

1. what is the action of anterior fibres of deltoid ? c
 - a. medial rotation
 - b. lateral rotation
 - c. flexion and medial rotation
 - d. extension and lateral rotation

2. which is not lined by stratified nonkeratinised squamous epithelium ? d
 - a. hypopharynx and laryngopharynx
 - b. oesophagus
 - c. cornea
 - d. Tympanic membrane

3. which of the following is not supplied by posterior division of obturator nerve ? b
 - a. obturator externus
 - b. obturator internus
 - c. Adductor magnus
 - d.

4. which of the following is true about azygous vein course ? c
 - a. superior venecava
 - b. posteriorly to inferior venecava
 - c. anterior lumbar vein
 - d.

5. Which of the following is not present at birth ? a
 - a. mastoid tip
 - b. mastoid antrum
 - c. ethmoidal labrynth
 - d. endolymphatic sinus

6. Which is the critical temperature of nitrous oxide ? d
 - a. -118 degree
 - b. - 88
 - c. 26
 - d. 36.5

7. Which of the following is not an amino steroid derivative ? a

- a. alcurioum
- b. vecuronium
- c. pancuronium
- d. pipecuronium

8. what is the time gap given in train of four ? none ans : 2 seconds

- a. 10 sec
- b. 20 sec
- c. 40 sec
- d. 60 sec

9. which of the following presents as follicular pink scaly rash of chronic type with palmoplantar involvement ? d

- a. pitryiasia rosea
- b. pitryiasis alba
- c. pitryrias capitis
- d. pitryisas rubra pilaris

10. Which of the following presents as chronic winter rash in woman ? a

- a. asteatotic eczema
- b. statis eczema
- c. atopic
- d. nummular

11. Which of the following presents as keratin plug without opening ? d

- a. comedom
- b. nodule
- c. cyst
- d. milia

12. which of the following is not a type of lesion in leprosy? b

- a. hypopigmented patch
- b. vesicle
- c. erythrrodermic
- d. raised plaque

13. which of the following is not the cause of charcots joint ? d

- a. leprosy
- b. syringomyelia
- c. diabetes mellitus
- d. psoriasis

14. Which of the following is called catamite ? b

- a. Passive victim of sodomy anybody
- b. passive victim of sodomy young boy
- c.
- d.

15. what is transvestism ? a (please read Narayana reddy the definition)

- a. Wearing clothes of opposite sex to be identified as of opposite sex
- b. wearing clothes of opposite sex for sexual gratification
- c.
- d.

16. Contributory negligence is a defense in ? c

- a. civil negligence
- b. criminal negligence
- c. ethical negligence
- d.

17. Which of the following is true about pneumothorax except? c

- a. radiolucency of underlying lung with no bronhial markings
- b. shift of lung to hilum
- c. full radio opacity of underlying lung
- d. Moderate ventilation of underlying lung

18. Which of the following is not true about MRI ? c

- a. MRI is useful in locating small lesions
- b. CT is better than MRI in bone lesions

c. MRI is better for calcified lesions

d.

19. 1 Curie equals to ? d (1 giga is 1 billion)

- a. 3.7 M becquerel
- b. 37 M
- c. 3.7 G b
- d. 37 Gb

20. Biological half life of radioactive substance in organ depends upon ? c

- a. initial radioactivity
- b. substance half life
- c. effective half life
- d. metabolism of organ

21. which of the following is beneficial in Electroconvulsive therapy ? c

- a. Bilateral induction of symmetrical generalised seizures
- b. Induction of memory disturbances
- c. use of anaesthetic agents
- d. pulse oxymeter use

22. when extracellular potassium is increased from 4 meq to 10 meq what will happen ? a

- a. resting membrane potential becomes more negative
- b. increase in conductance of sodium
- c. increase in conduction of potassium
- d. Na K ATPase will be stopped

23. 10 percent dextrose is ? b (5 % is hypo . 25 % is hyper)

- a. hypotonic
- b. isotonic
- c. normotonic
- d. hypertonic

24. What is electromyogram ? b

- a. stimulation of muscle through nerve
- b. stimulation of muscle without nerve
- c. direct recording of electrical activity from muscle
- d. recording motor nerve conduction

25. guardian of genome ? a

- a. p53
- b. bcl2
- c.
- d.

26. Gene is ? a

- a. codon
- b. anticodon
- c. cistron
- d. okazaki fragment

27. which of the following is not the presentation of obstructive sleep apnea ? c

- a. day time somnolence
- b. nocturia
- c. impotence
- d. resp insufficiency

28. Primozide belongs to ? d

- a. thioxanthines
- b. phenothiazines
- c. buprenorphine group
- d. diphenyl.... group

29. which of the following drug is contraindicated in pregnancy and lactation ? Metronidazole is contraindicated only in 1st trimester (I agree)

- a. mebendazole
- b. albendazole
- c. metronidazole
- d.

30. which drug caused gynaecomazia ? a

- a. ketoconazole
- b. fluconazole
- c.
- d.

31. which of the following untrue about wilson disease? a

- a. increased ceruloplasmin
- b.
- c.
- d.

32. which of the following condition s4 is absent ? b

- a. pulmonic stenosis
- b. mitral stenois
- c. systemic hypertension
- d. pulm hypertension

33. In which of the following conditions pulsus paradoxus absent in cardiac tamponade ? d

- a. obesity
- b. pregnancy
- c. MS
- d. AR

34. Sternocleidomastoid atrophy seen in ? a

- a. spinal muscular atrophy
- b. olivopontocerebellar atrophy
- c. muscular dystrophy
- d. duchennes

35. Krukenberg spindle present in ? a

- a. corneal endolethium
- b. retina

d.

36. photopsia seen in ? a

- a. choroiditis
- b.

37. Laser trabecuoplasty done in ? a

- a. open angle glaucoma
- b. closed angle
- c. angle closure

38. power of Intra ocular lens is determined by ? a (Keratometry)

- a. keratometry
- b. retinoscopy
- c. ophthalmoscopy
- d. gonioscopy

39. Brown reflex deposition seen in mercury poisoning ? c

- a. anterior cornea
- b. posterior cornea
- c. anterior lens
- d. posterior lens

40. Precocious puberty caused by all except ?a

- a. testicular feminisation
- b. albrights
- c. testicular tumours
- d. brain tumours

41. rosette cataract seen in ? a

- a. ocular trauma
- b. diabetes
- c. wilsons
- d.

42. which of the following disease has consistent symptoms of tinnitus ? a
- menieres disease
 -
43. which of the following is not related to lateral sinus thrombosis ? c
- greisinger sign
 - tobey ayer test
 - gradenigo syndrome
44. recently found association of bells palsy ? a
- HSV
 - herpes zoster
 - EBC
 - varicella
45. sodium chromoglygate used in ? b
- phlyctenular
 - vernal
 -
 -
46. most common site of choleasatoma ? a
- prussaks space
 - hypotympanum
47. quinsy related to ? b
- paratonsillar fossa
 - peritonsillar
 - crypta magna

48. external carotid artery is ligated at ? a

- a. above the origin of sup thyroid artery
- b. below the origin of sup thyroid artery
- c. at the bifurcation of common carotid artery
- d. at the origin of ascending palatine artery

49. A boy presents with unilater purulent foetid discharge from nose?

- a
- a. foreign body
 - b. polyp
 - c.
 - d.

50. which is false about natal teeth ? d or a

- a. always present at birth
- b. 2 incisors of mandibular teeth
- c. severe root resorption problems associated
- d. not removed
