The assessment of answersheets will be done by a computerised machine, hence you should carefully read instructions regarding handling of the answersheet and the method of marking answers. You are advised to study this booklet carefully as it will help you in preparing for the examination.
2. Before appearing for the written examination you should strictly ensure yourself that you fulfil the eligibility criteria stipulated by the bank in all respects.

How to fill in the information on the answersheet is explained in this booklet elsewhere (at SI. No. IV) and shown on the specimen answersheet.
7. Use of HB Pencil and Ball Pen: You should bring with you two HB pencils, a good quality eraser, a sharpener and a ball-point pen. You are advised to bring two pencils to avoid mending a pencil during the examination as you may lose time. Use ball-point pen for filling up the information only in boxes 1-11 on Side 1. Use HB pencil only, for filling up information in boxes 13-28 on side 1 of the answersheet and box 29 on side 2 of the answersheet. All the answers should also be marked by using HB pencil only.
8. Handling answersheet : Please handle your answersheet with extreme care and keep it dust free. If it is mutilated, torn, folded, wrinkled or rolled, it may not be evaluated by the machine.

Answersheets and question papers will be supplied by the Bank. After the test is over, you should hand over the answersheet and objective test booklet (question paper) to the invigilator before leaving the room. Any candidate who does not return the question booklet and/or answersheet or is found to attempt to take or pass on the question booklet or answersheet inside or outside the examination hall will be disqualified and the Bank may take further action against him as per rules of the Bank.
9. Rough work to be done on the booklet : You should do all the necessary rough work on test booklet/question paper itself only. You SHOULD NOT do your rough work on the answersheet or any other paper. If any rough work is done on the answersheet, your answersheet will not be assessed.
10. One Single Answersheet : For all the objective tests there will be a single answersheet.
11. Method of Showing Answers : All your answers must be marked in the answersheet only. The method of indicating answers as described and illustrated below must be followed. If this is not done the answersheet will not be assessed by the computerised machine.
12. Write Roll No. on the Test Booklet : You should write your Roll No. in the space provided on the cover page of the test booklet. If you do not write your Roll No. on the test booklet your answersheet will not be assessed.
13. Information on the Answersheet: You should write all the information required on the answersheet such as Roll No., Name, Test Form No., etc. If you do not write your Roll No., Name and Test Form No., etc. and do not darken the respective ovals, your answersheet will not be assessed.
14. Travelling Allowance not admissible : No travelling allowance or other expenses in connection with the examination will be paid.

## III. METHOD OF SHOWING ANSWERS

How to show your answer : Each question is followed by answers which are numbered 1, 2, 3, 4 and 5 . Select the most appropriate answer. Then by using HB Pencil blacken the oval bearing the correct answer number against the serial number of the question. For example, if the answer to Question Number 2 is answer number 5, it is shown as follows :

## DO NOT USE BALL PEN OR INK PEN TO MARK ANSWERS. USE ONLY HB PENCILS.

Please also note that you should not use an $\mathrm{H}, 2 \mathrm{H} / \mathrm{HH}, 3 \mathrm{H}$ type of pencils. The marks made by such hard pencils will be too light and will not be read by the computerised machine. So such hard pencils are NOT TO BE USED. If you use too soft pencils like 2B/BB, 3B etc., your marks will be too dark. So when you want to change your answer by erasing the first one, there may be smudges or dark marks in place of the erased answer and around. So soft Pencils are NOT TO BE USED. THEREFORE, USE ONLY HB PENCILS.

## SOME WRONG METHODS OF MARKING ANSWERS :

Please DO NOT mark your answers or fill up information by using different methods of marking as illustrated below:

In all the above cases, though you may have shown your answer, it may not be read by the machine because of wrong method of showing the answer.

## VERY IMPORTANT

Answers shown only by blackening an oval by HB pencil will be accepted.
Please note that the oval should be dark enough and should be filled in as completely as possible. You need not make special efforts to darken any oval artistically.

