. REFUND RULES VALID FOR FEES DEPOSITED FOR COUNSELLING

16.1. Counselling fee of Rs. 500/- will be non-refundable in all cases and no claim will be entertained for its refund at any stage.

16.2. Refund rules for initial fee of Rs. 10,000/- are as follows –

Sr.	Status during Counselling	Refund rule
1.	Candidate withdraws before opting the seat	Rs. 10,000/- is refundable.

18.2 University Fee Rules

Admission process in the University is completely transparent and the allotment of seats is being made on the basis of On-Spot Seat Allotment as per the availability of seats and choice of the candidate at his/her respective merit rank. Therefore, it is essential for the candidate, offered with a seat, to deposit the complete University Fee within the stipulated period of time for confirming the admission. The candidates depositing complete University Fees within the stipulated period of time are considered to be registered against respective seats and such seats are not offered for admission in subsequent rounds of counselling under any circumstances. Therefore, such seats remain vacant even if candidate does not report at the time of commencement of academic session and discontinue due to whatsoever reason. The University does not fill up such registered seats during the particular academic session. In view of above the University fees rules are as follows:

1. After seat allotment as per the seat availability and the option of the candidate at the time of On-Spot seat allotment during counselling, he/she has to deposit the University Fees as mentioned above (balance fee after adjusting advance fee deposited at the On-Spot seat allotment during counselling) for getting registered for First/Third Semester in the University by stipulated date as mentioned on admission offer letter.
2. If, after registration, the candidate does not report on the due date for commencement of Academic Session and wishes to withdraw his/her candidature, i.e., after depositing the University Fees at the time of registration during counselling, no refund of University Fees will be made except the caution money as mentioned above in clause-18.1. The caution money will be refunded only upon receipt of the explicit written request of the candidate.
3. No claims of fee refund except as mentioned above will be entertained at any stage.

Work, Power and Energy: Work done by a constant and variable forces, kinetic and potential energy, power, Conservative and non conservative forces, conservation of energy, gravitational energy, work energy theorem, potential energy stored in a spring.

Linear Momentum and collisions: Linear momentum & impulse, conservation of linear momentum for two particle system, collisions, collision in one dimension, collision in two dimension, rocket propulsion.

Rotation of a rigid body about a fixed axis: Angular velocity and angular acceleration, rotational kinematics, rotational motion with constant angular acceleration relationship between angular and linear quantities, rotational energy, moment of inertia for a ring, rod, spherical shell, sphere and plane lamina, torque and angular acceleration, work and energy in rotational motion, rolling motion of a solid sphere and cylinder.

Gravitation: Gravitational field, Kepler's laws and motion of planets, planetary and satellite motion, geostationary satellite.

Oscillatory motion: Harmonic motion, oscillatory motion of mass attached to a spring, kinetic & potential energy, Time Period of a simple pendulum, comparing simple and harmonic motion with uniform circular motion, forced oscillations, damped oscillations and resonance.

Mechanics of solids and fluids: States of matter young's modulus, bulk modulus, shear modulus of rigidity, variations of pressure with depth, Buoyant forces and Archimedes principle, Pascal's law, Bernoulli's theorem and its application, surface energy, surface tension, angle of contact, capillary rise, coefficient of viscosity, viscous force, terminal velocity, Stoke's law, stream line motion, Reynold's numbers.

Heat and thermodynamics: First law of thermodynamics, specific heat of an ideal gas at constant volume and constant pressure, relation between them, thermodynamics process (reversible, irreversible, isothermal, adiabatic), second law of thermodynamics, concept of entropy and concept of absolute scale, efficiency of a Carnot engine, thermal conductivity, Newton's law of cooling, black body radiation, Wien's displacement law, Stefan's law.

Wave: Wave motion, phase, amplitude and velocity of wave, newton's formula for longitudinal waves, propagation of sound waves in air, effect of temperature and pressure on velocity of sound, Laplace's correction, Principle of superposition, formation of standing waves, standing waves in strings and pipes, beats, Doppler's effect.

Electrostatics: Coulomb's law, electric field and potential due to point charge, dipole and its field along the axis and perpendicular to axis, electric flux, Gauss's theorem and its applications to find the field due to infinite sheet of charge, and inside the hollow conducting sphere, capacitance, parallel plate capacitor with air and dielectric medium between the Plates, series and parallel combination of capacitors, energy of a capacitor, displacement currents.

