(Co-ordinator, Placement Cell)

Invitation Letter from Infosys

Dear Sir/Madam,

Greetings from Infosys!

Incorporated in 2002, Infosys BPO provides end-to-end services for voice & data transactions and knowledge management processes. We are an equal-opportunity employer, consistently recognized and awarded for our people practices. Today we are looking at **moving into a new era of Outsourced and Shared Services that is going to drive global organizations and businesses.** Infosys BPO now has 19 Global locations – 6 in India and 13 outside of India.

To drive our growth and to tackle the challenges and opportunities ahead, our focus is on hiring smart & dynamic students from a reputed college like yours. We are pleased to announce that we have specific Data & Voice requirements for the graduating batch of 2013.

It is with good reason that most of us think of our college days as the best time of our lives. For that is when, we are cocooned in a nurturing environment that encourages us to grow, give expression to our talents and learn skills for life. It is this same encouraging environment we have attempted to create at our campuses, with many world-class amenities for work and play – library, food courts, bicycles to get around, supermarket, salon, health club, swimming pool and even a golf course.

At Infosys BPO, we understand that a career should not only be enriching with opportunities and challenges but also, should cater to unprecedented growth, mentorship and unlock one's potential. Graduates at Infosys BPO are trained, mentored and entrusted with opportunities that enable them to grow on to become future leaders. We are excited and glad to visit your campus to offer you the above and much more!

We look forward to inviting students from your college to become a part of this vibrant, diverse, challenging community, by recruiting them directly through campus interviews. In this connection, we seek a suitable date to visit your college for campus recruitment.

Looking forward to a long and fruitful relationship.

Regards,
Campus Team
