Accenture paper - June 2006

this is the whole pattern of paper .also hr and tech. questions included . all the best

the pattern was :
15 C questions---easy
15 C++   ---tough
15 DBMS---medium
15 verbal reasnoing
15 logical ---
set theorey is importnat --6 questions overall
mental application
=============
1. patterns like ZZZZZERETTT   ZZZZZERETEE   ZZZZZEREETE.......
and comparisons on them like which of them r similar and how many r not simmilar
also   ---3 questions
2. if +is replaced by - ,- by * ,* by / ....sort of then they will give a arithmetic expression .
solve it using rules of precednce after subsitituion ....   ----2 questions
3 .if $ represents 1 and 0 is reprented by * then they as u
find product of 12*56*14 and represent in binary wiht above symbols
example 4 would be rep. as $** .   ---5 questions
4. four realtionships   based -----3 questions
5. simple symonms ----
6. prefer RS agarwal verbal and non verbal to barrons GRE and important topics from rs agarwal.
actually in accenture there was no aptitude ....
 7. english was easy
     passage. ..easy way for passage solving is read questions first than read passage .so that u can find the answers easily.
hr round
_____
tell me about urself
ur family background
ur long and short term goals
where do u see urself 5 yrs from now
talk for 2 minutes on any topic---to test ur communication skills.