Current Electricity: Concept of free and bound electrons, drift velocity and mobility, electric current, Ohm's law, resistivity, conductivity, temperature dependency of resistance, resistance in series and parallel combination, Kirchoff's law and their application to network of resistances, principle of potentiometer, effect of temperature on resistance and its application.

Magnetic Effect of Current: Magnetic field due to current, Biot-Savart's law, magnetic field due to solenoid, motion of charge in a magnetic field, force on a current carrying conductors and torque on current loop in a magnetic field, magnetic flux, forces between two parallel current carrying conductors, moving coil galvanometer and its conversion into ammeter and voltmeter.

Magnetism in Matter: The magnetization of substance due to orbital and spin motions of electrons, magnetic moment of atoms, diamagnetism, paramagnetism, ferromagnetism, earth's magnetic field and its components and their measurement.

Electromagnetic induction: Induced e.m.f., Faraday's laws, Lenz's law, electromagnetic induction, self and mutual induction, B-H curve, hysteresis loss and its importance, eddy currents.

Ray Optics and optical instruments: Sources of light, luminous intensity, luminous flux, illuminance, photometry, wave nature of light, Huygens's theory for propagation of light and rectilinear propagation of light, reflection of light, total internal reflection, reflection and refraction at spherical surfaces, focal length of a combination of lenses, spherical and chromatic aberration and their removal, refraction and dispersion of light due to a prism, simple and compound microscope, reflecting and refracting telescope, magnifying power and resolving power.

Wave Optics: Coherent and incoherent sources of light, interference, young's double slit experiment diffraction due to a single slit, linearly polarized light, Polaroid.

Modern Physics: Photo-electric equation, matter waves, quantization, Planck's hypothesis, Bohr's model of hydrogen atom and its spectra, neutralization potential, Rydberg constant, solar spectrum and Fraunhofer lines, fluorescence and phosphorescence, X-Rays and their productions, characteristic and continuous spectra.

Nuclear Instability, radioactive decay laws, Emission of α , β , γ rays, Mass – defect, Mass Energy equivalence, Nuclear Fission Nuclear Reactors, Nuclear Fusion.

Classification of conductors, Insulators and semiconductors on the basis of energy bands in solids, PN junction, PN Diode, junction Transistors, Transistor as an amplifier and Oscillator.

Principles of Logic Gates (AND, OR and NOT) Analog Vs Digital communication, Difference between Radio and television, Signal propagation, Principle of LASER and MASER, Population Inversion, Spontaneous and stimulated Emission.

Section – B, Chemistry

Atomic Structure: Bohr's concept. Quantum numbers, Electronic configuration, molecular orbital theory for homo nuclear molecules, Pauli's exclusion principle.

Chemical Bonding: Electrovalence, co-valency, hybridization involving s, p and d orbital's hydrogen bonding.

Redox Reactions: Oxidation number, neutralizing and reducing agents, balancing of equations.

Chemical Equilibrium and Kinetics: Equilibrium constant (for gaseous system only) Le Chatterley's principle, ionic equilibrium, Ostwald's dilution law, hydrolysis, pH and buffer solution, solubility product, common-ion effect, rate constant and first order reaction.

Acid – Base Concepts: Bronsted Lowry & Lewis.

Electrochemistry: Electrode potential and electro-chemical series.

Catalysis: Types and applications.

Colloids: Types and preparation, Brownian movement, Tyndall effect, coagulation and peptization.

Colligative Properties of Solution: Lowering of vapour pressure, Osmotic pressure, depression of freezing point, elevation of boiling point, determination of molecular weight.

Periodic Table: Classification of elements on the basis of electronic configuration, properties of s,p and d block elements, ionization potential, electro negativity & electron affinity.

Preparation and Properties of the following: Hydrogen peroxide. Copper sulphate, silver nitrate, plaster of paris, borax, Mohr's salt, alums, white and red lead, microcosmic salt and bleaching powder, sodium thiosulphate.

Thermo chemistry: Exothermic & endothermic reactions Heat of reaction, Heat of combustion & formation, neutralization, Hess's law.

