

Athey Educational

Athey Educational is a specialist publisher of practice tests for nine to twelve-year-olds. Our Practice tests are designed to prepare children for entrance examinations to Grammar School. They are also used to prepare children for independent sector examinations. Our practice tests cover the following skill areas -

Verbal Reasoning
Non-verbal Reasoning
Mathematics
English

Each of our tests has undergone many months of development to ensure that they are the best practice tests available. All of our tests have been evaluated in schools prior to publication. Our test papers are used and recommended by many schools throughout the country.

We have always recognised the importance of providing support and advice to our customers. Our website is part of this commitment.

The Secondary Selection Portfolio series of practice papers are £6.50 per pack, each pack containing six practice papers.

The Secondary Selection Portfolio is available from major bookselling chains and many independent bookshops. Internet bookshops also list our publications.

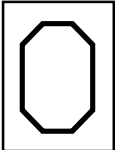

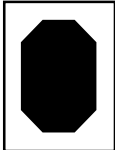

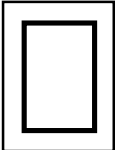

The Secondary Selection Portfolio

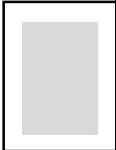

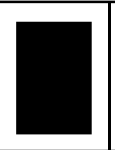

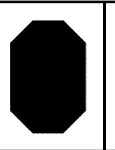

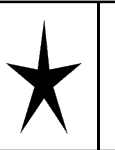

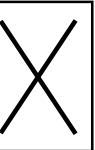

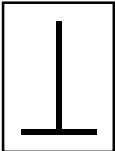

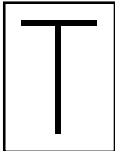

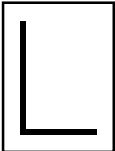

Non-Verbal Reasoning Sample Paper

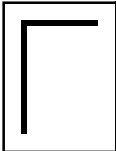

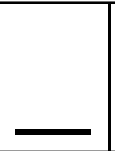

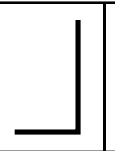

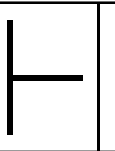

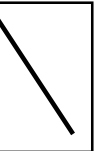

Analogies

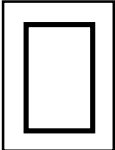

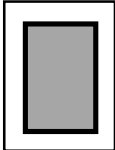

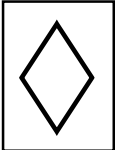

In each of these questions compare the figures in the first two boxes. Then look at the third figure and find its partner in the boxes on the right.

