PH : Physics

Duration : Three Hours

Maximum Marks :150

Read the following instructions carefully.

1. This question paper contains all objective questions. Q.1 to Q.30 carry **one** mark each and Q.31 to Q.80 carry **two** marks each. Q. 81 to Q. 85 each contains part "a" and "b". In these questions, parts "a" as well as "b" carry **two** marks each.
2. Answer all the questions.
3. Questions must be answered on special machine gradable **Objective Response Sheet (ORS)** by darkening the appropriate bubble (marked A, B, C, D) against the question number on the left hand side of the **ORS**, using **HB** pencil. **Each question has only one correct answer.** In case you wish to change an answer, erase the old answer completely using a good soft eraser.
4. There will be **NEGATIVE** marking. In Q.1 to Q.30, **0.25** mark will be deducted for each wrong answer and in Q.31 to Q.80, **0.5** mark will be deducted for each wrong answer. In Q.81 to Q.85, for the part "a", **0.5** mark will be deducted for a wrong answer. Marks for correct answers to part "b" of Q.81 to Q.85 will be given only if the answer to the corresponding part "a" is correct. However, there is no negative marking for part "b" of Q. 81 to Q.85. More than one answer bubbled against a question will be deemed as an incorrect response.
5. Write your registration number, name and name of the Centre at the specified locations on the right half of the **ORS**.
6. Using **HB** pencil, darken the appropriate bubble under each digit of your registration number and the letters corresponding to your paper code.
