

2008 Capgemini Placement Paper

Hi Capgemini Aspirants,

I am a BE student at Kavikulguru Institute of Technology and science, Ramtek, Nagpur. First of all, let me tell you, I never knew anything about Capgemini before I started preparing for it. If you are appearing for Capgemini campus, then I would suggest you to prepare really well, because getting into this company will be a mega booster for your career.

I think you should know the following about Capgemini:

1. Capgemini is a Europe MNC (unlike Indian borne MNCs like Infosys, Wipro and all), spread in 38 countries around the globe.
2. It's a 13.8 billion \$ company. Companies like Infosys, Satyam, Wipro are not even half of Capgemini. (TCS being 7.4bn\$)
3. It's called the gurus of consulting.
4. It stands 5th in the Indian IT company rankings 2008.
5. It stands 4th in the best IT consulting services company in the recent world rankings by Forbes.
6. Capgemini is a very good company for the freshers, unlike other IT firms, Capgemini stands the last when it comes to irregular firings.

Capgemini came for a Campus recruitment drive on Jul 30th, 2008.

The criteria was: For BE: 60% in BE till date & no active backlogs.

We were asked to report at 8:30am and to our surprise, the recruiters appeared sharp at 8:30 am (unlike other company people who are generally 3 or more hrs late). The most punctual company to add.. Then started the selection procedure.

1) **Presentation:** All the appearing students were called in a hall to see a power point presentation about the company. It was really interesting. We were formally introduced to the HR and her team. It's always better to note important points from the presentation since it may be asked in the interview. We were told about the package that we were going to get. It was 3 lakh CTC per annum. After the presentation, we were asked to move in rooms for aptitude test.

2) **Aptitude Test:** Aptitude test was on paper and an objective type. The paper was divided into two sections:

- (i) Quantitative 25 questions.
- (ii) Analytical 25 questions.

We were given 1hr to solve the paper. There was a sectional cut-off of 10 marks (it was told in advance) and there was a provision of negative marking (0.25 marks deducted for every incorrect answer). I went for around 15 questions from both the sections and managed to clear the aptitude test. Please note that there were 3 sets of question papers and they contained very few common questions. But a lot of questions (around 8-10) in each set were repeated questions (questions that had been asked in earlier

campus interviews by Capgemini). So do refer to the previous years papers...So, I will suggest you to go through all the questions by heart that I am giving with their answers.

QUANTITATIVE:

1. Find min value of fn: $|-5-x| + |2-x| + |6-x| + |10-x|$; where x is an integer

0 17 23 19

2. units digit in expansion of 2 raised to 51 is:

2 4 6 8

3. 2 men at same time start walking towards each other from A and B 72 kms apart. sp of A is 4kmph. Sp of B is 2 kmph in 1st hr, 2.5 in 2nd, 3 in rd. and so on...when will they meet i in 7 hrs ii at 35 kms from A iii in 10 hrs iv midway

4. $(8*76+19*?-60) / (?*7*12+3-52)=1$

5 2 1 3

5. 45 grinders brought @ 2215/-. transport expense 2190/-. 2760/- on octroi. Find SP/piece to make profit of 20%

2585 2225 2670 3325

6. in a 2 digit no unit's place is halved and tens place is doubled. diff bet the nos is 37. digit in unit's place is 2 more than tens place.

24 46 42 none

7. if $x-y+z=19$, $y+z=20$, $x-z=3$, find value of $x+4y-5z$

22 38 17 none

8. Find approx value of $39.987/0.8102+1.987*18.02$

72 56 86 44

9. If the ratio of prod of 3 diff comp's A B & C is 4:7:5 and of overall prod last yr was 4lac tones and if each comp had an increase of 20% in prod level this yr what is the prod of Comp B this yr?

2.1L 22.1L 4.1L none

10. If 70% of a no. is subtracted from itself it reduces to 81. what is two fifth of that no.?

108/54/210/none

11. If a certain sum of money at SI doubles itself in 5 yrs then what is the rate?

5% 20% 25% 14.8%

12. If radius of cylinder and sphere are same and vol of sphere and cylinder are same what is the ratio betn the radius and height of the cylinder

i. $R=H$

ii. $R=(3/4)H$

iii. $R=(4/3)H$

iv. $R=2/3H$

13. Which one of the foll fractions is arranged in ascending order

- i. $9/11, 7/9, 11/13, 13/14$
- ii $7/8, 9/11, 11/13, 13/14$
- iii $9/11, 11/13, 7/8, 13/14$
- iv none

14. A is 4 yrs old and B is thrice A>when A is 12 yrs, how old will B be?

- 16 20 24 28

15. Boat goes downstream from P to Q in 2hrs, upstream in 6hrs and if speed of stream was $\frac{1}{2}$ of boat in still water. Find dist PQ

- 6 4 10 none

16. Fresh Grapes contain 90% water by wt. Dried grapes contain 20% water by %age. What will b wt of dried grapes when we begin with 20 kg fresh grapes? 2kg 2.4kg 2.5kg none

