

## Past Paper for NIPER 2003

NIPER Paper 2009

NIPER Paper 2007

NIPER Paper 2006

NIPER Paper 2005

NIPER Paper 2003

All

1. Dose response curve is...
2. Combined Charles law, Boyles law and Gay-lussac law...
3. Which of the following is muscarinic agonist...
4. Which of the following is antagonist...
5. Zydis system is related to...
6. Which of the following color is suitable for mint...
7. ACE inhibitor is...
8. Which of the following is ACE-2 antagonist...
9. Insulin is secreted by...
10. Which of the antibody is involved in the first line defence...
11. Value of gas constant is...
12. Which of the following is inactive...
13. GLC is type of chromatography...
14. Gray baby syndrome is associated with...
15. Rancidity of vegetable oils can be eliminated by adding...
16. Which of the following is used for the delirium...
17. Thiopental is inactivated by...
18. Which of the following structure is not aromatic...
19. Markovnikov's product...
20. Which is odd about aldol condensation...
21. Identify the threo form ...
22. Identify the configuration for following structure...
23. Anti markovnikov, s product...
24. Identify the configuration...

25. Totipotency is... produce all the differentiated cells in an organism
26. pH of the human vagina (age 25 – 30) ...
27. Co-efficient of variation b/w X and Y is 0.81 then correlation b/w them is...
28. Predict the product from the following reaxn...
29. Chemically anithol is...
30. Citral is a...
31. Symptoms of cyclopegia...
32. Choline esterase metabolizes the Ach by...
33. In a stand of DNA nucleotides are bonded by...
34. The building blocks of DNA is...
35. Gamma interferon is secreted by ...
36. Drying temperature for roots and bark...
37. Technique used for the targeted drug delivery to liver...
38. One of the following is function of trichome...
39. By which technique u will separate SO<sub>2</sub> and HCl
40. Cell growth is the ratio of...
41. Ischemia is...
42. Suspension for injection should have the following quality...
43. Bindinng agent used in the hydrophylic system is...
44. Treated sodalime glass is used for parentrals having PH...
45. Indicator used for the heat sterilization is...
46. Bioadhesive buccal TAB used for the controlled delivery up to...
47. Prodrug is...
48. Vanishing cream is comes under which type...
49. Law of osmatic pressure is explained by...
50. Naming involved in stereochemistry is given by...
51. --alomycetin MOA...
52. Acid resistant glucose is...

53. Which of the following is favours the microorganisms growth...
54. Colchicin acts by...
55. Starting material of given synthesis is...
56. Product of the given reaction is...
57. Pyrogens can be irradiated by following temperature range...
58. Antagonist deffination...
59. Which of the following is acid resistant glycoside...
60. Which of the following is not a terpenoid...
61. Current investment of CDRF...
62. Fracional distillation method is used to separate the following ...
63. Suppositories are evaluated for...
64. Which of the following drug cause gingual hyperplasia...
65. HLB range for Tween 80...
66. Freqency for homoannular rings...
67. Which of the following produce more ATP...
68. Beside oxalo acitic acid which is a substrate for TCA cycle...
69. Family of guggul...
70. Resperine reacts with...
71. Which of the following cross BBB...
72. Family of alium satiuvam...
73. Family of kalmegh is...
74. Characteristic feature of base peak...
75. Hydrogen bonding ican be determined by...
76. Slow-K associated with...
77. Delirium can be cured by...
78. The bond angle of SP hybridization carbon is...
79. Which vitamine is administered with INH...
80. Enthalpy is...

81. IR radiation associated with change in...
82. Glass electrode is permeable to...
83. Solvent used in supercritical fluid extraction...
84. Electroporesis is a ...
85. X-ray crystallography is used to determine the...
86. Function of Topoisomerase enzyme...
87. HAT medium aminopterin inhibits the ...
88. Electromobility is...
89. Opium is detected by...
90. AchE inhibitors are used in which type of glaucoma...
91. Moisture content can be detected by...
92. Flowability of a powder can be measured by seeing...
93. Turmeric contain following active compound ...
94. Crystal habit is...
95. The standard deviation is X then the variation is...