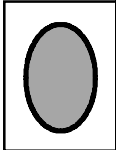

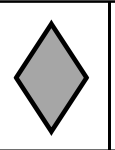

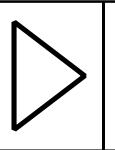

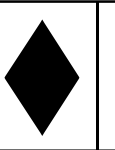

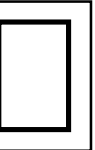

1.  is to  as  is to

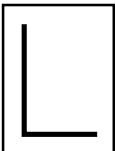

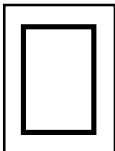

A	B	C	D	E
				

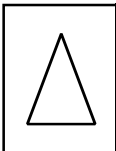

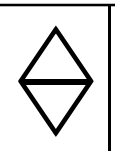

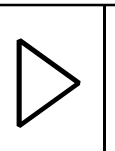

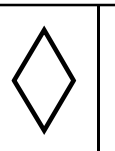

2.  is to  as  is to

A	B	C	D	E
				

3.  is to  as  is to

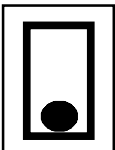

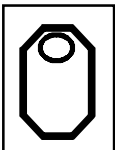

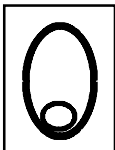

A	B	C	D	E
				

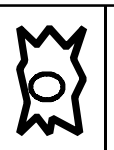

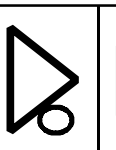

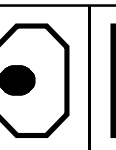

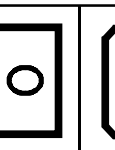

4.  is to  as  is to

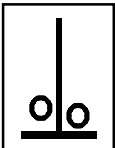

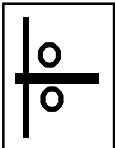

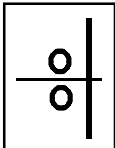

A	B	C	D	E
				

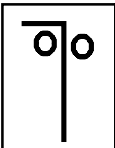

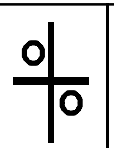

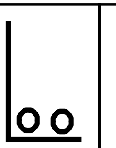

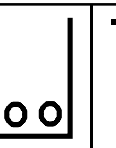

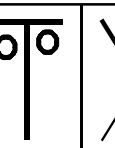

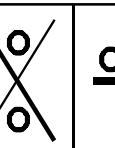

Similarities

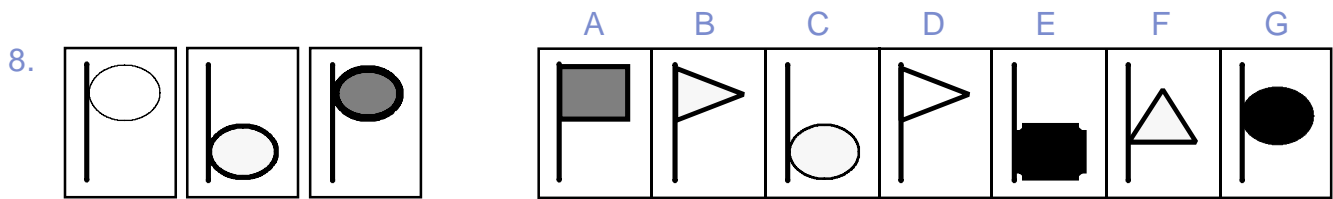

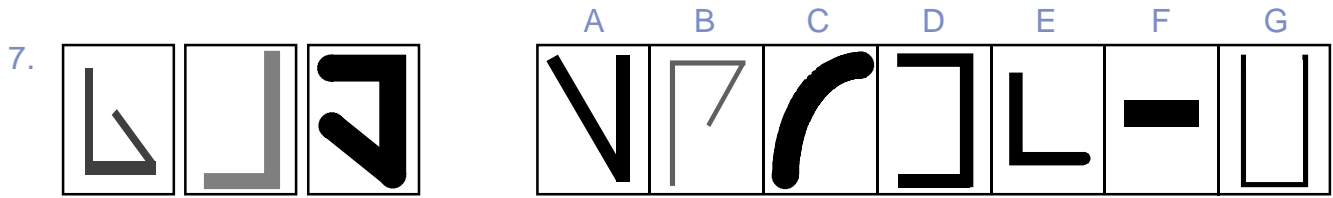

In these questions the figures in the first three boxes are similar in some way. Look at the figures in the boxes A to G and find TWO figures which are similar to the first three.

5.   

A	B	C	D	E	F	G
						

6.   

A	B	C	D	E	F	G
						

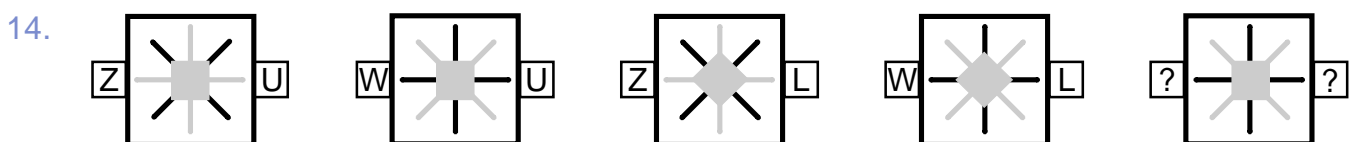

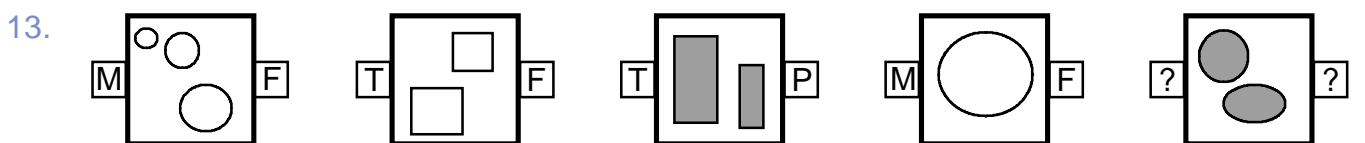

Series

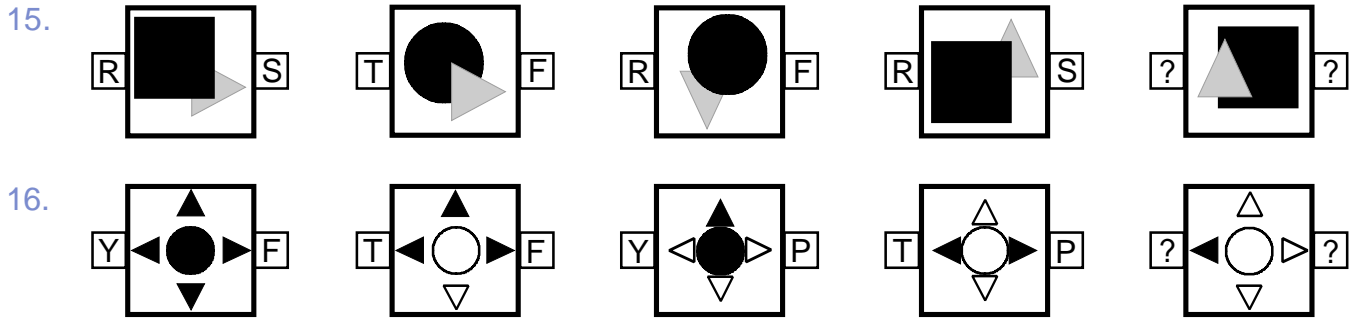

In the questions below there are five boxes on the left. The figures in these boxes are in order but one is missing. One of the figures in the boxes on the right is the missing figure.

