

## **Paper: Tech Mahindra Placement Paper 2008 (Technical-Interview)**

Hey guys, Im from Terna Engg. College. I got placed @ TM on the month of March. This time they r out with a package of 2.9lacs. Let me first of all thank FreePlacementPapers.com for helping me out wid the preparation style n believe me guys, cracking tech mahindra is not a tough job.

We did not have an online exam for the aptitude. Aпти had a set of 75Q which r to be solved in 60mins. It consisted of 5 sections:

- 1) Verbal & quantitative
- 2) Verbal, Nonverbal
- 3) Appropriate preposition & words
- 4) Fill in the blanks(English)
- 5) Comprehension

The verbal sections were really easy. Don't waste ur time in preparing 4 these. It took me just 15mins to solve the 45Q of these section.

The quantitative part was really tough. In the remaining 45mins, I could solve only bout 15-20Qs. Try n solve Shakuntala Devi puzzles for these. Plz don't ignore R.S.Agarwal. As there wasn't negative marking, I blindly answered the rest!!!

The results were put up in bout 20mins n out of 80 students, 36 were selected. Then ftr about an hour, v were asked to fill up a form n thn v had our tech interview.

I was asked 24Q in TI n I had to face the interviewer for about 30mins!!!!!!!

The questions were:
