

TechMahindra(MBT) Paper General - Interview at GVMIT

Paper Type : General - Interview
Test Date : 21 February 2007
Test Location : GVMIT, Sonepat.

Hi !!
I am Disha Goel. I went through Tech Mahindra 's Selection procedure on 21 Feb. 2007 at GVMIT,Sonepat.

The test consisted of 3 rounds
1. Online Aptitude cum Vocabulary test.
2. Technical Interview.
3. HR Interview.

Online Aptitude cum Vocabulary test

Consists of 5 Sections. You will be described the procedure how to go through the online test..either in ppt or in the test hall.
PLEASE DON'T GO ON EVERYTHING WHAT THEY SAY ...for example....THEY SAID THERE WAS NO NEGATIVE MARKING...
bt I had got it 4m ittestpapers ,NEGATIVE MARKING IS THERE..

Time :1 hour.abt 70-80 ques.

Section 1 : Aptitude (Verbal n Non-verbal)
2 : Logical Reasoning
3 : Fill in the Blanks(with prepositions, verbs, tenses)
4 : Word Meanings etc..
5 : Comprehension Paragraph (10 Ques)

there were variable questions in each section...in one or two it was 10 ques,, in one 15 ques,, n then abt 20 ques in the remaining two..

1. Aptitude was easy but you need to be quite sure with short cut formulaes...profit n loss(short cuts in rs agg) percentage, mensuration, algebra, simple trigonometry, sum of series n nth term type., time n speed, age problem,
2. Series completion was asked in many questions(not as easy as R.S.aGGARWAL)

Series were like time see this one...

11:32am , 04:31pm, 11:52 am.....

sum of times in first one 7, in second- 8, in third -9..

other series were like a 3x3 matrix ,,find the last alphabet,, venn diagrams,, child , male , engineers, blood relations..

20 ques,, i took most of the time in this section b'coz of series... series were mostly on time like things,,there were easy ones also...like squares..

3. I completed 10 questions here in 5 minutes..

correct form of tenses..

correct use of prepositions

at: used with small towns, villages

in: big cities, provinces, countries..

we often make mistakes with tenses n prepositions b'coz we hav got out of schools where time was given on grammar things...i

would say that even a good school time grammar book can suffice for this section..

4. word meanings--synonyms, antonyms etc..

as i was preparing for tes exam, i was going through barrons..that was easy...sentence correction questions also..

5.I thought that there wud be comprehension, we were told outside by previous slot students that 10 questions based on paragraph

so thought to deal with at last.

but i got only 7 mins with this section

thank God that comprehension was easy

in this 10 questions like fill ups were given which really helped me to go thru this only in 5 mins....

There WAS Sectional cut off this way

1.combined sectional cut off for section 1n 2..(maths n reasoning section)

2.combined sectional cut r three english sections...

i managed to attempt atleast 80 pc ques in each section,,, n i attempted 100pc ques in 2 sections(3 n 1)

So,,,with God's blessings,,,I cleared this one line test...results within 1/2 an hour ..

I was asked to move for my technical interview , I had it after 15 mins,,in which I had to change too,,, n get prepared mentally..

Technical Interview

I was given a form to fill in before goin 2 the interviewee,, general details ,,passport status,,, career objective,,, n where u see urself successively in 3 positions after joining(I didn't fill this section n i think it was a right decision)

He asked for my cv...i gav him.

thn brief intro..(ofcourse technical)

1. fav sub: analog communication

2.asked about modulation,,,types of modulation,,, difference in amplitude n frequency modulations.....,asked some general frequencies...

asked about universal gate.

asked whether i can realize other gates with help of basic ones... i said i can ,, bt i will take time,,, as i was not prepared with short cut..

3.then training part..i did at Hughes Systique

so he said how many people u knw at Systique...I said 15- 20,,, from trainees to mentor,,, my mentors project-mates then.

2 from accounts, receptionist, hr ma'am

he asked about training more n more,,, i had done in XML...so asked why is xml called Extensible---b'coz we can create our own tags...he asked what other advantages -- i explained all,,,platform independent asked again in detail) ,, data sharing(asked again in detail)

then he put example situations regarding XML, n asked questions, whether u can retrieve data or not etc...

Then he said if i hav any probs abroad. I said no.

He asked me to ask him something--- I asked abt his experience in tech mahindra,,, his career from 11 years in different organizations we discussed the 122pc last quarter growth of tech mahindra..

again with a smile,, he asked r u open 4 marriage after 2 years...He had been asking abt my plans abt further studies. I said no, I wish to put my skills n knowledge into work..

Results of technical... out in 20 mins..... cleared it!!!

HR Interview

1.brief intro

2.asked abt company-- establishment in india--- i said in 1988... he said 1986

i was wrong so i cover up lik this--- i said that i read it 1988 on site,,, if it wud hav been 1986,,,i would hav remebered it well as i was born in that year,, he said dats y i aske u this as u were born in 1986...i knew i covered my mistake with this thing

3.he asked about my hometown --ambala

asked me to prove myself best among few candidates...

proved it!!

results out in another 1/2 an hour

cleared everything nw,,,was given letter of intent soon..

With every1's wishes n God's blessings....I cleared this whole procedure....

its nt that difficult...believe in yourself....!!!!

All de best all of you!!!
