### OUR STORY

Advance Tertiary College, or ATC as we like to call it, was formed in 1987 to provide local educational opportunities for school-leavers and working adults. The emphasis at that time was to provide Malaysian students with access to professional and tertiary education.

In the last two decades, ATC has become the largest independent Private Law School in this region with two campuses in Malaysia, one in Singapore and two joint venture partnerships in Hong Kong. Its Business School has also grown to offer a variety of Certificate, Diploma and Degree programmes that are contemporary and market-driven.

ATC's growth in the last two decades, particularly on the internal and external programmes can be credited to its strong commitment to excellence and academia. This is created in a manner that allows the adoption of teaching-learning methodologies and the provision of research facilities that are student-centric and geared towards enhancing and improving academic performance.

Credit for ATC successes lies primarily in the mindset of our people who make up this remarkable institution. It is their unfailing dedication and philosophy of continuous improvement that not only ensures our excellent reputation, both locally and internationally, but also provides a strong platform of employability for the ATC graduate.

### UNIVERSITY OF LONDON BACHELOR OF LAWS PROGRAMME (LLB)

The University of London LL.B programme is internationally recognised as a prerequisite to becoming an Advocate & Solicitor in most countries. In addition, LL.B graduates are highly sought after in other industries and have career options that include joining the corporate sector, the media industry and a host of other fields.

This 3-year degree programme requires students to complete 4 subjects a year.

#### Graduate Entry Route

The programme is also flexible in that it allows individuals who already have a degree / equivalent in another field to apply to the Graduate Entry Route which provides a 3 subject exemption for students who are eligible.

Students opting to do the Graduate Entry Route however will not be eligible to become Advocates & Solicitors in Malaysia and this programme is commonly done by working adults as a means of enhancing their career prospects.

Students on the Graduate Entry Route may opt to complete 3 subjects a year for 3 years. This programme is offered on a full and part time basis at ATC.

### EXAMINATIONS

Examinations are conducted worldwide by the University of London in the months of May and June and students are required to pass all subjects in order to go onto the next level of study. The examinations which are conducted by the Malaysian Examination Syndicate require students to pre-register by January each year.

### ATC's SUCCESSES

ATC has gained a reputation for being the single largest and most successful provider of this programme worldwide. The outstanding results achieved by ATC students at all levels over the last two decades is testament to ATC's excellence. In addition ATC students have consistently scored world class results on the programme since 1990 with ATC's best students being in the top 5% of graduates worldwide each year.

### ATC's ACHIEVEMENTS OVER THE LAST DECADE (1997 - 2006)\*

- 1st private higher education institution in Malaysia to obtain Accreditation by the Lembaga Akreditasi Negara for the University of London LL.B programme
- 6 out of 10 First Class Honours degree graduates on the LL.B programme worldwide\*
- 36 Second Class Upper Honours degree graduates on the 2006 LL.B examinations
- 138 First Class grades for individual subjects on the LL.B programme\*
- 143 Second Class Upper Honours degree graduates on the LL.B programme\*

In determining the final award for students on the LL.B programme, the University of London will take into consideration the total score achieved by the student in the Final Part I and Final Part II examinations.

### THE MALAYSIAN LAW SCHOLARSHIP

In 1994, the External Programme and King's College London introduced a scholarship which is awarded annually to an External LL.B student. Funding for the scholarship comes from the External Programme and the successful applicant enters King's College, London to complete the second and third years of his/her LL.B degree.

The application for the scholarship is open to students sitting for the Intermediate examinations on the normal entry route (Scheme A) and applicants should be Malaysian citizens who have ideally completed their secondary education in Malaysia.

The scholarship is offered to the applicant who achieves the highest marks on the Intermediate examinations in the first sitting and whose application is otherwise satisfactory. The successful student is awarded a scholarship of £16,000 per annum.

Out of the 13 times that the scholarship has been awarded since 1995, ATC students have obtained it 11 times.

### TEACHING-LEARNING METHODOLOGIES

ATC uses a combination of traditional and more contemporary teaching-learning strategies so that the ATC student has exposure to lectures, tutorials and even online learning opportunities. One of the primary features of the ATC learning environment is the use of the "SASSY" Programme. This "Student Assistance Support System" provides students the option of having one-on-one tutorial sessions with tutors of their choice in order to clarify the finer points of a specific topic.

### RESEARCH FACILITIES

A well-stocked and comprehensive library is available to all students for research and reference purposes. Complete with all relevant reports, texts, journals and magazines, the ATC Library (valued at more than RM5 million) is testament to our commitment and dedication in the pursuit of academic excellence.

Research facilities include the RM1.5 million Tun Abdul Hamid Omar Resource Centre enabling research materials to be available at the touch of a button.

Equipped with internet capabilities, it ensures that the quest for academia is borderless.

### ACADEMIC EXCELLENCE

ATC has been offering the University of London LL.B for more than two decades and our students have consistently achieved excellent results. This has provided a solid platform for many ATC students to pursue postgraduate education in a variety of fields into the best Universities in the world including the University of Oxford and University of Cambridge.
