

## **Complete information of ICWA**

CWA course is concerned with cost and management account and management control of industries.

With this qualification you can get absorbed in Cost Accounting, Taxation, Audits ,Corporate Laws and Financial Accounting.

You can also practice independently in any one of the field.

The benefit of this course is that a public/private company or a businessman need these type of professionals (CA/CWA/CS) always.

Depending upon market situation an accounts professional of these type are required to make proper Investment or to increase profit etc.

There are three levels of ICWAI course.

1. Foundation
2. Intermediate
3. Final

One can apply for Foundation level after 10+2 and can apply for Intermediate level after Graduation. For Final level one is supposed to have qualified Intermediate level.

The examination is conducted twice a year. One in June and another in December.