How to change your Answer : If you wish to change your answer ERASE completely the already darkened oval by using good quality eraser and then blacken the new oval bearing your revised answer number.
While changing the answer, erasing the earlier answer completely is extremely essential. If it is not erased completely, smudges will be left on the erased oval as shown below and the question will be read as having two answers and will be ignored for giving any credit.
(Smudge left in oval No. 3 due to bad eraser and the fresh answer in oval No. 4 will be read as two answers 3 \& 4 and therefore no credit will be given even if the answer No. 4 happens to be the correct answer.)

## IV. HOW TO FILL IN YOUR BIODATA INFORMATION ON THE ANSWERSHEET : Important

(1) The information is to be filled in by you in boxes 1-11 and 13-28 on Side 1 and in box 29 on Side 2 of the answersheet.
(2) You have to fill in information in boxes 1-11 by using ball point pen.
(3) Information in boxes 13-28 on side 1 and 29 on side 2 is to filled up by using HB pencil only.

How to fill in the information is explained with the help of an example given below : (Filled in Side 1 of the Specimen Answersheet is also enclosed).

## USE HB PENCIL FROM BOX NO. 13 ONWARDS

Candidate's Name (Box No. 13) : There is a row of 10 boxes for writing the name. Just below each box you will find a column of 26 ovals each containing a letter of the alphabet. The top oval in each contains a letter ' $A$ ' whereas the last oval bears ' $Z$ '. See how the candidate has written her name in capitals by entering one letter in each box using HB pencil, and has blackened the appropriate oval under each box. Please note that the candidate has left one box and respective column of ovals blank between two parts of her name. If your name contains more letters write only the first letters which you can accommodate in the Boxes provided.
Candidate's Roll Number (Box No. 14) : You will be assigned a 10 digit Roll Number. There is a row of 10 boxes provided to write the Roll Number. Just below each box there are 10 ovals numbered from 1 to 9 and 0 . See how the candidate has written her Roll Number in the boxes, entering one digit in each box by using HB pencil and has blackened the appropriate oval under each box. You have to write your Roll Number on the test booklet also in the space provided for it.
Post (Box No. 15) : Please leave this box blank.
Category (Box No. 16) : Category codes are given in Annexure - I. ## Side 2 :

Roll Number (Box No. 29) : You should write your Roll Number by HB pencil in this box at the left hand bottom corner of Side 2 of the answersheet.

## V. IMPORTANT POINTS TO REMEMBER

1. The machine first reads the Test Form No. on side 1 Box No. 17 of the answersheet and then evaluates your answers as per the correct answers of questions in that form. Therefore, you MUST SHOW YOUR TEST FORM NO. CORRECTLY BY FILLING THE CORRECT OVALS BY HB PENCIL.
2. IMPORTANT : Your answersheet MAY NOT be assessed if you -
(i) Do not darken the corresponding ovals to your Roll Number in Box 14.
(ii) Do not darken the corresponding ovals to the Test Form Number in Box 17.
(iii) Do not follow the proper method of indicating the answers i.e. darkening the ovals.
3. Your answersheet may also not be assessed -
(a) If you do the rough work on the answersheet.
(b) If you do not write your Roll No. on the Test Booklet.
(c) If you do not write all the information required on the answersheet.
(d) If you do not handle your answersheet carefully.
4. You are advised to bring with you the following things :-
(i) Call letter with your recent passport size photograph affixed thereon.
(ii) Original fee payment receipt.
(iii) Completely filled in biodata information on the sample answersheet provided at the end of this booklet.
(iv) Two HB Pencils, a pencil sharpener and a good quality eraser.
(v) One ball point pen.
5. When you receive the test booklet, do not waste your time in first reading all the questions as is done in the School/College/University examinations. Since these questions are of objective type, read a particular question and immediately mark your answer on the answersheet. In case you find a particular question difficult, skip the question and go on to the next question. The question so skipped may be solved at the end, if time is available.
6. In the examination hall when the invigilator asks you to tear open the wrapper of the test booklet, open the booklet only along right hand edge. DO NOT remove the staples of the test booklet which are at the left hand side. Immediately after opening the test booklet along right hand edge, verify that all the questions are properly printed in your booklet and then begin answering the test. In case the test booklet is defective, get it replaced by another test booklet bearing the same Test Form No. Till the invigilator replaces your test booklet continue answering other questions which are not defectively printed so that you do not lose time while the replacement of the defective booklet is being done.
7. If the question is skipped care should be taken while marking the answer of the next question. It should be marked against the appropriate question serial number leaving blank the answer spaces for the skipped question.
8. No extra time will be given for darkening the ovals after the time for the objective tests is over and the 'STOP' Signal is given.
9. You are advised in your interest to apportion the time given judiciously and not to utilise too much time on a particular test(s) at the cost of some other tests.