17. How many 5 digit no. can b formed wit digits 1, 2, 3,4,5,6 which r divisible by 4 and digits not repeated

- 144 168 192 none

18. Asish was given Rs. 158 in denominations of Rs 1 each. He distributes these in diff bags, such that ne sum of money of denomination betn 1 and 158 can be given in bags. The min no. of such bags reqd :

- 10 17 15 none

19. There is a rectangular Garden whose length and width are 60m X 20m. There is a walkway of uniform width around garden. Area of walkway is $516m^2$. Find width of walkway:

- 1 2 3 4

20. In a race from pt. X to pt Y and back, Jack averages 0 miles/hr to pt Y and 10 miles/hr back to pr X. Sandy averages 20 miles/hr in both directions. If Jack and Sandy start race at same tym, who'll finish:

- i. 1st Jack ii. Sandy iii. they tie iv. Impossible to tell

21. A man engaged a servant on a condn that he'll pay Rs 90 and also give him a bag at the end of the yr. He served for 9 months and was given a turban and Rs 65. So the price of turban is i. Rs :

- 10 19 0 55

22. Three wheels make 36, 24, 60 rev/min. Each has a black mark on it. It is aligned at the start of the qn. When does it align again for the first tym?

- 14 20 22 5sec

23. If $1 = \frac{3}{4}(1 + \frac{y}{x})$ then

- i. $x=3y$ ii. $x=y/3$ iii. $x=(2/3)y$ iv. none

24. The sum of six consecutive odd nos. is 888. What is the average of the nos.? i. 147 ii. 148 iii. 149 iv. 146

25. $1010/104 * 102 = 10?$

- i. 8 ii. 6 iii. 4 iv. none

ANALYTICAL:

Direction for Qn 1-8

Ans A using I only Ans B using II only Ans C using both I and II Ans D not solvable

1. Raman and Gaurav Brought eggs from a vendor. How many eggs were bought by each of them

- i. Raman bought half as many as Gaurav
- ii. The dealer had a stock of 500 eggs at the beginning of day

2. What is the age of Ramprakash?

- i. Ramprakash was born when his father was 26 yrs old
- ii. Ramprakash's mothers age is 3yrs less than his father's

3. How much time is reqd for downloading the software?

- i. The Data transfer rate is 6 kbps
- ii. The size of the software is 4.5 megabytes

4. Sanjay and Vijay started their journey from Mumbai to Pune. Who reached Pune first?

- i. Sanjay overtakes two times Vijay and Vijay overtakes Sanjay two times
- ii. Sanjay started first

5. Is the GDP of country X higher than Country Y? i. GDP's of X and Y has been increasing at a compounded annual growth rate of 5% and 6% over the past 5 yrs ii. 5 yrs ago GDP of X was 1.2 times Y

6. A boat can ferry 1500 passengers across a river in 12 hrs. How many round trips does it make during the journey? i. The boat can carry 400 passengers at a time ii. During its journey, the boat takes 40 mins time each way and 20 mins waiting time at each end.

7. What are the values of m and n? i. n is an even integer, m is odd integer and m is greater than n. ii. The product of m and n is 30

8. How much is the weight of 20 mangoes and 30 oranges?

- i. 1 orange weighs twice that of 1 mango
- ii. 2 mangoes and 3 oranges weigh 2 kg

Direction for Qn 9-12

Five teams participated in Pepsi Cup. Each team played against each other. The top teams played finals.

A win fetched 2 pts and a tie 1 point

- 1) South Africa were in the finals
- 2) India defeated SA but failed to reach the finals
- 3) Australia lost only one match in the tournament
- 4) The match between India and Sri Lanka was a tie
- 5) The undefeated team in the league matches lost in the finals
- 6) England was one of the best teams that did not qualify

9. Who were the finalists?

- i. SA & India
- ii. Aus & SL

- iii. SA & SL
- iv. none

10. Who won the finals?

- i. Aus
- ii. SL
- iii. SA
- iv. Can't be determined

11. How many matches did India Win?

- i. 0
- ii. 1
- iii. 2
- iv. can't be determined

12. What was the outcome of the India England Match

- i. India won
- ii. England won
- iii. It was a tie
- iv. Can't be determined

Direction for Qn 13-14

These qns are based on situations given below:

7 Uni crick players are to be honored at a special luncheon. The players will be seated on a dais along one side of a single rectangular table. A and G have to leave the luncheon early and must be seated at the extreme right end of table, which is closest to exit. B will receive Man of the Match and must be in the centre chair C and D who are bitter rivals for the position of Wicket keeper dislike one another and should be seated as far apart as possible E and F are best friends and want to seat together.

13. Which of the foll may not be seated at either end of the table?

- i. C ii. D iii. G iv. F

14. Which of the foll pairs may not be seated together?

- i. E & A ii. B & D iii. C & F iv. G & D

Direction for Qn 15-18

An employee has to allocate offices to 6 staff members. The offices are no. 1-6. the offices are arranged in a row and they are separated from each other by dividers>hence voices, sounds and cigarette smoke flow easily from one office to another Miss R needs to use the telephone quite often throughout the day. Mr. M and Mr. B need adjacent offices as they need to consult each other often while working.

