A. Selection of Candidates for TDC (1st Semester) Class

Candidates will be selected in order of merit for each Major subject separately. For this purpose a separate merit list will be prepared for each Major subject from among the applicants in order of merit, the criteria being the Credit Point.

Calculation of Credit Point

(a) For Science Stream

Percentage (%) of marks secured by a candidate at the HS or equivalent examination in English or MIL/Alt. English whichever is more + % of Marks in 1st Elective + % of marks in 2nd Elective + % of marks in 3rd Elective (only best 3 Electives) will be treated as "Total Marks" for the purpose of calculating credit point. While computing total marks on the basis of the best 3 electives, subjects like Physical Education will not be taken into account as such subjects have no bearing on the B.A. & B.Sc. courses offered in this college.

After calculating 'Total Marks' as above % of Marks of the subject in which the candidate desires to offer Major will be added. The marks so arrived at will be treated as "Credit Point" for the purpose of preparing the merit list of candidates against each Major subject.

Example 1 : Say, a candidate has secured the following marks in HS Examination out of 100 in each subject and he/she has shown first preference for Chemistry Major.

Eng	MIL/Alt. Eng	Chem	Phy	Maths	Bio	Grand Total
65	68	85	80	82	75	380

His / Her Total marks will be $68 + 85 + 80 + 82 = 315$

His / Her Credit Point for Chemistry Major will be $315 + 85 = 400$

Note : Where the candidate has not offered the subject in HS examination in which he/ she desires Major (only in case of those subjects which are allowed as per GU regulation) his/her Credit Point will be calculated by adding

the aggregate % of marks as shown in the Mark sheet to his/her total marks.

Example 2 : Say, the candidate (Ref. Example 1) desires to offer Geology as Major.

His/ Her 'Total Mark' = 315 of the grand total
 His/ Her aggregate % of marks = 380/5 = 76
 His/ Her Credit Point = 315 + 76 = 391

His/ her position in the merit list of Geology Major will be determined by this Credit Point.

However, this general rule is not applicable to Statistics and Economics Major.

Calculation Procedure of Credit Point for admission into TDC 1st Semester (Science) for the following Major Subjects, B.Sc (Biotechnology) & BCA :

Major Subject	Minimum requirement	Credit Point
● Anthropology	HS (Sc.) with Anthropology HS (Sc.) without Anthropology	Total marks + % of marks in Anthropology Total marks + aggregate % of marks
● Botany	HS (Sc.) with Biology & Chemistry	Total marks + % of marks in Biology.
● Chemistry	HS (Sc.) with Chemistry, Mathematics & Physics	Total marks + % of marks in Chemistry
● Geography	HS (Sc.) with Geography or HS (Sc.) without Geography	Total marks + % of marks in Geography Total marks + aggregate % of marks
● Geology	HS (Sc.) with Geology & Chemistry or HS (Sc.) with Chemistry but without Geology	Total marks + % of marks in Geology Total marks + aggregate % of marks
● Mathematics	HS with Mathematics	Total Marks + % of marks in Mathematics
● Physics	HS (Sc.) with Physics & Mathematics	Total marks + % of marks in Physics. Minimum marks in Mathematics must be 40%.
● Statistics	HS (Sc./Arts) with Statistics & Mathematics or HS (Sc./Arts) with Mathematics & without Statistics	Total marks + % of marks in Statistics Total marks + % of marks in Mathematics
● Zoology	HS (Sc.) with Chemistry & Biology	Total marks + % of marks in Biology.
● Economics	HS with Mathematics	Total marks + % of marks in Mathematics
● Computer Science	HS with Mathematics (atleast 40%) & Physics/Computer Science & Application, whichever is more	Total Marks + % of marks in Mathematics
● B.Sc. (Biotechnology)	HS with Physics, Chemistry & Biology	Total Marks + % of marks in Biology
● BCA	HS with Mathematics (atleast 40%) & Physics/Computer Science & Application (<i>whichever is more</i>)	Total Marks + % of marks in Mathematics

Note: Concerned department may specify from time to time the minimum % of marks required to be eligible for offering any particular subject.

(b) For Arts Stream

% of marks in English + % of marks in MIL/Alt. English + % of marks in 1st Elective + % of marks in 2nd Elective + % of marks in 3rd Elective = Total marks. Credit Point = Total marks so arrived + % of marks of the subject which the candidate desires to offer as major.

Example 3 : Say, a candidate secured the following marks in HS out of 100 in each subject. English-70, Alt.

English-75, Political Science-68, Economics-78, History-70 and Education-62.

The candidate has shown preference for English as major. The Credit Point of the candidate for English major will be calculated as follows :

Total Marks = 361

Credit Point = $361 + 70 = 431$

His/her position in the merit list for English major will be determined by this Credit Point.

Note : In case the candidate desires to offer major in a subject which he /she did not study in HS (*provided GU regulation allows it*), his / her Credit Point will be calculated as follows if nothing else is mentioned specifically :

Total Marks	= 361 (Ref. Example 3)	
Aggregate % of Marks	= $361/5$	= 72.2
Credit Point	= $361 + 72.2$	= 433.2

Say, the candidate has shown preference for Geography major. The candidate's position in the merit list of Geography major will be determined by this credit point.
