- The candidates will write the All India Entrance Examination which is common for admissions to both sets of program.
- Qualifying candidates can make a choice strictly in order of merit and can opt for either of the two streams of training for which allotment will be confirmed by NCHMCT in favour of the candidate. Once the candidate has been admitted to any of the above institutes, there won't be any change permitted either for the change of the course or for the change of the Institutes.
- Once the student is enrolled to the program, the progression of the student to next higher semester will be based on the result obtained by the student in the examination held by the National Council respectively for the two streams of programs. In case of the Institutes offering the specialization, the specialization will be

available to the students based on the aggregate marks obtained by the candidate in the first and second semesters.

- There won't be any lateral movement based on the aggregate result of first and second semesters of any student from one institute to another offering specialization.
- The students following the B.Sc. H & H A program (with or without specialization) shall be awarded degree by IGNOU.

<p>Directions (Questions 11-15) : Read the following passages to answer these questions.</p> <p>The greatest enemy of mankind, as people have discovered, is not science, but war. Science merely reflects the prevailing social forces. It is found that, when there is peace, science is constructive: when there is war, science is perverted to destructive ends. The weapons which science gives us do not necessarily cause war; they make war increasingly terrible. Till now, it has brought us to the doorstep of doom. Our main problem, therefore, is not to curb science, but to stop war – to substitute law for force, and international government for anarchy in the relations of one nation with another. That is a job in which everybody must participate, including the scientists. But the bombing of Hiroshima suddenly woke us up to the fact that we have very little time. The hour is late and our work has scarcely begun. Now we are face to face with an urgent question- “Can education and tolerance, understanding and creative intelligence run fast enough to keep us abreast with our own mounting capacity to destroy?” That is the question which we shall have to answer one way or the other in this generation. Science must help us in arriving at the answer, but the main decision lies within ourselves.</p> <p>11. According to the writer, the main problem we are faced with is to</p> <p>A) stop science from reflecting social forces B) stop scientific activities everywhere C) abolish war D) prevent scientists from participating in destructive activities</p> <p>12. The expression ‘bring to the doorstep of doom’ means</p> <p>A) carry close to death and destruction B) lead to the threshold of a new destiny C) indulge in a ruinous activity D) introduce to an unpredictable destiny</p> <p>13. Which of the following is opposite in meaning to the word ‘anarchy’ in the middle of the passage?</p> <p>A) Law and order B) Political dominance C) Economic prosperity D) Communal harmony</p> <p>14. Which of the following would be the most suitable title for the passage?</p> <p>A) Science and social forces</p>	<p>15.
