SAT[®] and SAT Subject Tests[™]

Resources for International Educators

Helping you prepare your students
for study in the U.S.

Strategies for Success

The SAT[®] is a globally recognized

Given six times a year at test sites worldwide, the SAT[®] should be taken within two years of the date students expect to enter university.

When students prepare with official practice tools from the College Board, they become more familiar with the test experience and increase their test-taking comfort and confidence.

The Official SAT Online Course[™]

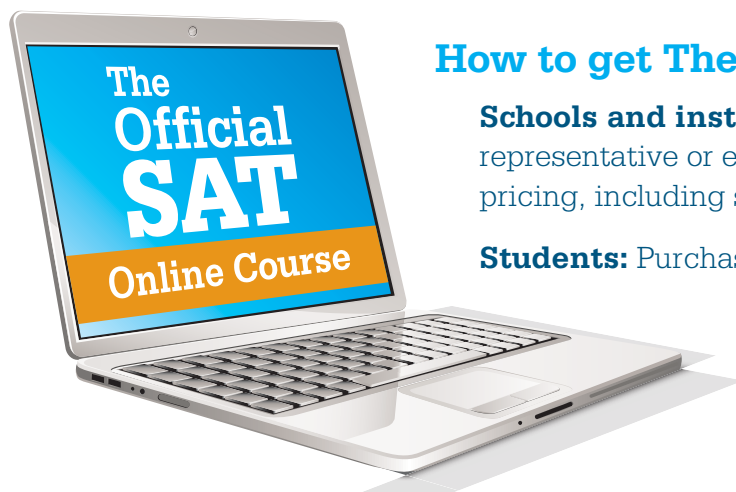

Interactive Instruction, Official Practice Tests and Immediate Scoring

The Official SAT Online Course[™] is personalized, comprehensive and available 24 hours a days from any computer with an Internet connection.

Students can use the course outline as a syllabus for the classroom or as a guide for self-paced study. The one-year subscription to the course includes:

- **18 interactive lessons** covering the SAT reading, writing and mathematics sections.
- **10 practice tests** to simulate the real experience on test day.
- **More than 600 questions** for additional practice in all lesson areas.
- **Explanations of answers** allow students to focus on areas of improvement.
- **Auto essay scoring** provides students and teachers with immediate feedback.
- **Student-, class- and school-level reports** enable educators to follow students' progress.
- **Score and skills reports** provide valuable feedback to help students get ready for the test.

Schools and institutions can purchase the course for their students at a significant discount off of the retail price. Purchase includes educator access to all course features, reports and class management tools to track student progress, lesson plans for the classroom, and free online training.