## IMPORTANT :

Candidates resorting to any unfair practices either during the written test or during subsequent selection procedure will be liable for disciplinary action taken against him/her by the Bank, as per the disciplinary procedure laid down.

The Bank/IBPS would be analysing the responses of a candidate with other appeared candidates to detect patterns of similarity. On the basis of such an analysis, if it is suspected that the responses have been shared and the scores obtained are not genuine/valid, the Bank reserves the right to cancel his/her candidature.

## VI. WRITTEN EXAMINATION

In the written examination there will be objective tests viz.

## OBJECTIVE TESTS

| Sr. Name of the <br> No. Test | No. of <br> Questions | Maximum <br> Marks | Composite <br> Time |
| :--- | :---: | :---: | :---: |
| 1. Reasoning Ability <br> \& Numerical <br> Aptitude | 100 | 160 |  |
| 2. Clerical Aptitude | 40 | 40 | 40 |
| 3. English Language | 40 | 20 | Minutes <br> (1 hour <br> and thirty <br> five <br> minutes $)$ |
| 4. General Knowledge | 20 | 260 |  |
| Total 200 200 |  |  |  |

One Hour Thirty Five Minutes i.e. 95 minutes only is the total composite time for all the above Tests. You may attempt the tests/questions in any order you like. However in your interest you are advised not to spend too much time on any one of the tests because to qualify in the written examination you have to pass each one of the tests, separately and also obtain sufficiently high marks in the merit order.

You are advised to apportion the time as suggested below :-

| TEST | I | II | III | N |
| :--- | :---: | :---: | :---: | :---: |
| TIME(In Minutes) | 50 | 15 | 20 | 10 |

The questions in the tests of Reasoning Ability \& Numerical Aptitude,Clercial Aptitude and General Knowledge will be printed in Hindi and English.

Pass Marks : Candidates have to pass in each of the objective tests separately. Depending upon the number of vacancies, only those candidates who rank sufficiently high in the objective test will be called for interview. Mere eligibility / pass in the test shall not vest any right in the candidate for being called for the interview. Final selection will be on the basis of ranking accorded after adding the marks obtained in the objective test and interview.

THERE WILL BE PENALTY FOR WRONG ANSWER MARKED BY YOU IN THE OBJECTIVE TESTS. There are five alternatives in every question of a test. For each question for which a wrong answer has been given by you, one-fourth or 0.25 of the marks assigned to that question will be deducted as penalty. If for any question you give more than one answer, it will be treated as wrong even if one of the given answers happens to be right and there will be the same penalty as above for that question. If a question is left blank, i.e. no answer is given by you, there will be no penalty for that question. If the total of the penalty for a test is in fraction, the marks obtained will be rounded off to the nearest integer. YOU SHOULD THEREFORE BE CAREFUL IN MARKING YOUR ANSWERS.

## SAMPLE QUESTIONS

## OBJECTIVE TESTS

Below are given some sample questions for the objective type tests. The types of questions are only illustrative and not exhaustive. In actual examination you may find questions on some or all of these types and also questions on the types not mentioned here.