General Organic Chemistry: Shape of organic compounds, Inductive effect, mesomeric effect, electrophiles and nucleophiles, Reaction intermediates: carboniumion, carbanions & free radical, Types of organic reactions, Cannizzaro Friedel Craft, Perkin, Aldol condensation.

Isomerism: Structural, Geometrical & Optical

IUPAC: Nomenclature of simple organic compounds.

Polymers: Addition and condensation polymers

Carbohydrates: Monosaccharide's.

Preparation and Properties Of the Followings: Hydrocarbons, monohydric alcohols, aldehydes, ketones, monocarboxylic acids, primary amines, benzene, nitrobenzene, aniline, phenol, benzaldehyde, benzoic acid, Grignard Reagent.

Solid State: Structure of simple ionic compounds, Crystal imperfections (point defects only), Born-Haber cycle

Petroleum: Important industrial fractions, cracking, octane number, anti knocking compounds.

Section – C, Mathematics

Algebra: Sets relations & functions, De-Morgan's Law, Mapping Inverse relations, Equivalence relations, Peano's axioms, Definition of rationales and integers through equivalence relation, Indices and surds, Solutions of simultaneous and quadratic equations, A.P., G.P. and H.P., Special sums i.e. $\sum n^2$ and $\sum n^3$ ($n \in \mathbb{N}$), Partial fraction, Binomial theorem for any index, exponential series, Logarithm and Logarithmic series. Determinants and their use in solving simultaneous linear equations, Matrices, Algebra of matrices, Inverse of a matrix, Use of matrix for solving equations.

Probability: Definition, Dependent and independent events, Numerical problem on addition and multiplication, theorem of probability.

Trigonometry: Identities, Trigonometric equations, properties of triangles, solution of triangles, heights and distances, Inverse function, Complex numbers and their properties, Cube roots of unity, De-Moivre's theorem.

Co-ordinate Geometry: Pair of straight lines, Circles, General equation of second degree, parabola, ellipse and hyperbola, tracing of conics.

Calculus: Limits & continuity of functions, Differentiation of function of function, tangents & normal, Simple examples of Maxima & Minima, Indeterminate forms, Integration of function by parts, by substitution and by partial fraction, definite integral, application to volumes and surfaces of frustums of sphere, cone and cylinder. Differential equations of first order and first degree.

Vectors: Algebra of vectors, scalar and vector products of two and three vectors and their applications.

Dynamics: Velocity, composition of velocity, relative velocity, acceleration, composition of accelerations,

Motion under gravity, Projectiles, Laws of motion, Principles of conservation of momentum and energy, direct impact of smooth bodies.

Statics: Composition of coplanar, concurrent and parallel forces moments and couples resultant of set of coplanar forces and condition of equilibrium, determination of centroid in simple cases, Problems involving friction.

PAPER – 2 (APTITUDE TEST FOR DIPLOMA HOLDERS IN ENGINEERING)

Engineering Mechanics, Engineering Graphics, Basic Electrical Engg., Basic Electronics Engg., Elements of computer science, Elementary Biology, Basic Workshop Practice and Physics/Chemistry/Maths of Diploma standard.

PAPER – 3 (APTITUDE TEST FOR B.SC. GRADUATE IN ENGINEERING)

Linear Algebra: Matrix Algebra, Systems of linear equations, Eigen values and Eigen vectors.

Calculus: Mean value theorems, Theorems of integral calculus, Evaluation of definite and improper integrals, Partial Derivatives, Maxima and minima, multiple integrals, Fourier series. Vector identities, Directional derivatives, Line, Surface and Volume integrals, Stokes, Gauss and Green's theorems.

Differential equations: First order equation (linear and nonlinear), Higher order linear differential equations with constant coefficients, Method of variation of parameters, Cauchy's and Euler's equations, Initial and boundary value problems, Linear partial differential equations with constant coefficients of 2nd order and their classifications and variable separable method.

Complex variables: Analytic functions, Cauchy's integral theorem and integral formula, Taylor's and Laurent's series, Residue theorem, solution integrals.

Probability and Statistics: Sampling theorems, Conditional probability, Mean, median, mode and standard deviation, Random variables, Discrete and continuous distributions, Poisson, Normal and Binomial distribution, Correlation and regression analysis.

