BEL PAPER ON 31ST DECEMBER AT LUCKNOW

Hi...guys

This is whole test paper of BEL at IET lucknow on 31st of December 2007. They take only technical paper, due to some lack of time. The whole test paper contains only 50 question .There was +4 for right ans and -2 for wrong ans. Twenty five students appeared in the exam. Out of the only 7 was selected after written test........

And finally onely two were selected in the BEL .and I was one of them selecte This is COMPUTER SCIENCE PAPER

It includes

1)C-basic concepts and very good question because whole basic knowledge were given.......

2)Compiler basic knowledge.

3)Data base management system.

4)Data structure.

5)Operating system such as what is kernel and options were give.

HR AND TECHNICAL ROUND..............

HR Question Papers

There were six member team. all were talented and very nice looking And all were present at the time of interview. They ask from where you belong. What have you prepared today i told that data structure and dbms.

Then there was an intelligent sir and they ask what is DDL AND DML i told and then they ask for query related to it. and due to my area of interest I gave all the ans correctly......so he was impressed.

And there was no hr ....question...............So be confident while giving any ans..............and be positive.................because it prepare for right judgement..............

Bets of luck guys and be +ve
