Professional MBA, MCA & M.Sc. Degree Programmes

<http://www.annauniv.edu/cde>

### Anna University

Anna University is one of the Premier Technological University in the world and it is constantly striving to reach greater realms in the annals of technical education. As a part of executing its social obligation, the University is committing itself every time to render innovative services to the needy community across the length and breadth of the country in particular and the world at large. Currently the University offers technical education at all levels through eight faculties viz. Civil Engineering, Mechanical Engineering, Electrical and Electronics Engineering, Information and Communication Engineering, Technology, Architecture and Planning, Management Sciences & Science and Humanities. In addition, Anna University contributes to the furtherance of techno-economic status of India through well established research centres, professional chairs and research sponsorship by the nationally and internationally renowned agencies. The University has gained many laurels and continues to serve as a premier Centre of Excellence in many important and emerging areas of technical education development and research. In its endeavour towards transformation of knowledge and to build-up technology and managerial competencies to professionals, the University is offering professional MBA, MCA & M.Sc. (Information Technology related areas) Degree Programmes through Distance Mode.

### About the Centre for Distance Education

In tune with the growing global trend of extending conventional University instructional mode to online, self learning and distance education methodology, Anna University has created the Centre for Distance Education. Through this initiative Anna University aims to impart technical professional education that would provide competitive edge in the global business environment, to advance the qualifications of the needy by providing hard and soft skills to be a better performer and to meet multiple real corporate world challenges through tailor made professional courses. This requirement gains even more importance in the current scenario, with ever increasing need for professionally qualified and trained personnel in areas of Computer Applications, Information Technology and Business Management. Keeping this in mind, the Centre launched professional MBA, MCA & M.Sc. (Information Technology related areas) Degree Programmes through Distance Mode from the year 2007.

### Objectives of the Centre

- ✧ To provide competitive edge in the global business environment by updation of professional skills through Distance Mode.
- ✧ To offer comprehensive state-of-the-art curriculum leading to professional MBA, MCA and M.Sc. Degrees and other Professional Degrees.
- ✧ To design, develop and disseminate emerging technological know-how to the nook and corner of the country in particular and the world in general.
- ✧ To extend the benefits of state-of-the-art technical education to the so far unreached rural masses.

This endeavour would enable Anna University to spread its wings across the world, by providing quality technical and professional competency to all concerned and thereby enter into new horizons of technical education.