## TESTI: REASONING ABILITY AND NUMERICAL APTITUDE

This test is to see how well you can think and to measure how fast and accurate you are in dealing with numbers. It contains questions of various kinds. Here are some sample questions.

Directions : In each of the following questions, there is a group of letters or words given. Four of the five are alike in a certain way, while one is different. Find out the one which is different.
Q.1. (1) black
(2) red
(3) green
(4) yellow
(5) paint

Of the five, 'black', 'red', 'green', and 'yellow' form a group as they are names of colours. 'Paint' is not the name of a colour. Therefore (5) is the answer.

Now try to solve the following question.
Q.2. (1) $X Z$
(2) MN
(3) $P Q$
(4) BC
(5) ST

Following are the questions based on analogy.
Q.3. "Foot" is related to "Man" in the same way as "Hoof" is related to ___
(1) Leg
(2) Horse
(3) Dog
(4) Boy
(5) Shoe

In the above example, with which one of the five, "Hoof" has the same relationship as "Foot" has to "Man" ? The answer is "Horse", which is answer number (2).

Now try the following questions.
Q.4. "Day" is related to "Night" in the same way as "Kind" is related to $\qquad$
(1) Cruel
(2) Bright
(3) Dark
(4) Generous
(5) Gratitude

Now try the following questions.
Q.5. If the letters in the word TOPS can be rearranged to form a meaningful word beginning with O , the last letter of that word is your answer. If more than one such word can be formed, $M$ is the answer and if no such word can be formed, X is the answer.
(1) T
(2) $P$
(3) M
(4) S
(5) $X$

## There may also be problems in the form of figures, designs and drawings. These may be of three types :

## 1. Analogies <br> 2. Classification and <br> 3. Series

## 1. Analogies :

In these questions, there are two sets of figures- the 'Problem Figures' and the 'Answer Figures'. The Problem Figures are presented in two units. The first unit contains two figures and the second unit contains one figure and a question mark in place of the fourth figure. You have to find out which one of the Answer Figures should be in place of the question mark.

Study the following questions based on Analogies.

## Problem Figures

Q. 6.

## Answer Figures

Look at the first two Problem Figures. The second figure is related to the first figure in a certain way. The first figure is a square. In the second figure, the square has been bisected by a vertical line and the right half has been darkened.

The third and fourth figures should have the same relationship as the first and the second have. The third figure is a circle, so in the fourth figure, the circle should be bisected by a vertical line and the right half should be darkened. Answer Figure 5 is related to the third Problem Figure in this way. Therefore the answer is " 5 ".

Problem Figures

## Answer Figures

Study the first and the second figures in the Problem Figures. The first figure is a darkened square and in the second figure, there are four squares, not darkened, arranged in a particular way. That means the elements in the second figure are four times the elements in the first figure and are not darkened. In addition, the four squares are arranged in a specific way and are not touching one another.

The third figure is a darkened circle. Therefore, the fourth figure should have four circles which are not darkened, arranged in the same way as in the second figure. Now look at the Answer Figures. You will find that figure 1 consists of four circles which are not darkened arranged in a similar way. Therefore, the answer is " 1 ".

## Problem Figures

Q. 8.

## Answer Figures

Study the first and the second figures in the first unit of the Problem Figures. The first figure is made up of four lines and the second figure is made up of five lines. That means the second figure has one line more than the first figure. The third figure in the second unit has five lines. Therefore, the fourth figure should have six lines i.e. one more than the third. Now look at the Answer Figures. You will find that figure 3 is made up of six lines. Therefore, the answer is " 3 ".

Now, attempt the following questions. (Correct answers to all the unexplained questions are given later in this booklet).

## 2. Classification :

Study the following questions based on classification.
Problem-cum-Answer Figures
Q. 11 .

In classification, the Problem Figures are also the Answer Figures. Out of the five figures 1, 2, 3, 4 and 5, four are similar in a certain way and so form a group. One figure is not like the other four. The question is which one of the figures does not belong to this group.
For example, look at the example at Q. No. 11. Of the five figures, four figures are such that in each of them, there are two similar figures, one within the other. These four figures form a group. Figure 1 is unlike this and so does not belong to this group. Therefore the answer is " 1 ".

