

This e-mail contains a list of around 300 such programs on internet that pay members to read emails, to signup free offers, to take surveys, to clicks ads or to produce income in various ways, as per their terms and conditions. If you don't have time to sign up for all of them right away, start with few programs first to see how they work. Before joining these programs you should read the information given below:

how to Get Paid to Read Email (GPTRE)

Some companies will pay you just to receive and or read e-mail advertisements. You will receive email pertaining to categories you select when you signup. You will have to click a link in the email to be paid for it. Although some don't mention it, you should stay on the site for 15 - 30 seconds to make sure you receive credit for the visit. The reason we list so many Paid to Read companies is we believe they will continue to thrive even in the current advertising recession. We suggest you sign up for all these programs. They're free and they don't require a lot of effort to use. Consequently you will receive more emails and more money!

How to Get Paid to Click (GPTC)

Paid to click companies are good money earners. These companies will pay you to visit their advertisers' sites and to sign up for FREE offers from other advertisers. You can only visit so many advertisers in a certain period of time; usually about a dozen advertisers in a 24-hour period of time. This keeps people from visiting the same advertisers' site over and over to rack up money. This is the main reason we list so many of these companies. You can go down the line and click all the advertisers from each site and make a substantial amount of money (Each company has a different time you must spend on each advertiser's site to get credit for it. We recommend staying for 30 seconds to ensure you get proper credit).

how to Get Paid to Signup (GPTS)

Some companies also encourage you to sign up for free offers they and their advertisers are promoting. This is a great way to earn some extra money fast.

How to Get Paid to Take Surveys

Survey sites are paid by companies to conduct surveys. The survey company then contacts you by email informing you that a survey that matches your profile is available for you to fill out. Surveys can take anywhere from 5 to 30 minutes and can pay you from \$1 to \$25 or more. This all depends on the site, the length of the survey, and how fast the company paying for the survey wants the results back. You do not have to complete every survey that matches your profile. You can pick and choose which ones you fill out. You are under no obligation to fill out any particular survey or all surveys sent to you.

how to Get Paid to Surf

Paid to Surf companies will pay you to display a small advertisement banner on your screen while you are online and using your computer. The advertisers based on how many of their ads you viewed in turn pay them. The banner is downloaded from the company's web site and will display rotating advertisements based on your personal profile (filled out when you sign up). You have to be online so the ads can be sent to the banners and you will have to verify you are using your computer from time to time so the companies know you are viewing the ads. Please remember, Paid to Surf companies require you to download and install software from their site. Each of the companies you sign up for will add an icon to your desktop when you install their software. Whenever you go online, just double click the icon, the bar will appear and you will be making money. It's that simple.

Some Important Tips :

1.You will receive all the paid-emails at the email address that you specify when you register with the paying websites; and since you will be getting lots of paid emails from many such sites in future, you should create a new email address which is different from the one that you

regularly use. This way your personal and paid emails will never mix up. We suggest that you create a new email id on Yahoo and sign up to these websites using that id.

2. Do not use any of these email services to join the GPTRE programs: Email.com, Indiatimes.com, Rediffmail.com, Mail.com, MyRealBox.com, Netkhajana.com. You can use any other reliable email service like Yahoo.com or Hotmail.com for doing this work on Internet.