Codes

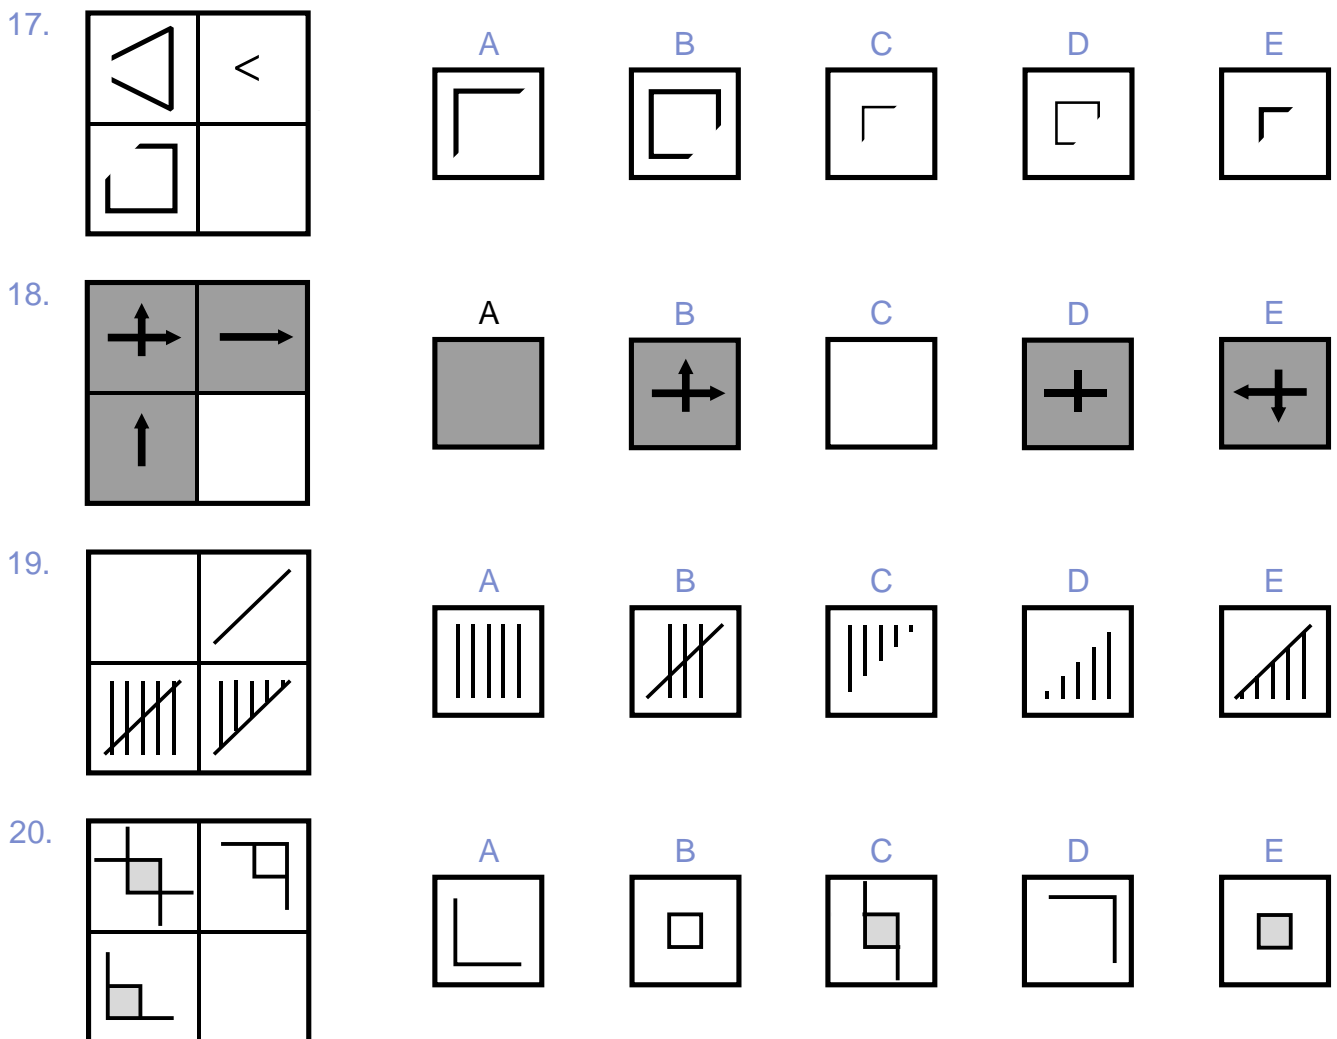

In each of these questions there are five boxes containing shapes or patterns. There is a letter at each side of the first four boxes. These pairs of letters are codes for the shapes or patterns in each box. Work out the two-letter code for the last box.

Matrices

In each of the questions below there are four boxes on the left. Three of the boxes contain shapes or patterns. The fourth box is empty. There is a rule connecting the shapes or patterns in each row. There is also a rule for the columns. Work out the rules and find the missing shape or pattern.