## Problem-cum-Answer Figures

Q. 12.

Study the five figures of Q.12. The first four figures form a group as they represent different types of containers while the fifth figure, a spoon, does not represent a container. Therefore the answer is " 5 ".
Now attempt the following questions.
Problem-cum-Answer Figures
Q. 13.

Problem-cum-Answer Figures
Q. 14.

## 3. Series

Study the following problems based on series.

Problem Figures
Q. 15 .

## Answer Figures

Note that the four figures given first at the left are called Problem Figures. The five figures given next are called Answer figures. They are indicated by numbers 1, 2, 3, 4 and 5.
The four Problem Figures make a series. That means they change from left to right in a specific order. The question is "if the figures continue to change in the same order, what should the fifth figure be? In the example above, as you go from left to right, you find that the arrow inside the circle keeps rotating at $90^{\circ}$ in the clockwise direction. The question is, 'if the arrow continues to rotate by the same amount in the clockwise direction, what will be its next, i.e. fifth position? The answer is that it should point towards the top in the fifth figure. Answer Figure 2 shows this position of the arrow. Therefore, the answer is " 2 ".

Problem Figures
Q. 16.

Answer Figures

Look at Q. 16 carefully. You will see two different things happening here. When you move from left to right, the number of black dots inside the hexagon is increasing by one everytime in the anti-clockwise direction. But note that the white dot is moving in the clockwise direction. In the fifth figure, the white dot should be at the upper left corner of the hexagon. Only Answer Figure 3 has both-one black dot getting added at the lower left corner and the white dot moving to the upper left corner. So, the answer is " 3 ".

Note that there can be questions with five Problem Figures in the series type of questions. For example, study the Problem Figures in Q. No. 17.

## Problem Figures

## Answer Figures

Q. 17.

Note that the number of arrows is increasing by 1 everytime and that they are gradually falling towards the left. In the sixth figure there should be six arrows and they should fall further and be lying flat, i.e. they should be horizontal. The answer, therefore, is " 5 ".
Now solve the following questions.

Problem Figures
Q. 18.

Problem Figures
Q. 19.

Answer Figures

Answer Figures

Directions : In each of the following questions one number is missing. The place where the number is missing is shown by a question mark (?). You have to find out which one of the answers shown against 1, 2, 3 and 4 can replace the question mark. If none of these four can replace the question mark, you will indicate (5) i.e. 'None of these' as your answer.
Q.20. $42+73+137=$ ?
(1) 352
(2) 252
(3) 242
4) 142
(5) None of these
Q.21. $20 \times \frac{1}{2}=$ ?
(1) 4
(2) 5
(3) 12
(4) 20
(5) None of these

The correct answer for $Q .21$ is 10 . But none of the $1,2,3$, or 4 shows this answer. Therefore your answer is 5 .
Some of the questions may require arithmetical reasoning. For example :
Q.22. At 10 paise each, how many paise will 6 lemons cost ?
(1) 6
(2) 10
(3) 60
(4) 61
(5) 610
Q.23. Which of the following can be exact multiple of 4 ?
(1) 27114
(2) 58204
(3) 48402
(4) 32286
(5) None of these
Q.24. If the profit made by selling a pen for Rs. 10 is as much as its cost, what is the cost price of the pen ?
(1) Rs.3/-
(2) Rs.5/-
(3) Rs.10/-
(4) Rs.20/-
(5) None of these

## Test II : CLERICAL APTITUDE

There will be different types of items in this test. In the first type, in each question a combination of name and address is given in the first column at the left followed by four such combinations one each under the columns 1, 2, 3 and 4. You have to find out the combination which is exactly the same as the combination in the first column. The number of the column which contains that combination is the answer. If all the combinations are different, the answer is " 5 ".