Fourier Series: Periodic functions, Trigonometric series, Fourier series of period 2π , Eulers formulae, Functions having arbitrary period, Change of interval, Even and odd functions, Half range sine and cosine series.

Transform Theory: Laplace transform, Laplace transform of derivatives and integrals, Inverse Laplace transform, Laplace transform of periodic functions, Convolution theorem, Application to solve simple linear and simultaneous differential equations.

Fourier integral, Fourier complex transform, Fourier sine and cosine transforms and applications to simple heat transfer equations.

Z – Transform and its application to solve difference equations.

PAPER – 4 (APTITUDE TEST FOR MBA)

The test is aimed at evaluating the verbal ability, quantitative aptitude, logical and abstract reasoning and knowledge of current affairs. The following is a brief description of contents of the test paper.

Section-A (English Language): Grammar, vocabulary, uncommon words, sentence completion, synonyms, antonyms, relationship between words and phrases and comprehension of passages.

Section-B (Numerical Aptitude): Numerical calculation, arithmetic, simple algebra, geometry and trigonometry, Interpretation of graphs, charts and tables.

Section-C (Thinking and Decision Making): Creative thinking, unfamiliar relationships, verbal reasoning,

finding patterns trends and Assessment of figures and diagrams.

Section-D (General Awareness): Knowledge of current affairs and other issues related to trade, industry, economy, sports, culture and science.

PAPER – 5 (APTITUDE TEST FOR MCA)

(i) MATHEMATICS

Modern Algebra: Idempotent law, identities, complementary laws, Demorgan's theorem, mapping, inverse relation, equivalence relation, Pano's Axiom, definition of rational numbers and integers through equivalence relation.

Algebra: Surds, solution of simultaneous and quadratic equations, arithmetic, geometric and harmonic progression, Binomial theorem for any index, logarithms, exponential and logarithmic series, determinants.

Probability: Definition, dependent and independent events, numerical problems on addition and multiplication of probability, theorems of probability.

Trigonometry: Simple identities, trigonometric equations, properties of triangles, use of mathematical tables, solution of triangles, height and distance, inverse functions, DeMoiver's theorem.

Co-Ordinate Geometry: Co-ordinate geometry of the straight lines, pair of straight lines, circle, parabola, ellipse and hyperbola and their properties.

Calculus: Differentiation of function of functions, tangents and normal, simple examples of maxima of minima, limits of function, integration of function (by parts, by substitution and by partial fraction), definite integral (application to volumes and surfaces of frustums of sphere, cone and cylinder).

Vectors: Position vector, addition and subtraction of vectors, scalar and vector products and their applications.

Dynamics: Velocity, composition of velocity, relative velocity, acceleration, composition of acceleration, motion under gravity, projectiles, laws of motions, principles of conservation of momentum and energy, direct impact of smooth bodies, pulleys.

Statics: Composition of co-planar, concurrent and parallel forces, moments and couples, resultant of set of coplanar forces and conditions of equilibrium, determination of Centroides in simple case, problems involving friction.

(ii) STATISTICS

Theory of probability, Mean, Median, Mode, Dispersion and Standard Deviation.

(iii) LOGICAL ABILITY

Questions shall be set to test analytical and reasoning capability of candidates.

PAPER-6 (M.Tech. Admission Test)

For admission to M.Tech. programmes, the admission test shall include objective type questions from general Engineering Aptitude consisting of Engineering Mechanics, Engineering Graphics, Basic Electrical Engineering, Basic Electronics Engineering, Basic Computer Science, Workshop practice, Basic Mechanical Engineering, Physics/Chemistry/Mathematics of Degree standard.

PAPER-7 (Ph.D. Admission Test)

For admission to PhD programme, the admission test shall include 25% objective type questions related to the quantitative aptitude and research methodology each and 50% questions from the core subject of the respective department.

UNDERTAKING BY CANDIDATE FOR MEDICAL FITNESS

I certify that I have no such physical handicap/disability which would hinder the pursuit of studies in the courses in which I am seeking admission. If at stage it is found that I have a physical handicap/ disability which would hinder the pursuit of studies in the courses in which I am seeking admission then my admission will be liable to be cancelled. I will produce medical fitness certificate from a C.M.O./C.M.S. at the time of my joining the University.