Miss H is a senior employee and his to be allotted the office no. 5, having the biggest window. Mr D requires silence in office next to his. Mr. T, Mr M and Mr. D are all smokers. Miss H finds tobacco smoke allergic and consecutively the offices next to hers are occupied by non-smokers. Unless specifically stated all the employees maintain an atmosphere of silence during office hrs.

15. The ideal candidate to occupy office farthest from Mr. B will be i. Miss H ii. Mr. M iii. Mr. T iv. Mr. D

16. The three employees who are smokers should be seated in the offices i. 1 2 4 ii. 2 3 6 iii. 1 2 3 iv. 1 2 3

17. The ideal office for Mr. M would be i. 2 ii. 6 iii. 1 iv. 3

18. In the event of what occurrence within a period of one month since the assignment of the offices would a request for a change in office be put forth by one or more employees?

- i. Mr D quitting smoking
- ii. Mr. T taking over duties formally taken care of by Miss R
- iii. The installation of a water cooler in Miss H's office
- iv. Mr. B suffering from anemia

Direction for Qn 19-20

A robot moves on a graph sheet with x-y axes. The robot is moved by feeding it with a sequence of instructions. The different instructions that can be used in moving it, and their meanings are: Instruction Meaning GOTO(x,y) move to pt with co-ord (x,y) no matter where u are currently WALKX(P) move parallel to x-axis through a distance of p, in the +ve direction if p is +ve and in -ve if p is -ve WALKY(P) move parallel to y-axis through a distance of p, in the +ve direction if p is +ve and in -ve if p is -ve

19. The robot reaches point (5,6) when a sequence of 3 instr. Is executed, the first of which is GOTO(x,y) , WALKY(2), WALKY(4). What are the values of x and y??

- i. 2,4 ii. 0,0 iii. 3,2 iv. 2,3

20. The robot is initially at (x,y), $x > 0$ and $y < 0$.

- i. 2 ii. 1 iii. $x + y$ iv. 0

Direction for Qn 21-23

Ten coins are distr. Among 4 people P, Q, R, S such that one of them gets a coin, another gets 2 coins, 3rd gets 3 coins, and 4th gets 4 coins. It is known that Q gets more coins than P, and S gets fewer coins than R

21. If the no. of coins distr. To Q is twice the no. distr. to P then which one of the foll. is necessarily true?

- i. R gets even no. of coins
- ii. R gets odd no. of coins
- iii. S gets even no. of coins
- iv. S gets odd no. of coins

22. If R gets at least two more coins than S which one of the foll is necessarily true?

- i. Q gets at least 2 more coins than S
- ii. Q gets more coins than P
- iii. P gets more coins than S
- iv. P and Q together get at least five coins

23. If Q gets fewer coins than R, then which one of the foll. is not necessarily true?

- i. P and Q together get at least 4 coins
- ii. Q and S together get at least 4 coins
- iii. R and S together get at least 5 coins

iv. P and R together get at least 5 coins

Direction for Qn 24-25

Elle is 3 times older than Zaheer. Zaheer is $\frac{1}{2}$ as old as Waheeda. Yogesh is elder than Zaheer.

24. What is sufficient to estimate Elle's age?

- i. Zaheer is 10 yrs old
- ii. Yogesh and Waheeda are both older than Zaheer by the same no of yrs.
- iii. Both of the above
- iv. None of the above

25. Which one of the foll. statements can be inferred from the info above i. Yogesh is elder than Waheeda ii. Elle is older than Waheeda iii. Elle's age may be less than that of Waheeda iv. None of the above I would suggest you to go through as many Capgemini placement papers as possible. The questions are very simple. Candidates those who managed to clear the aptitude test were called for GD session.

3) Group Discussion:

All the selected candidates were divided into 13 groups of 10 students each.

The GD was being conducted simultaneously in 2 rooms. Our group got the topic "LIVE-IN RELATIONSHIP" Clearing the GD round is easy. The coordinators were really very friendly and made all the candidates relaxed. In GD, you will have to show your participation. Do open up your mouth, but at the same time, see to it that you are not disrupting others and make out a valid point atleast try to be around the point and just not beat around the bushes n blabber anything. Dont loose confidence even if you are not a very good speaker. Just give strong points, this is what matters the most. After about 1hr the list of candidates who had cleared the GD was displayed and they were asked to report in a room for further proceedings. 60 candidates cleared the GD round.

4) Personal Interview:

There were 3 interview panels consisting of 2 members each. The interviews were going on simultaneously. The interveiwer are the different ppl here ...i mean not the one in GD round..one was Preeti mam..main HR she was there for PI n the other sir for technical..for interview just wanna say that be very firm with ur answers showing full confidence .If u dont knw any answer say to them....they just asked abt the dead basics of C & C++,some of Software Engg,n yes if u have gone through any project be very clear with that coz they may be asking ur contribution to that...Sir also gave me to write a logic for swapping,

Try to be confident n yes keep smiling...coz it may add extra effects...

finally the results were out...

n i was the 7th to be selected...there were total 19 selections ...

best of luck to all u ppl...

**hope to see u all soon in CAPGEMINI
MAYANK SINHA**
