

## Placement paper of Wipro - July 04

### Wipro Technologies

This is the paper given at campus recruitment in NIT Roorkila in

July 2004 Branch branch wise cutoff and sectional cutoff. So

can get thru with probably 5- 8 questions correct in aptitude.

Requirement for CSE is high bout 15-16 but easy for CSE

standards.

cable used in cable modem connection      coaxial

which is not object oriented language      ada

tree traversal (should have been heap)      4

THREE C programs

```
main()
{
main()
}      ans: not possible error;
```

one was using pointer some mem i dont remeber exactly

another program on stacks;    ans; just reverse the order of inputs given

another theory ques on stacks.    ans: same reverse the input order

language of database:    ans: sql

which is not related to chat    not sure either it is (Op) or (AutoPlay)

other two were Im and IRC

not superuser in linux    ans: Op

binary to hex conversion (11101000):-    gives E8    ans: none of the above

tecnology used in mobiles      ans: TDMA, CDMA, FDMA

what is constructor      ans: function in class

space saving data structure in c      ans: union

one was from databases;    collection of data : most probly list not sure

i cant remember other questions

=====

answers from apti section

A    D

B    G    E

c    F

value of g from J. summers page 104

one boat ques    ans 16 min

questions were lengthy. will take most of the time.    cut off was probably very low.
